MINING, BUSINESS AND STOCKS

BUSINESS BRISK ON EXCHANGE.

The Business of Today's Early Calls Summed Up More Than Six Thousand Dollars.

CARISA STILL IN DEMAND.

Ontario on Active List—May Day Weakened—Butler-Liberal Lower Closing Quotation and Sales.

More business was transacted on the floor of the Salt Lake Stock & Mining exchange this forenoon than during any other day during the week and there was a slightly better tone to the market all around. While there were no sharp advances noted, many stocks held their own. Weakness was displayed by some; but in no case did it amount to much. Carisa seemed to be in very good demand and, in fact recorded the big sales of the day. May Day moved down a few points as did Butler-Liberal, which assessment levies yesterday having its effect. A small lot of Ontario found a taker at $2 a share New York fell of 2 cents a share during the call.

The closing quotations and sales were:

WALL'S "JIM CROW."

Bingham's Only Custom Mill Almost Ready for Business.

Col. E. A. Wall is in Bingham today sizing up things at what he calls his "Jim Crow" mill (the old Dewey plant), which is being equipped with machinery of his own design, including everything from crushers down to the concentrating tables. The plant will be ready for commission within the next few days and will commence a run on ore from the Phoenix mine, of which Andrew Gebhardt is the manager. The "Jim Crow" is the only custom mill in Bingham at the present time and it has enough business promised to keep it going steadily for many months to come.

LIMESTONE LOCATIONS.

Salt Lake and Chicago Parties Acquire Large Territory Near Provo.

Special Correspondence.

Provo, June 28.—Location notices of 21 claims of 160 acres each, of lime stone deposits, have been filed with the county recorder by A. G. Lawson, C. B. Snyder, Charles D. Sword and a number of others. The claims are located east of Provo, extending from Provo canyon south, and other claims, it is said, will be located. A quit claim deed for the claims already located transferring them to George A. Snow, of Chicago (formerly of Salt Lake), has also been filed.

Dr. Snyder of this city has believed for several years that something profitable could be developed from the lands now located and has succeeded in converting Mr. Lamson, Mr. Sword and others to his views, and these gentlemen have been here several weeks, making investigations, with the result that the large territory stated has been located. Mr. Lamson demurred to giving information to the "News" representative of just what would be done with these lands, but said he believed the project contemplated by himself and associates would prove a profitable one, and complimented Dr. Snyder on his study of the subject and his efforts to have the lands developed. The territory claimed contains an almost unlimited quantity of dolomitic limestone, and along this ridge is found in places the deposits of "anthracite coal," for the development of which considerable work has been done in the past by Judge Kellogg and other Provo parties. The "coal"—some coal experts claim it is not coal—is found in a broken state, mixed with clay and shale, and has never been found of marketable quality in sufficiently large quantities to work profitably.

New Copper Queen Company.

Articles of incorporation of the New Copper Queen Mining company of this city have been filed with the county clerk. The capital stock of the company is $30,000 and its directors are Joseph Price, J. C. Snow, Claud Price, F. R. Davis and F. H. Hersley. The company will develop some properties in Arizona.

BUTLER-LIBERAL CALLS FOR $10,000

Directors of Company at Meeting Held Yesterday Decide to Levy Assessment.

WILL CLEAN UP OVERDRAFT.

Which Came About Through Purchase Of New Equipment—In Fine Shape For Future Campaign.

At a meeting of the directors of the Butler Liberal Mining company held yesterday afternoon an assessment of 2 cents a share was levied, which, when paid in, will bring the company the sum of $10,000.

"The object of this assessment," said Manager A. L. Jacobs today, "is for the purpose of clearing up an overdraft at McCornick & Co.'s bank. As most everyone knows the company has been put to a heavy expense in providing new equipment, which includes a new hoisting plant as well as a new compressor. In addition to this we have been pushing our tunnel ahead with the expectation of connecting up with the ore bodies. This has taken longer than we figured on. As always is the case in the installation of new plants, the cost has considerably exceeded the original estimates. Again, the high grade copper shoot on which the company depended for the bulk of the shipments early in the year did not hold out as long as it was hoped it would, consequently, the receipts of the company have not been as heavy as anticipated.

"In order to stop the interest on this overdraft, it was deemed advisable by the directors to call upon the shareholders to relieve the situation. Our work at the mine is going on diligently and with every reason to give the stockholders encouragement."

With the notices to be sent out, Manager A. L. Jacobs will enclose a statement giving a detailed account of the financial and physical condition of the company.

The assessment becomes delinquent on Aug. 1 and the sale date is fixed at Aug. 21. With its new equipment the Butler-Liberal is in splendid shape to carry on its campaign in the future and no one doubts but that the company will soon be in shape to make regular shipments again.

MONTANA DIVIDEND.

Directors of Tonopah company Will Discuss Matters at Meeting Today.

There will be a gathering of Montana Tonopah directors in this city this afternoon, at which it is presumed the matter of posting another dividend, among other things, will be brought up for discussion. That shareholders in the company expect a dividend there is not the slightest doubt; but the amount is not quite so certain. The stock has strengthened lately on the belief that the next distribution would be 10 cents a share. A bulletin from Philadelphia, received during the forenoon, contained words to the effect that the directors would probably adopt the plan to pay 5-cent quarterly dividends until further notice.

Among those present at today's meeting, who have come to the city for that purpose, are: Secretary E. C. Knox, General Manager Donald R. Gillies, former Secretary R. P. Dunlap, and John A. Bartlett.

SILVER BOW DISTRICT.

A Nevada Region that is Attracting Much Attention Now.

N. F. Conklin returned to Goldfield yesterday from the Silver Bow district, which is attracting great attention at present in mining circles, in consequence of the rich silver discoveries in that section, says the Goldfield Sun. He takes an optimistic view of the district and declares that as soon as the properties now under development are proven there will be a great rush to the section.

Mr. Conklin states that two townsites have been laid out in the district, namely, Silver Bow and Stephanie. The first named is located on Silver Bow creek, and is said to be controlled by Senator Nixon and George Wingfield. The town of Silver Bow has a population of between one and two hundred, and boasts of three saloons, two merchandise stores and a dance hall. Mr. Conklin further reports that several rich lodges have been uncovered in the new district, which is possessed of an abundance of water and timber.

WHITE KNOB COPPER.

Company Will Endeavor to Make Good in California.

The White Knob Copper company, which has abandoned its properties at Mackey, Ida., after expending no less than $1,000,000 thereon, for the reason that it cannot reach the ores of that property profitably, will undertake to work good in some other district.

The officers of the company have issued a statement to that effect in which they advise that the machinery will be moved to and operated on the ores of another mine.

Other than the fact that the plant is to be dismantled and moved to California nothing further has been learned as to the location of the property on which shareholders hope to see the money they have invested returned to them.

THE NONPAREIL CON.

New Company Formed to Operate in Box Elder County.

A copy of the articles of incorporation of the Nonpareil Consolidated Mining & Milling company of Grouse Creek, Rockder county, was filed in the secretary of state's office today. Its capital stock is $10,000, divided into shares of the par value of 10 cents each. Thomas Sheets is president, George A. Hawthorne, treasurer, H. T. McEwan, secretary. The company owns a claim located in the Red Lake district, Rockder county.

Going to the Kennecbec

Manager W. J. Craig of the Kennecbec mines in Big Cottonwood will leave for camp next Friday to inaugurate work in what is known as the Dixie tunnel, driven for the purpose of cutting all with the ore bodies discovered in the old workings.

Will Take a Recess.

The governing board of the mining exchange decided this morning to take a recess from the close of next Saturday's call until Wednesday morning, July 5, brokers taking two business days to appropriately celebrate Independence day.

Shakespeare ADVISED:

"To do GREAT RIGHT do a LITTLE WRONG."

Be a little 'cruel' to your bank account, in the interest of

PUBLICITY.

in order to be greatly kind to your business. The merchant who spends more than he can 'afford' for advertising when the occasion is promising, usually wins.

GOING TO NEVADA.

Prest. Dallimore Will Inaugurate Work At Goldfield-Cactus Mine.

W. J. Dallimore, the well known business and mining man of Ogden, is in the city today. He is completing arrangements to leave for the Goldfield, Nevada, district in a few days to inaugurate a campaign of development on the group recently acquired there and which forms the basis for the late organization of the Goldfield Cactus Mining company, of which Mr. Dallimore is president.

Mr. Dallimore expects to inaugurate shipments right away. The Cactus property has had very little development work done on it, but it is another proposition that will be able to pay its way from the grass roots.

The ore containing the values, which runs almost entirely to gold, is contained in a soft yellow stuff which the ordinary prospector would pass over without giving it the slightest attention. But the history of the finds at Tonopah, Goldfield and other camps has clearly demonstrated that "gold is where you find it," without regard to some of the old rules laid down by geologists.

Sunrise Gold Bar.

On one of the Oregon Short Line trains from the north yesterday there arrived the first gold bar produced from Sunrise ore, representing a ten days' run at the Century mill in Park Valley. The bar was received by Treasurer Sig Simon and deposited in the National Bank of the Republic, and is of the value of about $2,000.

The Sunrise group is located near the Century company's mine.

The Boston Con. Road.

At the Newhouse offices the statement is given out that on July 1 the active survey of the projected railroad, which is to connect the mines of the Boston Consolidated at Bingham, with the proposed mill at Bostonia, will commence. The work is to be under the direction of H. W. Hepderson who is serving the company in the capacity of chief engineer.

Amended Articles Filed.

An amendment to the articles of incorporation of the Raymond Illinois Mining and Milling company, increasing its capital stock to $250,000 and making it assessable, has been filed in the county clerk's office.

CONCENTRATES.

Joseph Dederich departed last night for Twin Falls, Ida.

Charles H. Scheu has returned from a brief trip to Los Angeles.

President John Dern of the Lower Mammoth and Uncle Sam companies is in Tintic today.

President E. L. White of the Bingham Consolidated is expected to reach the city again tomorrow.

Broker E. M. West departed last night for Los Angeles to spend several weeks with his family at Long Beach.

There is quite a demand reported in local brokerage circles for Ridge Valley stock. Brokers bid around 35 cents for it today.

The directors of the Tonopah Mining company are scheduled to meet in Philadelphia tomorrow, and it is expected another dividend will be announced.

McCornick & Co. reported ore and bullion settlements late yesterday as follows: Crude ore and concentrates, $34,300; base bullion, $39,900; gold bars, $11,500.

H. N. Sweet, a prominent eastern financier and a large shareholder in the Bingham Con., is in the city, en route to Portland, Or. He was the guest of General Manager McVichie of the mining company today.

U. S. Senator George R. Nixon, of Nevada, is at the Knutsford, having come east to attend the meeting of the Montana-Tonopah directors this afternoon. Senator Nixon is extensively interested in the southern Nevada gold camps.

The Mammoth Mining company has a shipment of high grade gold ore in the market today. The stuff is valued at about $400 to the ton. The assays made yesterday show it to contain 24.46 ounces in gold, 63 ounces in silver and 3 per cent copper.

The brokers of the San Francisco Stock and Exchange board will arrive in Tonopah on July 1. They come as guests of the Tonopah brokers. They expect to visit all of the mines of Tonopah and Goldfield while here on their vacation, Goldfield Blue.

E. O. Black, one of the promoters of the Deer Lead Mining & Smelting company, which is to erect the Bingham Mines Smelting company, with works in the Fergus Mountain, Nev., arrived this morning in Dayton, Nev., but will come to Lagan in a few days.

There is quite a number of locally organized Thorp built a hand rocker in 1851 which A. Chadovitch converted into a five-stamp mill some years later. It was built near Lake for the purpose of working rich gold ore from the Rattlesnake mine, eight miles from the water. The mine has been a constant producer—Bullfrog Miner.

Capt. Duncan McVichie, general manager of the Bingham Consolidated Mining company, returned from the east last night after a visit to the general offices of the company in Boston. The captain says there is nothing in the story that has gained circulation during his absence to the effect that the Bingham Con. is likely to purchase the Lucky Tiger mine in California.

The Tuscarora property is showing up well. Work is being pushed on the shaft which is now down 125 feet. An expert of old experience has visited the mine recently and was well pleased with the outlook. He said a six-inch stringer of some of the ore would soon make him independent. This is encouraging to the owners as well as to the spectators. Word is expected daily of the result of the meeting of the board of directors in the matter of erecting a smelter north of town. This is something that all are interested in, and we anxiously await their decision.—St. George Advocate.

PERSONALS.

George A. Snow is in the city for a few days from Indiana on business.

W. E. Lake has returned home from a three weeks' absence in New York.

Judge Powers has gone to Chicago on Postal Telegraph business and will be away 10 days.

Publisher H. R. Snyder of the Springfield (Mo.) Republican, is a visitor in this city.

W. M. Rush has recovered from his illness and is able to attend to his business once more.

Major Fed R. Reed of Burley, formerly of the famous "New York Seventh," is at the Kenyon.

Mr. and Mrs. David S. Murray have returned from a pleasant trip to California with Mr. Samuel Newhouse.

Rev. Frank Eddy of the Unitarian church has gone to Portland to attend the Unitarian conference. He will be absent a month.

Mrs. and Miss Morgan, formerly connected with the Collegiate Institute in this city, and now in Italy, have received appointments to positions with the Young Women's Christian association at Rome, and will remain abroad.

Mr. and Mrs. S. Z. Silver Sparre, are at the Kenyon on their way to Portland to visit the exposition. Their home is in Denver and the occasion of their trip at this time is the celebration of their marriage. Mr. Sparre is the editor of Ores and Metals, a Denver publication, devoted to the mining industry.

Mrs. J. C. Leary and Miss Loreen Leary have returned from Missouri and are at home at 11 Emery flats on First street. They are accompanied by Miss Potter of St. Joe, who will visit with them for several weeks. Miss Leary gave a piano recital recently at the seminary where she has been attending, and which displayed the young artist's musical talents to marked advantage.

WEATHER REPORT

Record at the local office of the weather bureau for the 24 hours ending at 6 a. m. today:

Barometer reading at 6 a. m. 30.61 inches; temperature at 6 a. m. 56 degrees, maximum, 90, minimum, 55, mean, 72, which is 1 degree below normal.

FORECASTS TILL 6 P. M. THURSDAY.

Local forecast for Salt Lake City and vicinity:

Fair tonight and Thursday; warmer Thursday.

WEATHER CONDITIONS.

Precipitation occurred over portions of the north Pacific, north Atlantic and Gulf states, Mississippi and Missouri valleys, northern Rocky mountain slope, northern plateau and the British possessions. Excessive and heavy rains occurred as follows: Huron, 2.58 inches; Cairo, 1.81. Thunderstorms were reported over portions of Montana and Illinois.

The temperature changes were generally unimportant.

BACK FROM PORTLAND.

County Surveyor Thinks Salt Lake May Get Good Roads Convention.

County Surveyor J. B. Swenson returned today from Portland where he attended the National Good Roads convention as a delegate from this county. He stated that the convention was a great success, and that Salt Lake stands a very good chance for securing the next meeting of the convention but that the matter rests with the executive committee. He spoke in flattering terms of the fair, saying that it is smaller but better than the St. Louis fair. The other delegates from Utah, with the exception of Mr. Cahoon of Murray, will not return for several days yet as they will take trips down the coast to California.

ASSESSMENT NO. 4.

Ella Hill Gold Mining co.—Principal office, No. 30 Deseret News Building, Salt Lake City, Utah. Notice is hereby given that at a meeting of the Board of Directors of the Ella Hill Gold Mining company, held on the 20th day of June, 1905, an assessment of one cent per share was levied and assessed upon the capital stock of said corporation, payable forthwith to J. A. Clayton, the Treasurer of said Company, at Room No. 30 Deseret News Building, Salt Lake City, Utah. Any stock upon which the assessment may remain unpaid on the 20th day of July, 1905, will be delinquent and advertised for sale at public auction, and unless payment is made before, so many shares of such parcel of stock as may be necessary, will be sold on the 11th day of August, 1905, at 2 o'clock p. m. of said day, to pay the delinquent assessment thereon, together with cost of advertising and expense of sale.

J. A. CLAYTON,
Secretary of the Ella Hill Gold Mining Company.
Salt Lake City, Utah. Dated this 20th day of June, 1905.

YOUR CREDIT IS GOOD.

Deception in The Sale of Leather Furniture

There is only one kind of leather which the manufacturers unhesitatingly guarantee not to crack or peel. It is the famous "Sterling" brand of leather used only on Karpen Guaranteed Upholstered Furniture. This store handles only the standard makes. That is why we recommend and keep on sale in our store leather furniture covered only with the genuine Sterling leather. It always remains pliable, soft and rich in texture. So clever are the deceptions practiced in manufacturing leather goods of an inferior kind that even an expert is deceived. Nine people out of ten cannot tell the genuine from the imitation until a short usage has opened their eyes to the fact that they have been grossly deceived. No finer goods in the world. The Karpen line for which we are agents has a world wide reputation for its excellence of design and construction. Our guarantee added to theirs makes it absolutely certain that you will always be pleased with your purchase. The United States Government is the most particular buyer in the world and specifies the same option work in all upholstered furniture as is used in all Karpen guaranteed furniture.
