SECOND EDITION.

DESERET EVENING NEWS.

Monday, - August 8, 1892.

LOCAL BREVITIES.

The Fourth quorum of Seventies will meet in the Twenty-first ward meeting house at 7:30 this evening.

A marriage license was granted today to Patrick Feeney, aged [illegible], and Bella Hogan, aged [illegible], both of Salt Lake.

The P. O. S. of A. will go to Provo on the 9th inst. over the Union Pacific. A rate of $1 for the round trip has been made.

Commodore Wilkins has tendered the Press club a liberal percentage of the receipts of his fine steamer, the "Takula," on Press day, Friday, August 12.

A sheriff's-dozen wagon and an overturned load of hay obstructed the sidewalk at the intersection of First South and State streets for an hour this afternoon. The debris was finally removed with the assistance of the police.

The Tabernacle concert, announced for the special entertainment of visiting Knights Templars on Friday night next, has been postponed for one week owing to the Press club excursion and concert being held at Saltair on the first named date.

James Cannon, the Idaho miner arrested a few days ago for assaulting "Doc" Spangle with a deadly weapon, was on trial before Justice [illegible] this afternoon. Attorney [illegible] prosecuted and Lawyer [illegible] defended. The case was in progress as we go to press.

Workmen were busily engaged today in putting up the framework preparatory to placing the eagle in position over the new pillars of the old gate at the head of State street. The old bird has been beautifully electroplated and is now at the Rio Grande Western depot awaiting transportation up town. Fixtures for electric lights and gas jets will surround the eagle. The reappearance of the old landmark will indeed be pleasing to our citizens and the strangers within our gates.

On Saturday afternoon Judge Sutherland, as referee, rendered his decision in the partnership litigation between John W. Smith and John H. [illegible]. He held that the partnership existed, and next Thursday the matter of accounts under such partnership will be taken up. There is over $[illegible] which the plaintiff alleges should be divided between himself and defendant as profits accruing during the eighteen months of their partnership.

Thousands of dollars worth of valuable ornamental shrubbery and beautiful shade trees have been allowed to perish for the lack of water at Liberty Park this summer, and that, too, in a season when the city has had more water at its command than ever before. The loss is simply inexcusable. Like the parched lawns and drought-stricken flower beds of the city cemetery, it is a disgrace to the people of this city and especially so to the "Liberal" party, which makes so many glittering promises of reform.

Looks Like Incendiarism.

It is learned by private letter from Hooper that there have been four destructive fires at that place since July 3rd, the last one occurring on Saturday, at which time a house belonging to Joseph Arave was totally destroyed. The occupants were H. Yancey, a blind man, and family, who recently came to Utah from Du Quoin, Illinois, where they joined the Church, and with whom the Elders always found a good home.

Justice Jottings.

John Roe forfeited $2 today for leaving a team untied while standing in the streets.

Jack Hamlin, arrested for cruelty to animals, was discharged on recommendation of the prosecution.

Frank Decker plead not guilty to fighting and was discharged.

On charges of drunkenness B. Gold received a suspension of sentence and T. W. Dyer, [illegible] accused of the same offense, was set at liberty.

Peter Olsen was fined $5 for disturbing the peace.

Frank Milford is in durance vile charged with shooting within the city limits.

Statistical Reports, Etc.

The High Priests' quorum, Elders, Relief Societies, Sabbath Schools, Young Men's and Young Ladies' Mutual Improvement Associations, and the Primary organizations of the Salt Lake Stake of Zion are requested to complete their reports (full and complete) as soon as possible, and have them ready in time to present at the Stake Conference commencing Saturday, September 3rd, 1892, at 10 a.m. These reports should cover the six months ending July 31st, 1892.

It is important that the reports of the Elders' quorums be sent in immediately, in order that a Stake report may be made from them. As a number of the wards in the Stake have not sent in their statistical reports for several months, the Bishops and clerks thereof are desired to see that these reports are forthcoming without further delay.

Reports may be left at the office of the Presidency of the Stake, or if mailed be addressed thus: James D. Stirling, Box 1088, Salt Lake City.

A Brave Man Gone.

One of the dispatches in the News of Saturday evening filled me with sorrow. It was that announcing the death of John C. Bundy, editor of the *Religio-Philosophical Journal*, of Chicago.

I have known Mr. Bundy, intimately, for a quarter of a century. As a boy he won distinction in the war of the Rebellion, and earned the title of "Colonel." On the death of S. S. Jones, founder of the paper named above, Col. Bundy assumed control. [illegible] Spiritualist. When fraud, trickery, "[illegible]" in the name of "mediumship" were destroying the faith of thoughtful people in future life, Col. Bundy, at the risk of losing the patronage of his paper, began a raid upon bogus spiritualism and continued it for years.

He was a careful investigator, and I do not think that any American to give people a reason for the particular faith that was in him. He was a broad-minded man, and popular prejudice never deterred him from doing what was right. Many a time has he spoken a kind word for the maligned Mormons, and in death fair-play loses a friend.

WEATHER AND CROPS.

The Potato Not Up to the Average This Year—Harvesting Nearly Over and Threshing to Begin.

U. S. Department of Agriculture Weather Bureau of the Utah weather service, week ending Monday, August 1st, 1892:

The past week was a hot one all over the Territory, and without rain, except a sprinkle in a few localities. The average temperature was above normal.

Where there was a sufficient water supply, the weather, though hot, was favorable for maturing crops. Corn and vegetables have grown well. The potato crop will not be an average this year; in some counties it will be almost a failure. While the tops look well, the potatoes themselves are not well developed.

Grain has ripened everywhere. In all counties harvesting is under way, or else has been finished. In the counties east of the lake the cutting is most advanced, and threshing will begin this week. In Juab county grain ripened faster than it could be cut during the past week. In Iron county the weather has been favorable for harvesting. Fruit is nearly all cut. Prospects are fine for an abundant yield of all grains. Sevier county reports need of rain. In Utah county drought begins to show. Provo river is getting very low. The ranges in Garfield county need rain very much. In Davis county grasshoppers have done some damage to the second crop of lucern hay.

DESTROYED BY FIRE.

A Barn Belonging to Charles H. Tate, of Farmers Ward, Ruined This Forenoon.

A new barn belonging to Charles H. Tate, who resides near the corner of State and Eleventh South streets, in Farmers ward, was burned to the ground at 10 o'clock this morning. The structure was entirely of wood, and burned rapidly. Mr. and Mrs. Tate left yesterday for an outing of two weeks at Wasatch. When the fire was discovered the neighbors responded promptly and did all in their power to extinguish the flames, but were unable to do more than to restrict the consuming element to the building and a few rods of fencing. The barn was a neat and commodious structure and a considerable amount of furniture and household goods was stored in it. There are two theories as to the origin of the fire, the first of which is that it was the work of an incendiary; the second that it was accidentally caused by a party of small boys who are reported to have been playing on the premises with matches this morning. The latter theory is probably correct. The loss will reach several hundred dollars. It is believed that there is no insurance.

The Equalization Board.

On the estates of W. G. Baxter, Alice Bailey and Sarah Williams, taxes were remitted, the possessors being widows.

Claims for abatement in the cases of Margaret Graham, J. Mantripp, Harriet Edelings, J. Sabine, Jr., E. T. Bird, Fredrica Bergman, Thomas Thomas, Charles Bunnell, M. Angell, Ann Sproat, Mary T. Barnes, Anne Brown, A. McMaster, Eliza Decker, M. L. Cady, V. L. Cox, John Robbins, Wm. Hartley, Ann Hunter, Harriet R. Guo and Sarah Taylor, all were ignored.

P. M. Hillstead, tax $16.58, abated $5 because of indigence. Julia Sandberg, tax $14.50, abated $10 because of widowhood of owner. John M. Eddins, tax $2.23 and special school tax $5.10, abated $10 because of indigence of owner.

Richard S. Probe's tax remitted because of poverty. P. Murphy, tax $19.45 abated $5.00, owner being a widow. [illegible] tax $19.76 abated $4.00 because of erroneous assessment. In the cases of M. A. Stevenson, J. H. Sabiger, and C. D. Peterling, taxes were remitted because of indigence. Eliza Yearsly, tax $19.28 abated $5.00 because of widowhood of owner. H. D. Parry, tax $36.33 abated $5.50 on account of over-valuation. L. E. Flowers and L. Eliza Flowers had their taxes remitted because of indigence. Ann Miller, total tax $10.70, abated $5.00 because of widowhood of owner. J. P. Deane, indigent, tax remitted. Niels Anderson, tax $5.53, and school tax $7.50, abated $5.00 on account of reduced area in valuation. Jane C. Anderson, widow, tax $10.80 abated $5.00.

PARLIAMENT.

The Opening Speech From the Throne.

LONDON, Aug. 8.—This morning when the House of Commons met, the members were summoned to the House of Lords, where the speech from the throne opening the session was read. The speech said that as the business of Parliament was practically completed before the dissolution under the proclamation of June 28, it is not necessary for parliament now to continue its session at this unusual period of the year. The hope was expressed that when parliament meets at the customary season, it will again direct its attention to measures of social and domestic improvement.

Further Particulars About the Deacon Case.

PARIS, Aug.—The French transport "Charente," which is engaged laying cables in the Mediterranean is aground at Hayeres.

The case of Edward Parker Deacon against his wife whom he accuses of adultery with Abeille has been postponed until October. The public prosecutor has refused to intervene in the case, saying that Deacon had better lay the affair before the court himself. The attorney-general alleges that there is no sufficient ground to presume adultery. The question was not submitted at the trial of Deacon at Nice which resulted in the verdict of guilty against Deacon for killing M. Abeille, whom he caught in his wife's room at the hotel Splendide at Cannes, and his sentence to one year's imprisonment. Deacon, it will be recalled, declared that he would take no action against his wife under the French criminal law, contenting himself with procuring a divorce from her. Since the trial Mrs. Deacon has had taken the children from his wife's custody and it was her attempt to regain possession of them that caused Deacon to change his mind and led him to institute proceedings against her for adultery.

The Duquesne Steel Works Started Up.

PITTSBURG, Aug. 8.—The Duquesne Steel works started up this morning with nearly all the old employes at work.

Looking for Robbers.

REEDLEY, Cal., Aug. 8.—Armed men are still on the hunt and closely watching for Chris Evans, the train robber, and his associates. It is reported the robbers have killed another officer, making the fourth victim.

Mountaineers say it will be almost impossible to capture the robbers if they reach their old haunts at Simpson Flat.

A Murder Case.

LONDON, Aug. 8.—The case of Thomas Neill under indictment for poisoning Matilda Clover, was resumed today. Dr. Stevenson, the government analyst, who examined the stomachs of Marsh, Shrivell and Clover, the girls who are alleged to be the victims of Neill, testified that he had found strychnine in the organs examined and that this was undoubtedly the cause of the death.

Collision at Portsmouth.

LONDON, Aug. 8.—Two torpedo boats attached to the British blue squadron while maneuvering near Portsmouth today came into collision. One was so badly damaged that she sank a few minutes after the accident. The other boat rescued everybody from the sinking vessel.

The Republican Campaign.

NEW YORK, Aug. 8.—The *Herald* says the Republican campaign in the West will be directed from Chicago by the following committee—subject to the national executive committee—W. J. Campbell, Illinois; J. N. Huston, Indiana; H. Clarkson, Nebraska; R. G. Evans, Minnesota; H. C. Payne, Wisconsin. Campbell will be chairman of the committee and will have supervision of the campaign in the West, but more especially Indiana, Illinois and Wisconsin, which are regarded as doubtful. W. O. Bradlee the Kentucky member of the executive committee will have charge of the Southern States, J. H. Manley and Sam Fessenden of New England.

An Italian Imbroglio.

WILKESBARRE, Aug. 8.—While a number of young men, said to be railroad employes, were walking down the switches of the railroad yards yesterday evening, they met a party of Italians with whom they began to quarrel. A few moments later the Italians drew their knives and slashed right and left. Henry Ballet of Ashley was stabbed in the head and after he was carried to the railroad track about fifty yards he dropped dead. Robert Williams was stabbed in the back and is in a precarious condition. John Jones escaped with several cuts. His injuries are considered serious.

A TEMPERANCE MOVEMENT.

The People Relieved What the Priests [illegible]

ST. PETERSBURG, Aug. 8.—At Astrabad, Persia, the priests denounced the alcoholic liquor traffic as the cause of the cholera and of the increase of the mortality among the dealers. The populace at once determined to suppress the liquor traffic and attacked and plundered all the dram shops. The mob destroyed the property of a number of Armenian merchants who are Russian subjects. Twenty-five wrecked Cossacks were summoned from Russia to guard the Russian consulate and a Russian gunboat is now anchored in the river opposite Astrabad. The Russian minister has demanded compensation.

Rumors About the Garza Revolution.

WASHINGTON, D. C., Aug. 8.—The Mexican Charge D'Affairs this morning showed the Secretary of State a telegram from the President of Mexico, stating that it was reported that the Garza revolutionists were re-organizing in Webb County, Texas. The War Department at once ordered an investigation.

Gladstone in London.

LONDON, Aug. 8.—Gladstone arrived in London this morning greatly improved in health.

A petition has been lodged against the return of William Redmond the Parnellite who was elected by 447 votes in County Clare.

"The Parisians are so quick to catch one's meaning! And will you kindly stretch them, and put in some glove powder? What is the price? I wish my command of French permitted me to express my thanks for the promptness and courtesy with which I have been served."

He took his gloves and departed without a smile.—Youth's Companion.

An Ox Yoke Punishment.

There is an old farmer out in Jersey who has as great a detestation of flirting as was ever concentrated in the mind of mortal. It was a great shock to him one evening at church when he caught his fourteen-year-old daughter exchanging glances and smiles with a neighbor's son a couple of years older. The old gentleman mused over the problem all the way home, and finally hit upon an expedient which he only awaited the opportunity to put into practice.

This was not long in coming. As he turned the corner of the road, where the lovers [illegible] ...

"I was once kidnapped by a pretty woman," was the way George W. Lowndes, of the Smoky City, began a story at the Lindell. ... [illegible] ...—St. Louis Globe-Democrat.

Gave Fair Warning.

A keen sense of humor had a certain rector at Dartmoor, who carried these from his cell one day into the court-yard and handed them to the principal warder with a statement that as he was going home on the morrow he required them no longer.

"So, what?" the officer exclaimed. "Why, you've got seven or eight years to do, my man."

"No, I ain't," the prisoner replied. "I'm off home tomorrow."

This statement caused much merriment amongst the officials and warders standing by. They laughed on the other side of the mouth, however, the next day, for the early in the day made a daring and successful escape from the gang in which he was working on the moor, and dropped across the country.—London Tit-Bits.

No Use for a Circulation Liar.

A London newspaper man said yesterday: "We have in London one of the most [illegible] newspapers in the world; for, while it is printed every day in the year except Sundays, a copy of it is never sold or circulated. The Evening Telegraph of London is issued each afternoon from the office of The Daily Telegraph, and is issued six times a week, and thus has the largest circulation of any paper in England, and with one exception, the largest in the world."
