MINING, BUSINESS AND STOCKS.

FORENOON ON STOCK EXCHANGE

The General Tone of the Market Was Lower.

CON. MERCUR HELD FIRM

But Many of the Other Traders Dropped Under Yesterday's Quotations.

The sales made on the stock exchange this forenoon ran up to over $8,000. The general tone of the market was lower. Consolidated Mercur held about firm at yesterday's closing quotations. Lower Mammoth opened weaker, closing with 88¼ bid. May Day fell to 13⅝ cents, while Uncle Sam slid down to 26⅝ cents. A call was made for Butler-Liberal and it was furnished and 14 cents, Wabash followed in the path of the tobogganists and dropped to 21¼ bid. A sale of Naildriver was made on the open board at $1.38 and Daly-West at $40.75 and $40.

The closing quotations and sales posted were as follows.

BACK FROM CAMP ALTA.

Work at the Continental-Alta Progressing Favorably.

Henry M. Crowther, manager of the Continental-Alta property at Alta, returned last night from an inspection, accompanied by W. L. Maas, the mining engineer. Mr. Crowther said this forenoon that the development of the proposition is now well under way, and preparations are being made to keep it going continuously. A number of buildings are to be erected during the year for the comfortable housing of the men and it is the intention to have them completed before winter strikes the camp.

A visit was made to the Columbus Con. mine and Mr. Crowther expressed himself as being well pleased with it.

At the Comstock.

Manager George R. Hancock, of the Comstock mine of Park City, who is down from camp, says he will direct the forces at that property to commence sinking the shaft about Aug. 1. The shaft is now at a depth of 300 feet. The mill is in operation with one shaft working.

SAMPLED MERCUR DUMP.

Col. Wiswall, and Son Worth, Return from Great Gold Camp.

Capt. W. L. Wiswall representing the Green Reduction company of New York, and son Worth, have returned from a trip to Mercur, where they went for the purpose of sampling an old dump upon which they secured an option with a view of putting up a plant to treat the same provided the sampling proves the values contained therein are sufficient to justify the outlay.

The colonel stated that samplings were made in 112 different places, and he is now subjecting them to the test to determine whether it will pay to execute the option.

To-day's Metals:
SILVER, Bar, 55 cents
LEAD, $3.50.
CASTING COPPER, 12 3-4 cents a lb.

COMPROMISE WAS EFFECTED

Litigation Involving Stateline Mine To be Discussed.

PLANITIFFS WAIVE CLAIM

For $10,000 Damages—But They Get The Property and Will Undertake To Develop It.

Special Correspondence.

Provo, July 23.—The suit commenced by J. J. Knight and C. O. Newell against W. J. McBurney and others, involving the rights under a lease given to W. S. Scott to the Rice group of mines in Stateline has been compromised and the case will be dismissed. The stipulation of compromise is to the effect that there has been no forfeiture of the lease given by the lices to Mr. Scott, and which is now transferred by him to Messrs. Knight and Newell. The plaintiffs waive their claim for $10,000 damages.

The plaintiffs will now proceed to work the property and sell or buy it under the terms of the lease.

SOUTH SWANSEA ORE.

A Mixed Car Lot Arrives at Sampler — Another Expected.

The first shipment of ore that has come from the South Swansea mine since the days when it distributed dividends among its shareholders regularly each month has reached the local samplers and will probably be sold on Saturday's market.

It is not expected it will run very high as it is a mixed lot taken from various places during the process of preparing the mine for the present season of activity.

Another car load of better ore was loaded at the mine yesterday and will probably roll into the sampling mills during the day. This latter product came from the 850 foot level.

Yankee Con. Sinking.

The compressor recently installed at the Yankee Consolidated mine of Tintic has been placed in successful commission and the work of sinking from the tunnel level has commenced.

J. I. C. DEVELOPMENT.

Sinking Will be Resumed Within Another Week.

Secy. Wilkinson of the J. I. C. Mining company of Park City, said this forenoon that the sinking of the main shaft at that property would be resumed within the next week. In the meantime the development of the upper contact from the 440-foot level is in progress.

Some very encouraging results have been obtained there, yet enough has been done to demonstrate that to get more uniform values more depth will be required. It has been the intention of the company for some time to go down to the 800 foot level, but delay in getting started has been experienced on account of the vast amount of seepage water in that part of the district, brought about by the heavy snows which fell last winter.

Manager Turner is expected to return from his European trip within the next two or three weeks.

CONTRACT HAS BEEN LET.

Chicago Firm Will Supply Pipe for Wah Wah Springs Line.

A message received at the offices of the Newhouse mines yesterday from Chief Metallurgist A. J. Bettles conveyed the information that he had entered into a contract with a Chicago firm for the purchase of the pipe to be used in the conveyance of the waters of Wah Wah springs to the smelter site at the proposed town of Newhouse. The contract calls for pipe of 14 inches diameter, with a gauranteed resistance of 500 pounds to the square inch. The delivery is to be made within 60 days. It will require two trains to transport the pipe from the factory.

The work of constructing the line is to be under the superintendency of Joseph Dederich.

CONDENSER INSTALLED.

Plant Will Lessen Operating Expenses at Spy Mine.

Special Correspondence.

Mammoth, July 22.—M. Oglesby has completed the installation of the condensing plant at the Spy mine, which will result in a great saving of water, an article precious in this camp, hereafter. Instead of pumping the supply for a distance of 25 miles, it will be hoisted out of the sump at the bottom of the shaft.

At the instance of the state board of equalization the county commissioners will meet again next Saturday to hold a one week's session for the purpose of raising the tax assessment on certain properties in the county to meet the demands of the state for an increase of revenue. Among the properties proposed to be raised in valuation is the old Sioux mill. The commissioners are requested to increase it from $7,000 to $14,000. But the plant is being torn down and carried away, so it is not probable that the commissioners will be justified in increasing the valution amid present conditions.

AFTER THE DEER TRAIL.

Ores of Marysvale Mine Average About $10 to the Ton.

Dr. C. J. Peterson, long associated with the Madsen Gold Mining company as manager, says the Marysvale Free Lance, has been in Marysvale a member of times during the past 60 days. There was considerable speculation as to the object of his frequent visits, but his trips to the Deer Trail mine finally gave the case away. At this writing there is hardly a doubt that the Deer Trail, so long owned by O. J. Salisbury of Salt Lake will change hands and that before 1904 dawns on this camp reduction works will be in operation.

The Deer Trail is a grand old property, with an ore body more than 60 feet thick and carrying average values of more than $10 per ton. A great proportion of the values run in a white "greasy" tale that, until recently, it has been impossible to reduce, and which was the chief obstacle that deterred Mr. Salisbury from erecting reduction works.

NEW YORK METAL PRICES

New York, July 23—Copper, 12.00 and lead quiet, 4.30@4.40.

BOSTON CON. HAS GREAT ORE

One of Most Important Strikes Ever Made in Bingham.

FIFTY PER CENT COPPER.

Disclosure Made In Crosscutting Ore Body Penetrated by Work Tunnel—At Least Six Feet Wide.

The Boston Consolidated mine of Bingham is the scene of one of the most important strikes ever recorded for that camp, consequently Managing Director Samuel Newhouse and his corps of efficient lieutenants are entitled to congratulations. The fact that the Boston Consolidated is one of the greatest mines in the wonderful camp of Bingham was demonstrated months ago and as everyone who has kept track of developments in the camps knows, Mr. Newhouse in his last report recommended the construction of a smelter of large tonnage for this proposition which he has piloted since it was but a mere prospect.

The most recent disclosure was made while cross-cutting the tremendous ore body opened up by the Work tunnel. This ore channel is no less than 150 feet between walls. Within this space was penetrated a richer streak or vein, which, Mr. Newhouse said today, ran anywhere from 20 to 50 per cent copper. While the width of this strata has not been fully determined it is nevertheless as much as six feet across.

The importance of this find can readily be seen if in the reduction of the vast quantities of ores averaging 3 per cent or there abouts, the management choses to add a little of the richer ore as a leaven for the lower grade product. By combining the two in the proper proportions the average could be raised very materially, perhaps to 6 or 7 per cent or even better.

It is to be hoped that the Boston Consolidated will soon have a smelter and undoubtedly it will before very many months come and go.

SEVEN DEVILS ORE.

Shipments, Which Formerly Came Here Are to Go to Oregon.

The ore of the Seven Devil's district in Idaho are to be shipped to the smelter of the Ladd Metals company at Homestead, Or., a contract having been entered into with that corporation by the owners of the Peacock, Helena, Blue Jacket and White Monument mines. The contract calls for the delivery of no less than 5,000 tons of ore. For sometime past the product has been coming to the Bingham Consolidated plant near Murray. It is said the Ladd concern was willing to make a more favorable contract, hence it was lost to the Utah company.

The ores of the Seven Devil's district contain a large percentage of silica and other ingredients valuable for fluxes.

MINING CONCENTRATES.

Sam Levy, of the Western Exploration company, is in Stockton today.

Toney Jacobson, manager of the Columbus Consolidated, went up to that Alta property today.

Former Gov. Peck, of Wisconsin, is inspecting mining interests in the Pearl, Ida., district.

Bob Francis, foreman of the Johnny mine of Stateline, has arrived from the southern camp.

Another shipment of ore from the B. W. & H. mine is expected to arrive from Piute county in a few days.

Work is to be inaugurated on the 950-level of the Dalton & Lark mine at Bingham in a few days, says Capt. McVichie, the manager.

W. J. Barnett has returned from a trip into central Idaho and expresses himself as being well pleased with the Loon Creek and surrounding districts.

The ore and bullion settlements reported late yesterday amounted to $43,718, as follows: Crude ores and concentrates, $8,118; base bullion, $31,900; gold bars, $3,700.

The Bimetallic company, at Phillipsburg, Montana, has suffered the loss of 350 pounds of silver bullion, valued at $2,220. Thieves broke into the bullion house and carried it away.

A hoisting plant for the St. Louis-Ontario was yesterday ordered from the Salt Lake Hardware company, by manager Henry Clay Brownlee, and will be installed without delay.

The officials of the Con. Mercur do not expect the mill at that Mercur property will be ready to go into commission equipped with the Moore slimes process until about Aug. 1.

Advices from Marysvale are to the effect that Dr. P. A. H. Franklin has made a payment of $5,500, on the purchase price, to shareholders in the Elephant group of claims near there.

Hon. Frank J. Cannon has returned from Cherry Creek, Nevada, where he has been looking after mining interests. He says conditions in that camp were never brighter than at the present time.

J. C. Gladden, manager of the Tonopah-Belcher, has returned to Tonopah.

Arthur Hudson, son of C. E. Hudson, has gone to Tonopah and expects to remain in that big Nevada camp for some time.

No call of the stock exchange will be held until next Monday.

Secretary Joseph Henshaw of the Royal Gold & Copper company will depart for Frisco this evening.

George H. Robinson, manager of the Tintic company, has gone to Montana.

A. J. Bettles, chief of the metallurgical department of the Newhouse mines, departed from Chicago last night for home. He will probably arrive tomorrow afternoon.

The two cents assessment on Tetro becomes delinquent next Saturday.

The assessment of a cent a share levied on Martha Washington stock becomes delinquent next Tuesday.

James A. Pollock, the stock broker, has been confined to his home by sickness, which for a time bordered on the serious. His many friends will be glad to learn of his improved condition.

H. V. Croll, local manager of the Allis-Chalmers company, has returned from a business trip to Chicago, where he went to consult with the head of his concern about business in this territory.

Charles H. Beach, who served the Ophir-Hill at Ophir in its milling department for several years, has accepted a more lucrative position with the Consolidated Mercur, being connected with the electrical department of the latter.

W. J. Dooly, manager of the Johnny mine in the Stateline district, has gone to Bishop, Cal., to conduct the examination of a mining property upon which he has had his eyes fastened for some time. He has some stock interests in Tonopah and will take a run over to that camp before returning.

The directors of the Boston & Gold Mountain Mining company are scheduled to hold a meeting soon. The object is said to be for the purpose of demanding the resignation of President C. E. Watkins, of Boston. It is alleged that the official has not labored in the interests of the corporation.

C. L. Dignowitty, who is extensively interested in the Highland Boy Con. mine of Bingham, has arrived in the state and has returned to the city from making an inspection of that proposition. An interesting disclosure has been made within the last few days in the upraise being made towards the York tunnel.

Says a Boston publication: "A Calumet & Hecla official puts the cost of the company's copper product at close to 8 cents per pound, including every expenditure. The product is 7,000,000 pounds per month, more or less, and the selling price near the top of the market. While the average selling price is unknown, the profit ought to be fully 5½ cents per pound, suggestive of $35 to $40 in dividends per year.

Yesterday afternoon the articles of incorporation of the Southern Pacific Gold and Copper Mining and Milling company of Salt Lake City were filed with County Clerk John James. The company, which will operate in this state, has a capital stock of $300,000, divided into 600,000 shares at a par value of 50 cents each. The officers of the company are: James Whittaker, president; J. W. Burnham, secretary and general manager; W. R. Hutchinson, vice president; Charles B. Burton, treasurer.

THE BEARS STILL CONTROL MARKET

Prices Opened Some Better, but Selling Soon Lowered Them.

WAS SLIGHT RECOVERY.

This Was Followed by Another Outbreak of Liquidation, Amalgamated and L. I. Leading.

New York, July 23.—Opening prices of stocks averaged a smallfraction higher than last night. There were 1,500 shares of United States Steel sold at 23⅝ and 23½, compared with 23¼ last night, and the price subsequently ran to 23¾. The preferred stock advanced ¾. Rock Island preferred gained 1¼, General Electric a point and a number of the standard railway stocks a large fraction. The meagre demand was not sufficient to sustain prices and the opening gains were quite generally cancelled. Leaders, such as Reading, the Pacifics, Rock Island and Amalgamated Copper sold slightly below yesterday's final prices. With the selling pressure off Tennessee Coal rallied 1⅝ and the market hardened in sympathy. United States Steel preferred rose a point over last night. The market then became very dull.

Bonds were irregular.

Fresh selling orders on a large scale appeared in some of the low priced specialties and Rock Island, which depressed them materially and pulled the general list back to yesterday's close. New low prices were reached by Colorado Fuel, Tennessee Coal and Realty stocks. A slight recovery in prices was soon followed by another outbreak of liquidation. Amalgamated and Rock Island were conspicuous. Amalgamated broke to 43⅝ (ex div.), being a new low record. Rock Island fell below 24 and there were losses of a point or more in numerous other low priced stocks, including Smelting and Southern Pacific.

Prime mercantile paper, 5½@6 per cent; sterling exchange steady at 4.86.25 for demand and at 4.84@4.84.05 for 60 days.

Posted rates, 4.85@4.87½.

Commercial bills, 4.83¾.

Bar silver, 55.

Mexican dollars, 42½.

Bonds—Governments steady; railroads irregular.

PRODUCE.

Oats—No. 2, 32½@33; No. 3, 30@31.

Close: Wheat—July, 75¾; old, 75¾; September, 76¼; old, 76½; December, 76½; old, 76⅝; May, 78⅝.

Corn—July, 50⅝; September, 50⅝@51; December, 50¼.

Oats—July, 39¾; September, 33½; December, 33⅝@33¾.

Pork—July, 14.02½; September, 14.27½.

Lard—July, 7.90; September, 8.07½; October, 7.80.

Ribs—July, 8.35; September, 8.42½; October, 8.22½.

Rye—July, 50½.

Flax—Cash, northwest, 95½.

Timothy—3.30.

Clover—12.50.

Barley—48@50.

LIVERPOOL.

Liverpool, July 23.—Close: Wheat—September, 6s 2¾d; December, 6s 3½d.

CHICAGO WHEAT.

Chicago, July 23.—September opened a shade lower to a shade higher, at 75½@75⅝, and advanced during the first hour to 76⅝.

St. Louis houses and pit traders sold on the bulge and caused a decline of 75½; but the extraordinary strength of corn soon brought out buying orders and shorts covered freely. The close was strong with September up ⅝@¾ at 76¼.

DENVER.

Denver, July 23.—Cattle—Receipts, 200. Market steady. Beef steers, 3.75@5.00; cows, 3.00@4.25; feeders, 3.00@4.00; stockers, 3.00@4.00; bulls, 1.50@3.50.

Hogs—Receipts, 400. Market higher. Light packers, 5.35@5.45; mixed, 5.30@5.35; heavy, 5.30@5.35.

Sheep—Receipts, 2,500. Market easy. Muttons, 3.00@4.00; lambs, 4.00@5.00.

NEW YORK PRODUCE

New York, July 23.—Wheat—Receipts, 98,875 bushels. There was a scarcity of shorts due to a big corn advance, and prices exhibited material gains all around. September, 80⅝@81¼.

Butter—Receipts, 14,833 packages. Steady. State dairy, 14@18; creamery, 15@20.

Eggs—Receipts, 8,506 packages. Unsettled. Western seconds to extras, 14@18½.

Sugar—Raw, steady; fair refining, 3 3-16; centrifugal, .96 test, 5 11-16; molasses sugar, 3 13-16. Refined firm. Crushed, 5.60; powdered, 5.10; granulated, 5.00.

Coffee—No. 7 Rio, 5½.

WOOL.

ST. LOUIS.

St. Louis, July 23.—Wool—Steady; territory and western mediums, 16½@18½; fine, 14½@16; coarse, 13½@16.

LONDON WOL AUCTION.

London, July 22.—The fourth series of the 1903 wool auction sales closed today. Early in the series all except the better grades of greasy declined 5 per cent below the May average. Toward the end these grades were steadier, but the loss was not recovered. Fine strong greasy cross breds were always in demand and occasionally realized 5 per cent advance. Medium and coarse at the opening were advanced 7½ per cent and under considerable American purchases closed 10 per cent higher. Scoureds sold unevenly, medium bringing 5 per cent. Eighty thousand bales were taken by the home trade, 63,000 by the continent and 5,000 by Americans.

LIVE STOCK.

CHICAGO.

Chicago, July 23.—Cattle—Receipts, 9,000. Steady to strong. Good to prime steers, 5.25@5.50; poor to medium, 4.25@5.25; stockers and feeders, 2.50@4.40; cows, 1.00@4.00; heifers, 2.25@5.00; canners, 1.00@3.00; bulls, 2.50@4.50; calves, 3.00@6.40; Texas fed steers, 3.50@5.70.

Hogs—Receipts, today, 16,000; tomorrow, 15,000; left over, 2,500. 5@10c higher. Mixed and butchers, 5.45@5.85; good to choice heavy, 5.65@5.80; rough heavy, 5.25@5.65; light, 5.40@5.90; bulk of sales, 5.60@5.80.

Sheep—Receipts, 10,000. Sheep and lambs strong. Good to choice wethers, 3.75@4.00; fair to choice mixed, 3.00@3.60; western sheep, 3.50@4.25; native lambs, 3.25@6.40; western lambs, 3.55@6.00.

KANSAS CITY.

Kansas City, July 23.—Cattle—Receipts, 3,000 including 600 Texans. Steady and strong. Native steers, 3.40@5.35; Texas and Indian steers, 2.55@4.45; Texas cows, 2.00@3.00; native cows and heifers, 1.75@4.25; stockers and feeders, 3.00@4.40; bulls, 2.00@3.25; calves, 1.50@5.00; western steers, 3.00@4.55; western cows, 2.15@3.30.

Hogs—Receipts, 6,000. Market steady. Bulk of sales 5.30@5.35; heavy, 5.30@5.45; packers, 5.30@5.32½; medium, 5.30@5.37½; light, 5.30@5.40; yorkers, 5.37½@5.40; pigs, 5.00@5.45.

Burlington Route
BURLINGTON EQUIPMENT
The Burlington has the best equipment made on all its through trains. The strongest cars, the biggest cars, the safest cars. It doesn't make any difference what kind of cars—coaches, chair-cars, tourist-cars, palace sleeping-cars—they're the best that money can buy.
It's the cheapest plan. We don't have break-downs from poor equipment, and our patrons are pleased.
Chicago flyers leave Denver 4:15 p. m. and 10 p. m.; to St. Joseph, Kansas City and St. Louis 2:30 p. m. and 10 p. m.
TICKETS,
79 West Second South St.

Saponifier.
Pennsylvania Saponifier is the original and old reliable Concentrated Lye for family soap making and general household uses. Beware of counterfeits. The success of this article has induced unprincipled parties to imitate it. None genuine unless Pennsylvania Salt Manufacturing Co., Philadelphia, is stamped on the lid.
PENNA SALT MANUF'G CO. PHILADELPHIA. SAPONIFIER. PENNA SALT MFG. CO.
Ask your grocer for it and take no other.
