SENSATION IN VIEW.

The Cold Storage Fire in Chicago the Work of Thieves.

A LARGE GANG IMPLICATED.

The Grand Jury Investigating the Case—A Saloonkeeper's Story.

CHICAGO, Aug. 3.—Evidence of a startling nature concerning the cold storage fire was taken by the grand jury today. The witness was John J. Duggan, formerly a saloonkeeper and the man who first told the story concerning the incendiarism. According to him, there are 150 men concerned in the conspiracy, and he declared he had given the names to the grand jury. He said that right from the beginning of the Exposition goods of all kinds were stolen from the warehouse, and finally an incendiary fire was set to cover up the crime. The people concerned in the plot were employes of the cold storage warehouse and a gang that lives just outside the grounds.

Duggan declares that there will be a big sensation when things come out in detail. The grand jury will resume investigation tomorrow.

AMONG THE RAILROADS.

Extraordinary Meeting of the U. P. Directors.

OMAHA, Neb., Aug. 3.—An extraordinary meeting of the board of directors of the Union Pacific has been called for next Tuesday at Boston, and while the officers say the session has been ordered only for the purpose of decreasing salaries, it is hinted in inside circles that the action will be a great deal more important than the alleged object.

Speaking of the situation today Comptroller Oliver W. Mink said:

"Physically the Union Pacific is in excellent condition, but financially we are compelled to retrench in every department. We have met our August interest and other obligations falling due on that date, with money to spare, but so gloomy is the outlook that our attention is wholly directed toward cutting down our expenses.

"When I was in Omaha several weeks ago things looked more hopeful than they do now. Nebraska and portions of Kansas promised magnificent returns, but the enormous tonnage of the Union Pacific west of North Platte, gives little hope of yielding satisfactory returns for ninety and possibly for 120 days. The western section of this continent is in a condition that requires from us the most aggressive attempts at retrenchment. The movement of commodities is stopped, to our great detriment. Our yards are filled with empty freight cars and engines are lying idle in the roundhouses due to the stagnation.

"As to a receivership, it has not even been thought of. We are meeting our obligations as they fall due, our credit is first class, and physically we are in a good condition. But there is nothing coming in; commodities are not moving; corn is not yet harvested; wheat is practically a failure in Kansas and Nebraska; Colorado has shut down her silver mines, and the country west feels the force of the situation. These are conditions and not theories, that confront railroad men, and they must be met."

THE BURLINGTON.

CHICAGO, Aug. 3.—Extensive reductions are to be made in the passenger service of the Burlington road. Trainmen are to be dispensed with whenever it can be done without serious inconvenience. Three through trains are now run daily between Denver and Chicago. One of these will be done away with and similar action will be taken with trains on the other divisions.

THE PENNSYLVANIA R. R. COMPANY.

PHILADELPHIA, Aug. 3.—President Roberts of the Pennsylvania Railroad company has issued an order for a reduction of the hours of labor in the mechanical department, for six days a week of ten hours per day to five days of nine hours each. The order affects all the shops of the system, including leased and controlled lines.

ONLY A BRIEF SESSION.

That is What Representative Springer Thinks.

WASHINGTON, D. C., Aug. 3.—Representative Springer of Illinois, chairman of the ways and means committee of the last Congress, was at the capital today. In brief, his opinion is that Congress will not be in session for more than a week or ten days in August. In that time the hopeful Mr. Springer thought the silver purchase clause of the Sherman act would be repealed, and the ways and means committee empowered to draft a tariff bill for submission to Congress when it reconvened, which should be some time in October.

As to the tariff, it would be impossible for the ways and means committee to do justice to the subject while the House was in constant session. There were too many disturbing elements and surroundings not favorable for wise and safe legislation, but if the committee was empowered to prepare a bill and allowed to go to some quiet place on the seashore or elsewhere and pursue its labors unmolested, the result would be a satisfactory bill.

The Pension Frauds.

WASHINGTON, D. C., Aug. 3.—Commissioner of Pensions Lochren has addressed a letter to the *National Tribune*, upon the subject of pensions. He says: "I have not complied with your repeated requests that I should cause a test to be made to show the number of fraudulent pensions by having 1000 cases drawn up from admitted files and examined. I have not done this for several reasons.

"First—Fraudulent cases, if any exist, cannot be discovered in that way. Fraudulent pensions must ordinarily have been obtained upon false or forged testimony. On the face of the papers such would probably appear to be well established and indisputable.

"Second—No one whose opinion is entitled to consideration has, I think, had the hardihood to claim that the great mass of adjudicated pension cases is permeated with fraud so open and plain on the papers that the examination of 1000 cases would disclose an instance.

"Third—The examination of June 27, 1890, cases is made, not because of any fraud on the part of the claimants, but because it was discovered that this bureau had, by the adoption of an erroneous rule for adjudication, allowed many pensions not authorized by law. All pensions granted under former laws are presumed to have been properly granted and are not being examined."

The Silver Question.

WASHINGTON, D. C., Aug. 3.—Senator Squire of Washington takes the ground that the President should be allowed to deal with the silver question in his own discretion.

Bland arrived today. He said the friends of silver had agreed upon no plan of campaign, other than that they were opposed to a repeal of the Sherman law, unless given the free coinage of silver.

Congressman Oates's Views.

WASHINGTON, Aug. 3.—"If the President parts company with the Chicago platform I believe his party will part company with him," were the significant words uttered by Representative Oates this afternoon. "The Chicago platform called for a repeal of the Sherman law and the maintenance of gold and silver as money on a parity.

"There can, in my opinion, be no unconditional repeal of the Sherman law. If the President has set out to repeal the Sherman act without offering anything in its place, he has set up a platform not in accord with the one upon which he went before the people."

Closes Its Doors.

ST. PAUL, Minn., Aug. 3.—The American National bank of this city will not open its doors for business tomorrow morning. This step is rendered a necessity by the steady drain upon its resources for several months, the depositors having withdrawn $1,362,000 since January.

The bank has a capital of $2,000,000, with a surplus of $100,000. The deposits amount to $2,400,000, and the bank holds bills receivable aggregating $4,000,000. The assets are more than ample to meet all liabilities.

Four Persons Killed.

BOSTON, Aug. 3.—A distressing accident that has resulted in the death of four people and injuries to probably fifteen or twenty others occurred this evening at the boathouse of the Chelsea Yacht club. It was illumination night at the clubhouse. In consequence there was a large crowd in attendance, including many ladies. A band was playing on the pier in front of the clubhouse and many people had filled the balcony directly over the musicians' heads.

Suddenly the balcony gave way and its occupants were thrown upon the pier, and many of them into the water. The confusion that followed is indescribable, men and women shrieking in the attempt to save themselves and friends. An alarm of fire was sounded and the firemen who responded did grand work in rescuing those who were found floating in the water, and in securing the bodies of those drowned.

Nearly two score of people were thrown from the balcony of the accident, and piled in a struggling and confused mass upon the float. Many believed their injuries were far more serious than they proved to be, and it was a long time before it could be definitely ascertained how many were killed. The more seriously wounded were taken to the United States Naval hospital and the Frost hospital, where their wounds were dressed.

WIRED FROM FOREIGN LANDS

Cholera Raging in French, Italian and Arabian Cities.

Talking About a Latin-American Monetary League.—The Hawaiian Question.

LONDON, Aug. 3.—According to the *Lancet*, the well known English medical weekly, cholera has been epidemic in Marseilles the last three months. The local officials carried deception to such a length that even the government was led astray in regard to the real state of affairs. There have been 301 deaths from cholera in Marseilles since the middle of May.

A Rome correspondent says: Since the outbreak of cholera the official reports have greatly understated the facts. The report for Sunday said there were nineteen new cases and nine deaths. Reliable advices declare that there were fifty-two new cases and twenty-eight deaths that day and forty-nine new cases and twenty-seven deaths on Monday. Several cases of cholera have occurred in Rome.

There have been 6000 deaths from cholera in Mecca and 2318 in Jedda since the recent epidemic broke out.

A Movement for Unity.

CITY OF MEXICO, Aug. 3.—There is a project on foot here to unite all the Latin-American nations in a monetary league to resist the depreciation of silver. It is asserted that while silver has declined in obedience to natural laws, yet the depreciation is out of the proportion to what it should be and debtor nations should unite in order to defend their interests against the conspiracy. Public opinion here would favor entering into a monetary league with the United States, transferring the trade of Latin-America to the Anglo-Americans, and only asking on the part of the United States free entrance for raw material.

An Apology Offered.

LONDON, Aug. 3.—The Bangkok correspondent of the Times telegraphs as follows: By Admiral Humann's command, the captain of the French gunboat Lion has made an unreserved apology to Captain McLeod of the British cruiser Pallas for having steamed down with the crew at quarters and guns out upon the Pallas, which was lying outside the blockade line. Captain McLeod's prudence and coolness alone averted an armed conflict.

The Hawaiian Question.

WASHINGTON, D. C., Aug. 3.—The attitude of the administration on the Hawaiian question will soon cease to be a matter of speculation. It is said on the highest authority that this is to be one of the first subjects considered by the President and cabinet after the message to Congress is out of the way. In anticipation of the express desire of the President to transmit a special message to the new Congress on this matter, Secretary Gresham has been busily engaged in the collection and preparation of papers bearing on this important subject. Typewriter copies of Mr. Blount's communications are being made for convenient reading.

Minister Blount's long-expected report on Hawaiian affairs is in the possession of the Secretary of State. It arrived in an official dispatch from San Francisco.

Killed by Rebels.

LONDON, Aug. 3.—A dispatch from Buenos Ayres says that the vice governor of Santa Fe was killed by the rebels yesterday.

Rate of Discount Advanced.

LONDON, Aug. 3.—The directors of the Bank of England decided to advance the rate of discount to 3 per cent. The advance, which was unexpected, is attributed to the further large withdrawal of gold today for the United States, and the probability of fresh shipments Friday and Saturday.

TRIP TO THE NORTH.

An Excursion to Cache, Bear Lake and Snake River Valleys.

LEAVING TUESDAY, AUGUST 15.

Opportunity of the Year to Visit and Spend a Pleasant Time in Northern Utah and Idaho.

BACK VOLUMES

OF THE

DESERET WEEKLY.

The sixth volume of the DESERET WEEKLY in the present form is now bound. A limited number of copies of these six volumes can be obtained at the DESERET NEWS Office, Salt Lake City, in bound form at $2.00 per volume. It is the best history of current events to be obtained, and by far the cheapest, and the time is not far distant when they will be eagerly sought after by students of history, anxious to be informed of the stirring events which have transpired within the past three years—the most interesting period of the history of the Latter-day Saints. Every person who can afford it should secure these volumes while they are to be had for future reference, and especially should they be obtained for every Sunday School, Improvement Association and Ward library. Apply early to make sure of getting them.
