THE CHARRED BODY.

Discovery of the Remains of Howard Pickrel, the Missing Boy.

MORE DAMAGING EVIDENCE.

Holmes Will Be Tried at Indianapolis on Account of These and Other Developments.

INDIANAPOLIS, Aug. 27.—Indianapolis will claim the right to try H. H. Holmes for murder. The claim will be based on the horrible developments of today, which include the finding of the charred remains of 9-year-old Howard Pietzel, and evidence within hearing of the jury in the country burned his victim and then partially burned his body in a stove.

Detective Geyer, of Philadelphia, Schares of Indianapolis, and Inspector Gary, of the Fidelity Insurance company have been at work for some weeks hunting for traces of the boy's body. He was traced here with Holmes and disappeared. The city sewers were searched and were begun in the vicinity of a house rented by Holmes on October 10th, 11th or 12th of last year.

This morning the detectives went to Irvington, a pretty suburb of this city and the seat of Butler College, and before they had been at work an hour their attention was called by a local real estate dealer to a small vacant cottage situated in the woods on the edge of town and far removed from any other dwellings. The party went to the house, and a few minutes later the startling news went forth that the skeleton of a strange man's hand on the dust in the room in which the bodies were found, and an axe in the alley below, all behind locks. A hammer, which appears to have human blood on it, was found. It is now thought that this hammer figured in the killing. The theory of double murder with robbery as the motive is regarded fully confirmed.

Late this afternoon warrants were sworn out charging Max Hoyt and Dan Berry, a pugilist, who formerly lived in Omaha, with murder in the first degree, and they were both placed under arrest. The officers have become convinced that Max Nosek and Ora Minter, alias Hazel Hammond, were killed by a third party, whose identity is yet unknown, for the purpose of robbery.

The coroner's jury continued its investigation today, and the most sensational testimony was that given by Detective Scott, which evidence points to a brutal double murder. On top of the partition separating the room in which the tragedy occurred from the next he found the impression of a man's hand, and the dust on the ceiling had been brushed off, as if by some one who had escaped from the room in this manner. After climbing over this partition, it would have been easy for the murderer to have escaped quietly down the back stairway into the alley. Max Hoyt, proprietress of the house in which the tragedy occurred, continuously contradicted herself while on the witness stand, but gave the police little information of value.

A gang of loafers seen with Nosek before the tragedy are being closely shadowed. A telegram to the Journal from Shelton, Neb., says Nosek was the son of a wealthy farmer living near that city. The dead girl was a member of the Methodist church at Central City, Neb., where her father lives, and she moved to the best society before coming here three months ago.

Starvation on Cuba.

LONDON, Aug. 27.—The Havana correspondent of the Times telegraphs that Marshal Campos has definitely decided to fix his headquarters in Santa Clara. He continues to organize defensive measures against the rebels, and is building small forts at various places, and keeping strong patrols constantly moving throughout the country.

Letters received from Santiago bring a rumor of dissension among the insurgent chiefs, several of them objecting to the present method of conducting the rebellion and revealing the policy of destroying property.

There is also jealousy between the white and colored leaders. The insurgents continue to levy contributions, amounting to $40,000 in one case, and $20,000 in another. They have received orders from the revolutionary committee in New York absolutely to prohibit all work on plantations. The penalty of refusing to comply with this prohibition is to destroy property and burn sugar cane.

The newspaper *La Lucha* declares that the inhabitants of Cienfuegos are that state starving on account of the stoppage of the plantations.

May Shoot the Fugitives.

AUSTIN, Tex., Aug. 27.—Today Attorney General Crane gave out his second opinion about the Corbett-Fitzsimmons prize fight to Dallas in October. This opinion was called for by an interrogatory propounded by Sheriff Cabell of Dallas county as to whether in suppressing the fight he was legally empowered to shoot and kill those who interfered with him.

The attorney general holds that in the lawful discharge of his duty the sheriff certainly has the right to use firearms if emergency demands. He bases his opinion on the statutes governing riots, etc., and argues that the fighters, with all those in attendance, will certainly be guilty of a violation of the law, and under the law the sheriff or any sworn peace officer is bound to dispersa said assemblage at any cost.

As to the question of killing those who interfere with him, the attorney general cites article 66 of the penal code, which says: "Homicide is justifiable when necessary to suppress a riot, when the same is attempted to be suppressed in the manner pointed out in the riot laws, and if such riot be not suppressed except by taking life."

TERRIFIED ARMENIANS.

They Appeal to the Powers for Protection.

CONSTANTINOPLE, Aug. 27.—Advices received here from Erzinghan say that great terror prevails among the Armenians there, owing to the attitude of the Turkish authorities. The latter, in consequence of an attack which was recently made by brigands on a Turkish outpost, in which a number of his men were killed, are believed to be taking steps which will have most serious consequences. The Armenians are accused of being the authors of the attack on the outpost, and it is alleged that a large force of Turkish troops has been retaliating by attacking the villages and monasteries of the vicinity and engaging in other acts of violence. The Armenians, fearing a recurrence of the Sasoun outrage, have appealed to the powers at Constantinople for protection.

Loescher Charged with Murder.

DENVER, Aug. 27.—Helmuth P. Loescher was the signature written by the ex-engineer of the County hotel, when lodged in jail here today. He says he is 22 years old, and insists that somebody else (probably Peter Gumby), and not he, caused the explosion by which twenty-two lives were sacrificed. The witness on whom Loescher is held, charges him with murder.

Daily Earthquake Shocks.

CITY OF MEXICO, Aug. 27.—Scientists are greatly interested in the phenomena occurring at the town of Pinotlop, state of Oaxaca, where, since November 2nd last, not a day has passed without an earthquake shock. People have abandoned their stone houses and are living in huts made of wood and matting.

Great alarm prevails, for each daily shock is preceded by ominous rumblings under the sea, which is only twelve miles distant. There is observable at various points in southern Mexico much seismatic activity, and the subterranean roaring at Tehuacan, state of Puebla, and shocks of earthquake, make it seem probable that another volcano is forming.

English Athletes Coming.

LONDON, Aug. 28.—Sievrgans, the sprinter, was invited to join the London Athletic club team on their trip to America, at the last moment, but was unable to do so. The continent team which sailed on the Aurania is made up as follows: Brady, Bowler, Fitzherbert, Heton, Lotyens, Oakley, Jordan, Shaw, Williams, Watson, Lewin, Mandinson, Robertson, Johnson, Wilding, Bonsettivanis, Davenport, Pickford and Jennings.

Sporting Life say that Wilkins has Fitzherbert will start to join the team on September 5.

The *Sportsman* says that every member of the team spoke strongly of the inexplicable absence of Bevin, who almost originated the idea of the contest.

Truth says: It is not likely that the Americans can show any such athletes as Herma, Feldmeyer and Lotyens, but the rest of the team is weak.

The *Standard* says that the absentees will be a serious loss to the British team, but that it will make the match more equal and interesting. There are no better hate than Americans, but they are not at all good losers. The Cornell affair seems to show that Dr. Oliver Wendell Holmes's advice to "never let up or shout up," is still needed. We trust that in the event that the Americans are defeated there will be no repetition of unpleasantness.

IN THE NAME OF THE POLICE.

A Millionaire Tramp is Cared for Himself.

COUNCIL BLUFFS, Ia., Aug. 27.—Lucien H. Ott, the millionaire of Vincennes, Ind., who has been liberally burning money here for a week, left for his home today, being assisted by the police. Last night he showed eleven $1,000 packages of new bank bills and today the chief of police arrested him on suspicion of being a bank robber and made him gather up all his money, took him to a back, where it was counted over and $8,250 of it put in the form of a draft and sent to his address in Vincennes by mail. He was then sent along after it is cooled of an officer.

No Bimetallic Conference.

LONDON, Aug. 27.—The Berlin correspondent of the *Standard* says he learns on excellent authority that the result of the remarks of the Hon. A. J. Balfour, first lord of the treasury in Parliament, to the effect that he did not believe an international conference would result in an international agreement, is that Germany is unlikely to convene a bimetallic conference.

Women Beaten by Whitecaps.

LOUISVILLE, Ky., Aug. 27.—A special to the Times from Burgess, Ky., says: Great excitement prevails on the Virginia side of the Cumberland mountains, six miles east of this place, over a white-cap outrage. Last night about 11 o'clock a number of whitecaps went to the house of Martha White, aged 65, pulled her and her 20-year-old daughter from their beds, and taking them to a patch of woods near their house, tied them to trees and beat them most brutally. They are not expected to survive.

ECUADOR'S WAR ENDED.

Patriots Take Possession of the Government and Liberate Prisoners.

NEW YORK, Aug. 28.—A special to the Herald from Guayaquil, Ecuador, says:

The war in Ecuador is virtually ended. Quito has pronounced in favor of General Alfaro. Deloserio Alfaro Montalvo has been appointed temporary military and civil chief of the city.

The forces of the conservative government fled in fearful disorder at the approach of the patriots. The first act of these on their assumption of the government was to liberate all political prisoners.

The news of the conquest succeeded one another quickly. The patriots under Colonel Luis Alfaro defeated at Milton 700 Quito troops commanded by Colonel Vera. Among the 200 prisoners taken the greater number were young men of classes and officers. The victors made, on July 25, a triumphal entry into Cuenca.

Guayaquil's government has issued a decree making responsible for all the war expenses those who insisted on sustaining the conservative government.

In a battle at Pirisle about 100 men were killed. Among the most conspicuous of them were Colonel Hector Bravo and Abel Lasalde. Colonel Manuel Vernaza was wounded.

Attempted to Wreck a Train.

SPOKANE, Wash., Aug. 28.—An attempt to wreck the Oregon Railway & Navigation passenger train was made near Inscot last night. As a turn in the road the engine struck a pile of rocks with great force. The pilot of the engine was partly wrecked and some of the rocks lodged under the lower bar. It required nearly two hours to clear away the obstruction and repair the damage.

To Attend the Irrigation Convention.

OTTAWA, Ont., Aug. 28.—A. M. Burgess, deputy minister of the interior; William Pierce, superintendent of mines, and John Deville, general inspector, have been appointed by the government to attend the International Irrigation Congress at Albuquerque, commencing 10 to 16.

Eight Persons Burned to Death.

IVREA, Italy, Aug. 28.—An explosion of a lamp in a chorus at Robertone, set fire to the pilgrim shelter adjoining the church, and eight persons were burned to death.

Reader, did you ever take SIMMONS LIVER REGULATOR, the "King of Liver Medicines?" Everybody needs this Liver remedy. It is a disguided fact that impure digestion and torpid liver, when the bowels not about to be carried off results in a body and poisons the whole system. That dull, heavy feeling is due to a torpid liver. Biliousness, Headache, Malaria and Indigestion are all liver diseases. Keep the liver active by occasional dose of Simmons Liver Regulator and you'll get rid of these troubles, and give tone to the whole system. For a laxative Simmons Liver Regulator is better than PILLS. It does not gripe, nor weaken, but greatly invigorates and strengthens.

Every package has the Red Z stamp on the wrapper. J. H. Zeilin & Co., Philadelphia.

DOCTOR G. W. SHORES,
THE "PEOPLE'S DOCTOR."

Praised and Endorsed by all the People in One Voice as Their Best Friend and the Most Successful Physician of the Age.

Every City—Every Town—Every Village—Every Hamlet, and in Fact Every Settlement in this Vast Intermountain Country Resounds With Praise and Thanksgiving for His Great Work for the People, and the Wonderful Good His Famous Vegetable Medicines—That Cure Without Poison—Have Done.

It is wonderful. Its astonishing. Greater than ever. The modest system of treatment under the cases established in Salt Lake City, now so extensively patronized by people from every section of the vast intermountain country, writing or representing, cured or improved, and such success in their respective ailments, appearing in our town, or a visit to the city and submit to an examination and treatment at the hands of Dr. G. W. Shores, or, failing to do so, write a plain statement of the case and receive a medical opinion free of charge, and nothing more, if so advised by the doctor, is the liberal offer now nothing good with, or ashamed of, the sick and afflicted, and the thousands who have now been cured in Salt Lake City and throughout the intermountain country, and who are now enjoying good health and vigor, through the use of powerful drugs, poisons and other such remedies, which are now in the discarded, or should be so, in the enlightened, or might be so, if to some there still exist that of all the thousands of sufferers who have applied to Doctor Shores for treatment, and who have been pronounced by eminent medical men, incurable, no, not one, or even one case, was in their judgment, efforts to the contrary, have been pursued by strong medical drugs, poisons and other such remedies, that failed, so to further Shores skill and treatment, purchased and taken at Doctor Shores' with the result that he has cured every one of them, or, at least, greatly improved their condition.

This Doctor G. W. Shores' remedies, vegetable, medicines—without poisons—medicines so plain, relief and cure speedily follow, and so different to others for same or similar ailments, that it is a wonder to the people, and the medical profession, that such remedies, and such success in their application, have found so long to the people, and the medical profession, and the world, and the world, and the world
