ENTOMBED IN A TUNNEL

Earthslide Imprisons Five Men in an Anaconda Flume.

ONE OF THEM IS REPORTED AS DEAD.

Efforts Going on to Release the Others—The Story Was Caused by an Explosion at the Tunnel Mouth.

Anaconda, Mont., Jan. 12.—At an early hour this morning the discovery was made that five men were entombed in a tunnel, which the Anaconda Copper Mining company is constructing for water-flowing purposes about a mile and a half from the city. It is said that about half a million pounds of powder which had been carried into the tunnel for the use of the night shift was exploded by some means, now unknown, wrecking the face of the tunnel, which is about 10 feet long, and resulting in a slide of earth which raised the tunnel roof for a distance of about forty feet from its entrance.

From the moment of the discovery of the accident diligent effort has been made to reach the five miners, who are said to be safe from immediate anxiety in left, and work tonight these men are being rescued. Work left sure that the bodies of the miners "great" reached some of them within the tunnel.

It was proposed to drive a three-inch pipe through the mass of earth that had fallen into the tunnel. This plan was immediately followed and a twenty-foot length was successfully driven. A second length was then connected, and to the joy of the anxious spectators, it pierced the mass of earth. Immediately tested the means of conveying communication at 11 o'clock tonight communication was established with the imprisoned men. Five of them were reported alive and one is dead.

The work of reaching them is going on with greater and than ever. The men are thought to be in good condition, although they have suffered from either cold or hunger, but that they survived candles. Joe McLeod, formerly of Butte, is the dead miner.

The imprisoned four are:

Andrew Cooper, Michael Keanan, Mat Petrie, Mat Toole.

Six hours more will probably find them rescued. It is not yet learned how the explosion occurred.

PARIS IS EXCITED.

Rage Matthieu Dreyfus to Effigy—Zola to Be Prosecuted.

Paris, Jan. 13.—If this has been an event-ful day, the excitement began with the notice posting newspapers contained in Zola's letter. This sold like wildfire, and caused a similar rush for the newspapers on the arrest of Col. Du Paty de Clam.

Cooper.

Effigy of M. Matthieu Dreyfus were burned in many portions of the city, it is not known on what grounds. The Dreyfus was arrested.

Count de Mun's interpellation fell entirely upon the government. M. Zola was in the lobby of the chamber of deputies while his letter was being debated. He was recognized and followed in almost every direction. It is probable that M. Zola will get a year's imprisonment, and it is declared that if he were not a Frenchman he would be expelled from the country.

M. Zola is busily hard to prepare a case and hunt witnesses. There is no doubt that he has some facts revealed all he knows. The chief line of his defense will be to show that Alfred Dreyfus did not get the Bordeaux. He has assured the issues of all hand-writing experts known to the British law courts.

The Times will say tomorrow that Count Esterhazy will be placed on the witness stand. Other papers will say that he has asked to be retired in order to be free to prosecute his calumniators. M. Mathieu and Leon Dreyfus are to be prosecuted for an attempt to bribe Col. Sandherr, chief of the intelligence department of the war department in 1894.

M. Drumont, the anti-Semite, published in the Libre Parole a letter addressed to M. Faure denouncing the French officials assisted the army and force as evidenced in the Dreyfus syndicate.

Count Esterhazy, in the course of an interview, alleges that he has solicited the permission to retire from the active service.

DOLE IS COMING.

President of Hawaii on the Way to Washington.

Honolulu, Jan. 12, via San Francisco, Jan. 12.—President Sanford B. Dole leaves for Washington by the steamship Peru on the 18th inst. The chief executive of the country goes to the capital of the United States for the purpose of conferring with the administration there on the subject of the annexation of these islands to the power of regulation. It is expected that Mr. Dole will be back here by the middle of next month. He will be accompanied by his staff officer, Maj. Curtis P. Rogers, as secretary, and Dr. F. R. Day, as physician. During the president's absence Minister of Foreign Affairs Cooper will be the chief executive.

The departure of President Dole was unanimously decided upon yesterday at a special meeting of the council of state. After the meeting, President Dole said:

"It has been considered best that I should go to Washington and meet the administration upon the matter of the pending treaty of annexation. I do not expect to be gone more than six weeks. Immediately upon my arrival at Washington I shall consult with the members of the Hawaiian legation."

This is the first visit of Mr. Dole to the United States since 1901, at the time of the late King Kalakaua was in San Francisco.

A member of the council of state said: "We decided by unanimous vote that it was advisable for Mr. Dole to go to Washington at this time and that he confer with President McKinley and his cabinet. Our affairs are in good shape, and perhaps with the United States senator, Mr. Morgan, advocating a protectorate, the advocates of annexation, in the proper and dignified and honorable way, have to wait for the United States and the head of the well-ordered and well-regulated government in this country should appear at Washington at a time when the treaty is before the senate and when all the efforts of the great republic are influenced to the annexation question. We believe that Mr. Dole's action is correct, and that the mission will result in a gain for the cause."

"Mr. Dole is a man peculiarly fitted for just such a mission as this. We believe that he will make a good impression and perhaps statesmen in more political conditions will conclude after seeing him that some of the stories about him have been made in the United States. Mr. Dole and his associates are honored to say the least."

THE DEAD AT FORT SMITH.

Fourteen There Without Those at Near-by Towns Severely Injured.

Fort Smith, Ark., Jan. 12.—The latest official death list stands a total of 15, which are all in the hospital. Not less than seven more are believed to have lost their lives in the tornado Tuesday night. Not less than seven more are injured, a large number of which are expected to die. The work of clearing the bodies and excavation of the ruined buildings progressed today. Five new names were added to the list of the dead. Two bodies were dug from the ruins of the Smith block, from which eleven had previously been taken.

The full extent of the storm may be comprehended from the fact that thirty-five miles northeast of the city a quantity of the roofing from Garrison avenue buildings was found.

An unknown woman was taken from the ruins of the Burgess hotel today, and was identified as Mrs. Ida Eads of Elm Springs, Ark. Her brother is missing, and it is believed his body is still buried in the ruins. Business in the devastated districts where the buildings were only partially damaged was opened today.

Ladies of the city are at work distributing food and clothing to the needy. The relief committee, composed of prominent business men, had difficulty in inspiring the sufferers.

One hundred and fifty buildings were demolished and will have to be built to accommodate the people.

Wesley and Wright, two of the dead, were Indian Territory farmers, and just stepped into the Smith building for shelter.

Memphis, St. Louis, Kansas City, Little Rock and other cities tender medicines to lend aid, if necessary. The number of dead will not exceed fifty.

New Party in Missouri.

St. Louis, Mo., Jan. 12.—A new party was born tonight in the conference of the Populists, and named the People's party. The People's party proposes to be in about all the seven all connections with the national Populist committee and made arrangements for administration on its behalf without the aid or advice of any outside party. With few exceptions the delegates decided to be thoroughly unanimous in favor of going it alone in the future. The referendum system was highly commended and recommended for use among the middle-of-the-roaders in settling matters of national importance in the order, and there was a practical agreement among the delegates that a national presidential convention should be held this year.

The entire afternoon and evening was spent in the discussion, and it was not until a late hour tonight that the mode of procedure for full action was agreed upon.

ASK INTERVENTION IN CUBA.

Holders of Spanish Bonds Urging the United States to Interfere.

If this Money Interest Operates, It Will Have Great Weight—A Protectorate Proposed.

Washington, Jan. 13.—Private information has been sent to the state department, and to members of the foreign affairs committee in Congress, saying to show that powerful influences are at work to secure independence for Cuba.

Spain has issued bonds to the gross amount of about $400,000,000, based specifically upon the resources and revenues of the island, and are held in large part in Great Britain and France.

Some of the largest syndicates in these countries, it is said, have become convinced that these bonds are about to become valueless unless the United States in some way guarantees their payment. They are convinced that the island is entirely devastated and that it can be restored only by the influence of a strong commercial power.

Representations have already been made to this country by certain strong commercial interests to secure active intervention.

If this were done, the United States would become morally responsible for the payment of the Cuban loan.

This could be done by a protectorate similar to that of England in Egypt or by a direct control of the Cuba custom house.

BATTLESHIPS PREPARING.

American War Vessels Taking on Loads of Coal.

Newport News, Va., Jan. 12.—The battleship Indiana left here this afternoon for Old Point Comfort after taking on 500 tons of coal, to join the other vessels of the North Atlantic squadron. The battleship Iowa came on this afternoon to fill her coal bunkers. Rumors as to trouble have started up in the ports where these vessels are. There is some excitement aboard ship, but no important orders have been received from the navy department.

It is understood that the vessels now in these waters will not sail for the south until Saturday morning, unless there are further developments of an unexpected nature in the Havana situation.

UNDER SEALED ORDERS.

Tampa, Fla., Jan. 12.—The cruiser Montgomery arrived here last night to remain during the fishery congress, but this afternoon she suddenly weighed anchor and sailed from the harbor under sealed orders.

FURTHER TROUBLE IN HAVANA.

Military Called Out a Second Time—One Man Shot.

Havana, Jan. 12.—About noon today a crowd gathered in front of the offices of El Diario de la Marina shouting "death to the traitors." Aguilas and the regular troops to restore order and to compel the dispersal of the crowd, which kept up a continuous shouting on the streets near Central Park.

The people accuse El Diario de la Marina of being responsible for all the attacks made upon the army officers and Spanish residents in the island. The "war" paper, La Discusion and El Reconcentrado receive their due from El Diario. A case ending El Diario was shot in the arm. All classes condemned the authorities for avoiding unnecessary force or violence in the use of the military.

Last night at the palace Gen. Blanco and the statesmen assembled there, and by the civil governor of Havana, the colonels and chiefs of volunteers, the Marquis Apiezaga, leader of the Spanish conservative party and other prominent politicians. Senor Congosto, the secretary general, remained at his office until 4 o'clock this morning.

About 10 o'clock last night several shots were heard in the back of the Theater Albeis. It is supposed they were intended to raise an alarm. Shortly after midnight soldiers were withdrawn from the streets and went into barracks.

THE WAR IN CUBA.

Reports that Show the Insurgent Power is Not Weakening.

Havana, Jan. 12, via Key West, Fla., Jan. 13.—Delayed in transmission.—In Discussion prints an energetic editorial calling attention to the pitiful state of affairs existing in the city and headquarters, and to the immediate necessity to save them from death.

The Spanish Fort Del Rio have destroyed 10,000 tobacco plants, the property of the mayor of Artemisa.

In the district of Cumajuani, province of Santa Clara, the insurgents have destroyed 300,000 tobacco plants and have burned about 4,000 tons of cane.

At Matanzas yesterday, 11 persons died, of whom 22 were starved to death. In Holguin, a town of 4,000 inhabitants, last year, 1,200 persons died, many of them losing their lives through starvation.

From Santiago de Cuba and Guantanamo hundreds of men have joined the insurgents from the indentured towns. The insurgents are obliging all men to join them.

During the last ten days, in various skirmishes the insurgents, according to Spanish reports, lost 57 men killed, while the troops captured 19 prisoners and 48 rifles. Ninety-seven insurgents surrendered. The losses of the Spanish are killed, and 4 officers and 49 privates wounded.

The captain-general of Porto Rico resigned because he considered autonomy to be dangerous to Spain's sovereignty.

Gen. Pando, from Santiago de Cuba, goes to Manzanillo. He was made during his visit to Santiago. Puerto Principe and Cibara to influence any insurgents to receive propositions for peace or looking to the acceptance of autonomy.

90,000 DIED IN 1897.

Roll of Starved to Death in the Province of Santa Clara.

Jackson, Mich., Jan. 1.—Aricles (note Mil. George L. Donald of Mississippi, now in Cuba, on whose information the state senate passed a strong Cuban resolution, says that about 90,000 persons died by starvation in the province of Santa Clara alone since January 1, 1897. Mai. Donald says one person in twenty stops with, and some person every second, and will begging for something to eat, and that a person cannot sit down to a meal without being asked for bread by starving children.

TELEGRAPHIC BREVITIES.

M. Loubet has been reelected president of the French senate.

Gen. Augusta will succeed the late Gen. Mahia as captain general of Porto Rico.

A special dispatch from Shanghai says Prince Arthur was ended for Russia to prevent war.

Senator Stewart of Nevada addressed the senate yesterday, speaking in favor of Hawaiian annexation.

Lord Charles Beresford, the conservative and liberal-unionist candidate, has been elected to parliament.

Yesterday afternoon a lively debate occurred in the house of Commons over free seed distribution.

Representative Bland of Missouri introduced a free coinage bill in the national house of representatives yesterday.

The bill of Senator Hawlins of Utah for opening the Uintah Indian reservation passed the Senate yesterday afternoon.

A parliamentary election held in Plymouth, resulted in the election of the conservative and liberal-unionist candidate, Hon. Ivor Churchill.

London papers announce that the first battalion of grenadiers, now at Gibraltar, has been ordered to get in readiness for service in Egypt.

The senatorial members of the Democratic congressional campaign committee are: Senators Jones (Ark.), Caffery, Hill, White, Murphy, Smith, Rawlins and Pasco.

The record of the small arms firing of the various regiments of the army during the past season, shows that troop E, Second cavalry, made the highest average score.

Five hundred weavers of the Andrecoggin mill, Lewiston, Me., have unanimously voted to strike on March 1, January 17th, the date on which the reduction of wages took place.

The committee to which Senator Hawlins's bill for the payment of one cent per ton tax on Utah merchants has been referred will probably act on the measure at their next meeting.

The news of the Havana riot created great excitement in Madrid, where reports were of the most meager character, except in one paper, El Heraldo. The general effort was to belittle the trouble.

In Rochester, N. Y., yesterday, Justice Davy handed down a decision in the case of Major General William Averill against Amos L. Barber and the Barber Asphalt company. Judge Davy finds for the plaintiff.

Apathy the Republic's Danger.

The world is moved by passion. The direction of the movement is down or up, as the passion is base or high that is in the ascendant. Sometimes it is the one, sometimes the other. History has not been made by men calling around a proposition, however true or important. Not a theory of government will not save us. Our nation will not be redeemed by phrases or free trade, nor can it be ruined by either. America can be a great and prosperous when rich on either a gold base or silver. We can neither be dragged to any very profound depth of ruin, nor be raised to any great height by Republican party, nor any other party. Publicity cannot save us. Even Nihilism cannot damn us. All these may help or hinder much. They are all imported issues; none of them is vital. Only one thing can precipitate the doom of this last and greatest attempt of people to govern themselves under a republic—apathy. One thing can save us—the passion of moral earnestness.

Some forms of government may proceed smoothly, independently of what the people feel or think. An autocratic republic is a contradiction in terms. A republic must be attended to. Ultimately there is no one to attend to it but all the people. Let them, it is sure to fall into the hands of those who find it profitable to exploit it in their own private interests. The people be persuaded themselves to be exploited by the politicians in the interest of party power, which in its turn is used for plutocratic ends. It is not so near the truth to say that we are in danger of becoming a plutocracy, or even tending in that direction, as it is to say that we are already a plutocracy.

All this, not because we have an aristocrat, made this deliverance recently rather sarcastically, but because we have a patriot.—President Dates of Iowa College.

TO CURE NERVOUS DYSPEPSIA.

To Gain Flesh, to Sleep Well, to Know What Appetite and Good Digestion Mean, Make a Test of Stuart's Dyspepsia Tablets.

Interesting Experience of an Indianapolis Gentleman.

No trouble is more common or more misunderstood than nervous dyspepsia. Those who are afflicted with it think they are to blame and are surprised that they are not cured by nerve medicines and stomachics. Dyspepsia is the mischief is but slight or the stomach is the cause to be looked after.

Nervous dyspepsia differs in no way and pale whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. In nervous dyspepsia shows that not in the stomach so much as in nearly every other organ. In some cases the heart becomes weak and irregular, in others the kidneys are affected, in others the bowels are constipated, with headaches; still others are troubled with loss of flesh and appetite, with accumulation of gas, sour stomach and heartburns.

Mr. A. W. Sharper of No. 61 Prospect St., Indianapolis, Ind., writes as follows: "A month or more of your gratuitous premium me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tablets. I have been a sufferer from nervous dyspepsia for the last four years, and have used various patent medicines and other remedies without any favorable results. They sometimes gave temporary relief until the effects of the medicine were off. I attributed this to my sedentary habits, being a bookkeeper with little physical exercise, but I am glad to state that the tablets have overcome all those obstacles, for I have gained in flesh, sleep better and am better in every way. The above is written not for notoriety, but is based on actual fact.

"Respectfully yours,

"A. W. SHARPER.

"61 Prospect St., Indianapolis, Ind."

It is safe to say that Stuart's Dyspepsia Tablets will cure any stomach weakness or disease except cancer of the stomach. They cure sour stomach, gas, loss of flesh and appetite, sleeplessness, palpitation, heartburn, constipation and headaches.

Send for valuable little book on stomach diseases, free by addressing Stuart Co., Marshall, Mich.

All druggists sell full sized packages at 50 cents.

Everybody Should Have

W. B. Chapman's Harness Oil.

Makes leather waterproof. Sold by Z.C.M.I., Newmyer's Saddle Shop, Utah Hardware Co., Salt Lake Saddle Shop, Utah Rubber House, Salt Lake Shoe Store, White & Sons Co., Sears Grain Store, Utah Rubber House, Salt Lake Shoe Store, Salt Lake Harness Shop, Ross's Harness store and many others.

AVOID SUBSTITUTES.

Throw Away Your Corkscrew

And use only the Salt Lake City Brewing Co's "Premium Pale Lager Beer." Each bottle is provided with a patent beer stopper which is easily manipulated and enables you to use part of a bottle of beer, replace the stopper and keep the remainder fresh and nice for an indefinite length of time.

General Agents, Philadelphia, Penn.

Scrofula

Is a deep-seated blood disease which all the mineral mixtures in the world cannot cure. S.S.S. (*guaranteed purely vegetable*) is a real blood remedy for blood disease, and has no equal.

Mrs. Y. T. Beck, of Delaney, Ark., had Scrofula for twenty-five years and most of the time was under the care of the doctors who could not relieve her. A specialist said he could cure her, but he filled her with arsenic and mercury which almost ruined her constitution. She then took nearly a dozen so-called blood medicine and drank them by the wholesale, but they did not remove her trouble. Some one advised her to try S.S.S. and she very soon found that she had a real blood remedy at last. She says: "After taking one dozen bottles of S.S.S. I am perfectly well, my skin is clear and healthy and I would not be in my former condition for two thousand dollars. Instead of feeding upthe poison in my system, like the potash and arsenic, S.S.S. drove the disease out through the skin, and I was permanently rid of it."

A Real Blood Remedy.

S.S.S. never fails to cure Scrofula, Eczema, Rheumatism Contagious Blood Poison, or any disorder of the blood. Do not rely upon a simple tonic to cure a deep-seated blood disease, but take a real blood remedy.

Burlington Route

Think what it means to be able to go right through from Denver to Omaha, Chicago, Kansas City or St. Louis—to eat when you wish—to sleep when you feel like it—to smoke when the notion strikes you—to live as comfortably and fare as sumptuously as if you were in the finest hotel on the continent.

Yet these are just the things the Burlington's "Vestibuled Flyer" offers.

Leaves Denver at 8.30 p. m. Tickets at offices of connecting lines.

W. F. MCMILLAN, General Agent.
E. L. LOMAX, Gen'l Pass. Agent.
Trav. Pass. and Freight Agent.
204 Dexter Block, Denver, Colo.
Depot: West Lake Building.
