TELEGRAPHIC.

CONGRESS PROGRAM.

A Debate on Silver to Commence in the Senate at Once.

MANY DEBATERS IN THE HOUSE.

About a Hundred Names Enrolled by the Speaker.—Night Sessions Talked Of.

WASHINGTON, Aug. 13.—At a late hour tonight Senator White, a member of the steering committee of the Democratic caucus, was quoted as saying that the committee had come to no conclusion respecting the lines of policy to be pursued by the majority in the Senate. His understanding, however, was that debate on the silver question, based upon one of the measures already pending—Stewart's free coinage bill or Lodge's resolution to vote on the repeal of the Sherman law on the 22nd inst.—would begin at once, possibly tomorrow.

IN THE HOUSE.

The program of the House has been definitely fixed by the adoption of the order introduced Friday but by Bland. The time will be devoted exclusively to consideration of the silver question, under the rules of the last House governing general debate. There are now between 90 and 100 names enrolled by the speaker, a great majority of whom probably expect to talk the full hour allowed by the rule. If it appears that the time for debate will be too short to accommodate all who wish to speak, night sessions will be held to lengthen the period, but this expedient, it is believed, will not become necessary before next week, with the exception of which the debate will close.

POSTMASTERS APPOINTED.

Nevada—Canaslaria, B. F. Edwards; Dayzel, A. D. Campbell; Incline, S. P. Marlett; Lovelocks, J. T. Reid; Revetile, J. W. Wilson; Wadsworth, J. M. Peay.

Utah — Washington, Washington county, Mrs. Hulda Pearce.

BREACH OF PROMISE.

A Suit Against Breckinridge by Adelaide C. Pollard.

WASHINGTON, Aug. 12.—In the supreme court of the District of Columbia today suit was filed for $50,000 for breach of promise against Representative William C. Breckinridge of Kentucky, by Adelaide C. Pollard.

The plaintiff charged that in April, 1884, when she was 17 years old, and a student at the Wesleyan Female seminary at Cincinnati, she was met by W. C. Breckenridge, who made her acquaintance on the plea of knowing her family, and that she was flattered by his attentions. He got permission of the president for her to drive with him and subsequently took advantage of her youth and inexperience. She avers that he got her completely under his control. The birth of two children (who died) and the premature birth of a third child is alleged as the result of this intimacy. After the death of his wife she was again in a delicate situation, and with protestations of love and affection, he induced her to continue the relations, and promised to marry her as soon as it would be proper for him to do so. From time to time, she alleges, the date for the marriage was postponed, until the 18th day of July, she avers, Breckenridge wrongfully and injuriously married another woman.

To an Associated Press representative Colonel Breckinridge said: "I have not had time to examine the papers in the case. I can only say at this time, before I have had a chance to know the extent of the allegations made, that my friends will believe that these charges are the result of vindictiveness, vexation, and perhaps an intention to blackmail, and I ask that they suspend judgment until a full hearing shall have shown all that is in them. I do not care to say anything further until I have an opportunity to consult with my attorneys and thoroughly examine the allegations."

The Plague in New York.

NEW YORK, Aug. 13.—Health Officer Jenkins at 9 p.m. issued a cholera bulletin, as follows: "Two suspects were isolated at Hoffman Island early this morning. They are Maria Bieno, aged 4 years, and Pasquale Lofedro, aged 19 years. A bacteriological examination shows that Gaiseppe Adamo, who was removed yesterday, is suffering from cholera. The census of the hospital tonight shows: Cholera patients, 14; patients not having cholera, 3 convalescent, 11 suspects at Hoffman Island, 2; total 30. All of the patients are improving. The disease is mild in character."

YELLOW FEVER.

The Disease Appears in Brunswick, Georgia.

WASHINGTON, Aug. 12.—The startling news comes by telegraph from Brunswick, Ga., to Surgeon-General Wyman that yellow fever has appeared in that city, and its first victim is a man who was sent there to guard against the scourge.

Dr. Wyman took immediate steps to prevent the disease from spreading. Surgeon Carter, who arrived in Pensacola tonight to take charge of the quarantine, was ordered to proceed immediately to Brunswick to see that the United States sanitary regulations are enforced. Surgeon Hutton, who had large experience in the Jacksonville yellow fever epidemic of 1888, arrived in Washington today from Detroit and was ordered to Brunswick.

NASHVILLE, Tenn., Aug. 12.—Twenty-six yellow fever refugees from Pensacola are sleeping in the city. They have been examined by health officers and permission given them to remain here. Nashville has never had yellow fever.

SAVANNAH, Ga., Aug. 12.—Savannah declares a quarantine tonight against Brunswick and no passengers, baggage or freight will be permitted to enter Savannah from that point.

MINNEAPOLIS FIRES.

A Million Dollars' Worth of Property Destroyed by Incendiaries.

MINNEAPOLIS, Minn., Aug. 12.—Two fires, presumably the work of incendiaries, destroyed over $1,000,000 worth of property this afternoon. The first was in a stable in the rear of the Cedar Lake ice company's house, and it soon spread to the ice house proper. From there, fanned by a quick breeze, it spread to Clark's box factory and then destroyed the boiler works of Libbey, Connell & Co., including a $7,000 riveting machine. The Lehigh Union Wagon works were also totally consumed, also a quantity of lumber belonging to various firms.

While the fire was at its height an alarm was turned in from the United district, at the other end of the island. Room island, as the place is called, was a mass of wood and lumber piles, belonging to Nelson, Tenney & Co. and Barnes & Co. This was blazing furiously and, fanned by a brisk wind, the flames soon spanned the narrow stretch of water and began eating their way among the lumber piles and residences in the vicinity of the river bank.

The flames left a path of blackness through Marshall street, and were practically stopped up the big brick structure of the Minneapolis Brewing company, although their loss is put at $150,000. All along Marshall street and through the entire section are small frame houses, occupied by laborers and several banks. They went like tinder when the flames first struck them, but the residents had scarcely time to move their belongings. In all 112 houses were destroyed.

The following is a list of the losses: Wilcox planing mill, $25,000; Palmer & Libby, warehouse, $25,000; Chatterton mill, $25,000; Backus mills, $25,000; Hove mills, $8,000; Smith & Corrigan mill, $10,000; Nelson, Tenney & Co. mills, $600,000; $1,000,000 loss of lumber, at $12 per 1000, $480,000; 19,000 10,000,000 shingles, at $2 per 1000, $20,000; cedar posts, etc., $10,000; Minneapolis Brewing company loss, $175,000; 112 houses, at an average of $500 each, $56,000. Nicollet island fire, $125,000; Bridges, $10,000. Total, $1,017,000. The Northern Pacific bridge and Plymouth avenue bridge were rendered useless by the fire.

THE SIOUX PROBLEM.

A Solution Proposed by John Temple Graves.

CHAUTAUQUA, N.Y., Aug. 12.—John Temple Graves, Henry W. Grady's successor, lectured here today on "The New Uncle Tom's Cabin," discussing the negro problem. He proposed a theory for its solution, which, briefly outlined, provides that the government set aside a large territory as a sovereign state, to be officered and controlled exclusively by negroes. The government would maintain troops to preserve order. Graves argued that the present plan a failure and the task is in the hands of the negro under the present conditions an unmanageable machinery.

Sacrificed Her Lip.

PHILADELPHIA, Aug. 12.—Rachel Boyle, 24 years of age, during religious excitement here today, cut off a portion of her lip and then stabbed it as an offering to God. She is in the hospital.

THE MEACHAMITE TROUBLE.

A Third Deputyville Killed—Plot to Beat Negroes.

JACKSON, Ala., Aug. 13.—The trouble with the Meachamites is at an end. The posse has disbanded and quiet reigns. Bate Burke, Jim Jordan and Mack Burke, three of the worst men in the gang and the acknowledged leaders, escaped by taking refuge in Stallips swamp. Kirk James was killed Friday night. He was captured in his field and put in charge of a guard of eight men, to be lodged in jail. A mob of 150 took him from the guard, tied his hands behind him, placed him in front of an oak tree and riddled his body with bullets. He makes the third man killed.

A plot to whip to death several leading negroes who voted for Jones in the Jones-Kolb gubernatorial contest has been unearthed. The citizens of Meachamite are panic-stricken. Many have sold out, and those who could not find purchasers have abandoned their property and left. It is reported that Neal Sims, brother of the notorious Bob Sims, has joined forces with the Meachamites, and if the two, further bloodshed will follow.

Alone Saved by a Dog.

BRINKSIDE, Pa., Aug. 12.—George Rohen was attacked by three masked highwaymen on a lonely road near here last night, but his wallet, which contained more than $500, was saved by his dog. The highwaymen attempted to go through his pockets, just as they were overpowering him he threw the wallet to the other side of the road, and before the footpads could reach it, the spaniel took the discarded treasure between his teeth and ran into the house. The footpads started in pursuit of the dog, firing their revolvers as they ran, and Rohen was soon left alone. Two hours later the dog came back with the money.

Peary Heard From.

ST. JOHN'S, Newfoundland, Aug. 13.—The Labrador mail steamer reports having spoken Peary's steamer Falcon at Davis inlet, northern Labrador, August 2nd. They had been storm-bound two days. Peary had been engaged in visiting the coast settlements for the previous two weeks, endeavoring to get dogs, but had not succeeded, and then prepared going to Disco.

A Preacher Causes a Sensation.

ST. JOHN'S, N. B., Aug. 13.—Rev. S. G. McNeil caused considerable excitement in the church tonight by announcing that a cable dispatch had been received to the effect that Queen Victoria had been stricken with paralysis. No confirmation had been received up to midnight.

A Reduction of 20 Per Cent.

Before adjourning on Saturday afternoon the Weber county board of equalization in session at Ogden adopted the subjoined resolution:

Whereas, Owing to the financial stringency which has prevailed this year, which will render many of our people unable to pay their taxes on the present basis of assessment without great hardships, and many, no doubt, would be unable to pay their taxes at all, necessitating a sacrifice of their property.

Whereas, We believe the exigency exists which renders it imperatively necessary to reduce the assessed valuation through the whole county, to the end that the people be relieved from a burden too onerous to bear under the conditions which at present exist, therefore

Resolved, That a reduction of 20 per cent be and the same is hereby made in the assessed value of all property in Weber county, including Ogden city, as the same now appears upon the assessment roll of said county and the clerk of this board is hereby authorized and directed to notify the territorial board of equalization of the action of this board.

REVIEW OF EVENTS ABROAD

The Tariff War Between Germany and Russia not Concluded.

The Don Juan Disaster—Honolulu Advices—The Cholera Riots Extending—Choleras in England.

BERLIN, Aug. 12. — Count Von Schouvaloff, Russian ambassador to Germany, has gone to St. Petersburg to try to counteract the German policy of Dr. Witte, Russian finance minister. General Von Werder, German ambassador to Russia, has been granted an audience by the czar. He was accompanied by Count Von Schouvaloff and both of them urged that a commercial entente be concluded between Russia and Germany.

It is reported that Dr. Witte, after the interview, orders to the czar that he would resign his office if the tariff war with Germany was abandoned without concessions being made by Germany. Witte was strongly opposed by the imperial council, and the czar was obliged to give way to him in the matter. The latest news from of the struggle does justify the official warnings issued here to the public, not to view the reports that a settlement of the tariff question was close at hand. On Saturday the emperor signed a decree adding 50 per cent to the duties collected on Russian products imported into Germany. This increased tariff will practically equal the rate of the existing tariffs of trade in Germany.

THE DON JUAN DISASTER.

Further Particulars of the Burning of the Steamer.

SAN FRANCISCO, Aug. 12.—Further particulars of the burning of the steamer Don Juan off the Chilean coast are received here today. The Spanish steamer Don Juan left Hong Kong for Manila with a full crew and all the Chinese that could be stowed away. Thirty miles off Dampayes Point fire was discovered between decks. It soon spread to 1000 cases of petroleum, and then all hope of saving the ship was abandoned.

Two lifeboats were destroyed by the flames and the others were capsized by the Chinese. The sharks made short work of these, and in this manner the second engineer, quartermaster, steward and seaman officer lost their lives.

On the fire being discovered most of the Chinese ran up the rigging and other high places. As the fire increased in intensity the poor wretches dropped on the deck and into the fire. Others jumped overboard and were devoured by sharks. Those who reached one of the boats filled it to excess and the sharks leaped into the air to snatch their prey.

Including officers and crew there were 365 people on board. Too sharks and flames must have devoured 182.

All Quiet in Hawaii.

SAN FRANCISCO, Aug. 12.—Honolulu advices to August 2 report Minister New York, arrived today to the effect that everything remains quiet, though there have been a few absurd rumors of a royalist plot, to which the government paid no attention.

Taxes are coming in freely. Spreckels & Co. have paid all their personal taxes and have already returned schedules on their real property.

The Americans there are much pleased by the change in Blount, who, since sending his report forward, has dropped the exclusive habits and mingles freely with Americans. The impression now is that he is friendly personally to annexation.

Japan and Hawaii.

SAN FRANCISCO, Aug. 12.—Mail advices from Yokohama up to July 21st, state that the authorities are said to have under consideration the sending of a minister to Hawaii, instead of a consul general. The great increase in Japanese emigrants and the political condition of the islands warrant the step.

Fog in the Channel.

LONDON, Aug. 13.—A dense fog covered the English channel all Saturday night and up to noon today. Such a phenomenon in August is unprecedented. Several casualties are reported. The steamship Ville de Douvres collided with an unknown steamer. The unknown vessel disappeared immediately from sight and it is believed she has been badly damaged.

The British cruiser Forth rammed the British steamer Kerby. A bad hole was knocked in the Kerby's port-side amidships. The Kerby was towed to port by the Forth.

The Bombay Riots.

BOMBAY, Aug. 13.—The religious riots which broke out a few days ago are extending. Up to the present time more than fifty persons have been killed and fifty 1200 have been arrested.

Italians Abroad.

NEW YORK, Aug. 13.—Three Italian warships, Vittorio Emanuele, Amerigo Vespucci and Flavio Gioia, reached this port this afternoon from Annapolis. These ships have on board 300 naval cadets from the Italian Royal Naval school at Leghorn. Many of the cadets have come from royal families.

Cholera Reports.

LONDON, Aug. 13.—Official returns show a great increase in cholera in Russia in the last week. In twelve provinces there were 1866 new cases and 720 deaths. In Moscow City there was an average of thirty cases and fifteen deaths daily.

LONDON, Aug. 13. —Another death from cholera was notified to at Grimsby on Friday.

ROME, Aug. 13.—In the twenty-four hours ending at noon today there were five new cases of cholera and two deaths in Naples.

Attempted Assassination.

PARIS, Aug. 13.—M. Lockroy, a former cabinet minister, was fired at by a man named Moore, a notorious anarchist. The surgeon found that his flesh had been badly torn, but they could not say if the bullet had lodged in the body or not.

Take Good Care of the Children.

For summer complaint in the children, there is nothing so good as Chamberlain's Colic, Cholera and Diarrhœa Remedy. It cures dysentery, diarrhœa and cholera infantum, and never fails when used in time and the plain printed directions are followed. When reduced with water and sweetened it is pleasant to take. 25 and 50 cent bottles for sale by Z. C. M. I. Drug Dept. dds
