The assembled institutions of the members was the long sound on-speaking with the San Francisco Press club, which had given 50 on the main, so, if desired, they would take the initiative. The sum of $20 dollars was contributed from the association funds, and many of the members signified their intention of personally contributing. A committee was appointed to circulate all press clubs throughout the Union in conformity. This is to give each member an opportunity of the Kate Field and also to have a sufficient sum enough to place a monument over her final resting-place which, as our club, shall have been selected. It is estimated that a fund of $1,000 will be required. The club expects to take charge of the remains when they reach San Francisco, and a memorial service will be held.

"The Niagara Falls Route."

The management of railroads in the state of Western gave to our account for 1895, the following valuable and eloquently setting forth the superiority of the Michigan Central, "The Niagara Falls route," from Chicago to New York, Boston and the east, after a careful investigation of the subject.

"Nothing can be added to the way of favorable comment on this excellent route. The main line and its perfection in the way of construction, equipment, service and also running, need no one to be mentioned in business publications. Periods of equipment have been spared to make it the most cultured of the country. Improvements are constantly being made in the way of depots and substantial construction, interlocking equipment, etc. The general appearance of the property, the symmetry of the grounds, cleanliness of the road in way, the new buildings with ornamental and well kept grounds and perfect fences, attract special attention."
