FUNERAL OF SENATOR HEARST.

The Services are Brief and of a Simple Character.

WASHINGTON, March 5.—The funeral services over the remains of Senator Hearst, who died last Saturday, were held at his late residence at 10 this morning and were brief and of a simple character. Rev. Douglas of St. John's Church took the Episcopal service for the dead, after which he read the hymn "Jesus, lover of my soul."

The casket rested in the large drawing room of the house and was hidden in that and a portion of the hall with an immense pile of the valley, offerings sent by the President and Mrs. Harrison, Vice-President Morton, Senator Stanford and others.

Cook Farnum Deserts His Bride.

CHICAGO, March 5.—The *Daily News* Springfield, O.: A sensation was caused over the question by Cook Farnum, nephew of Senator Farnum, of Miss Emma Layton, his intended bride. Last week Cook Farnum of Bonez Lake, Cal., went to Columbus, O., to marry Emma Layton of Waterville Avenue. The wedding was to have taken place yesterday, but at the hour appointed Farnum did not put in an appearance, and this evening Miss Layton received a letter from him, postmarked Springfield, in which he announced that he intended to commit suicide.

Farnum was for six years in the navy, serving part if not all of the time on the *Alert*. He is quite wealthy, and besides being interested in land, owns he owns several oil wells in Southern California. Last Sunday he visited Miss Layton and at the time there her employer and old friend called to bid her good-bye. As he was about to leave she kissed him before her lover. Farnum remarked at the time that he did not consider that right. In his letter to Miss Miss Layton that in his opinion she loves her employer better than himself.

The January Statement of the Chicago, Burlington and Quincy.

CHICAGO, March 5.—The January statement of the Chicago, Burlington & Quincy shows a decrease in the gross earnings of $137,970, as compared with the same time last year. The net earnings after allowing for all the expenses except dividends, show a deficit of $177,274, against a profit of $192,322 in 1890, or a decrease of $369,594. One considerable cause of the large falling off was the failure of the corn crop last year. The gross earnings from the transportation of corn from points west of the Missouri River in January, 1891 were 300,000, by reason alone the falling off was nearly, if not entirely, all on the lines west of the Missouri River. In fact, statistics compiled by Chairman Midgley of the Western Freight Association show that the Burlington line between Chicago and Kansas City made much better comparative showing than any other line for corn from points west of the Missouri River to Chicago. Omaha lines also show a large percentage of increase than any other. The opinion seems strongly expressed by the traffic officials of Western roads that the unfavorable conditions will change in April.

Allen by for the appointment of a receiver for the Louisville, New Albany & Chicago Railway, in which the court decreed that the road was not entitled to a receiver before a master or the production of the concerning books for examination. The court, in conclusion, said it could not, for reasons of the motion for a receiver and production of books and papers should not be made, as a Allen bill on its face did not warrant any conclusion that the plaintiffs and relators are in manuscript throughout. It was formerly known as the Mazarin Bible.

MEMORIAL IN BEHALF OF THE RUSSIAN JEWS.

Tariff Opposition Before the Congress of the Argentine Republic Worse than McKinley's.

By Telegraph to the News.

WORLD'S FAIR MATTERS.

The Report of the Committee on Ceremonies—Minor Items.

CHICAGO, March 5.—The report of the World's Fair committee on ceremonies is completed. It provides for a grandiose military display and parade under the direction of the Major General commanding, on Tuesday, October 11, 1892, regular dedatory exercises Wednesday, a grand ball on Thursday, and the whole to culminate with a grand 24 hour display Friday morning.

Director General Davis, Vice-Chairman McGrann, and Secretary Dickinson and Chairman, who have been ill with the grippe, are improving in health, and convalescing, but word comes from Detroit that President Palmer of the National Commission is very ill, and doctors are concerned.

MEMORIAL WILL BE RECEIVED.

The Bureau of American Republics is informed that Lieutenant Commander United States Navy, recently appointed Commissioner for the World's Columbian exposition to Mexico has sent a memorial addressed to the President by United States Minister Egan, and delivered the invitation from the President of the United States to that republic to participate in the exposition. President Diaz, in reply, expressed the greatest interest in the exhibition, and said Mexico would do herself credit at Chicago.

THE RUSSIAN JEWS.

Memorial Presented to the President in their Behalf.

WASHINGTON, March 4.—William E. Dodge, of Chicago, today visited the President, in company with Secretary Blaine, and presented a memorial in behalf of the Russian Jews. He explained that the memorial was the result of a conference of Christians and Jews recently held in Chicago, and called special attention to the fact that it did not ask emigration lands, but only sought in a peaceful way to give the Jews control of their homes in Palestine. The President listened intently to Mr. Dodge's remarks, and promised to give the subject serious consideration.

NO AUTHORIZATION FOR PHILADELPHIA.

The bill providing for a new mint building at Philadelphia failed to make any appropriation, and was recommitted to Rm the general appropriation bills. Therefore the act cannot be put into effect, and Philadelphia will have to come to the next Congress for a $2,000,000 appropriation.

RADICAL REVENUE LAWS.

The President of the Argentine Republic Proposes a Tariff.

WASHINGTON, Mar. 5.—The bureau of American republics is informed that the President of the Argentine Republic has recommended to Congress several radical revenue laws which have created little enmity against the administration in commercial circles. The President, in his message, holds such measures absolutely necessary to maintain the credit of the government, and asks their endorsement by Congress, but Congress has not yet ratified the suggestion. He proposes, first, to impose an export duty of 5 per cent on tallow, wool, animal oil, horns, jerked beef, bone ash, bone hair, hides and skins, bones, wool, tallow and ostrich feathers, which is equivalent to the great bulk of the exports of the Argentine republic.

It is also proposed to materially increase the import tariff and impose a license on vessels under foreign flags in the coastal trade.

Another decree recommends a license tax of $5,000 on foreign insurance companies, and requires a deposit of $100,000 as a guarantee before they may be allowed to continue business. It further requires foreign insurance companies to pay a tax of 1 per cent on premiums received from policies issued in the Argentine Republic. This course will cause a reduction in the business of life and fire insurance companies of the United States which have branches in the Argentine Republic.

The decree also imposes a tax of 2 per cent on the gold and paper deposits of private banks, which will greatly damage the greatest business of the English, French, German and Italian banks now established in the Argentine Republic, with a capital exceeding $75,000,000 of gold.

The new decree requires all taxes, custom duties and licenses to be paid in gold.

MORE BANKING DISPATCHES.

Washington Not Confirmed.—Gold Bullion.

WASHINGTON, March 5.—The following nominations failed to receive confirmation in the Senate: James H. Beatty, United States District Judge for United Lake Dist. Mich. Gilbert to the Mint of New Orleans. In the case of Beatty the nomination was recalled by the Idaho Senators on the ground that he was an active partisan of the Chapel faction, which sought to invalidate the election of Senators Dubois and Shoup. Senator Farwell, a warm friend of Dubois, caused the failure of the nomination by the demand that it be over for a day, which carried it over March 4th.

GOLD BARS AND GOLD COIN.

The Treasury Department is already called upon under the act to amend, approved by the legislative, executive and judicial appropriation bill, authorizing the Secretary of the Treasury to exchange bullion deposited in the exchange of gold bars for gold coin, and also to impose a charge for such exchange. Heretofore the statute regulating this matter has been construed by the Treasury Department as applied the imposition of a charge. Under the new law the policy of the Department will be to charge four cents per hundred dollars in value for all gold bars tendered for shipment and, if it be felt, the question will then be considered as to the advisability of refusing allegations to exchange gold bars for shipment, from consulting the shipper in the gold coin or to obtain gold coin from private parties. A ruling to this effect was first made yesterday, on a telegraphic order for $50,000 in gold bars for shipment from New York. The Director of the Mint, with the approval of the Secretary of the Treasury, ordered that a charge of $200 or fraction per $100, be made for the exchange.

OFFERING OF EIGHT MILLION ACRES FOR SETTLEMENT.

The legislation enacted by the last Congress in ratification of the various treaties heretofore concluded between the Government on the part of the United States and the various Indian tribes will result in the opening of over 4,000,000 acres of public land for settlement. The election is conceded to be the hottest ever contested in this city, and neither party is over confident.

In Montreal there is little to indicate that this is a contest day, except the block of seen gaiety on the street corners concerning the prospects, which are as yet so problematic as ever. The vote is expected to be larger within the history of politics, it is being polled quickly and systematically polled.

By Telegraph to the News.

SIR CHARLES DILKE.

Abandons Hopes to Be Candidate for the Parliament.

LONDON, March 5.—A long statement has been issued in his name, lately separated among the electors in the Dean division of Gloucestershire, on behalf of Sir Charles Dilke. The Pelagary Cloth is so amount could not the electors of the division not asked Sir Charles Dilke to be their candidate for Parliament, at the coming general election. He assumed, however, he had fair assurance from Kimberly at the liberal caucus that the candidacy would receive Gladstone's support. Now it is learned that Sir Charles has supplied the local organization with a statement for private circulation, challenging himself against the charges made against him in connection with the famous Crawford-Dilke divorce case. According to the statement, Lady Dilke sought to have been her confidential mentor, and said Sir Charles. Referring to the notorious "Fanny," the pamphlet says she is now happily married and known as Mrs Stewart.

The pamphlet says that Mrs. Crawford, during the divorce proceedings, made the assertion that "Fanny" had been for Charles Dilke's mistress and informed her own lawyer by swearing that her "Mr. Crawford," and "Fanny" had been in bed together with him. "Fanny" has made a statutory declaration, giving a full account of herself and a severe denial of Mrs. Crawford's story.

The general opinion seems to be that the pamphlet will renew the agitation of years gone by, and will probably also vote to Sir Charles' side a number who previously have been inclined to think that it will fail to completely vindicate him.

It is probable, however, that Sir Charles will abandon the idea of renentering Parliament. Gladstone having objected to his proposed candidacy.

Sir Dilke has published a protest against Dilke's return.

She Has Not Enough Men-of-War to Protect Her Interests.

BERLIN, March 5.—During a debate on the navy estimates in the Reichstag today, Herr Jensen, a shipowner, complained of the failure of Germany to send a men-of-war to Chili. He argued that a British man-of-war did not adequately protect German interests.

Admiral Heinsen replied that with the multiplicity of naval stations it was impossible to send a men-of-war to Chili. He urged the Reichstag to sanction the proposed increase of estimates for the naval service.

It was remarked at the court concert yesterday that the Emperor was markedly cordial to Madame Hartwig, wife of the Russian ambassador. The general stage over the marked cordiality of French Chamberlain is amusing.

An English Lady Said to be Confined in a Lunatic Asylum.

LONDON, March 5.—A curious and startling case will shortly be tried in the courts here. It appears that Mrs. Cathcart, a wealthy lady of Guildford, Surrey, has been confined in a lunatic asylum and all efforts of relatives and friends failed to discover her whereabouts. Quite recently, however, friends traced her to a lunatic asylum, where she has been confined at her husband's instigation. Mrs. Cathcart is in possession of an estate valued at $3,000,000, which reverts to her husband if he can have her certified as of unsound mind. Mrs. Cathcart's relatives insist that she is in full possession of her senses, and consequently a long and interesting trial is expected.

Murdered Prematurely by Green Goods Men.

BAY CITY, March 5.—The body of Andrew Poulsen was found today in the woods near here, horribly mutilated. Poulsen was arrested several months ago for selling to green goods dealers, and the case is now pending. The theory is that the green goods men determined to get him out of the way. Henry Hamilton was arrested on suspicion, as he was with Poulsen last night.

Passengers Without Passport.

BERLIN, March 5.—German officers entered all the trains at the Alsace-Lorraine frontier and turned over a large number of passengers whose passports did not conform to the new law. The Berlin newspapers heartily approve the policy expressed in the address of the Alsace-Lorraine Parliament yesterday to the Emperor, as the first expression of such relative since the annexation of the province. It is generally thought the Emperor will accede to the Parliament's appeal for the repeal or mitigation of the enlarged passport regulations.

Victory of Workers.

PITTSBURG, March 5.—Today Operatives of Pittsburg and Allegheny and Westmoreland as agreed with the mine owners to go back at the old wages. The men are pleased, and it is expected that several small operators will follow.

Buckley Said to Be a Mere Tempter.

ALBANY, March 5.—A resolution was reported to Governor Hill today, signed by Morgan C. Bulkley, prosecuting Commissioner, for the return of John T. Calhoun, charged of Brooklyn. Governor Hill again refused. Mayor Boultley's appointee as governor to go on that footing, was a mere tempter and tempted by Buckley. Hill had a lengthy opinion, in which he says Buckley is a mere tempter.
