

## GOLDFELD AND LABOR PROBLEM

Red Hot Editorial is Devoted to The Western Federation Of Miners.

### PATENT FACTS SET FORTH.

Goldfield News Asserts That Organization is Brazenly Anarchistic and Treasonable and Cites Instances.

Under the caption of "No Compromises With Crime," the Goldfield News of Saturday last has a red-hot leading editorial devoted to the labor conditions in that mining camp in general and the Western Federation of Miners in particular.

It is herewith reproduced in full: There is not a man in Goldfield, mine owner, merchant or of whatever occupation, who wants to see union labor driven out of camp.

There is not an employer of labor in the district who would not rather have union than non-union labor. These two facts are so patent that they would not be repeated were it not that an attempt is being made to induce the outside public to believe that the present struggle is not so much against any particular organization as against union labor generally, with the view to making Goldfield a "scab" camp throughout and thus to enable to reduce wages in every line of industry. We believe we speak advisedly when we assert that the fight of the mine operators is not against union labor as such, but against the particular organization known as the Western Federation of Miners. This they do not regard as a labor union at all, but a semi-political organization devoted principally to the dissemination of an anarchistic and treasonable propaganda. It has kept the community in constant turmoil. From the first the mine operators have been encouraged by the organization's teachings to take the attitude of open enmity to the mine owners, giving them protection and comfort in criminal courses and tending to create and maintain a terrorism in the name of labor.

### "BRAZENLY ANARCHISTIC."

But worse than all, the Western Federation of Miners has shown itself to be not only socialist in its tenets and policies, but brazenly anarchistic and treasonable. There is no law, apparently, that it is bound to respect; no pact between men that it must obey. As an organization, it has reviled the flag of the country which gives it protection and has outlawed itself by rejecting its Constitution. It is such an organization and dominated by such influences and leadership, that it cannot exist in any community without being a menace to the peace and safety of the loyal, law-abiding and law-respecting citizens. Their open insults to the flag have not been infrequent by any means. They and again they have flaunted their treasonable emblems before an outraged people here in Goldfield. In the parade of the Western Federation of Miners on Sunday, Jan. 26, a demonstration was held in favor of Mexico and Haywood, then in prison at Boise for murder. The miners paraded the streets with nothing but red flags as banners. The most conspicuous banner was one at the head of the parade with black letters underscored with white, bearing these words: "If they pack a jury to kill our men, we will pack hell full of them." Another banner bore the legend: "A capitalist for every hair of our brother's head."

### RESOLUTIONS ADOPTED.

The evening of this day, the 26th of January, the local union adopted fiery resolutions in behalf of the revolutionists of Russia, which, after reciting a most violent preamble read as follows: "We, the working class of Goldfield, Nevada, in mass-meeting assembled this 26th day of January, 1907, under the auspices of the Industrial Workers of the World, the Western Federation of Miners, the Socialist Party of America, and to you true revolutionary greet, etc."

"You are our brothers and sisters in the international working class revolution. Your enemies are our enemies. Your cause is our cause. Your victory is our victory."

"We have no enemy but the capitalist class."

"Our country is the world."

"Our flag is the banner that is dyed red with the martyr's blood of our class."

"Down with capitalism."

"Long live the international working class republic."

These resolutions were submitted by a committee composed of Robert Randall, now representing the local miners' union at federation headquarters at Denver, by B. H. Donnelly, at a time president of the local branch and R. H. Rogers and Harry Jardine, both prominent in local 226. The resolutions were adopted without a single dissenting voice and by these resolutions, the local miners' organization adopted as their flag "the banner that is dyed red with the martyr's blood," or more concisely, the "red flag of anarchy." It announced itself a revolutionary body and its only enemy, the "capitalist class."

And still this organization that has declared war upon property and property owners; against employers and men of capital, in very much aggravated that the loyal citizens of Goldfield will

## You don't really know what's good until you use Ghirardelli's Ground Chocolate

Francis Broussais, a noted member of the French Institute, says: "I attribute my cures of chronic dyspepsia to the regular use of chocolate." This is corroborated by the personal experience of thousands who have adopted Ghirardelli's Ground Chocolate as a beverage instead of coffee. It is a stimulating, strengthening and sustaining food, which increases the user's capacity for both physical and mental labor. Ghirardelli's Ground Chocolate is in every way superior to the out-of-date cake chocolate. It is the original genuine ground chocolate and is prepared by the exclusive Ghirardelli process by which pure chocolate and pure sugar are thoroughly and perfectly blended. It is prepared instantly by the addition of boiling milk, and is a delicious treat to be used at any meal. Ghirardelli's Ground Chocolate will be found superior to cake chocolate for cakes, puddings, etc., to which it imparts a most delicious flavor as well as tending to make them lighter.

Send your name and address to D. Ghirardelli Co., San Francisco, for their cooking recipes, entitled, "Live Well, Live Long."

### MEMBERS EXPELLED.

On January 26, this year, this staunch, loyal band of patriots expelled two members of the United States government as deputy marshals.

The announcement of their action was as follows: "At a regular meeting of the Goldfield Miners' union No. 229, Jan. 26, 1907, there was passed a motion to expel two members of this union for prostituting their offices as deputy marshals in order to intimidate the laboring brothers and refusing to resign their offices. It is provided by this union to place in the hands of the miners' magazine, the names are: Ed. Sheldan and Charles Smith, better known as Goldtooth and Smithy." This announcement, which was published in laboring papers issued by the Miners' union, was signed by Harry Jardine, recording secretary, Dan Roush, president, and V. A. Will, secretary. Many cannot belong to the Western Federation and serve their country too. Loyalty to country is treason to that organization which proclaims that it has no country. "Our country is the world," our flag, the "banner that is dyed red."

### JUDGE THREATENED.

On May 8, this year, Judge Frank Langan came to Goldfield to try the cases of Preston and Smith, Western Federation leaders, for the murder of one Silva, a restaurant keeper who had become obnoxious to the miners' union. Upon his arrival, he found the following threatening and intimidating letter in his mail:

Goldfield, May 4, 1907. Dear Judge Langan—

Dear Judge—There are two of our boys now being tried in your court and I want to tell you now that if you hang them or send them up for life you will die like a dog. (Skull and Cross Bones). BEWARE. For every man of ours you kill or send up to the pen we will kill one of you for every hair in the man's head of ours you kill.

Jack Davis, Claborn, Bliss, Wingfield and lot more. That traitor a—b—(name) we will get him soon. Take warning all.

(Signed) DEATH.

The people of Goldfield have seen many illustrations of the insolent tyranny of these leaders of the Western Federation here in Goldfield. Last winter they insulted the community and again by their arrogant assumption of authority over every man and every business house in the camp. But they never had quite the strangle hold here that they had in some other camps. There the mine owners and citizens had to enter into compacts with the Western Federation whereby they were to be spared from violence in their lives and property.

### VINCENT ST. JOHN.

Vincent St. John was recognized as the head of the radicals of the Goldfield Miners' union, an organization of the radicalism of that gentleman and his associate highlanders, we reproduce the following copy of a paper dated July 2, 1907, by and between Vincent St. John, president of the Miners' union of Telluride, Colo., and Arthur Collins, assistant manager of the Smelter Union M. S. Co., (said Collins was afterwards assassinated). It is hereby agreed between the Miners' union by Vincent St. John, president and the Smelter Union M. S. Co., by Arthur Collins, assistant manager, that the said mine shall cease for a period of three days ending Friday, that said Miners' union will refrain from violence as to the personal property of the said mine, said Smelter Union mine may employ four guards during the period.

### WILL ROOT IT OUT.

The mine operators and business men of Goldfield have wisely concluded to root out this Western Federation of Miners, before they get into the position of the people of Telluride, Colo., where a mine operator had to get written consent of the president of the Miners' union to put guards upon his mine, while the mine was in forced idleness for a time at the demand of the union.

The people of the United States will be advised by declarations and actions of the Western Federation, that it is not because the miners have banded together in a labor union that war has been declared upon them, but because they are a part of a federation that is treasonable to the country, revolutionary in principles and teachings and tyrannical and lawless in its operations and pretenses; and the business men of Goldfield and these anarchists cannot live side by side in the same community. We will not compromise with crime.

### CHARGED WITH MURDER.

Complaint Alleges That Vance Beat And Poisoned His Wife. Thomas Vance must answer for the murder of his wife, Mary Vance. The formal complaint charging murder in the first degree was issued by the county attorney's office yesterday, and is signed by Deputy Sheriff Irvine. In the first count it is charged against Vance that he beat and kicked his wife, the second charge that he then placed some unknown poison in a glass of water which he placed where she would drink it, then assigning the two

offenses charged as the cause, he is charged in the third count with bringing about the death of his wife. The beating occurred on Thanksgiving day and Mrs. Vance lingered between life and death until Dec. 8, when she died in a hospital. Before dying she wrote a statement charging Vance with brutal treatment and cruelty almost since the day they were married.

### CITY PATCHING BLUNDER.

Fire Department's Crude Work Being Offset by Health Department.

Probably to offset the miserable work of the fire department in its futile attempt to check the Redman warehouse fire, the city is hauling away the debris from the scene of the blaze at a cost of \$2.50 a carload. Redman is paying the transfer charges from the Short Line tracks to the Banhamer tracks, and then the cars are hauled to the sewer farm and dumped. The work is being done under the supervision of the health department. The "garbage" consists of burned furniture, mattresses, springs and the thousand and one other things which were stored in the warehouse at the time of the fire.

ONLY ONE "BROMO QUININE." THAT IS LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 3c.

### PASSES BOGUS CHECKS.

F. M. Sinclair Arrested for Buying Goods With Worthless Paper.

A man giving the name of F. M. Sinclair, and his occupation as engineer, was arrested by Officers Taylor and Golding at the Knutsford hotel last evening on the charge of passing bogus checks. It is claimed that the man passed a check for \$10 on E. Meheey, the fur dealer. It is also charged that Sinclair passed a \$40 check on Mullett & Co., clothiers, and that both checks proved to be worthless. At the fur store Sinclair bought a kangaroo coat valued at \$85 and a number of other articles. Late in the afternoon he ordered a \$44 bill of goods from Mullett's and ordered the things sent to his room at the Knutsford. He offered in payment a check on the First National bank of St. Louis. The check was not accepted. Mullett began inquiring about his check and found there was no such institution as the First National bank of St. Louis. Sinclair says he is from Tennessee, but his belongings indicate that he came here from California.

Shake off the grip of your old enemy, Nasal Catarrh, by using Ely's Cream Balm. Then will all the swelling and soreness be driven out of the tender, inflamed membrane. The cream balm will soothe and soothe the discharge, as offensive to others as to yourself, will be stopped when the causes that produce it are removed. Cleanliness, comfort and relief. The use of Ely's Cream Balm. Sold by all Druggists for 5c, or by mail by Ely's Brothers, 86 Warren Street New York.

All coal \$5.75 per ton delivered. CITIZEN'S COAL CO. Both phones 49. 153 Main St.

### NOTED ARCTIC EXPLORER.

Local Norwegians Trying to Secure Date for Captain Roald Amundsen.

Local Norwegians are making an effort to secure from the manager of Capt. Roald Amundsen, the intrepid Arctic explorer, a date for a lecture in Salt Lake. Mr. Amundsen will pass through this city Feb. 23, on his way to the coast. He speaks the English language fluently, and some of his lectures are delivered in that tongue.

Recently Capt. Amundsen was the guest of honor at the annual banquet of the National Geographic society, at which were present upwards of 400 members. Among the persons of eminence in attendance were Vice President Fairbank and Mr. Fairbanks presented Capt. Amundsen with the society's gold medal, which had been specially engraved with suitable device. The medal contains \$20 worth of gold, and on its surface is a design of the Arctic map, with an emblem of the North Pole, emphasizing the credit that is accorded Mr. Amundsen for having located the pole. When presenting the medal Vice President Fairbanks said: "You, captain, have helped the science of the world to gain a certain knowledge about the magnetic north pole, where before there only existed a well founded theory. During the past 400 years many vain attempts have been made to navigate the Northwest Passage, and many lives as well as tremendous sums of money have been lost in all these futile expeditions. Many renowned names are tied to the history of the Northwest Passage, and you and you alone have achieved that goal for which all other courageous heroes fought but failed. That this honor belongs to a Norwegian is a matter for congratulation, for your country has presented a large number of very excellent citizens to the United States."

### REDSKINS ARRESTED.

Skull Valley Braves Load Up on Fire-Water and Stir Things.

Five Skull valley Indians were hauled to police headquarters last night from their camp on Fourth West street to prevent bloodshed. "Fire-water" was the cause of the trouble. Wash Skeguit took it into his head that Indian Wess was trying to steal a little Indian maiden. Both redskins loaded up on "firewater" and started on the warpath. Officer Davidson put a stop to the row by taking four men and equipping to headquarters. The squaw, with a couple of children, was permitted to return to the camp but the men were locked up on the charge of drunkenness.

### NEW RATES ANNOUNCED.

Rio Grande's Lower Rates Between Salt Lake and Outside Points.

The Rio Grande announces new permanent rates effective at once. These will hold good until some different rule is made. The circular explains these as follows: (the larger figures cover round trips, the smaller one way trips): Price and Salt Lake, \$5.00; Price and Mantle, \$2.15; Price and Price, \$2.50; Price and Hooper, \$2.50; Price and Castle Gate, \$2.50; Price and Kyuse, \$1.85; Price and Thistle and Colton, \$1.50; Price and Soldier Summit, \$1.25; Price and Tucker, \$1.50; Price and Mill Park, \$1.50; Price and Thistle and Salt Lake, \$1.50. Fare to points intermediate between Price and Salt Lake, passing through Thistle in Utah east of Price and west of Salt Lake will be made by addition of the regular fare to Price or Salt Lake as the case may be, plus the rate beyond in accordance with the above.

### RETURNED MISSIONARIES.

Have you a friend or acquaintance in your former field of labor, to whom you would like to send a copy of the Semi-Weekly News? If so, take advantage of our special offer, made to aid the great missionary work. We send the paper one year to any point in the United States, Canada or Mexico at half price, \$1.50. It does not apply to points where there are regular wards or stakes. Foreign postage extra.

10 cents a package. For sale by all Grocers

### DR. PRICE'S WHEAT FLAKE CEREAL

By recent scientific experiments, Dr. Price, the famous food expert, has recently produced a Wheat Flake Cereal Food, which is highly nutritious, easy of digestion, and a most delicious every day food for all classes.

10 cents a package. For sale by all Grocers

## SEVEN INCHES OF SNOW FALLS HERE

Big Storm Came Just Too Late to Make Christmas Ideal.

### MORE PREDICTED TONIGHT.

Few Wires Go Down But No Great Trouble Experienced—Thaw Makes Walking Miserable.

Dr. R. J. Hyatt has established a record; he has thrown over all history and repetitions of history inasmuch as he predicted snow and snow came—nearly seven inches of it. The stiff wind of yesterday afternoon became a gale right after supper time, attaining a velocity of 40 miles an hour around 7:30 o'clock. Shortly after a mist began to fall; this developed into a drizzle and by curfew time—minus the curfew—it was raining "cats and dogs," as grandma used to say. This changed into snow after a half hour's fall and by how it did snow! This morning saw everything covered with white and for a few minutes before the sun climbed over the hill tops the world had a most wintry appearance. Many a child sighed and said, "Oh, if this had only come Christmas!"

### NO GREAT TROUBLE.

Car lines all over the city were blocked for a short time and as the snow was damp and heavy some little difficulty was encountered in getting the lines cleared in time to bring Mr. Workman and his fellow-laborers down to their benches in time. Things new plows and sweepers were put to a test and did noble work. On the Ashton avenue and Sugar House lines in the southeastern part of the city had blockades held away for some time. At one time 12 cars were held up on Ninth East but this was not due altogether to the storm, as a broken rail was partly responsible. A few telephone wires went down; those running into the sharp-plats, among others, but no electric wires went down. The snow in being soft and heavy fell from the wires. The minute the sun struck them, THAW FOLLOWS.

Walking by noon became a sort of swimming, sliding process with chances leaning toward collisions with a treacherous pavement. In the business district bunches of men were put to work by the city and street car company clearing away the snow and switches. Out in the residence districts the streets rapidly became seas of mud and many a Christmas pair of shoes lost their glossiness. Tonight will see a colder run and more rain at St. Ste. Marie. High barometric pressure was reported over the Pacific, Gulf and Atlantic states, causing fair weather over most of the country. Temperature zero to 15 degrees below occurred over portions of North Dakota, Minnesota and British northwest territory.

### CLASSIC DISCUSSION.

The weather map covered with queer lines and figures has the following word to say in the weather bureau's classic style: The low barometric pressure extended from the middle plateau northeast to the upper lake region, attended by rain or snow over portions of Oregon, California, Idaho, Washington, Nevada, Utah, Wyoming, Montana, lake region and British northwest territory, with snow at time of report and more rain at St. Ste. Marie. High barometric pressure was reported over the Pacific, Gulf and Atlantic states, causing fair weather over most of the country. Temperature zero to 15 degrees below occurred over portions of North Dakota, Minnesota and British northwest territory.

### STORM IS GENERAL.

While detailed reports did not come in this forenoon enough word was received to show the storm has been general all over the state and undoubtedly Idaho and Montana saw considerable precipitation. A stiff wind at Logan on the north brought nearly three inches of snow during the night. As the case in this city, Logan's snowstorm was preceded by rain. Bureau reports two inches of snow and probably more coming. Ogden had a little snow and a cold wave. Mantle reports a slight fall and unsettled conditions. Provo had a little snow during the night, but the day dawned bright and warm or as the obliging operator there said, "I imagine I'm in southern California." So while general it appears the storm was lighter in the southern portion of the state.

### SHEEP SHOW DECREASE.

A report to be submitted by the state sheep inspectors soon will show a decrease of 255,534 sheep in the state, due partly to the actual falling off of the industry and partly to the fact that in 1906 many lambs were dipped, which would have been out of the state at any other season. The decrease is due to the sheep taken during dipping in the spring of last year. Roughly the number of sheep in the state now is figured at 1,775,610. It is a minor item in the Utah sheep and as explained in previous issues of the "News" the Utah raisers are paying more attention to quality than quantity.

### HAVERSTICK VISITS CITY.

Finds Federal Building in Excellent Shape and Commends Kessler.

Major W. Haverstick, general inspector of supplies for public buildings in the United States treasury department, was in Salt Lake yesterday inspecting the Federal building. Major Haverstick examined heating, lighting, furniture and fixtures, and found all in excellent shape; as pleased was he with conditions that he complimented Acting Custodian Kessler very highly. The 400 buildings maintained by Major Haverstick's department cost last year \$429,000 for lights, \$407,000 for heat and \$7,000 for water. These figures are to be reduced, as Major Haverstick has found many cases of negligent waste and needless consumption. The department is not anxious to have anyone go without light or work in cool rooms, but it does want employees to be careful and considerate. To remedy such affairs is the purpose of Major Haverstick's visit. He goes to Boise from Salt Lake.

### SHORT LINE CHANGES.

The Oregon Short Line announces a number of changes in the operation of its trains. No. 3 Southern Pacific out of Ogden will leave at 6:25 in the morning on its heretofore. The Yellowstone special Idaho express trains, Nos. 15, 163 and 4 between Salt Lake, Pocatello and Huntington, will be discontinued and a new train to connect with the train leaving Salt Lake at 1 o'clock will be put on between Mc-Cammon and Montpelier. The Salt Lake House standard sleeper formerly carried on the Yellowstone special will be run on No. 8, leaving this city at 11:45 o'clock at night, and arriving on No. 8, arriving at 8 o'clock.

### NARROW ESCAPE FOR GRUNDY.

Late yesterday afternoon James Grundy, an employee of the Albany rail, swore to a complaint charging William Bailey with assault with a deadly weapon. The two engaged in a Christmas brawl over a game of pool. It is said that Bailey, after losing a game, refused to pay and a quarrel resulted. Grundy says that Bailey drew a revolver and tried to shoot. It happened that the hammer of the gun fell on an empty chamber, otherwise Grundy would probably have been killed. The matter will be adjudicated in Judge Diehl's court.

### COMPLAINS OF PARTNERS.

Fred Croft Wants An Accounting by Other Members of Family.

Buying automobiles with company money, collecting accounts, without making returns, selling company property and pocketing the proceeds and other items of mismanagement are charged by Fred Croft against Robert Croft Sr., and Robert Croft Jr., in a complaint filed in the district court yesterday. Fred Croft, the complainant, asks that an order of the court issue authorizing him to look over the books of the company and directing the defendants to permit him so to do. In his complaint he says he has been refused access to the company's account books. He owns 4955 shares, Robert Croft Sr. owns one share less and the junior Robert owns 30 shares. The foundry company was incorporated by the Crofts in 1893 for \$10,000. He alleges that since February, 1906, the other partners have refused to let him share in the profits of the company as a stockholder or director.

### DONALDSON WOULD KEEP MONEY.

An echo of the Donaldson-McWhirter case was heard yesterday before Judge Ritchie. Donaldson, by his attorney, represented to the court that a judgment by default had been secured in Judge Lewis' court in the face of an

## Utah's State and Private Banks Prepared for Any Emergencies.

The sound condition of Utah's state and private banks is shown in a consolidated report of the condition of 52 state and three private banks as completed by Deputy Secretary of State George B. Squires yesterday. The report shows that during the busy Utah bankers have strengthened their reserve and provided for any demands

agreement between Donaldson's counsel and McWhirter's counsel that a default should not be entered, pending the preparation of some point of the case. Arguments were made on the motion to set aside the judgment and on the conclusion the matter was taken under advisement.

### NEW INDICTMENT FILED.

R. D. Gammon, formerly an employee of the Thiel Detective service, was indicted again by the grand jury yesterday, the offense charged being embezzlement. A former indictment charged the offense as having been committed on Dec. 26, 1907, and the present indictment changes the date to Dec. 26, 1906.

### JANUARY VENUE DRAWN.

A venire of 135 jurors was drawn this morning from the list recently completed by the jury commissioners. County Clerk Eldridge, Treasurer Groenbeck and County Atty. Hansen conducted the drawing. Fifty veniremen were drawn for Judge Arneson, the same number for Judge Ritchie and 35 for Judge Lewis. Judge Morse will have no venire.

### NEW CATALOGUE OF CHURCH WORKS.

Just issued, Send to Deseret News Book Store, Salt Lake City, Utah, for a free copy. Special terms to dealers.

### MUSIC TEACHERS.

All who desire to consult the list of the representative professors and music teachers of Salt Lake should read the "Musicians' Directory" in the Saturday "News."

### THE FAMOUS RELIQUARY OF AMBAZAC.

The picture shows the beautiful gem studded reliquary stolen recently from the church at Ambazac, France. This unique object of art and its contents, the relics of saints, were stolen by the same syndicate of church robbers that carried off the crown of St. Michel several months ago. The reliquary is valued at \$40,000.

### Second Day—The Keith-O'Brien Big Sale of SHOES!

\$3.95 WOMEN'S SHOES in \$3.00, \$2.00, \$7.00. This includes any pair of Wright & Peters, Lateman, Murray—every pair of high-grade women's shoes in our stock—in fact, nothing better made.
