TELEGRAPHIC.

WIRED FROM WASHINGTON.

President Cleveland Will Not Make War on the Senate.

ON ENGLAND'S FINANCE POLICY.

Sympathy for a Murderer.—The Chinese and the Exclusion Act.—Refunds of the Coal Combine.

WASHINGTON, D. C., March 17.—A story has been published to the effect that President Cleveland has inaugurated a big fight against the Senate because of his displeasure on account of the manner in which the committees of that body were organized. The story is incorrect. Mr. Cleveland might have been better pleased if the Senate committees had been organized differently, but he has not and does not intend to manifest any displeasure or disappointment he may feel.

OCCUPYING MANTLE AND BECKWITH.

The committee on privileges and elections held a session this morning, lasting about two hours and a half. Only two cases were discussed. Those were Mantle and Beckwith, appointed by the governors of Montana and Wyoming respectively. The question before the committee was whether it being the beginning of a full term and the legislature having refused to elect, certificates from the governors were valid, and whether the governor was authorized to appoint. The conditions in the case of Allen of Washington are somewhat different, but the result appears to be the same in all three cases, and it probably will be considered from the same basis. The committee was divided on the question, and the result will probably be a majority and minority report, and this it is thought will be the cause for a protracted debate, with the end in view of finally establishing a precedent that shall be law.

ENGLAND AND SILVER.

Senator Teller, who has already given notice of his intention to take steps to cause the International Monetary Conference to reconvene at Brussels, was today asked for his opinion respecting the declaration of the chancellor of the exchequer yesterday that the British delegates would be instructed to oppose every bimetallic scheme presented at the conference. The senator said the declaration meant that Great Britain would absolutely oppose the free coinage of silver on terms of equality with gold. That is what she has always done, and nobody expected her to do any more at this time. There is evidence to show that Great Britain really desires to do something to extend the use of silver as a money metal. Something must be done to prevent the further depreciation of silver, which, it continues, must result in the total destruction of the present monetary system. If that should occur the future of silver would be secured, but nobody wishes to adopt such a heroic measure to achieve the desired result. He had no doubt but that England would be willing to support a reasonable proposition that was more practicable than the Bethschild scheme.

THE QUARANTINE CONFERENCE.

The quarantine conference completed the work before it tonight and adjourned due die. The conference has been a most satisfactory one to the officers of the marine hospital service, who believe the strict enforcement of the regulations agreed upon will keep the disease from entering the country, so far as the ports of the United States are concerned.

CABINET SESSION.

The Cabinet was in session about an hour and a half today. Several members stayed behind for some time longer discussing the affairs of their departments with the President. All the members were reminded that today was the 60th anniversary of the birth of the secretary of state and did not fail to congratulate Mr. Gresham.

MISCELLANEOUS.

D. M. Murchey of Carson City yesterday filed an application for the position of superintendent of the mint at Carson.

Attorney General Olney yesterday appointed Frank Strong of Arkansas general agent of the department of justice, vice F. C. Foster, resigned.

It is stated on good authority that the President has selected John P. Wise as collector of the port of San Francisco, and that his nomination will go to the Senate next week.

Messrs. Castle and Thurston of the Hawaiian commission and Mr. Paul Neuman, attorney for Queen Liliuokalani, left Washington tonight. Mr. Castle is enroute home, intending to sail for Honolulu on the 31st inst. The others will return to Washington and await the outcome of Mr. Blount's visit to the Hawaiian islands.

The statement in New York papers that a protest numerously signed by prominent citizens against the consummation of the extradition treaty with Russia would be sent to Secretary of State Gresham was shown the secretary this afternoon. He said he had not received a protest, and in reply to the question of whether it would avail anything, he said he thought not. "The public may not know what is in the treaty," Secretary Gresham said, it being held in confidence until ratified and proclaimed.

THE GEARY LAW.

Efforts of the Chinese "Six Companies" to Defeat It.

SAN FRANCISCO, March 17.—The Chinese "Six Companies" in reply to questions from Collector of Internal Revenue Quinn if they had ordered Chinese laborers not to register under the Geary law have returned the following answer:

"We have issued a circular advising Chinese laborers that the law requiring them to register is unconstitutional and cannot be enforced, and therefore suggesting to them that they do not comply with the law. This circular is based upon the advice of our attorneys that the law is unconstitutional and in violation of treaty rights."

As a result of the circular sent out by the "Six Companies" over $60,000 has been contributed by the Chinese to fight the law in the courts. The "Six Companies" have not stopped with simply advising their subjects to disobey the law, but they have laid out for an elaborate plan to defeat it. An attorney of the "Six Companies" went to New York and Washington some weeks ago as a preliminary step and employed assistant counsel. Jas. C. Carter and J. Hubley Ashton of Washington were invited to aid in defeating the new law. It has been arranged to commence to show fight in New York City. Renowned lawyers have been employed, chief among whom is Dr. Choate. On the 8th of May some Chinaman who will be picked out for the purpose will be arrested and taken before one of the United States judges, who will be asked to order his deportation at once. As no one will question the validity of the law, of course the order will be made. Then a writ of habeas corpus will be taken out before another judge, and as nobody will attack the law before him, he will remand the prisoner. Then an appeal will be taken to the Supreme Court at Washington, and the matter must there be finally settled.

Collector Quinn stated that he had received notice from the Chinese Masonic societies that their members would register in compliance with the law. The Masonic societies have about 3000 members, but they are mainly of the disreputable element. Collector Quinn is making elaborate preparations to register Chinese, but the limit will be 500 a day, and as there are 32,000 Chinese in this district, they could not possibly all be registered between now and May 4th even if they wanted to.

PARDON DEMANDED.

Popular Feeling Against Executing a Murderer.

NEW YORK, March 17.—The adverse decision in the case of Carlyle Harris has aroused a popular demand for his pardon, and next week a meeting will be held in Madison Square Garden in an endeavor to induce the authorities to grant a full and free pardon. At the Tombs prison today it was said that Harris was greatly dejected and believes there is little hope for him, despite the efforts to encourage him. He has eaten nothing since yesterday noon and from the refusal of food it is feared he will try to starve himself to death.

The Trans-Mississippi Congress.

SANTA FE, N. M., March 17.—At a meeting of the executive committee of the Trans-Mississippi congress held here today among other business transacted the following resolution was adopted:

Resolved, That this committee recognizes with sincere appreciation the assistance of the press of the trans-Mississippi country and records with pleasure upon the minutes of its proceedings the testimonial of the republican spirit and enterprise of its members, whose efforts in the advancement and industrial progress of the West is without parallel in any other one class of business.

FOREIGN DISPATCHES.

The Situation at the Seat of War in Brazil.

The Death of a Celebrated Statesman. The Revenge of a Miner.—The Plague in Africa.

VALPARAISO, March 17.—Exciting news may be expected any moment from Rio Grande do Sul, Brazil. A correspondent at Artigas telegraphs the Vanguard that the troops sent by the general government in Rio Janeiro to relieve Castilhista's army reached the vicinity of Santa Ana. The troops were under command of General Tolles. They attacked the position held by General Tavares, commander of the federal army which was besieging Santa Ana, but that general avoided battle because he was short of troops and ammunition. It is evident, however, that a battle will be fought tomorrow, because Generals Guarrey and Isidoro are massing government troops around Santa Ana and Tavares will not be able to avoid a fight, although he will have a battle with a force much larger than his own.

THE COAL COMBINE.

Further Details of the Methods of the Organization.

ST. PAUL, Minn., March 17.—The latest developments in the coal combine sensation tend to confirm the investigation committee in the belief of the existence of such a combine. Mr. Welsh of the joint committee secured a batch of original letters giving further details of the combine's organization or methods of work, and the committee will have them under consideration. The letters apparently prove conclusively that a great combine exists that requires all wholesale dealers to pay to John J. Rhodes from bonus going into coalmen, and retailers must pay $100 for the same gentleman for a like purpose. The supply of coal is absolutely cut off from all persons who attempt to sell it without "authority."

In one letter said to have been written by Rhodes, S. H. Wilson of Minneapolis is informed that he had better furnish no more coal to W. Esters till the latter has paid his subscription. In another letter the Lehigh Coal & Iron company is told it must issue W. Peters a subscription or shut off his supply. Other letters of a similar nature were found. Chairman Donnelly of the committee received a letter from one of the Pennsylvania coal barons threatening to see that Minnesota gets no hard coal if the investigation be not dropped at once.

THE EXPLOSION IN ROME.

The Italian Government Regrets the Incident.

ROME, March 17.—The United States Minister called at the Foreign Office this afternoon and told Signor Brin, minister of foreign affairs, that he was convinced the explosion was not intended to injure him or affront the United States government. He expressed regret that such an embarrassing incident occurred, and assured Signor Brin of the sympathy of the United States government and its willingness to let the affair pass unnoticed.

Signor Brin thanked him for the visit, and two hours later entered the call to inform him that the Italian government felt the deepest regret on account of the inconvenience caused to him and his family by the explosion.

The Panama Trial.

PARIS, March 17.—M. Barbaux in concluding his address in behalf of Charles de Lesseps said that from the nature of the trial the country looked upon it less for its value than as a symptom of French public life. All these men were in the harness of office and not alone those accused here but others also might have been prosecuted in order to satisfy public opinion. "Why," exclaimed M. Barbaux, "were Rouvier and Thevenet let go. Doubtless because it would have been dangerous to prosecute them. Your conscience, jurymen, will dictate to you the verdict whereby you will earn imperishable honor, having done justice to an honorable man, restored peace to an illustrious name and compensate the country for the prestige lost through the accusation of one of her noblest children."

The Death of Jules Ferry.

PARIS, March 17.—The death of Jules Francois Camille Ferry, the celebrated statesman, was caused by heart disease. The affection of the heart from which he suffered was due to the effect of a bullet striking a rib near the base of the heart, at the time he was assassinated by Autertin in 1887. He was stunned with spasms early in the morning, and despite every efforts made by the physicians who were hastily summoned, the convulsions continued to grow in violence, until at 6 in the evening he expired in terribly severe spasms.

Mme. Ferry had an interview with a reporter this evening and that for the last two weeks Ferry had complained of difficulty in breathing. His sleep was more broken and his general health suffered in consequence. In the last few days he seemed to recover somewhat his former energy and spirits, although the difficulty in breathing was increasing. Last evening he went to bed at 10 o'clock. Before midnight he awoke with a chill, succeeded later by not more severe. A doctor arrived at 1 o'clock, and after treatment Ferry felt relieved and fell into a sound sleep. He partly dressed at 8:30 and was helped to an armchair, and for an hour he was in a condition of such extreme prostration that he could talk but little.

The alternations of rallying and sinking continued until 5 o'clock, when he raised himself in his seat, looked at his wife fixedly, exclaimed, "Save me!" and fell back exhausted. His struggle for breath became greater, and after a few unintelligible words he fell into a state of coma, in which he died in the armchair in which for years he had done all his writing and reading.

The news of Ferry's death astonished the city. None since Gambetta's death has made such an impression. Hundreds of politicians came at the house during the evening and inscribed their names in the visitors' book.

Reinach and Herz.

PARIS, March 17.—The liquidator of Baron de Reinach's estate has found documents which prove that Reinach was obliged to pay more than 2,000,000 francs to Cornelius Herz. The documents are supposed to corroborate partly the story that Reinach was driven to suicide by Herz's persistence in levying blackmail.

TORN TO ATOMS.

A Quarrelsome Miner Takes a Fearful Revenge.

BERLIN, March 17.—A miner named Berner purposely exploded ten pounds of dynamite today in an iron mine in the Harz district. He and six other miners were torn to atoms. On leaving home this morning Berner gave his wife a letter which he said was not to be opened until noon. The letter said merely he would never return. Berner's motive is supposed to have been revenge, as he had trouble recently with the superintendent of the mine, and was constantly quarreling with his fellow workmen.

Gladstone Much Better.

LONDON, March 17.—Lord Salisbury is in better health today.

Mr. Gladstone was so much recovered today that he drove to the house of commons, where he was received with cheers.

The German Army Bill.

BERLIN, March 17.—A committee of the reichstag rejected the second reading of the army bill, and adjourned till after Easter.

Death in Africa.

CAIRO, March 17.—The prolonged drought is causing much damage in North Africa. Famine and diseases are rife and the plague prevails everywhere, due to poisonous emanations from putrefying carcasses. One-half of the population of Bengazi, the chief town of Barca, is dead, among the victims being the governor and many companions. The Italian consul and all the rich Europeans have fled to Egypt or Malta.

TELEGRAMS CONDENSED.

Professor Martha Kelleg of the university of California has been granted the honorary degree of Ph.D. by Yale at a special meeting.

A dispatch from Jefferson City, Md., says the house has passed the senate bill to prevent bribery and corruption in elections, and that the governor will sign the bill.

A dispatch from Catamarca at Argentine says the chief of police, who is the leader of the discontented element, has announced the resignation of Governor Hurtar. The governor has declined to resign and Diaz is organizing his followers and preparing to begin a revolution.

A special from Juneau, Alaska, says that Deputy United States Marshal Jack Dalton entered the store of Daniel Martinale and struck him on the head with a revolver. While Martinale was falling to the floor Dalton shot him three times, inflicting wounds from which he soon expired.

William Schwab, Adolph Schwab and Gustave Schwab, composing the firm of William Schwab & Son, album dealers, today allowed judgment to be taken against them for $42,133 in favor of Henry Gelien for money loaned. The total liabilities of Schwab's general $225,000. Statutory books show that the assets would amount to.

George A. Baird, better known as "Esquire Abingdon," is in a very critical state in New Orleans, and his death is expected at any moment. Ever since one day Sherman and Hall left the city the "Esquire" has been confined to his bed, and his daily condition has grown worse. Yesterday the doctors held a consultation, but nothing was agreed upon. The Esquire, since his arrival in this city, has been leading a life of dissipation and since Hall's defeat he has hardly gone to bed. There is little hope of his recovery.

The creditors of J. H. Turner, a real estate dealer, who came to San Francisco from Woodstock, Ontario, eight years ago, claims to have been swindled by him out of over $600,000. His method, it is alleged, was to sell the same piece of land to several different parties. He also secured the confidence of money brokers whom he induced to invest $100,000 in the Owens Valley Water company. They gave notes for the money with the verbal understanding that they were not to be used until they could be paid from the profits of the scheme. Turner, however, negotiated the notes at several banks, obtaining $32,000 on them and then dropped the irrigation scheme.

DREADFUL PSORIASIS,

Covering Entire Body with White Scales. Suffering Fearful, Cured by Cuticura.

Cuticura Resolvent,

IT STOPS THE PAIN.

DR. QUINN'S ONION SYRUP FOR COUGHS, COLDS AND CROUP.

GRANDMOTHER'S ADVICE.

E. C. M. I. LEAD DEPT., AGENT

"The Pace That Kills"

is everywhere—makes no difference what kind. Using greasy and inferior soaps is one road to premature decay—sore hands—sore hearts—clothes never clean. Not so when

KIRK'S AMERICAN FAMILY SOAP

is used. Cheerfully proceeds the labor of wash-day with health and long life assured. Hands all right—hearts light—clothes pure and white as a Greenland snowbill.

JAS. S. KIRK & CO., Chicago.

Dealy Diamond Tar Soap. Makes the Hair Soft and Smooth.

JUST LOOK

at our stock of clothing. Looks, like people, differ. Some looks are ugly others are inviting and attractive. The looks of our suits are elegant, handsome and inviting; that's why the looks of all our customers indicate delight and satisfaction. It costs nothing to look. The cost will come in when you buy. So in that case you'll pay more for an inferior suit, and then a poor fit. An inferior suit shows wrinkles and slightness. Don't make yourself look disgusted, but come and make yourself look pleased, well dressed and comfortable in one of our stylish suits.

ONE PRICE.

J. P. GARDNER,

101 MAIN STREET.

WANTED.
