MUNICIPAL MATTERS.

Street Lighting Ordinance Passed Over the Mayor's Veto.

THE JOINT BUILDING COMPLETED

Petitions and Congratulations—Police Court Report—Engineer Young on the Smoke Nuisance.

The City Council met in regular session last night and transacted a considerable amount of routine business. President McCornick occupied the chair. A transcript of the proceedings is as follows:

Stephen Hewkawith asked for work on account of injuries sustained two years ago. Committee on waterworks.

George J. Dean requested that errors in his account with the waterworks for water rates be corrected. Same reference.

John D. Spencer, county collector elect, asked the Council to fix the amount of his bonds. Committee on finance.

Robert Morris, president of the Eleventh Ward Democratic organization, asked for a correction of errors in an account relating to water tax. Committee on waterworks.

C. W. Bowdle asked for a license to peddle fish free of charge. The committee on license will consider the matter.

The recorder announced that $75.00 was due for destroying cactus. The sum was appropriated. The amount of $102.50 on license was set aside, subject to draft of Taylor, deputy dog tax collector.

The annual release granted the Rio Grande Western in the matter of freight rates was read and adopted.

A report from City Engineer Young on the smoke nuisance was read and referred to a committee. The engineer sets forth the danger to health and property from the smoke nuisance and recommended that extensives such as are used in Chicago and other large cities be put in as soon as possible. The smoke nuisance was one that could be largely overcome. Of this there was no question. There was an example of it at the Tabernacle which he would be more than pleased to explain to the members. Mr. Young thought and suggested that the only sensible method on the joint building.

The board of public works notified the Council in writing that the sewer on the south side of South Temple street between Ninth and Seventh East streets had been completed. Filed.

Clerk James of the police court, filed his annual report, showing the receipts for 1898 as being $25,411, of which $595.50 is pending on appeal, while $1.22 has been remitted by the mayor. The amount of fines paid in labor was $9,502.25, leaving a cash balance of $14,207.53.

Superintendent of Waterworks Dailey asked leave to move one of the abandoned tank houses in City Creek canyon to the former location for the benefit of the watchman stationed there. Referred to the committee on waterworks with power to act.

The bill for fitting up the old city hall for the members of the fire and police departments was entered placed on the appropriation list. Similar action was taken with reference to a bill of $25 for incidental funeral expenses and floral designs for the late Dick Sergeant McCurdy. Both bills were vigorously opposed by Clawson.

A claim for $25 for one lamp globe on the illuminating posts on the joint building grounds was temporarily repulsed in language most frigorid. The expenditure seems to have been authorized by the Mayor and he received compliments from some of the members which would make the ears of the ordinary man duple and cause his face to take on a decidedly rosy hue. The bill of the Cleveland Gas Fixture company for $3,042.28 was laid over for one week. There was some dispute over the December bill of Martin Christensen as landscape gardener for the joint building grounds. The amount was for $90 and was finally allowed.

Clawson offered a resolution fixing the salaries of the police and fire commissioners at ——— per year. Referred to the finance committee for a report and recommendation.

The Mayor's veto message announcing his disapproval of the new lamp lighting ordinance was taken from the table. It provoked a long and warm debate and was passed over the veto of the mayor, Voting aye except O'Meara, Mason and Watson who believed that the Mayor was right.

The request granted of the petition of David May of free passes as merchandise peddler, same to continue for twelve months.

Liquor licenses were issued the following:

F. S. Hatch, R. K. Hoch & Co., Jacobson & Co., Phil Margetts, L. W. Ellingsen and Paul Bilon.

The following was presented and laid over for one week:

We, your committee on joint city and county building, take pleasure in reporting the building practically finished and would ask to be released from further duty.

M. J. CORMAN,
JOSEPH M. WATSON,
S. J. LEON.

Appropriations amounting to $4,862.— 05 were made and the council adjourned.

ALL DID NOT GO.

Nearly a Hundred of the Colorado Utes Still in This Territory.

Governor West late yesterday afternoon received the following letter from Indian Interpreter C. L. Christensen, showing the status of the Ute invasion difficulty at this date:

VERNON, San Juan County,
December 30, 1898.

To His Excellency, Caleb W. West, Governor of Utah, and Colonel Tanner:

Gentlemen—I thought I would let you know that your mission of peace to this part of Utah was not entirely in vain. A goodly number of the Ute Indians have left here, but not all that ought to have gone. On the 26th ult., twenty tepees passed through this place, taking up their winter quarters on the Monticello, about twelve to thirty-five miles northeast of Bluff. These twenty tepees represent nearly one hundred Indians. A number passed by La Sals mountains with an old Pine river Ute named Sowup; I do not know the number, though, as old hardened kind of a chief, swung nearly five hundred head of horses, moved northward to the Blue mountains. He has generally nearly thirty wives with him. F. H. Bolt, brother of sheriff Bolt, just from Day valley, says there is quite a number in there for the winter and say they are going to stay. Some few have gone to Bluff and quite a number have gone way south, hugging on the big Colorado river. There is this difference in favor of the citizens in Indian country, namely that they do not have so formidable an appearance for fighting and the people are not in so much danger as when they moved in a body where they pleased. They have of course left the most of their ponies here with friends. Well, we had a good deal of good, far from done, but do not expect either the last until Congress takes some steps to remove or care for the Mexican half breed race and encourage reservation Indians also to come and divide the money with them. Agent Day, no doubt, and the law would be have done all go fair, as he himself and wife have in Minnesota, he had not much influence with the part of the tribe. He, no doubt, did very well, having such an able man to help him as Colonel Lawson, taking the mountaineers, the ignorance of the Indians and it being also hard winter time. The Navajoes moved quietly out to their own side of the San Juan river, through the able management of their agent, Captain Williams, Seventh infantry, who came personally to Bluff and attended to his own Indians without being forced to by the government. Times look brighter, though some may think more might have been done, it is generally conceded that such good sense out of the white commission. And the conservative citizens feel much relieved and thankful to all who did their duty. The community is very generally, and the member with Sheriffs Governor West and Colonel Tanner.

Respectfully,
C. L. CHRISTENSEN,
Indian Interpreter.

In behalf of a number of Grand(?) citizens.

Wealthy But Not Happiness.

Alice S. Little has commenced a suit in the Third district court, seeking that she be granted a separate maintenance by her husband, James T. Little. The parties, according to the complaint, were married on June 5, 1882, and there are living with plaintiff, issue of the marriage, four children, Fanny M., Clara B., Rosamond B. and Florence T. Little, whose ages vary from one months to nine years, all depending for support upon plaintiff. It is alleged that the defendant is now, in violation of his duties as a husband, living separate and apart from the plaintiff without cause or excuse and that he refuses to support her and his children in a manner suitable to their condition in life or to his means and fortune. That the defendant is a man of large fortune and ample means, which plaintiff believes to be not less than $600,000, while she is wholly without means and dependent on a few friends for support. Plaintiff prays that the defendant be required to answer and make full disclosure of his property; that pending the trial of this action he be required to pay the plaintiff a reasonable amount as temporary alimony and that upon the final hearing of the case he be ordered to pay the plaintiff not less than $100 a month for the support of herself and children so long as he continues to desert her.

Kern is Released.

M. D. Kern, the architect, who was committed to the penitentiary last Saturday by Chief Justice Merritt for contempt, he having failed to pay $25 a month alimony, $15 attorney's fee and $25 cash money to his wife pending the hearing of the divorce suit in which she wife is the plaintiff, was released last evening. J. M. Cannon, attorney for Mr. Kern, having stated to the court that the prisoner had purged himself of the contempt. There was about $200 due altogether, but by arrangement between the parties, Mr. Kern's friends paid $90, which being all he could possibly raise, they escorted to the meantime.

Geo. W. Jenkins, editor of the Santa Maria Times, Cal., in speaking of the various ailments of children said: "When my children have croup there is only one patent medicine that I ever use, and that is Chamberlain's Cough Remedy. It possesses some medical properties that relieve the little sufferers immediately. It is, in my opinion, the best cough medicine in the market." If the remedy is freely given as soon as the croupy cough appears it will prevent the attack. It is also a most ready for whooping cough. AN OPINION GIVEN.

Recently Mr. J. B. Thomas, of North Dakota, visited the Shenandoah Valley, Virginia, and after carefully examining the country located in Winchester, he writes to Mr. V. Blackford, Land and Immigration Agent, Baltimore & Ohio Railroad, Baltimore, Maryland, as follows: "I have been in nearly every state and territory of the United States, and am much in my opinion that this valley surpasses all other sections in the Union. The lands are low in price, and produce profitable crops. I thank you for directing me here, and behold these seeking pleasant and profitable homes to locate in this country."
