

MINING, BUSINESS AND STOCKS

TINTIC OPERATORS
HELD MEETING

At Gathering Today the Matter
Of Ore Freight Rates Re-
ceived Consideration.

ALSO QUESTION OF WAGES.

Machine Men Want More Money—
Claim They Are Really Entitled
To an Increase.

The mine owners and operators of the Tintic district met in the offices of the United States Smelting, Refining & Mining company during the day to discuss the matter of freight rates, which is still pending with the management of the railroad depended on to transport the output of the mines to the Salt Lake valley smelters. No definite conclusion has been reached as yet, but the mining men are hopeful of being granted such concessions as will enable them to move the thousands of tons of low grade ores which are unprofitable under existing conditions.

The matter of wages for miners was also discussed. It seems that machine men have been offering some complaint on the ground that they received no increase in wages, whereas, the hand-miners were recently given an advance of 20 cents per shift of eight hours, and receive \$2, or the same as the machine men, have been getting for some time. Mine managers contend that it is just as laborious to the miner to drive a drill by hand as it is to use a machine; but the operators of these devices contend that a man must necessarily be a good mechanic as well as a miner, and therefore they are entitled to more money than the hand men are getting.

The matter was discussed only in an informal way and owing to the fact that a full representation of Tintic mine owners and managers was not present at the meeting definite action was deferred.

ON MINING EXCHANGE.

Week Opening With Business in Good
Tone—Closing Quotations.

The week opened with some brisk trading on the floor of the Salt Lake Stock and Mining exchange. Lower Mammoth was on the active list and sold up to 72 cents. Nevada Hills also advanced; starting at \$3.05 the stock moved rapidly, finally landing at \$3.27 1/2, the closing sale price. May Day passed the call in good form, as did Carlsbad, Beck Tunnel, May Day and Little Chief.

The closing quotations and sales today were:

WING ALLEN IN TROUBLE.

G. G. Rice of Goldfield Revives an Old
Quarrel.

(Special to the "News.")

Goldfield, Nev., Sept. 17.—The old feud which has existed for some time between Wing B. Allen, local representative of the Daily Mining Record of Denver and former assistant manager of the Salt Lake Tribune, and G. G. Rice, who has been an active figure in Goldfield mining affairs for some time, has been revived.

Some time ago the Denver publication printed a series of articles reflecting on the character of Rice and even went so far as to say that Rice is now parading under an assumed name and that he had been sent to jail in New York on a criminal charge, all of which resulted in the filing of a suit for libel against the Denver paper and which is now pending.

It seems that the mining paper on Saturday last printed another article about Rice and on being advised of it by wire, the latter swore to a complaint charging Allen with an attempt to extort money from him and, accompanied by Officer Allen, went to the residence of Allen at midnight to see that it was served.

Yesterday morning Allen appeared before Justice of the Peace Bell and gave bail for appearance at a preliminary hearing. He made the statement that he had never approached either Rice or L. M. Sullivan, Rice's business associate, and that he knew his arrest was merely an attempt to create an unfavorable impression before the investing public regarding the attitude of his paper.

AURA GOLD CAMP.

A District in Elko County, Nevada,
Which Gives Promise.

Quite a good deal of interest is being manifested in the Aura gold camp in the northern part of Elko county, Nev. The district is an extensive one and several Ogdan parties are presumably identified with the camp. The Free Press of Elko says this about it:

"There is an abundance of water and enough wood. The character of the ore is mostly free milling and the camp can be developed to enormous payoffs without the aid of a railroad. It is a poor man's camp and at the same time offers better opportunities for mining capital at this time than any camp in Nevada. The push, confidence and energy of southern Nevada mining operators is already in evidence in the camp and agents and representative camps are on the ground securing bonds and options on mining properties. There is hardly a day passes without a strike being made and some of these if made in southern Nevada or Colorado would cause a sensation. I cannot understand why it is that such wonderful opportunities exist and the mining world knows so little about it. I believe that two years from now both Aura and Tascara will support greater populations than Elko."

ALTA QUINCY DEAL.

Shareholders Meet in Park City Today
To Ratify It.

A special meeting of the shareholders of the Alta Quincy Mining company is scheduled to take place at Park City this afternoon at which the deal recently made by officers of the company to sell the mine outright to Tony Jacobson and associates will come up for consideration. No one has been heard to enter any objections to the deal going through and there is not much doubt but that shareholders will give the matter their unqualified indorsement.

If it does, Mr. Jacobson will immediately proceed to put a force of men to work to develop the property.

MAGNOLIA-ST. LOUIS.

New Steam Plant Being Installed at
This Park City Mine.

At the Saint Louis Magnolia the hostess works is being stripped of its machinery and equipment and being made ready to receive the new steam plant to be installed there very soon, says the Record of Park City. Excellent progress was made with the old machinery, gasoline engine, etc., until the work became too heavy for it, on account of depth in the shaft, water, etc., when it was decided to replace it by a new and heavier plant. Within a month, if all goes well, the new equipment will be ready for the resumption of work.

Development work is progressing at the Frisco Contact property under the direction of C. C. Thompson, superintendent. Work at the Lulu mine has been suspended for a few days to enable the making of some repairs to equipment.

Mat Traillor, former superintendent of the Centrifugal Separating company, which owns a plant for the treatment of zinc ore at the Horn Silver mine, has gone to Goldfield, Nevada.

WAGES INCREASED.

Horn Silver Miners Will Get More
Money For Their Work.

Special Correspondence.

Frisco, Utah, Sept. 16.—The Horn Silver mining company has made a voluntary advance in wages and hereafter miners will receive \$2.75 and muckers \$2.50. This is an increase of 25 cents a day. The order was made by Manager Philo T. Farnsworth during his visit to camp last week.

Development work is progressing at the Frisco Contact property under the direction of C. C. Thompson, superintendent. Work at the Lulu mine has been suspended for a few days to enable the making of some repairs to equipment.

Mat Traillor, former superintendent of the Centrifugal Separating company, which owns a plant for the treatment of zinc ore at the Horn Silver mine, has gone to Goldfield, Nevada.

AFTER WILD CAT
MINING CONCERNS

American Mining Congress Will
Draft a Bill to be Sent to
Washington.

FAKE PROMOTERS AIMED AT.

California Law Considered a Good
One—Exaggerated Statements
Will Not Go.

Denver, Colo., Sept. 17.—A bill providing for the punishment of all mining fakirs and promoters of illegitimate mining enterprises will be drafted by the American Mining congress at its annual session which will be held in Denver, Colo., Oct. 15 to 19 inclusive. A committee composed of the best talent in the United States has been appointed to prepare and submit to the Mining congress a draft of such bill. This committee comprises two United States senators, Robert M. La Follette (Wis.), and Fred T. Dubois (Idaho); one congressman, Eben W. Martin (South Dakota), and the governors of two states, George C. Pardee (California), and Joseph W. Folk (Missouri). Four are attorneys and all from mining states of prominence.

The Lower Mammoth assessment of 5 cents a share is delinquent and the date of sale is fixed for Oct. 4.

Last week's ore and bullion settlements, according to reports of McCornick & Company, aggregated \$383,800.

W. C. Alexander, manager of the Black Diamond mine at Stockton is at that property today on an inspection trip.

Several inches of snow fell in Alta during the recent storm, but it did not remain long. The weather is getting decidedly wintery, however, at night.

Lafayette Hanchett, general manager of the Newhouse mining interests, returned from Beaver county and reports everything going along nicely at the Cactus mine and mill.

J. D. Wood, president, and Walter C. Orem, manager, of the Nevada Douglas Copper company at Yerington, Nevada, departed for the property of that corporation yesterday.

G. R. Yearley, who has been in charge of the Thunder Mountain Gold Reef & Development company in Idaho, has returned to the city and will remain during the winter.

C. V. Norcross of Butte, Montana, who is interested extensively in Death Valley, California, mines, is in the city today on his way to Goldfield. Mr. Norcross is manager of the Furnace Creek Extension and Butte Furnace Range companies.

W. J. Craig returned this morning from Leadville, Cal., where he went to look after the progress of development work on the Alpha property taken up several months ago by himself and associates. The property is productive of copper, gold, silver and lead ore.

The petitions for the disincorporation of the Red Wing Gold Mining company, the Highland Boy Extension Mining company, the Petro Mining company, and the Petro Mining company, were filed in the district court Saturday. The companies have been consolidated into other companies owned by the same parties and all claims against the companies have been settled.
