NEW YORK.

Yellow fever—A fortnightly voyage across the Atlantic—Diseases among horses—Victor Hugo.

NEW YORK, 26.—A private letter by the last steamer from an American residing in Para, Brazil, dated July 4th, says the yellow fever has assumed a very malignant form at Para. Nearly every stranger in the city has died.

Several steamers which recently arrived at New York from Para have been quarantined in the lower bay, but the last steamer from Rio was permitted to reach the dock, though she had touched Para.

Captain John Meiks, who in 1867 crossed the Atlantic on an India rubber tree raft, is having another raft made, fifteen feet long and twelve wide, on which he intends to go to Europe, accompanied only by a boy. He will be ready to start about the middle of August, and will carry with him fifty days provisions. He will take the direct steamer track.

The disease is still making and having among the railroad horses in this city. Victor Hugo has addressed a letter to the New York liberal club, accepting the membership to which he recently was elected.

The internal revenue authorities, yesterday, seized the wholesale whiskey house of Hoven, Reiney & Co., on a charge of having a large quantity of contraband liquor on hand.

MISSOURI.

Railroad Accident.

St. Louis, 26.—A terrible accident occurred at fifteen minutes past six last evening, on the Toledo and Wabash Railroad, sixteen miles from this city and two miles this side of Edwardsville. A freight train of thirty-three cars, heavily laden with grain, going south at a great speed, collided with a gravel train, on which were laborers returning from their work. Of these, six were killed outright, four others so severely injured that there are little hopes of recovery, and fully one-half the others are more or less injured, some severely. The collision occurred on a short curve, and neither of the engines were aware of the other train being on the track till it was too late to prevent the collision. The engineers and firemen from both trains jumped in time to save their lives. Both of the engines and a large number of the cars were demolished.

PACIFIC COAST DISPATCHES.

The Amador Troubles.

SAN FRANCISCO, 26.—The stock market today stands: Treasury, 94; Charles, 10; Mahanoy, 94; Sugar, 6; Ely, 17; Phoenix, 24; Bureau, Conn., 14; Eureka, 10; V. V., 24; Belcher, 25; Chollar, 44; Savage, 11; Curry, 12; Ophir, 85; Norcross, 35; Little, 30; Jacket, 43; Valley, 19; Kentucky, 118.

SEATTLE, Cal., 26.—R. B. Gentry publishes a standing offer to bet \$1,000 on the election of Newton Booth, and \$200 on each of the Republican county candidates nominated to-day.

Petaluma, 26.—A saloon keeper named Tim Carrington, was shot and almost instantly killed here this evening by a man named Wm. H. Smith, also a keeper of a saloon at the upper end of Main street, at which place the fracas occurred. Both were under the influence of liquor. Smith has been arrested.

Gov. Haight has been speaking at the theatre tonight to a large Democratic audience.

SAN JOSE, 26.—Peter Anderson, editor of the Pacific Appeal, spoke here last night to his colored brethren and a number of white persons on the political issues of the day. The lecturer displayed considerable eloquence and ability and urged his people to endeavor to elect Houghton to Congress and set a strict fidelity to the entire Republican State ticket.

SAN FRANCISCO, 26.—Extreme carelessness is charged upon the management of the Insane Asylum at Stockton, the number of escapes fleeing that way back here constantly, not being accountable for on any other hypothesis.

JACKSON, Cal., 26.—This evening, about six o'clock, four men of the miners' league from Sutter Creek, arrived at this place with the intention of killing Bennett, who is here under the protection of the sheriff. After walking down the street and taking drinks at the National Hotel, Bennett, who was near by in a lively stable, also came out and walked in front of the hotel, where he saw the men, and not anticipating any good he started back for the stable, when the four men

ordered Bennett to come out, saying he was a coward and afraid to come out.

Bennett, on the inside, hearing this, at once jumped before the leaguers with a pistol in each hand; two of the leaguers then drew pistols, but the by-standers interfering, not a shot was fired. During this time two officers had arrived and took Bennett out of sight, which ended the difficulty. During the evening a great many more from Sutter Creek arrived and trouble is anticipated.

MARCH 25.—At present nothing has transpired in relation to the Executive's intentions relative to the reported Amador troubles. Brig. General J. Howell, commanding this division, has gone below for consultation with the Governor.

Vice-President Huntington, of the C. P. R. R. returned from San Francisco to-day, and some incident connected therewith has renewed the rumor of a sale of the California Pacific road to the Central Company.

A large delegation of Republicans from intermediate points is expected by special boat to attend the Republican ratification meeting this evening in San Francisco. The party from here will be six hundred strong.

SAN FRANCISCO, 26.—Sutter Creek, 24 p.m.—There is still evidence of trouble about. The Amador mine is held by the workmen under Superintendent Steinberger. No effort has yet been made by the leaguers to stop the work.

Later—Gov. Haight will return from Petaluma to-day. The excitement over the first report of renewed trouble at Amador is dying out, and unless new outrages are perpetrated no order for sending troops there will be issued.

FOREIGN NEWS.

NEW BRUNSWICK.

St. Johns, N. B., 26.—Very destructive fire has occurred at Fredston, N. B. The actual loss is nearly \$200,000.

GREAT BRITAIN.

Famine in Persia.

LONDON, 26.—The foodwood stakes were won by Torsham, with Lady Huxford and the Volt second, and Claudi third.

The English consul at Fairs announces that he has received and will forward to the government the most heartrending details of a famine in Persia.

Special dispatches from Constantinople say the famine in Persia is causing dreadful havoc. Deaths in the provinces of Khorasan and Astorabad average three hundred daily, and so great is the distress that dead bodies are devoured by the survivors. Men, women and children, in some cases, have been killed to render a supply of food more abundant.

The Turkish government has been compelled to draw a sanitary cord along the border.

It is rumored that Hismatch has been created Duke of Lumburg.

The discovery of arm-mules at Liverpool is supposed to be connected with Fenianism.

Arrangements are being made in Paris to receive the members of the Cabinet are old progressists. This implies that the combination formed by Serrano has really failed to cohere and that a new ministry will have to be formed entirely.

FRANCE.

Epidemic among Horses.

PARIS, 26.—An epidemic of a serious nature prevails among the horses of the Paris Cab Company, two hundred died lately in a few days.

CHINA.

Disturbances in Canton.

HONG KONG, 26.—Disturbances have occurred in Canton, and a British gunboat has been dispatched there for the protection of English and other foreign residents.

A BOHEMIAN ORIGIN—Chapman in his "Travels in the Interior of South Africa," thus describes a novel and disgusting scene of which he was a witness, at a great gathering of the natives:—After eating, drinking and other preliminary ceremonies, the Boheims indulged in a bout of smoking from a rude clay pipe, which being passed around each inhales one mouthful. A fit of violent intoxication ensues, the stomach distends, the breast heaves, the eyes turn the whites to view, a quivering motion seizes the whole frame, and they fall back in terrible convulsions, heaving and writhing, and some of them die in these agonizing contortions, and the foam issues from their mouths, while the more hardened of the party try to restore the senses of their fellows by squirting water from their mouths on their faces, and pulling at a tuft of hair in the crown of their heads. This is one of the most disgusting spectacles that can be witnessed. It occasionally happens that some of them die in these convulsions; others on recovery, say that they have been in an ecstasy of delight, and desire a repetition; and it is every young Bushman's greatest boast to have been drunk from tobacco. When smoking alone, they frequently fall into the fire, and are sometimes burnt to death. In the course of my wanderings, I have seen hundreds who had been injured by fire, into which they had fallen during this state of delirium; and they are too lazy or thoughtless to take any precautions before they commence these dangerous orgies. The Bushmen generally obtain tobacco by sending a few jackal skins to Chappo, a distance of 150 miles, in barter for it. The first time I observed one of these people in this state, not knowing the cause, I turned to inquire of the others, but I found they were all in the same state of stupor, one exception, who looked particularly foolish, and smiled at my dismay, though his head was fast bobbing. Presently he rolled over among the rest. Applied at the symptoms, I seized one of their tortoise-shells, ran for water, which I dashed unsperrily over them; and, this immediate use of tobacco had ceased them.

TO RENT OR LEASE.

An Excellent Opportunity and Room.

For the Lumber Trade.

Apply to T. R. Jones & Co.

Third South St., on the E. Spencer Lot.
