A VIGOROUS KICK,

Broker Lewis Takes Exceptions to a Morning Paper's Report.

WORK IN THE PIT, GOOD.

Mammoth Sells at Substantial Figures —Transfers of Crown Point Stock —Dips and Spurs.

At the close of the calling of listed stocks on the exchange today, Broker Lewis removed his hat and in addressing the chair, called attention to an article which appeared in this morning's Tribune and which, he said, not only did himself an injustice, but also was unfair to the other members of the exchange. "It is apparently," said he, "a statement made to their reporter by a broker of this exchange and if it is, I think such action should be severely reprimanded and discouraged by this organization. The last sentence is a bold assertion that the market will be manipulated by the board of managers of this exchange, when the statement is entirely groundless."

"Hear, hear" came from several of the members and Assistant Secretary Vigus promptly responded to the sentiment. The article in question ran as follows:

However much it may have been in accordance with the prevailing idea among mining exchanges, the opening march in which Lewis and Bell, those twins of prosperity, made was one that commended enthusiastic approval and the spectators, Lewis and Bell themselves as well as others, felt that the occasion was one for rejoicing. Lewis and Bell deserve much as an offering at the shrine of prosperity, and the boys themselves felt and seemed to realize the fact that if the principles were but a trifle more, they would be all right. Not only are the principles of prosperity at hand and within the effective. Unfortunately, however, as we have said, the Bull Market Session is, for the present, being yelled out by Lewis and Bell, and, as a result, the boys felt and knew a decided check to the enthusiasm. The outlook was being transformed into the pessimistic, when the boys should have been congratulated on being the leaders of a market which has ever existed when the pessimistic was not. The market was in charge of the board of managers.

Perhaps it is a mistake to blame Mr. Lewis, the boy, who, from the bell, began an unusual and unfortunate enthusiasm. Mr. M. M. Ryan raised a point of order, as the proceedings in the open session of the exchange, but should be referred to the governing board. The discussion was called and the matter will be handled by those properly authorized to look into such affairs.

The city's work in the pit was good and while shares sold at an aggregate many thousands, an encouraging improvement was quite visible.

Centennial Eureka opened the same bid as their closing quotation, the same figure offered, with no stock at any quote, visualized. Daly was marked with increased activity, and $7.50 would have been readily given for it, but $7.00 was the demand made.

A special bid of Tuesday's 50 shares of East Dunkin Gulch caused to call out the number of shares wanted, although 100 or more shares could have been gathered up at 75 cents. A new stock made its appearance on the board today in the shape of Hecla. It met with a ready sale and the quotation remained about stationary.

Mammoth was the only listed stock, upon which transfers were made. The shares going at $2.10 and 50 at $2.15. Fifty shares were taken at $2.12, but as the broker apparently didn't care to deal in 50 share blocks, he let another nothing. The other listed stocks remained quiet but firm.

The unlisted call brought out sales of Little Pittsburg, Dalton and Crown Point. The former went at 24 and 25 cents, Dalton at 75 cents and the latter at 65 cents. Other stocks were called in alphabetical order, but no sales were made.

The closing figures were as follows:

TRANSFERS OF STOCK.

One hundred shares of Mammoth at $2.10 and 50 at $2.15; 5,000 Little Pittsburg at 24 and 7,000 at 25 cents; 500 Dalton at 75 cents; 200 Crown Point at 65 cents. Total shares sold, 4,850.

The Sego Lily.

The Sego Lily Gold Mining Company filed articles of incorporation with the county clerk today. It has a capital stock of $1,000,000. The incorporators are James Langton, George H. Crowther, A. H. Oldham, Frank J. Cornell, John A. Headman, O. S. Hoskin, S. C. Knowlden, James H. Bowman, Thomas C. Cutler and J. Ivo Peters. Following are the officers: John A. Headman, president; Thomas Cutler, vice president; J. Ivo Peters, secretary, and Frank J. Cornell, treasurer. The company owns the Lafayette Nos. 1, 2, 3, 4 and 5 and the Deer Trail claims, situated in the Pengelly mining district, Utah county.

Rise and Spurs.

A heavy and indignant cause is the latest adjunct to the Union group in Mercur.

The Outside divided, declared at the last meeting of the board of directors, was paid today.

Another new well has been added to the production of the New American Natural Gas and Fuel company. It is dubbed the Fairview and has a pressure of 140 pounds.

Reports have it that a fine vein of ore has been uncovered in the Bullion-Beck mine at Eureka. To the ton it goes 17 per cent lead, 50 ounces silver and a fair display of gold.

At a meeting of the directors of the Centennial-Eureka company held yesterday, an extra dividend of $1 per share, or $50,000, was declared, payable on March 14. This makes the total dividends paid by the company to $1,600,000.

Wonder Gold Mining Company.

This company has just completed its organization with a capital stock of 1,000,000 shares of the par value of $5 each. George Q. Cannon is president, August M. Cannon, vice-president, Louis M. Cannon, secretary, John W. Donnelley, treasurer, F. J. Cornelly, manager and superintendent. The properties of the company form the eastern boundary of the Lamoreaux-Golden Gate group, and also include an extension of the Bullion-Beck group at Mercur, and are on the dip of the great ore chute which has been developed by about 8,000 feet of drive on the Golden Gate, upon which it is estimated that at least five million dollars in gold has been already produced and banked out within a few months back at this property, for three of these immense ore bodies lie directly towards Wonder Group. The Wonder Group consists of the following claims, viz: the Wonder, North Star, Mary L. Mary L. No. 2, Old Grover, and two-thirds of the Nativum, containing about 32 acres. Title perfect.

There is no shaft, but last week upon which a steam hoisting plant is being now erected. A double compartment working shaft is being sunk. Elder and other interests engaged in the stock is together for the development of the property and building a mill, one half of which is represented in Mr. Wood, the manager, is one of the most skilling superintendents in the country. He has had his hand in here before and is a large cash investment in this, and he will devote his best energies to the rapid development of the great mine.

In addition to the item referred to by Mr. Cannon and his friends, the management have received it is reported to have ample funds on hand to push the work, so that as soon as the mill can be completed it will have results to place on the market a limited number of shares of the treasury stock at the price of 50 cents per share, but reserve the right to raise the price at any time without notice. Messrs. Richards Donnelson and George Downey have been appointed as the sole agents for the sale of this treasury stock.

Utah's Loss, Colorado's Gain.

The Salt Lake Stock & Mining Exchange, with a vigorous blowing a trumpet, recently announced the location of bringing a big exposition of western newspaper men to Utah. I took over and write up the State's mineral and other resources. The proposition, for some reason, has fallen out and has apparently been abandoned. About the same time as the project was receiving attention here, a similar scheme was set on foot by the Denver Stock and Mining Exchange for the benefit of the Centennial state. This morning a special train of experienced newspaper correspondent and artists left St. Louis for Colorado to write up and illustrate its mining camps. Unhappy moral: Utah's loss, Colorado's gain.

Embodied Row Settled.

Denver News of yesterday: The board of directors of the Embodied met at headquarters in the California building last evening and held a session lasting several hours. Secretary Lloyd Jones was not present in person, but sent his resignation. The reasons given are that there has been much finding and the secretary does not wish longer to bear the brunt. The directors were unanimous in the opinion that the resignation should not be accepted, and at a late hour a committee waited upon Secretary Jones at his home and requested him to withdraw his resignation.

It was stated by directors that the prospects are excellent for the success of the Embodied and that it will soon be on a paying basis.

Almost Distracted?

DO YOU EVER suffer from real nervousness? Were you ever astonished by waking with a pounding, sinking feeling, a nervous dread that seized finally to concentrate in a nervous panic in the brain, and yet because intensely fearful and nervous, to be followed by an opposite, uncontrollable flow of the nerve energy, ending in the pain, and complete nervous rights?

Dr. Miles' Nervine Restores Health.....

Mrs. Frances Sexton, 101 Spencer St., Lynn, Mass., says: "For years I suffered from nervous prostration. I was always nervous, I had dizzy spells, sometimes I would be so weak I was almost helpless. I tried Dr. Miles' Nervine and it cured me of all of my troubles and would say good morning. I commenced taking Dr. Miles' Restorative Nervine and Nerve Tablets, which completely cured me, and I can now tell how I was."

Dr. Miles' Nervine is sold on guarantee, first bottle will benefit or money refunded.

For sale by all druggists.

LEGISLATORS IN LOGAN.

Thoroughly Enjoy the Trip to the Capital of Cache Valley.

The Pleasant Trip to Ogden with a Concert and Ball This Evening.

(Special to the News.)

LOGAN, Utah, Feb. 29.—The Governor and the Legislative party arrived here at 11:05 a. m. The party was met at the depot by the Logan city authorities and College board, and a large number of carriages in which the legislators and their wives were conveyed to the Agricultural College under escort of Marshal of the Day Ottinger and aides. A carriage drawn by four gray horses, and containing Governor Wells and the State officers, headed the procession to the College, followed by a long line of vehicles, all well filled. On the way to the College were the College cadets, one company of young men, and one company of young ladies, who saluted the procession upon its arrival. In the large chapel of the College the party laid away their wraps and overcoats and were welcomed to Logan by Mayor Kimball and to the College by President Tuckett.

The party at once made a visit to the class rooms, by three quartets of students, upon the several schools.

Luncheon was prepared by the College ladies, after and was continued and thoroughly enjoyed by the visitors, who showed they could not be well satisfied.

The College band furnished music while a cadet drilled to the presence of the Governor and staff. The cadets, who were on visiting the class rooms. After luncheon a general inspection of the College and grounds was made and the visitors were lost and have been loudly expressed gratification at the splendid appearance of the grounds, the beauty of the valley and the system of learning and expenditure.

The day and night were thoroughly enjoyed by the visitors and people, and the kindness and hospitality of the city as regards the College and Logan society and the people, much appreciated.

An amusing point of interest to the passengers on the train was the great river rain and snow seen on the road.

At 7 o'clock this evening a free concert will be given, followed by a ball, for the special train will leave Logan at 10 and the party will reach Ogden in one party and remain here over night, however.

Legislative Notes.

The legislative train will leave Logan at 7 o'clock this evening, to get there before midnight.

This evening a meeting of citizens will be held in the house committee room, in city hall, to discuss the pending fish and game law.

The 50 cent incorporation fee has passed the senate, and the mining industry will go on unshackled. The fee will not stand a one loss.

Generally, the land bill to be introduced by the committee is regarded as good enough. The votes of the minor propositions differ considerable difference of opinion, but the other features meet general approval.

By another reconsideration of the vote on the secretary of state bill, combining the 50 cent fee for indexing books, Chalmers's vote was changed to aye, giving the bill the necessary two-thirds to cause it to go into effect upon approval by the Governor.

Glen Miller gave an explanation of why he voted against the clause in the State examiners' bill requiring the State printing to be let to the lowest responsible bidder. The explanation merely shows that the senator has no capable exception of what using the State printing is.

G. W. P. Nelson's substitute, to be offered by Allison's Australian ballots, now in the House, to marry the present system of conducting elections, with some necessary modifications of the present law to suit voters, was thrown from 1878, when the present law was enacted. The sole change is making registration officers, at the first set, elective every two years.

Earning Cash Headquarters

REVERE MILL DESTROYED.

It Burns This Morning With a Loss of About $15,000.

Located a Few Miles Out of Stockton—Origin of the Fire Could Not be Learned.

A telephone message from Bingham this morning to Mr. P. A. H. Fraser, president of the New Revere Milling and Mining company, contained considerable information of the total loss by fire of the Revere mill a few miles out of the Old Bingham road.

The mill, which was owned by the company, and was valued at about $15,000. About two months ago the company took out two $5,000 fire insurance policies in the Home insurance agency of W. E. Crowley & Co., and one on the mill was placed on the building. Work was in charge of Mr. Franklin's foreman to get the machinery from C. F. Crowell of New York, who owns a controlling interest in the Yosemite mines, so had to resume the mill, which he had on his hands, that time was spent in a court of instruction, and owing this morning's conflagration to the death's long long.

The substitutes is only received by the company officers, who have to Bingham tonight to investigate the matter. The origin of the fire could not be learned, as the information received this morning simply stated that the mill had been burned to the ground. Dr. Harry Hanson is usual a, at the property.

Hurt by a Bad Bicycle.

Last evening about dusk, a bicyclist whose identity is unknown was riding on the sidewalk on South Temple street, near Fifth East, at a very rapid rate, and apparently he little heed to the people. As the cyclist was approaching a lady who was attempting to get out of the way, the bicyclist ran into the passenger knocking her down and injuring her quite severely. The cyclist leaving the lady on the sidewalk, but he mounted it and went on his way, leaving the injured lady, who was covered with blood, to go home. Passengers, and citizens who happened to be sitting in the vicinity, ought to receive the attention of the police.

Three Divorces Granted.

The following cases were disposed of in Judge Young's court:

Jennie Kohler vs. Frank J. Kohler, for divorce, for desertion and non-support; decree for plaintiff.

H. R. Daggett vs. Anna C. Platts et al, injunction and for damages; judgment and decree for plaintiff.

Allen M. Holt vs. Wm. Holt, for divorce on the grounds of desertion; decree for plaintiff.

Sarah A. Wells vs. Wm. J. Wells, for failure to provide; decree of divorce for plaintiff.

MINOR MENTION.

The bicycle exhibition will end tonight.

Elder Lewis Hoagland returned from a New Zealand mission today.

The Twenty-five quorum of Elders will meet in the Nineteenth ward meeting house on Monday evening next at 7:30 o'clock.

The New American Natural Gas and Fuel company during the week added another well to the steadily increasing list in Lake Shore.

If the Mayor wishes to carry out the Council's idea of retrenchment he could easily appoint the same person to be watermaster and street commissioner, where the combined salaries would be much less than the salary now paid. The cabinet appoint two officers, but does not think both offices to be filled by one person.

COMMERCIAL.

SALT LAKE CLEARING HOUSE.

Today's clearing house exchanges amounted to $197,000, same day last year, $192,000. Week's exchanges at $1,129,119, same week last year, $1,125,000. Month's exchanges, $4,000,000, same month last year, $4,000,000.

MONEY'S DISTRIBUTION.

New York—Silver, $61 cent, $1.12. London—Silver, $1 5-16.

ORE AND BULLION.

Wells, Fargo & Co. received today: Bullion, $8,517.

W. S. McCornick & Co. received today: Bullion, $8,108.

C. E. Jones & Co. received today: Ore and bullion, $1,110.
