THE CORONATION.

Celebration General Throughout the Russian Empire.

THE CATHEDRAL OF ASSUMPTION.

The Emperor a Majestic but Lonely Figure in the Thronged Cathedral—A Banquet on Fire.

MOSCOW, May 27.—In addition to the acts of clemency already noted, the czar's economy has been greatly felt by German preachers of the Baltic provinces, who were imprisoned for offending against the Russian church laws. The feast was celebrated with the greatest splendor throughout the south of Russia, and it was made a general holiday all over the empire. French officers visiting Bessarabia were given a splendid reception.

HIS EDWIN ARNOLD DESCRIBES THE CHURCH.

LONDON, May 27.—Sir Edwin Arnold in his dispatch to the Daily Telegraph describes the Cathedral of Assumption, in which the coronation of the czar took place. Sir Edwin says:

The edifice itself is notable, but its inner glories and charmings are such that you feel as if the Eyes were blinded at the heart of some jewelled cavern of Golconda. To feel, however, as the devout Russian feels in this astonishing place, you must know something of the ever wonderingly believed sanctions clustering around it.

THE MOST IMPRESSIVE MOMENT.

When the Emperor, including the metropolitan, were prostrate on their knees to pray for the protection and guidance of the czar. He alone remained standing—a lonely figure in the empty cathedral—a lonely figure in his empire. For at this intense moment all the empire is practically on its knees for him before the throne of heaven. One can hardly bear to look upon his face at this prayer, so intent, when a face like Michael Angelo's concentrates these thoughts and supplications upon that gracious head. Imperial, lofty, conflicted, perhaps as by not low motives, how solitary, how alone.

Now comes the striking feature of the ceremony, which fills the mind with inexpressible sympathy and almost with compassion—the melting of loyalty into the family passion throughout the soul of the city.

With an exquisite softness of voice and gesture, the emperor raised to him his supplicant. A passing tremor seemed to shake the tall form which stood in obedience to the summons. But with an eagerness and grace she falls upon her knees before her august lord—a right so fitting as it is majestic, her long hair hung upon her white neck, her upturned face gazing trustingly in a stately glory, her anglicized hands meekly clasped—every inch a queen though not yet crowned.

THE BLESSING OF THE CZARINA.

Sir Edwin describes the blessing of the Czarina as follows:

"At Sobornik in the evening the emperor appeared upon a balcony of the palace wreathed in ermine, his figure studded with medals and ribbons. He addressed with a gracious bow and offered to the czarina a curious bouquet. Dropping the czarina's hand beneath the omegry every flower and bud took fire and after some moments the whole of the Kremlin burst into flames. The number of 10,000 voices in the state, followed by a moment of prayer and silence of delight as the czar—a figure in his same twilight, mingled with words of pain as some unfortunate person was crushed and dashed by the excited crowd."

SERVICES AT SAN FRANCISCO.

SAN FRANCISCO, May 27.—All the nations on this earth were represented at the special services held by the Russian society yesterday in celebration of the coronation of the czar and czarina at the Holy Greek church here. The substitution was consider with Orthodox from the czar's remains, which a portrait and illuminated address of the Russian society, also the Russian consul, Russian officers, representatives from nearly every city on the Coast in the Greek Orthodox consular uniforms.

Gen. Forgetsmorenoff, a staff of officers respondent to and from was there to represent the United States during the ceremonies. All the guests were received at the entrance of the church by the Russian consul, Vasilchi Alexandrovitch.

In the parlors of the bishop's palace a luncheon had been spread and after the services the guests were entertained. The toasts proposed, a toast to the czar and czarina, the emperor being the standing of the Russian national anthem. The Prefect of Tacoma and Russian Consul Vasilchi Alexandrovitch.

In the parlors of the bishop's palace a luncheon had been spread and after the services the guests were entertained. The toasts proposed, a toast to the czar and czarina, the emperor being the standing of the Russian national anthem. The Prefect of Tacoma and Russian Consul Vasilchi Alexandrovitch.

THE SILVER DEMOCRATS.

Spin Revolt in Indiana Against the Gold Idea.

INDIANAPOLIS, Ind., May 27.—More than forty silver Democrats representing every district in the state, met here and perfected an organization by appointing an executive committee of fourteen, of whom Allen W. Ciatt of Greensburg is chairman. This action amounts to an open revolt against the state central committee, the majority of whose members are gold standard men.

The conference decided to deserve everything in right and straight ways pressure to bear that the Hon. B. F. Shively, who had been requested by Governor Matthews to be a congressional delegate to the Chicago convention, be asked to withdraw as a candidate.

The conference appointed a committee to prepare a memorial to the time every Democratic organization in Indiana. This memorial demands that the delegates-at-large and the district delegates to Chicago convention shall be free silver men and that no delegate shall be given to any delegate or candidate for office who does not favor free silver. If the free silver wing is able to control the state convention, B. F. Shively of South Bend will be nominated for governor.

LIGHT WITHOUT WIRES.

Nikola Tesla's Plan Vacuum Tube System Connected.

NEW YORK, May 26.—The Electrical Review in its issue last week, announced by authority that Nikola Tesla had perfected his vacuum tube system of electrical lighting without wires, the possibilities of which he first brought to public notice five years ago in a lecture before the American Institute of Electrical engineers. The light is whiter, more brilliant and more intense than the arc light and is accompanied with a much smaller amount of electrical energy. A laboratory photograph has been made by means of this light with an exposure of only two seconds. The detail in the photograph is remarkably fine. Tesla further states that his apparatus has been greatly simplified and he will soon have it ready for practical use.

BISHOP'S REPORT.

Working on different lines Thomas A. Edison has succeeded, according to the Electrical Review, in surrounding a new kind of electric lamp of vacuum tube by means of which the Roentgen rays are turned into pure, white light. Edison's new lamp is an ordinary Crookes tube, coated on its inner surface with an enamel of a new fluorescent substance which he has discovered, similar in tangible of calcium. The rays in passing through their coating of crystal, are changed to light. Very little heat is generated and energy that would be wasted in heat energy expended in transforming into light. The new tube is soon to place on the Crookes tube with the ordinary X-ray apparatus. Mr. Edison believes there are great possibilities in his discovery, and is now enthusiastically at work perfecting his apparatus in a commercial form.

"I can make these new lamps of any color, and the efficiency of the X-ray apparatus with them can be made very high. I can also run a number of them now using in multiple arc, the new at work on endurance tests of the tube and am working to get the system into simple commercial form."

Confessed to Murder.

AVA, Mo., May 25.—Ed. W. Perry, the murderer of the Sawyer family—father, mother and son—has made a written confession, in which he says the deed was done by himself, Arthur Douglas of Springfield, Mo., and a member of Sells Brothers and Forepaugh's circus. Douglas has been arrested at his home at Springfield. The showman's name is not given, but he is said to be well known in Indiana.

Perry claims the plot originated with the showman, who compelled him and Douglas to be partner in the dividend of spoils which he had helped him murder the family. Yet seems his innocence.

FIGHT WITH CIRCUS PEOPLE.

Twelve Men reported Killed and Others Wounded.

VINCENNES, Ind., May 26.—Fort Branch, a small village in Gibson county, was, it is reported, the scene of a wholesale tragedy late last night. The disturbance began in the saloons, where a number of circus people had been had crossed with beer and whisky on their floating craft, and were distributing it by the quart to the people who gathered about the wharf. The men succeeded in partially cleaning the side of intoxicants for some hours, but late in the evening the crowd employed again, began to pelt the boat and the marshal with a pace required to the scene. The circus gang quickly gathered about the craft, joining in some, single handedly, cases and other articles, and made ready for the pass. The marshal and pass added the crowd to the wharf by means of tomahawk battle which lasted fully one hour and a half. The number killed was reported to be twelve, but seven only could be found on the wharf, and the wounded will number ten. Their names have not been learned.

Stevens Railroad Rates.

ST. LOUIS, May 26.—The board of administration of the Southwestern Traffic association held a conference today with the representatives of Mexican lines for the purpose of considering internal rates on account the products of the republic of Mexico.

The Mexican lines are adopted putting for the application of a rate of $1.25 per 100 pounds on grass tropical fruits from producing points on the Mexican National, Mexican Central, Mexican International and Monterey & Mexican Gulf railways to St. Louis, Chicago and Omaha, that being the rate in effect from California to the same points.

Will Be Vetoed by Cleveland.

WASHINGTON, May 26.—There is now good reason to believe that the river and harbor bill will be vetoed by the President. Secretary Lamont hastily returned to Washington from New York, he has been consulted by Mr. Cleveland on the subject, and it is intimated that the veto message is now in course of preparation. The President regards the measure as carrying to the extreme the plan of committing the government to large expenditures through the contract system.

INTERSTATE COMMERCE.

Argument for the Transcontinental Penalty Clause.

WASHINGTON, May 26.—Several prominent representatives of commercial and transportation interests today appeared before the House committee on commerce to oppose the bill introduced by Representative Sherman of New York to repeal the fourth section, twenty years of the interstate commerce act. The delegation was headed by Interstate Commerce Commissioner Veazey.

A letter on the Interstate Commerce commission was read by Chairman Hepburn, which said that section of the act was a mere recitation of the rule of the common law, and that its enactment by the provisions of section 19 of the act had been frequently recommended to Congress by the commission. Not that the section had been violated by the second, if granted, would relieve those guilty of past offenses, including those now under indictment, and the time would be one of the main objections of the proposed legislation. "Under the late decision on the Brown case, no interstate carrier, being in fact, is liable to transgression and to complaints to justify against the other offenders. The effect of the decision has been entirely salutary, and we are clearly of the opinion that the feature of the law should not be changed. Terms should be a reasonable time of operation of a new law, allowing enforcement in the direction of the court. With the means of complaint provided by the Brown decision, we believe the law is more likely to be observed both by railroad agents and by shippers with the improvement features against them by repealing that form of punishment.

"The decision in the Brown case has been followed by an observance of the law and a conformity to its requirements, which have not been matched in anything like the same degree, and this desirable condition will be greatly strengthened by the adoption of the amendment."

Mr. Dunmeyer for the Chicago Board of Trade, described that the Chicago roads had been paying 8 per cent of their earnings to receive, amounting to $10,000,000, the dividends paid by the eight roads during the year ending June 30th last being $93,000,000, and said this per cent would all be saved under existing laws since the Brown decision.

He stated that since the Brown decision rebates had practically ceased and relief to and out of Chicago had been better maintained than for years. He noted that the Sherman bill was commended only by violators of the law.

Contest Continued.

DENVER, May 26.—James J. Corbett and his wife and sister, Mrs. Esther Corbett, arrived in Denver today from Hot Springs, Ark. The champion pugilist is looking very well indeed. He said he would go to Salt Lake in a few days, and thence to San Francisco.

"DECORATION DAY EXCURSION" via.

Rio Grande Western Railway.

For the annual convention of the Young Men' and Young Ladies' National Improvement Association at Salt Lake City, May 30th and 31st, the Rio Grande Western announces a rate of one single fare for the round trip to Salt Lake City from all points in the state. RETIRING FROM BUSINESS.

The entire line of our New and Splendid Stock of Millinery must be sold, regardless of cost.

MRS. M. J. BIRNOCKS,
32 Main Street.

Removal.

A. T. Maus, the ticket broker has removed into his new office, 257 south Main street.

Take all your Prescriptions to the old reliable Godbe Pitts Drug Co.

Utah Commercial and Savings Bank.
24 East, First South.
Greatest banking in Utah; pays 4 per cent on deposits. F. Armstrong, Pres., F. W. Mattson, vice-pres., J. E. Jennings, cashier.

B. B. Jeremy has moved his barber shop from 257 Main street to 52 Main street, where he has fitted elegant quarters to suit the most fastidious. Good service and courteous treatment.

Results Tell the Story.

A test mass of direct, unbiased testimony proves beyond any possibility of doubt that Hood's Sarsaparilla actually does certainly and positively cure diseases caused by impure blood. Its record of cures is unequalled and these cures have often been accomplished after all other preparations have failed.

Hood's Pills cure all liver ills, biliousness, jaundice, indigestion, constipation.

If you knew how delicious and thoroughly good tea can be, you'd get the right kind, and drink twice as much.

The right kind is *Schilling's Best*. It is pure Japan tea, the tenderest leaves the growers can find for you.

Tender leaves make delicate tea.

Tough leaves make tough tea—not to mention the coloring that is used to make tough leaves look fine, and the weighing used to swell importers' and retailers' profits.

Schilling's Best at your grocer's. Your money back if you don't like it.

Schilling's Best coffee, baking powder, soda, spices, and flavoring extracts are also money-backed.

A Schilling & Company San Francisco

Beecham's pills are for biliousness, bilious headache, dyspepsia, heartburn, torpid liver, dizziness, sick headache, bad taste in the mouth, coated tongue, loss of appetite, sallow skin, etc., when caused by constipation; and constipation is the most frequent cause of all of them.

Go by the book. Pills 10c and 25c a box. Book *free* at your druggist's or write B. F. Allen Co., 365 Canal Street, New York.
