OGDEN CITY SCHOOL BOARD.

Declines to Pay Further Taxes on School Property — Friction Between Officers.

SESSION OF CITY COUNCIL.

Burglar Enters Harris Home — Larson-Benson Nuptials—Garden City News Notes.

Ogden, Utah, Aug. 19.—It developed last night at the regular meeting of the board of education that some friction exists between that body and the city treasurer's office, and a legal contest is in prospect over the question of city taxes. The board proposes to test the taxing power of the city as against school property. The question came up over the matter of sidewalk taxes. In times past the city school board has paid sidewalk taxes, paving taxes, curbing and guttering taxes and the like without question, but recently it has looked up the law and claims that the statute explicitly exempts school property from taxes both regular and special. The board claims that this applies to taxes for municipal improvements as well as for state and county funds and they went on record last night as opposed to paying any more bills of this character. A trivial matter brought the question to the front. The law requires all bills to be verified before a notary public they be verified before a notary public before they are paid by the board and lately the city treasurer omitted to verify one of the claims on sidewalk taxes. The bill was allowed and a warrant drawn, the clerk of the board thinking that the omission was due to an oversight. The next time a similar bill was presented the clerk returned it together with the other unverified bill that had been paid and asked that they be verified as required. The treasurer curtly replied that taxes were payable at his office and that he did not propose to pay notaries' fees in such cases. He afterwards called up the president of the board and explained his position. This set on foot an investigation and the board after looking up the law decided that there was good grounds for declining to pay taxes at all on school property. The members stood by Clerk E. S. Rolapp and from the expressions last night if the treasurer wants that warrant he will have to come after it, and in future warrants on tax claims will not be issued.

In a letter to the clerk the treasurer notified the board that the high school sidewalk taxes must be paid by the 22nd of this month and the board ordered a reply telling the city official that a warrant for the amount demanded was at the office of the clerk ready for him.

This question was the principal one at the board session last night, although considerable other business was transacted.

Reuben T. Evans resigned as a member of the teaching corps and his resignation was ordered filed.

All the old janitors of last year were re-elected for service this year, and in the same buildings where they formerly served.

CITY COUNCIL SESSION.

Canvasses Vote of Special Bond Election—No Business Transacted.

The city council met last night in the capacity of a canvassing board to canvass the returns of the special sewer bond election, Aug. 1. The result was practically as hitherto published in the "News," the bonds being defeated by a substantial majority.

A quorum of the council was not present hence no regular council meeting could be held, although it was the intention of the members to hold one.

BURGLAR SCARED AWAY.

Enters Home of Joel J. Harris and Escapes Without Plunder.

A burglar entered the home of Joel J. Harris yesterday evening about 5:30, but was frightened away before he had an opportunity to get any plunder. The home is on Adams avenue across the street from the high school, and next to the home of H. J. Peery. Mrs. Peery saw the fellow in the house and gave the alarm. He ran out of the back door climbed the fence into Utahna Park and disappeared. It transpired that he had entered by the front door, which was unlocked, although Mr. and Mrs. Harris were out at the time. Mrs. Peery gave a good description of the fellow to Officer Smythe, who went to the Harris home and made a thorough investigation.

LARSON-BENSON NUPTIALS.

A marraige license was issued yesterday afternoon to Howard J. Benson, 35, of Salt Lake, and Alma Larson, 30, of Ogden.

The man Daley, charged with perjury in swearing falsely at the trial of his companion, Wilson, charged with cutting Gus Peterson in a brawl back of a Twenty-fifth street saloon last spring, was yesterday bound over to the district court on a charge of perjury, his bonds being placed by Judge Murphy at $500.

Rapid progress is being made on the government building. Six of the big iron columns have been put in place, and the inspector, L. T. Shipley, states that the work is progressing with satisfactory speed.

OFF FOR UINTAH.

Barlow B. Wilson, deputy Sheriff Daniel S. Burch, L. H. Murdock and Wm. H. Parry, four Ogden men, who were lucky in the drawing for chances to locate Uintah reservation lands, left early this morning for the reservation. They took their own outfit and will go all the way by team.

PROVO DEPARTMENT.

The "News" is delivered by carrier in Provo at 75 cents per month. R. J. Dugdale, Agent.

SPRINGVILLE BURGLAR SHOT.

Mrs. Helena Coray Alexander Succumbs To Long Illness.

Special Correspondence.

Provo, Utah Co., Aug. 19.—Mrs. Helena Coray Alexander, wife of Wm. D. Alexander, died yesterday afternoon after an illness of two years' duration. The ailment was an internal cancer, and for the past year Mrs. Alexander has been a great sufferer, bearing her affliction with wonderful fortitude and patience. Mrs. Alexander is the daughter of Mr. and Mrs. Howard Coray, and was born in Salt Lake City, Feb. 1, 1862. The family moved to Provo in the late fifties, and the home of the deceased has been here the greater part of the time since then. She was a woman of great strength of character coupled with womanly tenderness, which made her many friends. Her husband, four children and four great-grandchildren, her aged father, and several brothers and sisters, and many other relatives, survive her.

Funeral services will be held from the residence Sunday at 1 o'clock.

BURGLAR SHOT

A burglar, who gives the name of John Hosmer, and says he is lately from Nevada, was discovered Thursday night by Nightwatchman Mose Johnson, trying to burglarize Kelly's drug store in Springville. Hosmer tried to make his escape and refused to stop when Mr. Johnson called for him to stop. A shot fired by Johnson took effect in the calf of Hosmer's left leg, and stopped him. He had a sackful of jewelry, about $200 worth, and had $10 in money; also taken in the store wrapped up in a rag which he left behind in the store in his hurry to get away. The burglar is now in the Provo general hospital getting surgical treatment. He appears to be about 35 years of age.

Murray Department.

The "News" is delivered in Murray and vicinity from the branch office every night. L. E. Lauritzen, Branch Manager. Orders for Church Works and advertisements received. Office at the Murray Eagle.

(Hot Over the Bell Wire.)

The city council convened Tuesday evening as usual, and transacted the following business:

The minutes of a special meeting held Wednesday night, Aug. 9, were read. The council at that meeting decided that whoever is granted the franchise for erecting a water system in Murray is to furnish water that will be fit for culinary purposes, and also furnish a head of 90 pounds pressure which is necessary in case of fire.

The water problem again came up and after some consideration a vote was taken which was unanimously in favor of granting Mr. John P. Cahoon a 25-year franchise. Mr. Cahoon was ordered to prepare his proposition in detail for presentation at the next council meeting, when it will be granted.

A committee of four was appointed, consisting of Messrs. James Birch, William McCleery, John Wood and Mayor Stratton, to wait on the mayor and water committee of Salt Lake City requesting them to cease negotiating for the water of Little Cottonwood, as this is the only source to which Murray city looks for her water supply.

[illegible] was asked to ascertain the reason why the dance hall ordinance has not as yet been presented to the city council.

The road supervisor was given orders to repair the state road near Sixteenth South.

POLICE NOTES.

Aug. 15, Andrew Larson plead guilty to fast driving and was fined $10.

Charles Johnson was arrested on the 14th charged with burglary. He was turned over to Sheriff Emery and will have his hearing in Salt Lake.

Carl Neilson forfeited bail for $2 for riding a bicycle on the sidewalk.

NEWS BRIEFS.

Last Sunday evening Alfred Atwood's little girl lost the end of the second finger on the right hand in a lawn mower.

Mrs. Lung, who was operated upon last Thursday at the Murray hospital, has greatly improved, but she will be confined to her bed for sometime.

Many Murray people are in the drawing for lands in the Uintah reservation.

The beautiful $30,000 school building in the Fifth municipal ward is nearing completion.

M. Christensen, who opened a shoe shop in the Riverside building not long since, is seriously ill at his home in Salt Lake City.

Yesterday Murray was the scene of a deserted village. Everybody was at Lagoon. It was butchers and grocers' day. A stranger asked if the smelter smoke had taken the city, and if the people were compelled to look up a rendezvous in other quarters.

Your grocer returns your money if you don't like Schilling's Best.

VERNAL.

MRS. ROBERT JAMES DEAD.

Victim of Typhoid Leaves Four Motherless Children—Home from Mission.

Special Correspondence.

Vernal, Uintah Co., Aug. 16.—Ashley Bartlett, who has labored in the mission field in Wisconsin and Michigan for the past 22 months, returned a few days ago, and is now at his old place at the case in the Vernal express office, where he was employed previous to his call to take the mission field.

Vernal has been very orderly and quiet despite the large number of strangers that have been, and are now, here. Not a serious disturbance of any kind has marred the occasion of the big rush for the Uintah lands.

MRS. ROBERT JAMES DEAD.

Mrs. May James, wife of Robert James, and a daughter of James O'Neil of Glines ward, died yesterday of typhoid fever, and was buried today. A husband and four small children, the eldest being less than five year of age, survive her.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months, I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at Z. C. M. I. Drug Dept. Price 50c.

MORGAN.

EXCURSION TO LAGOON.

Relief Society and Sunday School Conferences—Bumper Crops in Morgan.

Special Correspondence.

Morgan, Morgan Co., Aug. 18.—About 500 of the good people of Morgan enjoyed themselves at the Lagoon on Wednesday. The excursion was gotten up for the benefit of the missionaries in the field from Morgan stake. A special train left Morgan at 8 a. m., carrying the happy crowd to the famous resort. In the afternoon the Morgan and Summit counties baseball teams crossed bats at the Lagoon ball grounds, the score being 3 to 11 in favor of Morgan. Every one enjoyed the trip.

Relief Society conference was held yesterday in the Morgan tabernacle. Sisters Beattie, Thomas, Stevensen and Clark were up from Salt Lake.

Rosetta Grover, one of Morgan's popular young ladies, it ill with typhoid fever.

BUMPER CROPS.

Farmers are harvesting one of the best crops they have had for a number of years. The crops are all good, the market is also good, and the farmers are happy.

Sunday school ward conference will be held next Sunday in the Peterson and Richville wards, and a good time is expected.

ACCIDENTAL POISONING.

Marion Francis, son of President William Francis, took some carbolic acid last night by mistake. Dr. Pugmire was quickly summoned and succeeded in bringing the boy through all right.

Mrs. T. R. G. Welch has gone to visit some of her children in Canada.

Supt. James H. Taggart of stake Sunday school is able to be out and around once more.

Babies' skin will be soft, fair and smooth if you give them Hollister's Rocky Mountain Tea this month. It regulates the stomach and bowels. It makes the little ones sleep and grow. 35 cents. Ask your Druggist.

PEOA.

CROPS MORE THAN AVERAGE.

No Frosts in Kamas Prairie This Summer—Generous Irrigators—Campers Galore.

Special Correspondence.

Peoa, Summit Co., Aug. 18.—The grain, hay and potato crops promises to be above the average with the exception of the second crop of alfalfa, which will be light owing to the fact that the water from most of the canals and ditches has been turned into the river for the benefit of the farmers in Weber and Davis counties. A few of our citizens were opposed to this move, but the directors of the Peoa South Bench Canal and Irrigation company decided to close their canal for 10 days; some of the ditches were also closed, only one or two parties have kept the water in their ditches. Of course, we needed the water, but in the goodness of our heart towards our friends below, the majority of us have done as we would be done by, and, it is believed, we will not suffer very much from it for two nice rainstorms have fallen since the water was shut off.

There has been no frost since early in the season, which is a great benefit to our crops, gardens and orchards. Usually we have severe frosts in June and July, but which we have escaped this season, so far. It is not unusual to have our potatoes and all tender plants killed to the ground at least twice during the growing season. Last year the wheat was damaged by the frost and was not fit to make flour, hence our farmers have been forced to buy their bread stuff for the past year, which means an outlay of about $300 per month. The elevation here is 6,200 feet.

Quite a large number of Peoa citizens have been to Provo and registered for the drawing of land on the Uintah reservation; should they get good farming land there this settlement will loose from half to two-thirds of its population.

A large number of people from Salt Lake City are at Holiday Park at the head of Weber river, and are enjoying life to the full extent; campers are strung along the river from here for 22 miles east, all of whom report having all the fish they can eat.

Now that the chicken season is open the report of guns on all sides is heard from sunrise to sunset, and the sportsmen have fair success.

WILLIS H. STINSON DEAD.

Willis H. Stinson, a soldier and pensioner of the war of the Rebellion, died at his ranch in Weber canyon on July 15, from stomach trouble. Mr. Stinson was 57 years and six months old at the time of his death. The deceased was very highly respected. He leaves a wife and three children to mourn his demise.

PETERSON.

Harvesting Good Crops—Fish Destroyed By Dynamite.

Special Correspondence.

Peterson, Morgan Co., Aug. 17.—The harvesting of the grain will soon be through, and the second crop of lucern is being cut. The crops in Morgan county, generally speaking, are very good. The water has held out well to mature them.

The Writer saw in the "News" some time ago that the hot weather and low water in the river were killing the fish. This is all bosh. The river is holding out good. Giant powder is the cause of fish dying.

FILLMORE.

SERIOUS LOSS BY FIRE.

Jesse Millgate Loses Barn and Hay—Smokers Probably Responsible.

Special Correspondence.

Fillmore, Millard Co., Aug. 17.—About daybreak this morning the barn of Jesse Millgrate of this city was discovered to be on fine and before assistans arrived the barn, a small calf and about five tons of hay were destroyed.

G. Huntsman started around town with a subscription list headed by himself and from appearances will obtain enough to reimburse Mr. Millgate for his loss. The cause of the fire cannot be ascertained. It is supposed to be the result of cigarette smoking.

John P. Robinson, Baritone Soloist, at Lagoon Sunday, Aug. 20.

BASIN CITY, WYO.

BIG CANAL PROJECT.

Will Reclaim 30,000 Acres of Best Land In Big Horn Basin.

Special Correspondence.

Basin, Wyo., Aug. 16.—President B. F. Perkins of the State Loan & Trust company is here from Sheridan to investigate the Big Horn canal proposition. Mr. Perkins and a number of eastern moneyed men, recently purchased the canal, paying $25,000 for the property.

This canal was promoted by a number of local men, headed by W. S. Collins, and construction work to the amount of $10,000 was done several years ago. Construction work will begin again within 10 days. When completed the canal will be 40 miles long, and will cover 30,000 acres of the best land in the Big Horn basin. As soon as the plans of the company are announced and construction commenced, it is believed the population of this section will increase rapidly, for homes under the canal will be in big demand.

DOME LAKE, WYO.

Beautiful Summer Resort Buildings—Irrigating Reservoir.

Special Correspondence.

Dome Lake, Sheridan Co., Wyo., Aug. 15.—This is an interesting spot, not so much for its size nor for its numerous inhabitants, but from the fact that it is the pleasure resort of the Dome Lake club.

This organization has about 40 members, some of whom are prominent railway officials and other wealthy business people. Mr. E. S. Templeton, a prominent member of this club, is building a reservoir on the club grounds here in the Big Horn mountains. Messrs. Crosby and Welch of the Big Horn stake have the contract to build the dam for the storing of the water for irrigating purposes. Over 30 teams and 40 men are employed on the work at the present time. It will take about two months to complete the work.

The lake has an altitude of 8,850 feet, is one-fourth of a mile wide, and one-half mile long and 40 feet deep. Is situated about 38 miles southwest of Sheridan and one mile higher up the mountain. It abounds in fish, and is a delightfully cool summer resort.

Near our camp the mountain peaks tower above timber line and great banks of snow nestle on their sides.

About 15 or 20 miles following the range southward from Dome Lake is Cloud's peak, with an elevation of over 13,000 feet. On this peak is a genuine glacier, claimed by some to be the farthest south that any such bodies can exist.

W. L. Lundstedt of firm of Richardson & Adams, wil ride Silver King, the high diving horse, Saltair, Sunday, Aug. 20th, for $100.00, at 4:30.

OAKLEY, IDAHO.

S. E. HALES' HOME BURNED.

George Whittle Closes Honored Career At 65—Threshing Begun.

Special Correspondence.

Oakley, Cassia Co., Ida., Aug. 16.—Monday, Aug. 7, while S. E. Hale and wife were away from home their residence took fire, in some mysterious manner, and burned to the ground with nearly all the contents, leaving the family with just the clothing they had on. No insurance. The origin of the fire remains a mystery.

A GOOD MAN DEPARTS.

Elder George Whittle, an old and highly respected citizen of Oakley, died at his home in the Third ward, Aug. 14, from chronic stomach trouble. Elder Whittle was born June 23, 1840, in Hancock Co., Mo., (and since removing to the west, has lived at Grantsville, Salt Lake, Ogden and in Cache valley, coming to Oakley 21 years ago. He has been a member of the Cassia stake High Council since the organization of the stake. The deceased has been a faithful man during his life, and won the respect of all who had the pleasure of his acquaintance. Funeral services were held in the stake house today, at 4 o'clock p. m.

EAGLE CHANGES HANDS.

The Oakley Eagle has again changed hands. Mr. C. P. Deal, the former editor, going to Twin Falls City, Idaho, where he will continue in the newspaper business. The new owner of the Eagle is Prof. A. M. Merrill of this place.

Threshing began today.

Mr. M. E. Young of Colorado, who is contractor on the south side of the Snake river, under the Minidoka scheme, has over 100 men and teams at work on the main canal.

ENGINEER GRUNKSY IS PLEASED WITH IDAHO.

Boise Statesman—C. E. Grunsky, consulting engineer of the reclamation service, left Tuesday evening for Nevada. He made a trip over portions of the Boise-Payette project with District Engineer Ross. Sunday they visited the dam site at the head of the New York canal. On Monday they drove to Emmett and inspected the Black canyon dam site, going from there to Caldwell. The next day they drove over some of the lands to be reclaimed south of the Boise river and inspected the site of the Deer Flat reservoir, winding up the day's drive at Nampa. At the latter place an informal meeting was held with members of the Chamber of Commerce, at which the necessity for closing up the right-of-way matter was discussed, among other things.

Mr. Grunsky was well pleased with the great project, expressing himself as being surprised at the vast possibilities it presented. The visitor took occasion frequently to speak of Idaho as a state that offered the best opportunities for irrigation work. He made the statement that, in his opinion, the first complete demonstration of the success of the reclamation law would be furnished at Minidoka. He found the settlers there deeply in earnest and all pleased with the manner in which the work was being pushed.

RIVER BOATS TIED UP.

Boise Statesman: A Lewiston special to the Oregonian says: Boat service on the Snake river between Ripara and Lewiston is now totally tied up and service is not likely to be resumed for several weeks. Several days ago the steamer Spokane was taken off, owing to the low state of water, but it was thought that the steamer Lewiston could make regular runs, owing to the fact that she was just rebuilt. Word was received from Captain Works tonight that the boat reached Almota and had to tie up, owing to the stage of water being too low to get over shallow places. The steamer returned to Ripara to remain until the river rises. The river is the lowest now in many years, and at the Lewiston dock of the O. R. & N. company registers five-tenths above zero and is still falling.

TEA

Buy tea by the ounce till you get Schilling's Best; it makes no difference then.

TEMPLE NOTICES.

The St. George Temple will close on the evening of Friday June 30, and reopen on Tuesday, Sept. 5, at 9 o'clock a. m. DAVID H. CANNON, President.

The Manti Temple will close July 21, 1905, and reopen, Sept. 5, 1905. JOHN D. T. McALLISTER.

The Logan Temple will close on Friday, July 21, and reopen on Tuesday, Sept. 5, 1905. M. W. MERRILL, President.

SCIENTIFIC MISCELLANY.

Metallic tantalum, which is of such interest at the present time, was first prepared by Dr. Werner von Bolton by submitting tantalum tetroxide to an alternating electric current in a vacuum tube, the metal separating at the cathode. In a later process, a mixed salt of tantalub fluoride and potassium fluoride is reduced by potassium, and the resulting mixture of pure metal and oxide is separated by fractional distillation. The metal is so ductile that it can be drawn into a wire 1-800 of an inch in diameter. Mixed with unaltered oxide, it becomes harder than the diamond and tougher than the best steel, and at moderate cost it would be the ideal battleship armor. As a lamp filament, tantalum uses only half as much current as carbon for the same light. A peculiarity of tantalum is that it sometimes assumes the passive state, and a cell of two electrodes of this metal, with sulphuric acid as electrolyte, will not allow an alternating current to pass. Substituting platinum for one electrode, the current can pass in one direction only.

The problem of the ascent of sap in trees, an English botanist points out, is yet unsolved. It appears that in the highest trees the total pressure would be nearly 100 atmospheres, and as we cannot suppose that leaves can exert so intense osmotic suction, the only theory at all probable is that the living cells exert some sort of pumping action in the wood.

With a tensile strength often exceeding 300,000 pounds per square inch, steel piano-wire seems to be the strongest material known, and it possesses the additional valuable property of a very high elastic limit.

The new building material known as "Kremnite" is made in a factory near St. Petersburg, and consists of powdered clay, sand and fluorspar melted together at a high temperature. The molten mass may be used like iron for molded castings as well as blocks. The material can be colored in a variety of shades, may be ground or polished, takes glaze well, and gives a good imitation of colored marble or other natural stone. It may be cast in large pieces of any desired form. It is well adapted for architectural and artistic purposes, yielding such products as hollow bricks, for buildings and stoves, fancy marble-like bricks, tiles for floors and sidewalks, and even thin corrugated plates for roofs.

A novel smelting process that is being generally adopted by mining works in Germany is designed for quickly melting any small portion of a large mass of metal. Such an operation is of great importance, for example,for opening the clogged tapping holes of blast furnaces. The point to be acted upon is first heated by the oxyhydrogen blowpipe or electric arc, and oxygen under high pressure is thrown against it. The enormously high temperature thus generated at once liquefies the surrounding parts.

The use of milk of lime for quickly and effectively extinguishing fires in coal mines is recommended by Inspector Wolfgang Kummer, a German. The suggestion is not new, but has been newly tested with satisfactory results. The emulsion—which can be used with hand or power pumps—runs into and fills the crevices of the coal or mineral.

A peculiar process for separating non-magnatic particles like gold from sand has been patented by L. T. Weiss. The metallic particles in mass are electroplated with iron, by a special apparatus, and can then be separated by any magnetic method.

Improvement of the microscope has been the aim of recent inventors. In the ultra microscope a new method of illumination gives visibility to particles heretofore outside of the line of sight; and in the still later ultra-violet microscope the mode of illumination is a chief feature. The second instrument uses light of a wave-length of 275,while the shortest wave-length not absorbable by ordinary lenses is 350. The difference depends upon the employment of quartz lenses, the source of light being cadmium electrodes, and the detail obtainable with the short rays is remarkable. The naked eye sees nothing through such a microscope, an eyepiece containing a fluorescent screen being necessary to convert the rays and make visible a picture of the object in green. The fluorescent screen is only for focusing, however, and the real results are obtained by photography, the plates being very sensitive to the rays from the cadmium electrodes. The results differ much from those of ordinary illumination, some structures being penetrated by the cadmium rays while others are not.

A rather unexpected danger in coal mines, as also in other places, has appeared. In an English mine an ordinary 100-volt 16-candle-power lamp proved to be capable of causing smoke to rise within three minutes when imbedded in coal-dust, and of producing flame within 25 minutes when laid on the top of coal-dust. In other experiments, heat was generated so rapidly that when the lamp was partly covered by coal-dust, the bulb exploded in four minutes at 450 deg. F., and at a certain point combustion was begun in the dust and continued after removal of the lamp. Careless laying down of a lamp might start a fire quite unnoticed.

A steel of special hardness, patented in Germany by F. Munster, results from subjecting the molten metal to a blast of nitrogen.

Man rides Silver King, the high diving horse, Saltair tonight, 7:30.

"Yes" or "No" does not answer all the questions of this world. There are generally some "If's" and "And's" to be considered.

IN THE DISTRICT COURT, PROBATE Division, in and for Salt Lake County, State of Utah. In the matter of the estate of Edward Snelgrove, Deceased. Notice.—The petition of Edwin S. Snelgrove and William K. Snelgrove, executors of the estate of Edward Snelgrove, deceased, for confirmation of the sale of the following described real estate of said decedent, to-wit: Commencing 85½ feet west of the southeast corner of lot 2, block 50, plat "B," Salt Lake City survey, and running thence north 10 rods, thence west 75½ feet, thence south 10 rods, thence east 75½ feet, to the place of beginning. Subject to right of way in other parties over west 4½x165 feet thereof. Together with a right of way appurtenant thereto, over, along, and across the following part of said lot; commencing at a point 156 feet west of the southeast corner thereof, and running thence north 10 rods, thence west 4½ feet, thence south 10 rods, thence east 4½ feet to the place of beginning, for the sum of $4,000. And upon the following terms, to-wit: Cash upon confirmation as appears from the return of sale, filed in this Court, has been set for hearing on Saturday, the 26th day of August, A. D. 1905, at 10 o'clock a. m., at the County Court House, in the Court Room of said Court, in Salt Lake City, Salt Lake County, Utah.

Witness the Clerk of said Court, with the seal thereof affixed this 10th day of August, A. D. 1905.
(Seal) J. U. ELDREDGE, JR., Clerk.
By W. H. Farnsworth, Deputy Clerk.

NOTICE TO CONTRACTORS.

Sealed bids will be received until Sept. 1, 1905, for the repainting (two coats) of all the exterior woodwork of Logan Temple.

Also sealed bids will be received until Sept. 1, 1905, for the repainting of the exterior rock and woodwork of Logan Temple. Materials and workmanship must be first class.

The right to reject all bids is reserved. Inquire for particulars and measurements.
M. W. MERRILL, President.
JAS. A. LEISHMAN, Secy.
Logan, Utah.

NOTICE TO CONTRACTORS.

Salt Lake City, Aug. 12, 1905.—Sealed proposals will be received at the office of the board of County Commissioners until 12 M (noon) Sept. 2, 1905, for the plastering, plumbing, steam fitting and electric wiring, necessary to rebuild the main building of the County Infirmary including necessary repairs in accordance with the plans and specifications on file in the office of the County Commissioners.

The Board of County Commissioners reserve the right to accept or reject any and all bids.

NOTICE TO CONTRACTORS.

The undersigned trustees of Mt. Pleasant School District, Mt. Pleasant, Utah, will receive bids up to 12:30 a.m. Aug. 26th, 1905, for the installation of plumbing, latrines, urinals, etc., in the Mt. Pleasant school building. Plans and specifications can be found at the office of C. N. Lund, at Mt. Pleasant, Utah, also at the office of R. C. Watkins, architect, Provo, Utah. Each bid must be accompanied with a certified check of 5 per cent of the amount of bid.

The trustees will meet at the above stated time and date to open and publicly read all bids. The trustees reserve the right to reject any and all bids.

By order of the Board.
AMASA ALDRICH,
ABNER CRANE,
C. N. LUND, Clerk.
Dated at Mt. Pleasant, Aug. 15, 1905.

SUMMONS.

In the District Court of the Third Judicial District of the State of Utah, County of Salt Lake. Agnes R. Vadner, plaintiff, vs. Elvira M. Macdonald, defendant. The State of Utah, to the defendant:

You are hereby summoned to appear within twenty days after the service of this summons upon you, if served within the County in which this action is brought, otherwise, within thirty days after service, and defend the above entitled action; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which, within ten days after service of this summons upon you, will be filed with the clerk of said Court.
FRICK, EDWARDS & SMITH,
Plaintiff's Attorneys.
P. O. Address, McCornick Building, Salt Lake City, Utah.

In the District Court, in and for Salt Lake County, State of Utah. Louisa Rhodes, Plaintiff, against Robert E. Allen, Defendant, to be sold at Sheriff's Sale, at the west front door of the County Court House, in the City and County of Salt Lake, State of Utah, on the 5th day of September, A. D. 1905, at 12 o'clock noon of said day, all the right, title, claim and interest of said defendant of, in and to the following described real estate, to-wit: West ½ of lot 12, all of lots 14, 15, 16 and 17, all in block 1, Thomas' Subdivision of lot 17, block 16, five-acre plat "A," Big Field survey, Salt Lake County, Utah.

Purchase price payable in lawful money of the United States.

Dated at Salt Lake City, this 12th day of August, A. D. 1905.
C. FRANK EMERY,
Sheriff of Salt Lake County, Utah.
By W. B. Booth, Deputy Sheriff.

NOTICE TO CONTRACTORS.

Notice is hereby given that sealed bids will be received by the undersigned up to 8 p. m., August 21, 1905, for the materials and labor required for heating and ventilating and plumbing for a twelve-room school building near the corner of Twelfth South and Ninth East Streets, Salt Lake County, for the Granite School District, and according to plans, specifications and drawings which are open for inspection of the bidders at the office of Dallas & Hedges in the Deseret National Bank Building, at the corner of Main and First South Streets, in Salt Lake City, Utah, and all bids and proposals at the above time will be publicly opened and read in the office of the Board of Education for Granite School District, in the County Assessor's office, in the City and County Building, Salt Lake City, Utah.

All bids must be addressed to "Board of Education for the Granite School District, Salt Lake City, Utah," and marked in the lower left hand corner, "Bids" or such bids can be delivered to the Board of Education at the said time and place of opening same.

Bids must not contain conditions, qualifications, propositions or any other thing than those mentioned in the plans, specifications, drawings, contracts and bonds, and bidder must use the form of bids which will be found at the office of the said architects, and no other form of bids will be received.

A certified or cashier's check on some bank in Salt Lake City, Utah, for at least 5 per cent of the amount of each bid must be inclosed. Each check is to be made payable to the undersigned, and is to be forfeited to the undersigned in case the bid is accepted and the bidder does not enter into the contract within three days after its acceptance, for the faithful execution of the contract and bond hereinafter mentioned.

The proposed contract and bond are also at the office of said architects, and can there be examined.

A bond must be furnished for one-half of the bid, with good and sufficient sureties, all satisfactory to the undersigned.

The undersigned reserves the right to reject any and all bids.
BOARD OF EDUCATION,
Granite School District.
