BROKERS SURPRISED.

Sudden Advances in Several Stocks Today the Cause of It.

ANCHOR AND DEXTER AMONG THE NUMBER

Utah's Gold Camp Admired—Reported Lower Mammoth Cave-In—Outlook for Anchor Dividends.

Those who filed into the pit today were greeted with a number of surprises in seeing several securities move showing advances, one in particular nearly knocking the brokers off their feet, as it advanced step by step, and made a sale at a dollar, while the standing bid was quite close to that figure.

The stock especially referred to is Anchor, which for so long a time has been sleeping the sleep of peace and contentment, knowing as it did that with silver at its present standard, there was very little home for its continuing stock at a fancy. The paper was so scarce (and then it was evident it was in demand and below the call) that 100 shares had changed hands at $1, this being the first transfer of the stock for a number of months past. After showed signs of a reversion and was wanted at 95 cents, while Butte-Duck was quite firm, and the morning session saw the stock quoted good figures, prominent among them being Jeferis, which was bid for at $1.25. Barnesville turned in the trading in it and 10 cents and silver King was well bid for but could not be had under $1.50.

Taking the initiative for utilized stocks, Chloride Point showed growing popularity in sale at figures ranging from $1.60 to $1.65, and when the call sheet the bid was $1.67, stocks received the bid of yesterday, while Dexter surprised the board by going to $1.60 in the bidding as against offerings at $1.50. Lower Mammoth was just so, but persons seemed in good position in a bid of $1.37½, at which price none could be bought. Little Pittsburg sold 100 shares at 3c cents.

The closing figures were as follows:

UTAH'S GOLD CAMP ADMIRED.

Visiting Lady from England Sees Much of Interest at Mercur.

Frank Eaglesham and sister-in-law, Mrs. Joseph Hepplethwaite of Stockport, England, came to Mercur last evening after a two-days' sojourn in the camp. The trip was made for the benefit of the lady who is here visiting and had never before been out at Mercur. To says she was delighted with the sights there, is but putting it mildly. The couple went into the Mercur mine and surveyed charts on hand on the premises, after which they took a general look around the camp, the lady commenting everything seen, wonderful. They were much taken up with the appearance of the Golden Gate mill by night, lighted with electricity, and as a novelty, took the car train to Manning on returning and had a look at the Mercur mill.

Mr. Eaglesham, who is auditor of the Salt Lake and Mercur railroad, says the Mercur company's new properties in Little Cottonwood are the scene of considerable activity, the ore being scooped from the open cuts in great abundance. Of the camp he says it is improving greatly, both in its appearance and the amount of work done, and the large accession to the population in the camp of many new houses being erected, in places heretofore unoccupied.

Reported Lower Mammoth Cave-In.

It was common talk among local mining men today that a cave-in had occurred in the Lower Mammoth mine at Tintic, the news, it was stated, tending to enhance the value of the property rather than to diminish it, owing to the fact that it has caused the opening up of a new ore body. How true this report is cannot be stated, as the Tribune's inquiries met with official stonewalling. It is known, however, that the Lower Mammoth is looking well, and that a new body has been found, as stated, then the mine is in better shape than ever.

Outlook for Anchor Dividends.

Anchor's sudden advance today caused much speculation as to the cause thereof, owing to the fact that the stock has been in such a state of apparent desuetude for so long a period. A prominent broker, when questioned concerning the matter, stated that the news was now circulating freely among members of the call board that from what he could learn, the outlook for a dividend declaration at an early date, was indeed promising. The Anchor is one of Park City's big mines and dividends from it at this particular time would undoubtedly be highly appreciated.

GIFS AND SPURS.

Silver, 60¼; lead, $2.95.

The Grand Central has ten cars of ore at the sampler.

It is reported that a local syndicate has offered $1 a share for a contiguous interest in the Omaha.

Ed. Steele, the mining stock broker, spent today in Tintic.

A car of ore is in transit from the Tuft mine at Fish Springs.

The Alice at Tintic is said to be showing a fine quality of copper ore in the lower levels.

The Abbottsford side of Dalton sold yesterday resulting in the transfer of $500 shares at $12 a share.

The Lower Mammoth continues at 5 cents a share, from which the company realized the sum of $1,500, $50 of bids paid 3c.

Reports from the North Mountain mine at Cherry Creek, Nev., indicate wonderful progress in the development of the property. The mill is running at one of one a day and getting good values.

J. F. Bamberger, who returned a week ago from the northwest, says the Alice is doing good work in the lower levels, adding the mine continues to show regular shipments.

Mrs. N. Fulton of this city is a guest today in the St. Anthony Nob Hill at Tintic, having come to Eureka, where a strike was recently made demonstrating the existence of a rich ore body in the mine. As a result Mrs. Fulton is now happy.

The Spokesman-Review's correspondent at Coeur d'Alene, Ida., says that A. J. Hunter of Salt Lake City, Utah, is in town en route to the Great North, was proven to look after the development of that property and other claims owned by his company in that locality.

Montpelier Examiner: W. H. Dodge, owner of the Bonanza mine at St. Charles, was in town last week after viewing his property last week. Work will be dated operations, as this property is now in the hands of a receiver as a result of its visit.

SYRUP OF FIGS

NEVER IMITATED—QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is for in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. It is to be its beneficial effects, please remember the name of the Company—

Palpitation of the Heart.

A severe attack of nervous palpitation left my heart in a very weak state. It would palpitate and flutter at the slightest exertion, and I was unable to attend to business. I took several bottles without benefit, until I began using Dr. Miles' Heart Cure which cured me completely.
