Citizens' Reform means the cleaning out of political tricksters. Tuesday next is "cleaning day," and the Non-Partisan ticket the new broom that will do the work.

TO SCANDINAVIAN VOTERS.

Misrepresentations Regarding Hon. John Clark Corrected in a Public Address.

To the Scandinavian Voters.—The Democrats have circulated a pamphlet, printed in the Danish language, charging that Mr. John Clark, the Citizens' Reform nominee for Mayor, is a gold Democrat, and declaring that a vote against the Democrats in this campaign would be a vote against silver.

We want to assure all voters that these charges are utterly without foundation. In the first place, Mr. John Clark is as good a silver man as can be found in Utah. He not only voted for Bryan and silver last fall, but he contributed liberally to the Bryan campaign fund, and every member of his family old enough to vote cast a ballot for Bryan and silver. These statements are made on the authority of Mr. Clark himself, and can be relied on.

In the next place, silver is not an issue in this campaign. It was an issue last fall, and the people of Salt Lake all voted practically the same way—Republicans as well as Democrats supporting Bryan and the silver platform. At present the only issue before the people is good government for the city and the question of silver does not enter into it at all. Your ideas on the silver question, or on the tariff question, cannot lower your city taxes nor give you good city government, but if you vote for the best man you are assured that you have done your best to get good government.

The candidate of the Citizens' Reform ticket are the best in the field. They are loyal to silver. They are pledged to good government and will, if elected, be responsible to nobody but the people of Salt Lake. They will not be under any obligations to any political party, and will have no political debts to pay at the expense of the city.

Put an X under the shield on election day. Citizens' Reform committee.

JOHN T. CAINE, Chairman.
JAMES H. WALKER, Secretary.

Horticultural Meeting.

The Salt Lake County Horticultural society will meet in Judge Norrell's court room at the city and county building at 2 p. m. next Saturday, when Hon. Heber Bennion of Taylorsville will read a paper on "The Pruning of an Orchard." W. N. Cole of Sugar will speak on "Winter Spraying for Apple Trees." J. M. Boyer of Granite will talk on the prune industry in Utah. All interested are invited to attend.

An Evening's Amusement.

The Amusement association of the L. C. M. I. shoe and cloth factory gave a pleasant entertainment at the A. O. U. W. hall last night. The function was well attended and consisted of some choice recitations, musical selections and speechmaking.

The Cit's Health.

The report of the board of health for the week is as follows: Births 12, males 7, females 5; deaths 20, males 10, females 10, bodies brought from other places for interment five; infectious diseases, scarlet fever 6; infectious diseases, typhoid fever 16.

Supervisors of State Funds.

J. D. Thompson of Hennefin, Garfield county, was appointed by Governor Wells today to supervise the expenditure of $1,000 appropriated by the legislature for the construction and improvement of a highway between Pangnitch and Escalante. Edward McArthur of St. George has also been appointed to supervise the expenditure of $1,000 for the improvement of a public highway between St. George and the towns of Rockville and Virgin in Washington county and the county line south of Kanarra, Iron county.

"Taxpayer's" Vote.

Salt Lake City, Utah,
October 28, 1897.

To the Editor:

Well, the city election is near, and there is lots of talk, talk, talk. But the situation may be expressed in a few words. Eight years ago the city had about half a million in bond. Now it is millions in debt, with taxes frozen and what they ought to be, and many people for remonstrating, when they notice, that interest doubles the debt, and often treble it. That is "where we are at." Now, I intend to vote for the best but before any of "enterprise" and "improvement." Where are the much vaunted "improvements" to show for all this squandering of the people's money? Most of the real improvements were made by school taxes, which taxes were doubled in three other successive years, and the relative to some of these special taxes have not been repealed, but their reducing has been persistently refused. There seems to me to be more doubt than improvement.

Now, what is needed in a city official?

First—Morality that their city be honestly governed, that there may be no squandering in bonds, no embezzlement, no stealing.

Second—Economy, rigid economy, letting expenditures to necessities and not yielding the force of the pole.

Third—Ability, that the city may not be left behind, that it may be managed with business soundness and efficiency.

The man who possesses most of these desirable qualities are the men for my vote.
