PROVO.

The Nielson Murder Case.—Wreck on the Rail.—Notes.

From Our Regular Correspondent.

PROVO, April 6.—In the Nielson murder case Dr. A. C. Le Davidson of Mt. Pleasant yesterday offered expert testimony. Witness was present at the autopsy, and discovered that the ball entered the left breast, fracturing the third rib, passed through the lower left lobe of the liver and made an exit between the fifth and sixth ribs of the back. Such a wound was generally considered mortal, and proved to be so in this case. Death was the result of blood poisoning which was caused by the wound.

Dr. Gudeth took a similar view of the case.

Hansom Anderson, one of the bank directors, notices a fill o'clock on the night of the shooting that the light in the bank was brighter than usual and that several of the lights were turned which was not customary. Went as looked through the other windows of the bank, but did not see anyone inside. A while later, and after the shooting, witness had noticed a change in the window blinds of the bank. The witness had heard incensed Nielson make a dying statement, but the defense objected to his testifying to it, and the objection was sustained. Before the court ruled the matter, however, Mr. Zane was permitted to make a statement of what he expected to prove in order that the court might judge as to its materiality. Mr. Zane's statement was to the effect that Nielson had said that Peter (the defendant) had offered a good sum and he (Nielson) would disinherit him, showing him on $.5, which should be paid immediately after the father's death. Mr. Zane's position was that this tended to show that the father knew of the son's guilt but did not desire him prosecuted; the $25 was to allow him to get out of the country. The defense excepted to the court's ruling, permitting Mr. Zane to make this statement on the ground that it had only been made to influence the jury; Mr. Zane knowing full well that such testimony was inadmissible.

Mr. Brady, marshal of Mount Pleasant, testified to the similarity of the traces in the snow which must have been made by the murderer and the tracks of Nielson. Both sets of tracks showed the prints of Alaskas, No. 6 or 7. The tracks of the murderer had been traced by the marshal to within a block of the bank; they could be traced no further on account of the. They were made on an unfrequented street. The marshal had also examined the gun at the bank. There was a smell of freshly burned powder when the trech was opened.

Other testimony was offered but it was mainly corroborative.

NOTES.

A wreck occurred on the northbound Union Pacific passenger train yesterday afternoon. There were five cars, all well filled with conference passengers, and the last three were derailed, the last car being completely turned over. Twenty-five or thirty people were bruised and wounded, but as far as can be learned, no bones were broken. The most serious hurt reported is that of a young lady who had her nose badly lacerated. The passengers were all crowded into two cars and continued the journey, after an hour's delay. Mr. Sharp, of Denver, who had sustained some bruises about the chest, got off at Provo, and last night took the R. G. W. east. Fortunately a physician was on board, who rendered considerable assistance to all who were in any way hurt. The accident was caused by a broken fish plate, which had allowed the rails to spread. The three derailed cars are at one side of the track, and will not prevent travel over the road.

Of the final Territorial school apportionment of $1.44 per capita of school children, Provo receives $2603.52 and the balance of the county $10,225.41. The money is expected in a day or two.

The residence of E. F. Hiatt of Salem was destroyed by fire on Monday afternoon. Most of the household effects were saved.

Mr. C. O. Bahr has assumed the management of the Salem co-op. vice A. Eagbert, resigned.

Among those who have lost money while attending Conference in Salt Lake City, is A. O. Smoot. A pickpocket relieved him of a small amount.

THE SECOND SETTING.

Civil Jury Cases for Trial Before Associated Justice Bartch.

The following additional list of settings has been made by Chief Justice Zane:

MONDAY, APRIL 10TH.

H. Bews vs. D. Hirschler et al.

FRIDAY, APRIL 21ST.

John Billings vs. E. H. Parsons et al.
Charles A. Dole vs. Ogalirth Water & Land company.
Eric T. Ronstrom et al. vs. Daniel Eyer et al.

Riverton to the Front.

Correspondent Deseret News.

RIVERTON, Salt Lake county, March 31.—Although lying in a rural district, this place is keeping abreast with the times in improvement and enterprise.

Last December a fine two-story brick school house was completed at a cost of about $5000. At present there are two schools running, and next year it is thought there will be three.

Last Wednesday night the Riverton Commercial company was organized. The capital was put at $40,000, $20,000 to be paid up. A two-story brick outbuilding is to be built at a cost of about $5000. The first floor is to be used for a store, warehouse and bank; the second floor for a amusement hall.

A short time since a $12,000 deal took place here. The chief contracting in the transaction were Messrs. C. N. Dunce and Daniel Dreaney, Jr., the latter having sold sheep to the former totaling the amount above mentioned.

Affairs in the ward are in a prosperous condition. Our bishop is a live, wide-awake man, working in the present and planning for the future; he drives with an almost unerring aim the affairs under his supervision to that elevated plane where progress and true religion meet in friendly embrace. J.

Essays and Sparks.

Question—1. My young mare went lame but August while speaking on the track. Two lumps appeared on the pastern joint of her left hind leg, one on each side. She was very sore and could not believe out of a walk. I blistered her five times and the swelling subsided about one half. She gradually improved and shows no lameness, being driven until she is worked slightly stiff again, when she will lay about one half mile and gradually warm out of it. What will effect a permanent cure? She has not improved any in the last two months. Would speeding be apt to bring on a recurrence of the trouble? 2. What will cure bone spavin?

Answer—1. If the lumps are bony, of the nature of a ringbone, firing would probably give the most satisfactory result. But such firing should be undertaken only by a competent veterinary surgeon. Without making a personal examination I could not give an opinion as to the possibility of effecting a cure. Speeding would be very liable to cause a recurrence of the trouble if driven too soon after recovery. At least several months should elapse before training or speeding again, to avoid the danger of a recurrence of the injury. 2. Firing is the most satisfactory treatment. There is no "specific" for all cases of bone spavin. Some will yield to treatment while others won't.—Dr. F. L. Kilbourne in Rural New Yorker.

Breeding Poultry.

It is a great mistake to introduce new blood through the male. Far better introduce such alternately, or, better still, make two lines of blood that will produce females of similar color and markings; then you can mate without fear of having your work undone. New blood should never be introduced through the male. I repeat, even though he be a great prize winner, unless the females of the same blood—i.e., sisters from same sire and same dams—be better than your own as a whole, then you can safely introduce a male of such blood into your breeding yards and know for almost a certainty that your mating will prove successful.—Poultry Review.

A lady wants to know of a newspaper editor whether a prohibition woman should marry a man who drinks. No woman should marry a man who drinks.

Hood's Cures

Mrs. C. B. Card

Made Over Anew

Chronic Headache Cured—Weak Lungs Made Strong and Well.

"For years I had sick headaches every day, and I also had very weak lungs. Since I have been taking Hood's Sarsaparilla I have been entirely cured of headaches, and my lungs are strong and well. Friends often say

How Well You're Looking.

I feel that it is due to Hood's Sarsaparilla. I am small in stature—never weighed over 100 pounds before taking Hood's Sarsaparilla, and so far this I began taking it I have run down to 87 pounds, but now I weigh 117½. My friends thought I would be dead long ago, but I am perfectly well. I am unable to express my thanks for the good

Hood's Sarsaparilla

Being=Beautiful

Is the least of being—that's all right for us hardware folk; we only think of being good and of how many nails we can give for a dollar. But with the women it is important to be too sweet for anything, and the MAJESTIC RANGE or RELIABLE GASOLINE STOVE will sweeten the temper of any woman. They too have wound their way into the hearts of many a housekeeper solely on their own merits.

They may not be as beautiful as some, but who looks for beauty in a range? it is quality and price that are looked for, and the Majestic Ranges and Reliable Gasoline Stoves possess both, something never before found.

When not too busy drop in on us and we will tell you the little we know about steel ranges and gasoline stoves.
