MINING, BUSINESS AND STOCKS

LEASERS EAGER FOR EXTENSIONS

Seven Troughs Eclipse Property Appears to Be Particularly Attractive Now.

GROUND TO BE PATENTED.

Engineers Employed to Make Preliminary Surveys—Work to Be Pushed.

The fact that leasers working on the property of the Seven Troughs Eclipse Mining company in the Seven Troughs, Nevada, district, are eager to obtain extentions of time in which to separate their several allotments of ground, is pretty good evidence that the Salt Lakers who went into this enterprise are going to come out winners. The Eclipse property is considered by a great many to be as good as any in the Seven Troughs district; particularly since some of the recent strikes were made there.

It was learned today that the directors of the company had granted the extension asked for by the owners of lease No. 2. It seems that some little time ago a large vein of milling ore was encountered in this lease and such developments made there to lead the parties in possession of this lease to believe they have some splendid prospects of getting into some high grade shipping ore in the very near future. Negotiations have been under way for the past ten days; an agreement was reached late yesterday afternoon and the papers are in the office of A. B. Irvine, the attorney of the company, ready for signatures.

Under the terms of the agreement, the time the lease has to run has been extended from 12 to 18 months. One of the conditions exacted by the company is that a shaft is to be sunk to a depth of 300 feet during the first 12 months, or the original time the lease was to have run, and the work is to be done subject to the approval of the engineer of the company; which is a guarantee to the shareholders of the organization that it will be done right. It is also agreed that during the last six months of the life of the lease, the company is to receive a royalty of 33 1-3 per cent of the net proceeds from all ore shipped.

It was stated by an official of the company today that it is highly improbable that any of the applications for extensions of the other leases will be granted, for the reason that the directors of the company believe the mine has been sufficiently proven and that it would be to the best interests of stockholders if the company operates the property on its own account after they expire.

Engineers have been employed to make the preliminary surveys for the patenting of the company's claims, some of which adjoin the Masuma Hills mine. This matter is in charge of Attorney Irvine, who will carry out the instructions of the directors in this regard as rapidly as possible.

ON MINING EXCHANGE.

Trading Active During Today's Early Calls—Closing Quotations.

The local mining stock market continues to hold its own in very good shape, considering the way things are down east. Salt Lake has about the best mining stock market in the country. During the early calls of today over $28,000 worth of business was transacted. A small lot of Daly Judge came out at $5.50. Lower Mammoth, which has been sticking pretty close to the $3 mark for several weeks, displayed weakness and 100 shares were bought at $2.87½. May Day held its own very well, the stock selling at 64 cents. The rumors current to the effect that Mammoth may possibly return to the dividend column, have created a demand for that old time Tintic stock. Very little is being offered at prevailing quotations; however, 700 shares came out today, 100 at $1.82½ and the balance at $1.80. Uncle Sam Consolidated made some gains and was in good demand at the close of the open board session at $1.45. Little Bell starting off at $1.12½ and sold up to $1.15.

It looked very much as if the laundrymen were at work when 200 shares were reported sold at $4.30 for during the early part of the open board session, one broker bid $4.40 repeatedly for it without a response. Standard Copper sold at 42 cents. The closing quotations and sales were:

BUTTE IS NOW IN SORRY PLIGHT

Drop in Copper Not Wholly Responsible for the Existing Conditions.

AGGRAVATED BY THE UNIONS.

Some of Them Have Made Unreasonable Demands at a Most Inopportune Time.

A correspondent writing from Butte says conditions in the Montana copper camp are in a sorry state and that there is no telling when the skies of prosperity will clear again. While the drop in copper has had much to do towards bringing about the existing conditions, the writer explains that other things have happened to aggravate the situation.

The unreasonableness of the labor unions of Butte are responsible to a large degree for the wholesale shutting down of the mines and the last hair to break the camel's back was the strike of the machinists. The operators have simply become tired trying to adjust matters with the strikers and coming, too, at a time when the bottom has fallen out of the copper market and copper stocks, the output of the camp has been curtailed either by a partial or a complete shutting down of the mines.

"The ore output and copper production of the Amalgamated, North Butte and Butte Coalition companies," says the correspondent, "has already been reduced fully 60 per cent, and the working force of miners and smelstermen has been cut down nearly as large a percentage.

"The statement from New York that the directors of the subsidiary companies of the Amalgamated company had decided to curtail the output by 50 per cent 'or more' of the normal output, and that, 'should the situation show no improvement, a further curtailment will be made,' is not contrary to the opinion in Butte that the mines will practically be shut down if the copper metal situation does not quickly improve.

"It will probably not be called a shutdown by the companies, but it will amount to about the same. The people of Butte will suffer somewhat by such a sweeping curtailment of its only industry, but few persons, except the socialists and other useless people, blame the companies for their actions. A curtailment is generally conceded to be the only remedy for several ills that harrass the copper industry in Butte."

GOLD CIRCLE CAMP.

New District in Nevada Attracting Attention.

It has been learned from the Tuscarora Mining News that considerable interest is being taken in the new gold camp of Gold Circle, situated about 40 miles west of Tuscarora. While some sensational values have been found there, the paper states, the usual run of the ore in the recent discoveries is from $20 to $100 to the ton.

LAKE COPPER NEWS.

Figures Showing September Output of Some of the Mines.

(Pollock Special Wire.)

Boston, Oct. 3.—Outputs from Lake Superior copper mines for September were: Mohawk 559 tons, Centennial 282,095 pounds; Allouez 351,035 pounds.

The Calumet & Hecla is building a mammoth boiler plant at the stamp mills. Structural iron workers are running the building to get it under cover before snow flies. Babcock-Wilcox boilers of 2,000 horse power will be installed with automatic stockers and ash conveyers. Exterior of recrushing plant is completed. The machinery is to be installed as soon as it is ready. Many of the tables and Chilean mills are ready to be set up. A 25-ton electrically operated crane will be installed in the mill which has been built with the idea of ultimately enlarging it.

The Arcadian is going at the proposition of looking for copper in a very sensible manner. They have a shaft down something like 75 feet and they are operating in a most economical manner. Its location is such that they can easily make a complete investigation of the end of the property yet unexplored. In fact, that work will be done more thoroughly than would be possible by drill operations. The Arcadian has a vast expanse of territory, and they surely ought to find something of value there.

AURA PROPERTY SOLD.

Deal Consummated in Elko, Nevada Last Week.

A deal was consummated last Saturday, in Elko, Nevada, says the Free Press, whereby the Big Four property, located in Aura, changed hands. Owens & Reese purchased the three-eighths interest owned by Willis Green and Theadore Storf, making a cash payment, the balance to be paid in equal monthly installments. A 30-day option was taken on the interest owned by August Pelot and A. F. McInnis, the other two owners. The amount involved in the purchase has not been disclosed but various reports piced it all the way from $50,000 to $100,000.

The Big Four was discovered by Willis Green on April 20th, while fishing. He had been prospecting in the neighborhood for several months but had followed a large dyke just across a small canyon. A snow slide had carried some rich float down the hill which he picked up. He looked for the ledge and found it a short distance up the hill where it had been uncovered by the slide. He and his three partners located four claims in the group and called the property the Big Four.

SAN FRANCISCO MARKET.

James A. Pollock & Co., furnished the following quotations from San Francisco on Nevada mining stocks today:

CONCENTRATES.

A report comes from Ely to the effect that the working force at the Giroux mines is shortly to be increased.

The new mill of the Montgomery Shoshone company at Rhyolite, Nev., is in operation and is said to be making a good account of itself.

The ore and bullion settlements reported late yesterday by McCornick & Co., were: Crude ore and concentrate, $50,000; base bullion, $85,000.

Capt. Duncan McVichie has returned from a trip to Montana and northern Idaho where he has been making an inspection of the Heinze mining properties.

Charles M. Dull, formerly a member of the office staff of the Yampa Smelting company, is still touring Nevada on a prospecting trip. He was heard from a few days ago at Millett, in Nye county.

The Gold Bug placer claim situated one mile west of Tuscarora in Eureka Gulch and owened by D. H. Young, Frank Grandey, Will Young and Dr. Mable Young, is at present looking better than ever before in its history and it is sure to become one of the largest producers of the yellow metal in the northern section.—Tuscarora Mining News.

E. D. Miller, president of the Lead King Mining company, has returned from a trip to the property of that company in the Duck Creek, Nevada, district and expressed considerable satisfaction today over the manner in which things are progressing. A car of ore was being loaded at McGill's the day he left camp and he says the product will carry high values in lead.

The Horn Silver Mining company has paid its usual quarterly dividend of $20,000, which was mailed for the New York office of that company on the first instant. At the annual meeting of shareholders a few days ago the following directors were chosen: Juan Ceballos, A. I. Harrison, William H. Woolverton and Theo H. Moore of New York, and Phila T. Farnsworth, H. S. Young and John Sharp of this city. Mr. Ceballos, who is a son-in-law of the late Allan C. Washington, will be chosen president when the new board meets for organization.

Secy. W. H. Clark of the Nevada Hills Mining company has given out the information that his company has 32 carloads of ore at the samplers and en route from the mine. He also makes the statement that the value of this product approximates close to $100,000. Manager W. H. Webber, in his last letter to the local office, stated that teams are more plentiful than they have been, and that he will not be handicapped so much in the future in the matter of getting out ore shipments. General conditions at the mine are said to be very satisfactory at the present time.

GOOD STOCKS Rate dividends yield on investment at current market price:
Z. C. M. I. ..... 5.8 per cent.
Home Fire Ins. Co. ..... 6.4 per cent.
Deseret National Bank ..... 5.5 per cent.
State Bank of Utah ..... 5.9 per cent.
Utah-Idaho Sugar Co.,
(preferred stock) ..... 7.7 to 8 per cent.
The par value of the Utah-Idaho Sugar Co. stock is $10 per share. The market price varies from $8.75 to $9 per share, according to amount offered for sale, and nearness to dividend period.
The dividend of 17½ CENTS PER SHARE EACH QUARTER PAYS A RETURN OF FROM 7.7 TO 8 PER CENT. per annum on the market price. In the judgment of some of the most conservative investors this stock will soon go to par ($10 per share). In the meantime those who now buy receive quarterly dividends of 17½ cents per share each quarter and any advantage that comes from an increase in market value. We shall be glad to fill your order for any amount of stock you desire charging the fair market price on the day your order is received. We have supplied some good blocks of stock for others and will do so for you. In writing send the amount you wish to invest in form of your check on bank; by a bank draft or by express or postoffice money order.

ATTENDED LAND OPENING.

Asst. General Passenger Agent D. S. Spencer Back from Twin Falls.

Assistant General Passenger Agent D. S. Spencer of the Short Line and Chief Clerk G. K. Smith of the vice president's office, returned this morning from Twin Falls, where they went in attendance on the big land opening up there. With Local Supt. G. H. Olmstead, they represented the O. S. L. They report 1,700 applications registered for land, and 1,200 people in immediate attendance. The best corner lot in the business section of the coming city of Jerome, was auctioned off for $5,000, and the lot adjoining brought $4,... Every indication points to a rapid settling and growth of that immediate section of the state.

ENJOINED IN MONTANA.

Judge Hunt Issues Order Forbidding Boycott of Telephone Co.

A special dispatch to this city states that Judge Hunt of the United States court in Montana has granted a sweeping and permanent injunction against the Montana Federation of Labor and all of its affiliated unions, enjoining them from interfering in any way with the Bell Telephone company. There were 52 respondents, and the court specifically prohibits resort to boycott. General Manager Murray has been in Montana for the last two weeks, in active charge of the company's affairs there.

SWAM ACROSS GOLDEN GATE.

San Francisco, Oct. 3.—Arthur Cavill swam across the Golden Gate this morning in 1 hour and 18 minutes. He started from Lime Point and swam to Fort Point. His time is better than that made by his brother Sydney, some time ago.

MARKET WAS A SELLING ONE

From Start Prices Went Downward Accompanied by an Outpouring of Stocks.

BEARS MUCH IN EVIDENCE.

Large Sales for London Account—Firmness of Call Money Had a Depressing Effect.

New York, Oct. 3.—Prices started downward under an outpouring of stocks, the usually conspicuous issues leading the decline. Great Northern preferred fell 1⅝, Canadian Pacific, United States Steel and Amalgamated Copper in the neighborhood of a point and St. Paul, Atchison, Louisville & Nashville and American Smelting large fractions.

Room traders furnished the bulk of the business, and as they were mostly arrayed on the bear side, the market was without sustaining force except when they covered. Rallies did not amount to much and prices yielded readily when selling was renewed. Northwestern lost 2⅝, Union Pacific and Granby Mining 2, Northern Pacific 1⅝ and St. Paul, Pennsylvania, Reading, Toledo, St. Louis & Western preferred, Wabash preferred, Colorado Southern and American Smelting 1.

There were large scales of stocks for London account, and the firmness of the call market also was a depressing influence. American Cotton Oil preferred sold at a decline of 6, Denver & Rio Grande 2½, Louisville & Nashville 1⅝, Southern Pacific 1¼ and Atchison, St. Louis & San Francisco second preferred and Iowa Central preferred 1. A fractional rally followed the decline.

Bonds were easy.

A better tone developed and the market hardened slowly. Some of the specialties, such as Amalgamated Copper, Smelting and Reading recovered fully. Granby Mining fell 7 points.

PRODUCE.

CHICAGO.

Chicago, Oct. 3.—The wheat market today opened strong because of an advance of gold at Liverpool and higher prices on the Minneapolis curb. The principal buying was by shorts. December wheat opened ⅝ to ¾ higher at 89⅝ to 90⅝, and sold at 1.00.

The corn market was firm, because of small receipts and the prediction of cold weather in the northwest. December corn opened ½@⅝ to ½ higher at 57⅞ to 57⅞@57¾.

The oats market was firm along with wheat and corn. December oats opened ⅛ @¼ higher at 52 and sold at 52⅛.

Provisions were steady, because of a strong market for live hogs. January pork opened 2½ higher at 15.50. Lard was unchanged at 8.70. Ribs were unchanged at 7.82½.

Cash: Wheat—No. 2 red, 88⅝@1.01; No. 3 red, 99⅝@99; No. 2 hard, 99⅝@1.02; No. 3 hard, 96⅝@99; No. 1 northern, 1.00@1.11; No. 2 northern, 1.06@1.09½; No. 3 spring, 97@1.09.

Corn—No. 2, 62@62¼; No. 3, 61½@62.

Oats—No. 2 and No. 3, nothing doing.

Close: Wheat—Dec., 1.01⅝@1.01⅞; May, 1.07¼.

Corn—Dec., 58⅛@58¼; May, 59⅛.

Oats—Dec., 51¼; May, 53⅝@53⅞.

Pork—Oct., 13.80; Jan., 15.10.

Lard—Oct., 8.95; Jan., 8.72½.

Ribs—Oct., 7.70; Jan., 7.82½@7.85.

Rye—Cash, 89@87½.

Barley—Cash, 57@1.05½.

Timothy—Oct., 4.30.

SUGAR AND COFFEE.

New York, Oct. 3.—Sugar, raw, steady. Fair refining, 3.45; centrifugal, .96 test, 3.95; molasses sugar, 3.40.
