FROM WASHINGTON.

Senators and Members Discuss Important Questions.

CONTESTANTS FOR THE OFFICES.

The Reorganization of the Senate May Be Postponed Until the Utah Senators Are Seated.

WASHINGTON, Nov. 25.—The arrival of a number of senators and members has begun and today, including Speaker Reed, has served to increase discussion over the reorganization of the two houses of Congress, and the prospect now is that this will be the important question in Congressional circles while the House contest is settled, and it is decided whether the Senate will reorganize.

The fact that the speakership is universally conceded to Mr. Reed has had the effect of concentrating interest in the other elective offices, and it appears probable that the elimination of the speakership will not disturb the general scramble over the result.

Mr. Henderson and Mr. McDowell are still the only two candidates for the House clerkship, and it is not believed that any dark-horse candidates will develop between this time and Saturday, when the House caucus will be held. Mr. McDowell's friends are hourly claiming that they are sure of a majority, but the Henderson men, instead of admitting this, assert that McDowell's vote will be fifteen or twenty short of sufficient to nominate.

There is a possibility of a change in the contest for sergeant-at-arms, but no issue is yet made in that direction and no one is willing to make a statement on.

There are now three candidates for doorkeeper: Tipton, of Tennessee; Jones, of North Carolina, and Lynch, of Maryland. The names of Allen, of Virginia, and William Colbert, of West Virginia, have also been added to the list of candidates for doorkeeper.

The Southern Republicans have announced their intention of holding a caucus on Wednesday for the purpose of agreeing upon candidates whom they can support as a body. There are twenty-three Republican members from the South, not including those from Missouri.

Rumors are decidedly at variance regarding the Republican senators with reference to the reorganization of the Senate, and nothing definite will be known on that score until after the meeting of the Senate. Senator Morrill, who is chairman of the Republican caucus, expressed the opinion today that the Republicans would hold conferences early in the session for the consideration of this question.

Some Republican senators who favor organization, advance the idea that if Democrats will not demand a division when the election comes, and give the Republicans to take it by default, Democratic senators here do not confirm this view, and the indications are that they will hold the offices and the Republicans show themselves able to take them. To secure this result they will have to obtain some of the Populist votes. Senator Peffer, who is generally regarded as the leader of the third party, is advocating the maintenance of an independent position, and it is considered probable that his action will be followed to the extent of putting a ticket in the field at the beginning of the contest. If the Republicans attempt reorganization, the Populists are claiming, however, that they will secure Senator Stewart's vote, and that Senator Jones also will firmly stand with them. These accessions would be sufficient to enable the Republicans to take the organization.

It appears altogether probable that the question will be postponed until the seating of the Utah senators, which cannot happen until some time in January or February, depending upon the expedition displayed in their election by the Utah legislature. It is altogether probable that by that time the Republicans will be in condition to claim the organization, and in that event they will take it.

There will be an effort on the part of some senators to complicate the claim of the silver and anti-silver factions in connection with the committees on finance, by enlarging the committee to eleven, and giving the silver men one of the new places and the gold men the other.

SHERIFF AND ROBBER.

A Startling Company of Hunters, Trappers and Gamblers.

PARIS, TEX., Nov. 25.—Fuller developments concerning the finding of a dead man on a trading boat below Arthur City reveal the fact that four men were murdered. About three weeks ago three men purchased a boat and with a boy started two and a half miles below Arthur. For several days the boat had been observed anchored without a human being in sight. Yesterday curiosity commingled to investigate and the corpses of the three men and boy were all found lying in boat, decomposed. A ferocious dog prevented the parties from entering for a time, but was finally overcome.

The victims had evidently been dead several days. One of them met death by a small hatchet crushed. The men's clothing was in disarray about the room with their pockets turned inside out, leaving robbery as well as murder. He was a large man, about 45 or 50 years of age, with a heavy sandy moustache, which seems to extend to his lower jaw bone. Papers under his hand indicated his name was R. C. Landy and that he was the owner of the craft.

The boy was about 12 years old, heavy built, with dark hair, and was evidently the son of Landy. Another was identified by citizens of Lincoln and Arthur as Henry T. Hice, who for years a music teacher, about 28 or 30 years old. The other is about 35 or 40 years of age, and complexion, beard of about two weeks' growth and shabby appearance.

The party were trappers, hunters, horsemen and gamblers, and had a full outfit with them and a good store of provisions. They had been drifting along the river for some time, having taught the boat several weeks ago from a man named Clifford at Hagerdale, Tex., about fifty miles above there.

Newfoundland Smuggling.

ST. JOHNS, N. F., Nov. 25.—The appeals made by a number of the liquor dealers against convictions imposed by local magistrates for smuggling were sustained by the supreme court yesterday, the indictments being quashed. This involves in all probability the collapse of the whole agitation against smuggling. Much indignation prevails and there is a feeling abroad that the authorities conducted the case to help their own friends.

Fine Masonic Building.

DETROIT, Mich., Nov. 25.—The biggest Masonic fair ever held in the West happened here today. It is the first use made of the new Masonic temple, which is the finest building in the world devoted exclusively to Masonry, and will cost over a million dollars. Goods from every state in the Union and every country in the world are among the exhibits.

Father O'Grady on Trial.

CINCINNATI, Nov. 25.—Father Dominick O'Grady, who shot Mary Kinnartin on the street here, was brought in court today from the hospital on a cot to be tried as to his sanity. The prosecutors say his conduct is the result of persistent shamming. O'Grady's attorneys watched very closely the selection of a jury, questioning each man concerning his prejudice against Catholics, and also whether he was a member of any anti-Catholic association.

COMMERCIAL CONGRESS.

The Topics Discussed at the Evening Session.

Statehood for the Territories — The Silver Question—Utah's Suitable Delegation.

OMAHA, Nov. 25.—The evening session of the body opened with the discussion of statehood for territories, by Governor Prince, of New Mexico, in which he pleaded for the immediate admission of New Mexico and Arizona. The sentiment of the body was with him throughout. The topic occupied the whole session, and many members joined in the discussion. It was agreed that statehood could not be withheld from the territories much longer.

H. H. Whitmore, of St. Louis, chairman of the executive committee, is attracting much attention. He said tonight: "I do not think the silver question will play much part in the proceedings. That has lost ground recently and is no longer a subject of first interest with the convention, though many delegates are friends of the white metal. The matter of freight discriminations will undoubtedly be one of the best subjects on the program, and the discussion of forestry, irrigation, harbors and deep waterways and the Nicaragua canal will be attended with much interest."

It has been found necessary to make some changes in the program which was originally announced by the general committee on entertainment, in deference to the wishes of the officers of the congress. There will be sessions of the convention in the morning and evening. In the afternoon the visitors will be taken for a trip to the smelting works and the stockyards. The reception at the Lininger art gallery will be given Wednesday evening. This will not be a public affair, as was previously announced, as the delegates and the local committees on entertainment will be sufficient to take the accommodations of the gallery. Thursday afternoon the convention will adjourn to the football field and in the evening they will be guests of the Ak-sar-ben at the Coliseum.

The program for the sessions of the congress is only partially outlined. As far as it is now prepared, it includes the following discussions:

"Forestry in the Rocky Mountain Region," Hon. Joon H. Park, Salt Lake City.

"The Hawaiian Question," Hon. Hugh Craig, San Francisco.

The Nicaragua Canal, Capt. W. L. Merry, San Francisco.

Transcontinental Freight Tariffs, Hon. James V. Mahoney, Sioux City, Ia.; Capt. Leo. Bryson, Davenport, Ia.

Deep waterways, Hon. A. P. Mason, Davenport, Ia.

Irrigation, ex-Governor Prince and others.

UTAH'S DELEGATION.

The largest and most notable delegation in the convention represents Utah. Other states represented are Iowa, Missouri, Arkansas, Kansas, Texas, Colorado, California, Arizona, Nevada, Washington, Oregon, Wyoming and the Dakotas.

The executive committee has decided that it would not be any set time for the discussion of various topics. They will be taken up in order. As rapidly as one is exhausted, another will be introduced. In this manner members will be able to devote time to each subject in the proportion they are interested in it.

Believes in Sculpture.

ST. JOSEPH, Mo., Nov. 25.—A. M. Morey, superintendent of the St. Joseph & Grand Island railroad, has more faith in Francis Schlatter, the healer. Mr. Morey has been a sufferer from rheumatism for sixteen years, and although he is not cured he claims that the severe pains to which he was subjected have left him, and he attributes his remarkable improvement to the power of Schlatter, whom he visited at Denver.

JUSTICE JACKSON.

Tribute to His Memory by the Attorney General.

WASHINGTON, D. C., Nov. 25.—Attorney-General Harmon today presented to the Supreme court the resolutions of respect to the memory of the late Justice Howell E. Jackson of Tennessee, adopted by the bar of this court. The attorney-general paid an eloquent tribute to the dead jurist.

Chief Justice Fuller responded in behalf of the court, and the resolutions were ordered spread on the minutes.

In his address, the honorable justice, referring to Justice Jackson's last appearance in the income tax cases, said: "Devotion to duty had marked his course throughout life, and it found in its inspiration the strength to overcome the weakness of the outward man, so weary and languid, he appeared in his seat for the last time. In obedience to the demand of public expediency. The response to the roll call under such circumstances gives complete assurance that when, a few weeks later, he came to the passage of the river, good conscience, to which it his life he had spoken to meet him there, laid his hand and so helped him over."

The court, as a further mark of respect, adjourned until next Monday.

HUNGED THE GIRLS.

One of Them Institutes a Suit for Damages.

KANSAS CITY, Nov. 25.—A special to the Journal from Leavenworth, Kan., says: Miss Ella Morley of this city has begun proceedings in the district court for $5,000 damages against Walter Willis of Atchison, charging that during the apple carnival Mr. Willis hanged her and startled her to such a degree that she has since suffered with a serious nervous attack.

Mr. Willis has been served with the papers and tells an Atchison reporter that he hanged several girls during the Leavenworth carnival, but that he did not hug any of them hard enough to hurt the girls did not seem to object to it, and he thought everything passed off satisfactorily. He will fight the case.

Better results are obtained with Price's Baking Powder than with any other.

THE WEATHER GENERAL.

KANSAS CITY, Nov. 25.—The heavy snow storm which has prevailed throughout the Mississippi and Missouri Valleys all day and tonight has prostrated telegraph wires in all directions. The snow came after a heavy storm of rain and sleet, which had a thick coat of ice over everything exposed. At midnight telegraphic communication with St. Louis, Chicago, the East and the southeast is practically suspended.

From all points in Missouri the storm is reported to special dispatches to the Journal to be of unusual severity and it is stated that traffic is sure to be seriously impeded.

NEWTON, Mo., reported five inches of snow, drifting badly. Golden City, Mo., reports that in six hours the thermometer has fallen 14 degrees, that the snowfall is heavy and that a strong northwester is blowing.

WEBB CITY, Mo., reports that for 37 hours rain, sleet and snow have fallen continuously, and that the snowfall is the heaviest seen in years. Street cars are blocked and business is suspended.

SEDALIA, Mo., reports a snow-fall of four inches, drifting so badly that street car traffic is seriously interfered with.

Throughout Kansas the storm has assumed the proportions of a blizzard. Fort Scott, Kan., reports that street cars have been kept going only through the efforts of a large gang of shovelers. Emporia, Kan., reports a heavy snow-fall, drifting badly. It is claimed, however, that the storm will do winter wheat an immense amount of good.

Cherokee, Kan., reports cold weather and a heavy snow-fall, drifting badly. Through Oklahoma a heavy storm of sleet and snow has prevailed for two days.

Guthrie, Okla., reports a fall of five inches of snow, carrying a coat of sleet. Cattle on the range are cut off by this storm from their pasture. It is pronounced extraordinary weather for that country.

Renegrade Ute Captured.

DENVER, Col., Nov. 25.—A special to the News from Ignacio, Col., says: Hatch, the renegrade Ute, who murdered the two Indians near Mancos during the early part of the month, has been captured in San Juan county by Joe Smith, United States marshal. The chase was attended with severe hardships, as there are no settlements in the country traversed and storms have been frequent. The murderer confesses to killing the two Indians, but denies all knowledge of the whereabouts of the squaw.

Italy's Prosperity.

ROME, Nov. 25.—In the Chamber of Deputies today Signor Sonnonino, minister of the treasury, in presenting the budget, announced that the surplus would be 1,250,000 lire this year, and that he expected a surplus next year of 520,000 lire without a new loan. He added that the position of the treasury was improving gradually; that the payment of the coupons of the foreign loans was considerably secured, and, finally, that the depression on the bourses of Paris and Vienna has had no serious effect upon Italian funds, which are still quoted below their value.

HEART DISEASE.

Fluttering, No Appetite, Could not Sleep, Wind on Stomach.

"For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and would not sleep. I would be compelled to sit up in bed and bend you from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I could not walk a room without resting. My husband induced me to try

Dr. Miles' Heart Cure

and am happy to say it has cured me. I now have a splendid appetite and sleep well. Its effect was truly marvelous."
