UNIONTOWN, Pa., May 22.—At daylight 150 miners armed with guns and revolvers started for the Stickle Hollow mines where twenty men are working, to drive them out. The mine men explored by the strikers at Fair Chance last night are held prisoners. It leaked out that deputies will try to gain possession of these mines this afternoon. At Vanderbilt and Dawson last night 1,000 miners assembled to bring out the engineer lately imported into the coke region. They made a big demonstration but accomplished nothing.

MRS. CLEVELAND NEEDS REST

Interview With Mrs. Henry Perrin, Her Mother.

BUFFALO, N.Y., May 22.—A Buffalo paper prints an interview with Mrs. Henry E. Perrin, Mrs. Cleveland's mother, on that part of the story recently printed in a New York newspaper regarding Mrs. Cleveland's withdrawal from society.

"Mrs. Cleveland has come to me for a season of rest," Mrs. Perrin said, "and I refuse to allow her to do anything except to rest and study herself. She is in the hands of her friends who are entertaining her, and because Mrs. Washington with all the duties her life thrts entails is forgotten. She does not read any subject that would be disagreeable. As for the opinion of some one, I care nothing about it. It is probably the work of some malicious person, who wishes to spoil my daughter's visit, and I refuse to allow her to read it or think about it at all."

Mrs. Perrin lifted a warning finger as Mrs. Cleveland was about to speak.

"All through the season in Washington," continued Mrs. Perrin, "Mrs. Cleveland entertained at the White House. There was a constant round of pageantry so much in fact that when the season closed she was thoroughly tired and much in need of rest and quiet. But she has continued to give her Sunday receptions even after the season was ended and until after the cabinet ladies had left the Capital."

On Wednesday morning Mrs. Cleveland and ladies will return to Washington.

West Shipped to Europe.

CASPER, Wyo., May 22.—Senator Joel H. Hart has just shipped three cars of wool to England. Senator Hart is a pronounced free trader and one of the largest wool growers in the state. This is the first direct wool shipment to Europe from this station and it attracts more local attention than anything that has happened in the wool business for years.

A STRANGE CASE.

Signs of Hydrophobia Recurring at Intervals.

NORWALK, Conn., May 22.—William H. Ackerman, of Easton, who last summer developed signs of hydrophobia, barking and snapping like a dog but who it was thought had recovered, is again affected, supposedly by the same disease and he is in security. For months after the first attack, the young man, when not restrained, would hop about the house and yard on all fours and snapping at everything, howling at the moon like a wolf dog. He would glare savagely and then with snapping jaws rush into the air as if attacking something. Although absolutely irresponsible, he never bit any one, usually keeping discreetly out of his way, but the bond in the neighborhood were terrorized by his antics and would run at his appearance.

Whether the young man was ever bitten by a dog nobody knows, and in the absence of proof, the conclusion arrived at by the family doctor is that the hydrophobia, if it was hydrophobia, must have been in some way spinal consciousness that affected the brain. Ackerman is married, but has no children. His wife left him two or three years ago. He is 29 years of age.

Anarchists Arrested.

PARIS, May 22.—Several members of the international anarchists society who had drawn lots to decide who should explode bombs in different European cities have been arrested.

New York Clearings.

NEW YORK, May 22.—Stock market opened firm, active. Sugar advanced ¾; Union Pacific lost ¼.

In the last hour sugar declined ⅞ and recovered 1½. The gold engaged for shipment on Wednesday and Thursday amounts to $1,500,000.

Sugar advanced ¼, fell off 1½ on large sales, and subsequently improved ⅞.

CAUTION NEEDED.

A Railroad Company Warns Its Engineers to Look Out.

PARKERSBURG, W. Va., May 22.—Ohio River Railroad company has warned the engineers and firemen to use the utmost caution in escaping the freshet. It is feared an attempt will be made to burn the trestles because the company is hauling non-union coal.

At Twenty-fourth and Chestnut streets the water is fully as high as yesterday and all the Baltimore & Ohio depot business is suspended.

On Sunday a burly negro attempted an assault. She fought desperately and the fiend threw her and stabbed her. SARATOGA, May 22.—The Presbyterian general assembly decided today to take no action upon the subject of the overture from the presbytery of New Albany asking the assembly to recommend Congress to event regulations which will prevent the presence in the national councils of men of immoral habits. The assembly received a report declaring that an assembly has ever unauthorized to make a new definition of dogma as declared in the overture of the presbytery of Rochester, which viewed such an alleged attempt with alarm.

Dr. Brown, chairman of the committee on home missions, reported that the church must raise $1,250,341.81 for the coming year to pay the present indebtedness and enable it to prosecute the work. THE SOUTHERN ASSEMBLY.

NASHVILLE, May 22.—At today's session of the general assembly of the southern Presbyterian church, the executive committee on colored evangelization presented a report reaffirming that the maintenance of separate African churches seems the most successful method of salvation of the negroes. The resolution concerning the Breckinridge case as amended by the committee and adopted declares "it would manifestly be highly improper for the assembly to express an opinion in a case which is before the lower courts," and that the assembly desires the accused and maintain and require in the people that personal purity which is the common foundation of the home, the church and the state."

HISTORIAN TULLIDGE DEAD.

An Old Time Local Literary Man Passes From This Life.

Last midnight Edward W. Tullidge, well known throughout Utah, passed from mortality after a protracted period of health failing and general enfeeblement.

The deceased was an Englishman by birth and was 65 years of age. He took up his residence in Utah in 1860 and from that time to the date of his death made Salt Lake his home. He possessed considerable literary ability and some of his writings will compare favorably with those of the best writers of the country. In 1869 he took editorial charge of the Utah Magazine, and later assumed the same duties on the Mormon Tribune. He was also one of the leading characters in what is known as the Godbe-Harrison movement. He is a history of Salt Lake City, issued under the direction of the City Council, is perhaps his best known work, although his Western Gleaning and Quarterly were journals of the literary world.

For many years Mr. Tullidge led a very busy life and in addition to his regular journalistic labors he wrote a number of plays which are highly spoken of by those who examined them.

The funeral will take place from Joseph William Taylor's chapel on West Temple street tomorrow (Wednesday), at 3 p.m. Mr. Tullidge leaves a wife and five children, the latter ranging from three to fifteen years of age.

Lecture About India.

Mr. P. R. Telang, of Bombay, India, who gives a lecture this evening, May 22, in the Fourteenth ward assembly rooms, is an interesting talker on a variety of subjects, and the NEWS hopes he will find a large audience to greet him tonight. The country from which he hails is one of the most interesting on earth, being by many considered the cradle of civilization, the mother country of the vast empires and nations long ago lost in the mists of the past. The customs, philosophy and religions of this ancient nation are but little understood in these parts of the world, and an opportunity to hear those subjects discussed by a highly educated native should not be lost by anyone who takes an interest in the history of the human race. Mr. Telang is a keen observer, full of humor, frank in his statements, and he will undoubtedly speak to substantial audience. The admission fee is but small, and the hall should be well filled with intelligent listeners.

Hans Residiff,

Your trunk is now at the Bishop's General Storehouse. Please call and get it.

A PROPOSED CONVENTION.

To Take Into Consideration the Home Industry Question.

The proposition to hold an intermountain convention to consider the home industry question—reference to which subject was made in the NEWS several weeks ago—was discussed at a joint session of the Chamber of Commerce and Manufacturers' bureau last evening. It was generally conceded that such a convention would prove most beneficial to the West, and to Salt Lake in particular, and it was therefore conditionally decided to call it. An effort will be made to secure a low rate of transportation over the railroads, in order to induce a large attendance of delegates and others. A committee on finance was appointed to try and raise the necessary funds, which was estimated at $2,000, also a committee on program and rules. On Friday next these committees will present their reports, when a final decision will be arrived at in regard to the calling of the convention.

THE TRAMP TROUBLE

"Industrialists" Arrive, Camp, Make Demands and Refuse to Leave.

CITY AUTHORITIES AROUSED.

"Captain" Jesse and His Men Still Guests of Salt Lake—Their Wants are Many.

Yesterday "Captain" Jesse and his men were given until this morning to leave the city. They are still here at the expense of the taxpayers and refuse to leave except on conditions that they be provided with shoes, blankets and provisions sufficient to take them well on their journey eastward.

They have had a "soft snap" during their sojourn in this city and are apparently loth to leave under any circumstances. They were well fed yesterday and this morning a good breakfast was outlined to them at their new camp ground near the Agricultural Park on the banks of the Jordan. Of all the tramps who have made their home in Salt Lake a temporary stopping place Jesse's command is the most ungrateful.

Chief Pratt had a plain talk with Jesse, who told him that he need get out or go to work with his whole gang. The latter expressed in a blasé and indifferent manner that his men wanted to rest awhile here and not work. As to leaving he said they could not—that until they had been provided for. That sort of thing wasn't to be expected. The mountains could not be faced unless the men were prepared for it.

With such a proposition before him, Chief Pratt feels that the needs the City Council to back him as it is becoming a burden that he says he can not bear alone. "Why," said he today, "this is regular hold up business. It is an imposition that shouldn't be tolerated, but what is to be done in the premises? The men refuse to go to work and there are so many of them that we haven't means with which to punish them. If there were only a law we could put them in the sweat box and make them come to time, but as it is we are powerless."

Information was received at headquarters at noon that seventy more of the Industrialists left Kayville for Salt Lake this morning. Ten other gangs of thirty-five each are presiding from by ten or twelve miles and are due here tonight.

The city committees are being aroused by the constant accretion to the municipality's population from a source so undesirable as that which is now wending its way eastward from California, and an effort will, it is said, be made to consider the matter at tonight's meeting with a view of devising ways and means that will put a stop to the business. What they will do, if anything, remains to be seen.

WILL BE MARCHED OUT.

Jesse and His Men to be Escorted to the City Limits.

One of the gangs of thirty-five heretofore referred to came in from Ogden this afternoon and went down to Jesse's camp and cast their lot among his men. A consultation was held and in view of the fact that an effort would probably be made to compel them to work tomorrow they proceeded to take their departure from the city tonight, providing they were furnished with provisions sufficient for their immediate wants. The proposition was agreed to and this evening they will be escorted to Fourth South street by Captain Donovan, who, when he gets to that point with the tramps, will present them a considerable amount of bread, meat, potatoes and coffee.

TROUBLE AT THISTLE.

Carterites Steal a Train at That Point This Morning.

The Carterite Industrialists who were marched out of Springville a couple of days ago, captured a Rio Grande train at Thistle this morning, and determined to put it to their own use. The railway men sidetracked the train and "killed" the engine. The Carterites still retain, at last advices, possession of the stolen cars and refuse to get out. They number 250. Superintendent Welsy left on a special train at 4 o'clock this afternoon for the scene of the trouble.

MORE INDIGENTS TOMORROW.

One Hundred and Twenty-five Others Due at Ogden in the Morning.

Special to the DESERET NEWS.

OGDEN, May 22.—The Junction city, fortunately for its residents, is temporarily clear of the industrial army element. But tomorrow will witness the arrival of one hundred and twenty-five more. They will not stay here very long, however, as they will push on towards Salt Lake, for which place the last batch from the coast left yesterday. On Thursday another squad is expected, and information of a reliable character is to the effect that no less than six hundred will arrive during the week. And the indications are that the influx will continue for a considerable time unless some means shall be found to call an effectual halt on the movement.

Carter and His Band.

There will be a big exodus of inmates from the penitentiary about 8 o'clock tomorrow morning, to join a band that Carter and company of the "great" commonweal army, who will be then discharged on the expiration of their sentences of five days. Whether there will be any "demonstration" on the release of the "martyrs" has not yet been learned, but the citizens are against such a step.
