TROUBLE EXPECTED.

A Repetition of the Barrett-Scott Tragedy Feared.

SETTLERS ON INDIAN LANDS

Determined to Defend Themselves and Resist All Attempts to Evict Them.

OMAHA, July 1.—A special to the *Bee* from Pender, Neb., says: Today was the time the war department and Captain Beck, the Omaha and Winnebago Indian agent, had agreed to begin the eviction of 200 settlers, whom, Beck claims, are illegally occupying the Indian lands. The settlers were expecting the trouble today, and while not prepared to resist the armed Indian police with arms, they were in session all day yesterday, on the reservation, relating their experiences. It developed that a large number of them had been over at the agency to make leases with Captain Beck for the land they are farming this year, and they state almost without exception that Captain Beck had informed them that their lands had been already leased to McKnight, Ashford or some other land speculator, although at the time Indian Inspector McLaughlin was here they were told they would have the first chance to close leases on the lands now under cultivation. As a result the renters have practically decided to stand together and make no leases with land speculators. They organized to protect themselves and crops, and will use all legal means to hold the possession of the land they now occupy. The land speculators will surely meet a warm reception if they attempt to dispossess the tenants. Up to midnight no report of evictions had been received from the reservation.

SIOUX CITY, Ia., July 1.—A special to the *Journal* from Pender, Neb., says there is fear of a repetition of the Barrett-Scott tragedy there as a result of the Winnebago land trouble. A secret meeting of the settlers, it is claimed, was held last night, at which a plot was entered into to "remove" two persons obnoxious to the settlers on account of their activity in the land trouble in favor of the Indians. The proceedings were absolutely secret, but enough leaked out to make the Pender people apprehensive. Captain Beck, who is presumed to be one of the objects of the alleged conspiracy, is in Sioux City and was interviewed on the subject. He declared that he discredited reports of any plots to do violence to himself or anyone else, but even if such conspiracy existed, he was not worried and will carry out his intentions of dispossessing illegal lessees.

Will Not be Imposed Upon.

ASHLAND, Ky., July 1.—In Carter county there is intense excitement because of the appearance of strangers who acknowledge their mission to be to collect the famous railroad tax that has been in dispute for forty years. This tax grew out of the bond issue of $25,000 to the Elizabethtown, Lexington & Big Sandy railroad from Lexington to Catlettsburg. The company after securing the bonds abandoned the project, selling the bonds at a liberal discount to David Hinton, a millionaire at Cincinnati. Through a mistake of the county attorney in drawing up the contract, the road escaped the liability of construction, and their refusal to meet their agreement gave rise to the contest that has ever since been successfully maintained.

All who voted the bonds, save a single resident of Carter county, are dead, and 2,500 of the new generation have organized to resist the collection. Numerous attempts have failed, and it is now regarded as worth your life to attempt the collection. Two months ago a deputy collector, after making a levy upon a farmer's property, escaped being lynched by 1500 people only by slipping off in the night. The men are determined that no collection shall be made, and openly denounce it. All that holds the matter from a crisis now is a doubt of the sincerity of the collector and his allies.

The Oklahoma Desperadoes.

OKLAHOMA CITY, O. T., July 1.—The posse which went in pursuit of the escaped Christian brothers are coming in one by one, chagrined over their failure to capture the elusive murderers.

Marks on the bank indicate where Bob Christian entered the river, but a careful scrutiny of the bank for several miles below the point shows no place where he came out, and the prevailing belief is that owing to his weakened state from loss of blood and the high stage of the river, which is a roaring torrent, he was drowned. Officers are hot on the trail of Bill Christian, and it is only a question of hours until he is brought back to dangle at the end of a rope.

The weapons which the prisoners had obtained were supplied by confederates on the outside and secreted near the ceiling of the jail corridor, from where they were taken at an opportune time and so effectively used.

A late report states that Bill Christian has been surrounded by a posse and shot to pieces several miles southwest of the city, but this report lacks confirmation.

BRYAN AND CLARKE.

Debate on the Silver Question With Side Issues.

MOBILE, Ala., July 1.—Ex-Congressman Bryan of Nebraska and Representative Clarke of Alabama had a joint debate on the silver question tonight, in the course of which Bryan took umbrage at Clarke's denunciation of his Democracy.

"I was invited here tonight," said Mr. Bryan, "with the understanding that I was to receive fair play."

Bryan had the crowd with him and they applauded vigorously as he proceeded to score the Alabama Congressman. He said he would rather die in his tracks than support the Democratic party if it adopted a gold standard. He denounced Cleveland and Carlisle.

Clarke, in reply, referred to Bryan's criticisms of Carlisle as a puerile attempt to throw mud upon a man who towered head and shoulders above him, and said the mud would not land, but would fall back into the face of the man who threw it.

The crowd hissed and yelled for Clarke to shut up or leave the stage. He continued in a more moderate strain. His reference to Grover Cleveland was applauded.

Clarke was frequently interrupted during his last remarks, and he replied by calling his audience Republicans and Populists.

City Fathers' Unlimited Power.

DENVER, July 1.—The state supreme court today handed down an opinion that holds that the levying of a license by the Denver city council on all occupations is entirely legal.

In 1890 the council passed an ordinance placing a $10 tax on all street cars. This amount was afterwards increased to $25. The Denver City Cable Railway company was the first corporation to refuse to comply with the terms of the ordinance. Its representatives were arrested and fined, and were ordered to pay the tax of $25 on each car owned by them. The defendants appealed.

Although the supreme court's opinion does not specify directly what articles or occupations the council may tax or license it is plainly inferred that the city fathers have limitless power, and may pass ordinances compelling every line of business, trade or occupation to pay an annual license fee.

SALT LAKE GIRL MARRIED.

Miss Elizabeth Smedley to Dr. Leroy Smith, at Cincinnati.

CINCINNATI, O., July 1.—Dr. Leroy B. Smith, of Millersburg, Ky., and Miss Elizabeth Smedley, daughter of William E. Smedley, of Salt Lake City, were married today. Last fall Miss Smedley was sent to the convent at Georgetown, D. C. A few days ago she graduated and Tuesday arrived in Millersburg, Ky., to visit her uncle, and there met her future husband. They came to Cincinnati on an early train this morning.

Miss Smedley's uncle telegraphed to a friend here to stop the marriage, but it was too late. Dr. Smith holds the chair of assistant professor of surgery in the homeopathic medical college at Louisville.

A Paris Fire.

LONDON, July 1.—A Paris dispatch to the *Times* says that one of the most disastrous fires in years occurred in Godillot's military outfitting establishment, between the Rue Rochechouart and the Rue Condorcet today. One man was killed and fifteen injured. Two thousand people are thrown out of employment, and 275 poor people are left homeless.

THE DENVER EXCITEMENT.

An Alderman's Constituents Meet and Denounce the Council.

DENVER, July 1.—The voters of Alderman Emery's ward held a mass meeting tonight at which that gentleman, whose change of base in the city council brought victory to the Young Water company ordinance, was present. Mr. Emery was called upon to explain the stand he had taken and stated that he did not wish to act in opposition to the wishes of his constituents. Resolutions were adopted scoring all the aldermen who had voted for the Young ordinance, Emery included. The meeting was wholly without sensational incidents, although the speakers were very much in earnest in their enunciation of the water company's position in the fight. There was not the slightest suggestion of any violence.

Cardinal Gibbons and the Pope.

LONDON, July 1.—A special received here from Rome says the pope has invited Cardinal Gibbons to surrender his diocese, that of Baltimore, Md., and to reside in Rome and take part in the politics of the Vatican. It is added that the cardinal refused the offer of his holiness.

Wholesale Killing.

HOPKINSVILLE, Ky., July 1.—News has reached here of a terrible tragedy in Trigg county late Saturday evening. Frank Colston, a desperate character residing in that county, had a difficulty with and shot and severely wounded John Rhodes, a farmer of his neighborhood. Another farmer named Hammond, who was present, and who was a friend of Rhodes, attempted to assist Rhodes. Colston then shot and instantly killed Hammond.

For some reason Colston after wounding Rhodes did not shoot him again, probably thinking him dead. Colston did not attempt to escape, nor did anyone attempt to arrest him. A few hours later, in company with a prostitute, he went to the house of another farmer. The farmer ordered the desperado and the woman to leave the place. They refused to do so and attacked the farmer, who, securing a weapon, succeeded in killing both Colston and the woman.

Arrests at Coeur d'Alene.

SPOKANE, Wash., July 1.—Two sensational arrests were made here today in connection with a gigantic conspiracy to rob the government by issuing illegal Chinese registration certificates.

Those arrested are James Graham, register of the land office at Coeur d'Alene City, Ida., and Edward Rice. Warrants are also in the hands of a deputy United States marshal for the arrest of W. Floyd Pollard and Harry Tillton, formerly of this city, but now at Kendrick, Ind.

Bimetallists Confer.

BERLIN, July 1.—M. Bougsizel, the vice president, and M. Thiery, the secretary of the French Bimetallic league, have arrived here, and have had a conference with representatives of the German Bimetallic union, at which Baron Von Mirbach and Von Kardoff and Dr. Arendt were present. The object of the conference was to agree upon joint action for the promotion of the bimetallic movement.

Before coming to Berlin the French delegates held a conference with representatives of the British Bimetallic league.

RAILROAD MEN PLEASED.

Prospect of Higher Rates for Utah Again.

CHICAGO, July 1.—The Western lines were greatly pleased today over the practical settlement of the Oregon Short Line receivership case. The status of this matter has been such that it was impossible heretofore for the Union Pacific to take any action in the reorganization of the Western lines passenger association. It is now free to act as it chooses, and there is little doubt that it will soon have rates placed on a stable basis, or take such a stand that the other roads will be able to establish them. The freight men also are confident that the turn things have taken will induce the Union Pacific to restore the freight rates to Utah common points, which it cut deeply when there was a prospect that it might lose the Oregon Short Line.

SENATOR DOLPH EXPLAINS.

PORTLAND, Or., July 1.—This is the day on which the Oregon Short Line was to have passed out of the hands of the Union Pacific, and into the control of the American Loan & Trust company, which represents the consolidated mortgage bondholders. But there will be no change of management. The road will not be separated from the Union Pacific system, at present at least.

In the United States circuit court this morning, ex-Senator Dolph, attorney for the American Loan & Trust company, said that the road would not be taken by the consolidated mortgage bondholders, under the conditions, Mr. Egan would not become receiver, and that the American Loan & Trust company would not pay the interest amounting to $734,000 due today.

The case will now come up on the bill, and an answer filed last December. This bill asks for the foreclosure of the consolidated mortgage through the failure of the company to pay interest. "We shall proceed to foreclose the mortgage immediately," said Senator Dolph today. "We have given notice that on next Wednesday we shall ask that a date be set for the final hearing."

Bulgaria on Her Dignity.

SOFIA, July 1.—The government of Bulgaria has requested the Turkish government to explain the orders issued to the commander of the Turkish troops at Adrianople to act on his own initiative along the Bulgarian frontier. At the same time the Bulgarian government has notified the Porte that the duty of watching over the security of the frontier compels Bulgaria to take the military measures required under the circumstances.

German Shooting Societies.

NEW YORK, July 1.—The German shooting societies of America paraded today on the occasion of the assembling of the national Schuetzenbund and then took the cars to Glendale Park where the crack sharpshooters enjoyed themselves the remainder of the day.

Better than riches are good health and a contented mind. Both can be obtained by using Dr. Price's Baking Powder.

THE CHINESE LOAN.

A Final Reply Demanded by Russia.

NEW YORK, July 2.—A special to the *Herald* from St. Petersburg says: The following is the actual state of the negotiations concerning the Chinese loan:

Russia, on her side has agreed to grant certain modifications of a nature to soothe the susceptibilities and amour propre of the Chinese in the form of a convention. China, on the other hand, has not given any refusal but has simply resorted to delays and tergiversation to which the government at Pekin has at last been firmly requested to put at an end. The reply, one way or the other, which Russia demands is expected immediately. It is anticipated here that China will more likely accept than refuse.

Across the Isthmus.

NEW YORK, July 1.—A special to the *World* from Colon says:

The first shipment, 400 tons, across the isthmus from San Francisco to New Orleans is being taken aboard the steamship Olaf here. This new venture is supposed to be due partly to the Panama Railroad company.

A MILITARY ECCLESIASTIC.

Bishop Schumacher, Ecuador, Commands an Army.

NEW YORK, July 2.—Advices received from the *Herald's* special correspondent in Guayaquil, Ecuador, states that a battle has been fought against Bishop Schumacher's forces in Calceta and more than thirty of his men were killed. The bishop was compelled to abandon the town after it had been burned. Bishop Schumacher's troops number more than 400 men and are now marching towards Quito. Some of the rebel soldiers who were in pursuit say that Schumacher's army is rapidly diminishing because of desertions, fatigue and disease. Many of his men are said to be dying by the wayside.

The distance from Calceta to Quito is forty-six leagues. The roads are rough and broken, and the bishop's troops are marching on foot.

GOLDEN MEDICAL DISCOVERY.

The invention of Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., has, during the past thirty years, made a record in the cure of bronchial, throat and lung diseases that fairly entitles it to outrank all other advertised remedies for these affections. Especially has it manifested its potency in curing consumption of the lungs.

Not every case, but we believe

Fully 98 Per Cent.

of all cases of consumption, in all its earlier stages, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience.

Horses Kick

in self-defense. It is their most vigorous form of protest against the abuse of Split Nails that are forced into their feet to hold on their shoes. Blacksmiths often use such nails in ignorance of the danger that is liable to follow.

This is what happens! One part moves and grows & crowds the clinching, the other goes into the tender foot. Such nails are the result of the Cold-Rolled and

Shearing Process

by which the fibres of metal are separated and can often be split apart with the fingernail. This sort of a nail can be easily distinguished by the rough edge along the sides near the point.

Putnam Nails

are exclusively Hot-Forged and Hammer-Pointed, precisely like the old-fashioned hand-made nail. This process welds all particles of iron closely together into a compact, firm nail that cannot Split, Sliver or Break and is

Absolutely Safe.

Examine the nails in your smith's shop. Look for "P" on the heads of the nails. If their edges are smooth for the whole length, they are the Hot-Forged Putnam. If they show marks of the shears near the point, avoid them; they are cold-rolled and dangerous.
