TO ARREST CAHOON.

Order for the Detaining Witness by the County Court.

LABORERS' WAGES DISCOVERED.

In the Showing Made in the Investigation of State Street Roadbed Construction.

The investigating committee met again this morning to take testimony in regard to the alleged frauds connected with the work of macadamizing the State road. The investigation was presided over by Probate Judge McNulty, with Commissioners Hodgs, Roberts and Christensen associated.

The proceedings were to commence at 10 o'clock, but it was almost 11 before the members of the committee had their places and proceeded to examine the witnesses. There were quite a few witnesses present and all stood in line waiting to be called upon.

Frank Allwood, of Murray, was the first witness and testified in answer to the questions of County Attorney Williamson, that he resided in Murray and worked on the State road during the month of October, November and December, 1894. He was driving a team and was working in the employ of R. C. Williams. This was all the work he did during the months of October, and he had received $21.50 in November bills for the work done in October.

Attorney Williamson said the witness stated that he had worked on the road eight days and a half and was paid at the rate of $3 per day, and asked if he had received any more than that.

The witness testified that it was all he had received and he could say with a good deal of confidence that it was all he received in October.

He further stated that in November he worked on the road eight days and a half and was paid at the rate of $3 per day. The agreement he made with Mr. Hayes was that he was to get $3 per day for his team and himself.

Attorney Williamson—You looked over the bills for Mr. Hayes, did you?

Witness—I suppose so he paid me for it.

Witness further said he did some night working during the month of November, but if the men who did so received pay for it he did not know it. He got no extra pay.

Emery Allwood testified that he lives in Murray. He has been working on the road, beginning on October 22nd of last year. Kilgore employed him and he worked nine and a half days with a team. He never "kept tally" on his work, but he thinks he worked, for which he was to have $3.50 per day. When Kilgore paid him, however, he deducted 50 per cent. Witness was laid off for the month of November, but he went on to more work, hauling manure, one day. As near as he could recollect, he worked on Hayes' job that twelve days, for which he was to be paid at the rate of $3 per day. Kilgore paid him $18 for the work. He was discharged before the end of the month. Asked why he was discharged, he said he was told he was not doing his work to satisfaction. He never had any complaint to make about the work he did, but
