## THE TRIP TO CHICAGO.

### It Will be Made by a Large Number of Intermountain Democrats—the Special Train.

It is now certain that there will be a large number of intermountain and Pacific Coast Democrats attend the Chicago convention. The Utah delegation and friends will fill one car, California will have two and Montana two. Then there will be the Idaho, Wyoming and Nebraska delegations and their friends. The Utah delegation has not and agreed to the naming of Hon J. L. Rawlins for member of the committee on resolutions and platform; Hon. Davis Evans, committee on credentials; Hon. S. R. Thurman, committee on permanent organization; Hon. H. G. Chambers, committee on rules and vice chairman of the convention from Utah; Hon. Fred Kneer, to notify nominees, and A. W. McCune as national committeeman.

## WILL NAME REGISTRY AGENTS.

### Republicans to Meet Tonight and Organize Under the New Precinct System.

Simultaneously at 8 o'clock tonight the Republicans of the First, Second, Fourth and Fifth municipal wards, now new election precincts of the city, are expected to meet and organize as per the call of Chairman Parsons of the county central committee. The county commissioners will meet on Monday and appoint a registry agent for each precinct. This agent must be selected from a list of three names to be filed with the board by the committee chairman and secretary of the majority political party of the precinct. Acting in some cases there will be meetings tonight with those committees whose duties it will be to select the names of persons from their precincts to be sent to the county commissioners for action on Monday next.

## POLITICAL CROW CROW.

Democratic nominee for President and Vice President—Elder of Iowa and Governor of Virginia. Not at all improbable.

At Chicago this year the silver South and West will be united against the moneyed East and unless all signs fail the South and West will win. For once the East will be called upon to play ere ist fiddle and dance to the music.

"It and be first place," is the slogan of the Massachusetts Democrats.

Hon. Parley L. Williams, the champion gold Democrat of Utah and his friends, Senator Thurston, McKinley's prospective secretary of state, may accompany the Salt Lake silver contingent to the Chicago convention. National Committeeman Morris, it is said, will precede the regular delegation.

A McKinley, Brown, McCormick and Thurston ratification meeting is a local political event scheduled to take place immediately after the National Democratic convention. All of the gentlemen named, except McKinley, are expected to speak. State Senator Critchlow is behind the movement.

Senator Teller, the great silver statesman, will not be the standard bearer of the Democracy in this year of grace and political uncertainty.

Whitney didn't go to Europe. He remained at home and figured out that the silver men will run things in and from Democratic Chicago. But he will be there himself as a "plain citizen" to apply the brakes if needs be. A wise man is Whitney. The silver men will do well to keep their weather eye on him.

The man from Maine was looked upon as a leading pine of great strength but he proved himself to be simply a Reed in the convention wind.

Already there are numerous candidates in the field for the places occupied by the Salt Lake County commissioners. Sheriff Hardy, for one, has a cohort of workers to succeed him at his home and County Attorney Williams has several personal friends who would like to prosecute the rest of the bodie ones.

At least one city precinct, it is understood, will endeavor this fall to elect a lady member to the school board. Others may follow suit.

The staunch gold paper, the Philadelphia Times, says: "The free silver or cheap money cry is to-day a beautiful word that is charming and lashing the populists. And when it has got through courting and wedding, peace and prosperity will come to an expectant and patriotic people.

Hamilton (Mo.) Journal: It would appear that the St. Louis congregation was hard to please; they slammed the door in the face of the river adventures because of differences in season, and then turned round and (metaphorically speaking) shinned Cleveland for running the Treasury on gold standard principles.

The fifty odd new election districts of Salt Lake City will require the appointment of innumerable committees of judges. Where five "bosses" run "the machine" before it will hereafter take more than ten times the number. And some of them will be women.

The people are beginning to realize the truth of the well worn verity, "Every cloud has a silver lining."

Washington Post: U. S. Grant's vote for silver was one of the unexpected events of the Republican convention. The name of Grant is not usually associated with a losing cause.

A 16 to 1 incident—A southern state genius with a mathematical curve in the mind has discovered a singular phenomenon in the monetary calculations of the silver men. This is what he says: The delegates of the states which would not of their sovereignty represent 16 electoral votes. The silver Republican states total, represent 61 electoral votes, which is 16 inverted. Senator Teller, it is said, will carry 256 electoral votes; this divided by 16 gives 16 as the result. This will certainly be interesting to the superstitious, and we who believe in 16 to 1 as the ratio can feel encouraged from the fact that figures won't lie, no matter how they are twisted. Wonders will be 16-to-1 in the coming campaign by 16 to 1. Hurrah for the iron and silver mines of the west, gold and silver, at 16 to 1.

From the well guarded council chambers of the national Democratic committee comes the information that no time will be lost in the selection of a temporary chairman for the Chicago convention, a "man from one of the leading free silver states who is in sharpest antagonism to the party on the money question" will be put forth. If this is done it will be the beginning of convention trouble, just as sure as Chicago is a city of wind, enterprise and strange happenings. The silver men will take it as an intentional insult, and as such may be expected to resent it by the displacement of the traditional time honored, but one whose views are a trifle of the opinion of the majority. Such a course of procedure would be without precedent in the history of the Democratic party. But precedents count for nothing on occasions of great moment such as this would be. The needs in the most—the justice of majority rule would be made to obtain and that as quickly as the matter could be put to a vote. Only naive in its history at the Republican party has such an emergency confronted it and of the important incidents Blanchard's History of Presidential elections, page 355, says:

The convention (Republican) met at Chicago June 7. The national committee had named as temporary chairman of the convention. This selection was supposed to be in the interest of Mr. Reed. A nomination of the Hon. John R. Lynch of Mississippi, a Georgia free colored man, was made from the floor, and the convention, on a vote by tellers, elected him to the position by 351 votes to 267 given for Mr. Cannon.

The method that was so vigorously and effectually applied in Chicago in 1884 may be made to do just as effective service in 1896. COLONEL ALVIN.

OPINIONS OF OUR LEADING MEN.

President Angus M. Cannon says of the Keeley treatment.

"I thought it impossible for one man to do what Dr. Keeley has done effectually in counteracting the terrible evils of intemperance. His treatment strengthens men physically, mentally and morally. Under these circumstances they are given another opportunity to become men amongst men. Is there a man who loves his fellow beings that can fail to say, I view Dr. Keeley as engaged in a most commendable work? I trust his good work may continue."
