# LIGHT BUSINESS IN MINING STOCKS

## Day's Record was 51,125 Shares for the Sum of $13,100.54.

### PRICES DECLINED A LITTLE.

**But Not Sufficient to Injure the Condition of the Market—Sales of the Day.**

Business on the exchanges today was rather light, the whole amount being only 51,125 shares, for which buyers paid the sum of $13,100.54. Of this the old board contributed 30,325 shares for $11,-[illegible] while the new exchange made transfers for the balance 20,800 shares for $1,470.54. Stocks generally had a downward tendency, the decline, however, being of a minor character, and not calculated to injure to any extent the condition of the local market.

**BUSINESS WAS FAIR,**

**and Board Sells 30,500 Shares at Weakening Quotations.**

Blue Monday or not, the members of the Salt Lake Exchange ground out a fair volume of business at this morning's call, the sales amounting to 30,500 shares, which had a value of $11,130. In place of there was a weakening in prices, but all things considered, the market continued tolerably firm, the decline being minor in most cases.

Chloride Point led out in the trading, this stock selling at 9c and 8c. Daly fell off several points and sold down to 41, while Dalton and Lark was also weaker, 1,000 shares going at 9½. Four Aces advanced, however, and was taken at 41 spot, around which figure it was bought and for up to the close of the days call. In Tops the brokers dealt between 32 and 36 cents, while Grand Central sold for $5, and was followed by bonbons in Lower Mammoth at 63 and 56, after which Mercur stock off 5 points, sold at $4.25, and Mammoth dropped a board lot at $1.74. Going down the list Lower Mammoth sold at 56, also Star Consolidated at $1.05, and Lion Sacramento at 46½ to 47, while South Swansea exhibited weakness and sold at $1.30, the closing with a ready bid of $1.25.

Unlisted stocks furnished a good deal of business on the floor before being broken in La Mar at 1 cent. Tiny Dalton lock part at 9½, after which the market in Midnight did business at 7 cents, Prince at 9½ and Little Pittsburg at 16. Joe Bowers was practically stagnant, only asked at 15, while Bowers extension went at 9½. North Swansea at 18½, and Valeo at 21.25. Yankee Consolidated was freely dealt in, 5,000 shares changing hands at from 12 to 12½ cents a share.

The closing figures were as follows:

**NORTHERN LIGHT ACTIVE.**

**Utah Board Goes After This Security—Stock Transactions.**

Northern Light was briskly dealt in on the Utah Exchange today, the stock selling at figures ranging between 68 and 69 cents. Midnight Bowers was also a feature of the call, while Antler was likewise in demand. Daly, Dalton and Lower Mammoth sold at 18 and 19c. A sale of Oriental at 10 cents was called off, the seller had no possible means of securing the stock, the buyer having full and absolute possession. On the whole, the call was quiet and the sales reached a total of 20,800 shares, which had a value of $1,470.54.

## MARKET REPORTS.

**NEW YORK MARKETS.**

New York, April 10.—A heavy selling movement was developed at the opening to which all the specialties lost heavily. Losses in the railway list were generally slight. Liberal purchases of the Vanderbilt stocks checked the movement in other quarters and prices quickly rallied under strength.

The upturn was accelerated by purchases by shorts, who were apprehensive of the movement in the Vanderbilt issues.

There was no impairment of the early show of strength in the second hour but the inquiry was very light and changes were trivial.

### INTERESTING FIND OF GOLD.

One of the most interesting of all Colorado's mining treasure-troves is that for which systematic search has been quite recently going on in the neighborhood of the dividing line between Ouray and Grand counties, in the western part of the state. In the summer of last a party went into the Gore Mountains on a hunting trip, making their headquarters in a valley about eight miles from the little town of Tuposas. One of the number shot a deer and wounded it, following after the animal in the hope of getting another shot, pushed on until roused to the fact that he had become lost in the wilderness. In his wandering in search of camp he chanced upon an outcropping of rock that struck him as so peculiar that he broke off a few bits to keep as curios. At the time no thought was in his mind that this could be anything of value, but some time later he happened to show the specimens to a friend in Denver, one experienced in ores, who told him that the find was nothing else than rich rusty gold, while an assay revealed the fact that the queer, gingerbread-looking stuff was worth no less than seventeen thousand dollars per ton. Hurrying back to Tuposas, the young man undertook to make his way again to the wonderful find, but he had taken little note of his direction in following the deer, while he could only assay that he was within a day's ride of the ledge. He felt sure that he must recognize the neighborhood could he once reach it; but the Gore Mountains are made up of the wildest and roughest country, much of it almost inaccessible, and even though he engaged experienced prospectors to assist in the search his efforts came to nothing.—Mary E. Stickney, in April Lippincott's.

**Bay City Street Car Strike.**

Bay City, Mich., April 10.—The consolidated Street Railway Co. started four street cars today under guard of twenty men. A crowd attached a car in West Bay City, pulled the crew off and drove them away. Another car was in a window smashed and was taken to the barn. Otherwise the strike situation is unchanged, but the crowd has become more threatening in its attitude. The cars are carrying no passengers and the buses operated by the strikers are only moderately occupied.

# TWO MILLION IN DIVIDENDS.

## Mark Reached Today by the Silver King of Park City.

### STRIKE IN THE FOUR ACES.

**The Washington Shipping Ore—Lundeen Group at Midway—Miscellaneous Mining Items.**

With a distribution of $20,000, paid to stockholders today, the Silver King reaches a total of $2,000,000, all of which has been paid at monthly intervals with the regularity of clock-work. The big mine is still in active operation with vast ore bodies blocked out ready for milling, while reports from the property indicate that the management will add to work next week, and thus place the company in a position to continue dividends indefinitely.

The Grand Central paid its dividend today in the sum of $7,500. As a dividend payer this mine is but a youngster, its record dating back only 1896, but that it is one of the healthiest children in Utah's big list of producers, is so generally conceded as to be utterly beyond question. Its ore reserves are almost unlimited, while the class of mineral produced, makes it what is generally pronounced one of the biggest mines in this western country.

The Beaver, another good mine, made its quarterly payment of $1,000 today, this setting its total to $100,000, while it was expected that this afternoon the Bullfrog-Goldfield would add yet a dividend of $18,000, this to be paid five days later, when the Consolidated Kansas to the amount of $15,000. It is not likely that the Mercur will pay this month, its meeting having been held last week. Manager John Dern has not yet returned from the mine, so that no official information is forthcoming, although it is generally believed the company will be able to make a "bankroll" a month hence.

**MEANS MUCH FOR DIXIE.**

**Little Gem Makes a Sample Shipment of Copper Ore.**

[SPECIAL TO THE "NEWS."]

St. George, April 10.—Samuel L. Adams Jr., shipped thirteen lods of fine copper ore from the Little Gem to be sent to market as a sample shipment of copper from the Little Gem. It will pay over 60 per cent. This ore will bring back machinery which will be placed in the canyon below the mine and a smelter will soon be erected. The rise in copper means much to Dixie, as her copper mines are the finest in the west.

**BULLION-BECK DIVIDEND.**

**Directors Put Over $5 Cents a Share of $50,000.**

At a meeting of the Bullion-Beck directors held yesterday, the usual monthly dividend of 10 cents a share or $10,000 was ordered payable on the 20th inst. The [illegible] $7,000 [illegible]

**The Lundeen Group at Dugway.**

B. Lundeen, owner of the Lundeen group of claims at Dugway, is in from that section arranging for a pilot. He reports the mine in excellent shape, with a showing of ore averaging $40 per ton in gold, silver and lead. The vein, he says, is 3 feet in nine feet wide and assays $20 in gold, 40½ ounces silver and 36½ per cent lead, the ore being in a quartzite and quartzitic formation. Mr. Lundeen has four claims, the Pennant, Bryan No. 1, Free Coinage and Leadville No. 2, all of which are in good condition. As soon as his patents are perfected, he proposes to commence shipping, as he has plenty of ore now ready for market.

**The Washington Shipping Ore.**

That the Washington mine at Frisco is in a most excellent condition, is the assertion of Mr. Morris, who, in company with Manager Farnsworth, returned from the property yesterday. Mr. Morris says the lower workings present a splendid appearance, the miners being in high-grade ore, a sample of which is now on the road, together with several cars from the Horn Silver. The gentleman confirms all previous reports concerning the new producer and intimates that it will not be a great while until it is making regular shipments and paying dividends.

**FOUR ACES STRIKE.**

**Two Feet of High-Grade Galena Encountered on the 700-Foot Level.**

Samples received in this city Saturday from the Four Aces, show that that property has in it the elements of a big mine, the ore being of a class of which there is two feet, to a cube galena from the 700-foot level, and while it has not been seen since, it is quite though it would run very high in silver and lead. It was encountered in a crosscut from the drift on the 700-foot level, and showing on the 650-foot level, although much richer. Its discovery demonstrates one thing, and that the vein is there and that it continues for hundreds of feet. Men who have examined the mine recently are unanimous in their expressions concerning its future. Two cars of ore from the old workings were to have been shipped today.

**MINES AND MINING MEN.**

A splendid showing is reported in the St. Louis district, in Yavapai.

The Josh County Republican says a good strike is reported in the Trabico at Diamond.

George E. Alvis, secretary of the Northern Light, has just returned from a trip to California.

Reports from the Highland Copper mine of Bingham, are to the effect that the showing is improving with depth.

A. L. Moore has just completed an inspection of the Cedar Valley mine, some few miles out from Mercur.

A block of 5,000 shares of Dalton and Lark stock was sold after the call this morning, at 9½ to 10½, cents a share.

St. V. Le Roux, manager of the Copper Globe Mining company, is reported to have made his first shipment of ore from the company's mines in Emery county.

A controlling interest in the Highland Boy mine at Bingham, has moved into the hands of the Standard Oil people of Boston, the transaction amounting to $6,000,000.

George W. Ely, secretary of the New York Stock Exchange, is visiting Salt Lake, accompanied by his wife. The gentleman believes Utah mines have a great future before them.

A letter to C. D. Duret from the superior mine at Tintic, states that a force of men has been put to work and that it is expected a good showing of ore will be opened up in a very short time.

J. W. Nall of the Taylor and Brinton Sampling works, has been appointed manager for the United States Mining company, owning the Old Jordan, Old Telegraph and Nonesuch mines at Bingham.

The Cleveland Mining company has elected William Barker, president; D. M. Harmon, vice president; H. B. Miller, treasurer and H. B. Lewis, secretary. These with Henry Barker make up the company's directory.

The board of directors of the Holland Gold Mining company, of which Hon. Frank J. Cannon is president, let its meeting at the company's office this morning. Accounts of reports of the superintendent of the property in the gold Mountain district is showing up very satisfactorily. Some good news is expected soon from the mine.

The Chicago Mining company was incorporated yesterday with a capital stock of $25,000 in 25,000 shares. J. E. Shettle of Nashville, Calif.; L. M. Ryan, P. A. Sakuth and W. A. Byers of Salt Lake City are the incorporators. J. E. Shettle is president and W. A. Byers secretary and treasurer. The mine is the Big Ver Winkle No. 1 and 2 in Big Canyon mining district, Colorado county, Cal.

Articles of incorporation of the Nebo Development company have been filed with the county clerk. The capital stock is $5,000 in 50,000 shares, and the company's principal place of business is of quarrying. Theodore Burbank is president, Adelbert Cazier, vice-president, and Ella Burbank secretary and treasurer. The other directors are T. H. G. Parks and H. S. Kerr. It Costs To Advertise
only a few cents for each case of Krug Cabinet beer sold—when it's taken into consideration what a great beneficiary Krug Cabinet beer is, and how painfully invalids and frail people have been restored to health by reading the Krug advertisements and then calling for the patrons of the big Krug brewery, everybody ought to be glad that honest advertising DOES pay. It is not hard to distinguish the "honest" kind. Try a case.

Boils and Pimples Give Warning.

AN UNFAILING SIGN THAT NATURE IS APPEALING FOR HELP.

When Nature is overtaxed, she has her own way of giving notice that assistance is needed. She does not ask for help until it is impossible to get along without it. Boils and pimples are an indication that the system is accumulating impurities which must be gotten rid of ere they are an urgent appeal for assistance—a warning that can not safely be ignored.

To neglect to purify the blood at this time means more than the annoyance of painful boils and unsightly pimples. If these impurities are allowed to remain, the system succumbs to any ordinary illness, and is unable to withstand the many ailments which are so prevalent during spring and summer.

Mrs. L. Geoghegan, 803 Second Avenue, Seattle, Wash., says: "I was afflicted for a long time with pimples, which were very annoying as they disfigured my face fearfully. After using many other remedies in vain, S. S. S. promptly and thoroughly cleansed my blood, and now I rejoice in a good complexion, which I never had before."

Capt. W. H. Dunlap, of the A. G. S. R. R., Chattanooga, Tenn., writes: "Several boils and carbuncles broke out upon me, causing great pain and annoyance. My blood seemed to be in a rotten condition, and nothing I took seemed to do any good. Six bottles of S. S. S. cured me completely and my blood has been perfectly pure ever since."

S. S. S. FOR THE BLOOD

is the best blood remedy, because it is purely vegetable and is the only one that is absolutely free from poison and mercury. It promptly purifies the blood and thoroughly cleanses the system, builds up the general health and strength. It cures Scrofula, Eczema, Cancer, Rheumatism, Tetter, Boils, Sores, etc., by going direct to the cause of the trouble and forcing out all impure blood.
