NEWS OF THE MINES

Very Little Accomplished on the Stock Exchange Today.

TRADING WAS DECIDEDLY DULL.

Pollock's Weekly Review—Notes of Matters in Lehi—Dips and Spurs.

The bulls and bears met as usual on 'change today but did not accomplish a great deal. Brick Consolidated was the first listed stock to chronicle a sale, and that was one of [illegible] shares. Then came Dalton and Lark with an installment of 200 shares, followed by a transfer of 200 Four Aces and 100 Utah. Mammoth commenced to scale the ladder today and a bid of $3.30 was freely posted on it, while holders wanted and attempted to get $3.75. Bids of $6.50 were placed on Mercur, but the $7 mark was the position at which the stock was held, consequently there were no sales.

The unlisted properties fared equally as well as did the other class of stocks in the recognition given, and three of their number took part in the day's trading. Swansea was the first stock called and a block of 100 shares found another owner, in consideration of the payment of $2.07 per share. More of the stock was offered at $2.25 but bidders would go no higher than $2.02, which was the closing quotation. Richmond Anaconda made a transfer of 1,000 shares at [illegible] cents and Northern Light brought 35 cents in the sale of 100 shares.

The closing figures were as follows:

LISTED STOCKS.

MINES.	Asked.	Bid.

POLLOCK'S WEEKLY REVIEW.

A Fair Week in the Local Mining Stock Market.

James A. Pollock says in his weekly mining share market letter date of today:

While the attention given to the investment securities has not been very marked, the past week in the local mining stock market was a very fair one. For no good reason, several of the stocks were subjected to rather violent fluctuations, but the recovery came before the end of the week and the close was fairly strong.

Upon heavy selling orders, Ajax showed a considerable decline about the middle of the week and did not recover materially until the close. The properties are reported to be in good condition and shipments are regular. Alliance was without activity. The closing down of the properties and the fear that the ore bodies are not in a desirable condition were the causes of Anchor taking a considerable slump, the stock selling down as low as $1. With the close of the week a slight reaction occurred, but bidding was not spirited and the stock only registered a gain of about 10 or 15 cents. It is understood that general operations at the mines will not be resumed until the new custom concentrator is completed.

Begum was in fair demand but not at advancing figures. Bullion-Beck declared and paid a dividend of 15 cents per share on the 18th. This makes a total of $2,[illegible] the properties have paid in dividends. The stock was in good demand and held quite strongly. Centennial Eureka continued to hold its wonderful strength, with very light offerings and no large blocks in sight under $57.50. Some odd lots were sold under $60, however. There is still no official news as to the outcome of the option. Despite the good showing reported at the properties, Dalton was not strong and sold down several cents below the previous week's quotation. It is understood there are several feet of snow at the mines and ore shipments cannot commence until the roads are clear. Dalton & Lark was without special activity. A rich strike is reported at the Daly and the news of the developments had its effect upon the quotations, the offerings not being as low as during the previous week. Dividend news is still absent. Daly-West was in fair demand at about the previous week's figures.

Eagle just held its own, there being no special activity in the stock. Four Aces was somewhat stronger upon good reports from the properties, but buying orders were not numerous. Galena was held very strongly and sales were made at advancing quotations. The company's regular dividend payments are attracting considerable attention from investors. Geyser is making regular [illegible] of bullion product but the stock will show no special strength until a further decision of the courts in the [illegible] involving much of its properties. [illegible] Silver is reported to be in good shape and the development work is progressing nicely. Very little of the stock was offered on this market and none of it lower than $2.25, with the bidding slightly under the asked figure. Lucky Bill has levied another assessment with which the company will continue operations at the properties. Little Pittsburg showed no activity.

For no good reason, Mammoth, after selling up to $3.50, slumped to nearly $3. Weak holders, who held their stock, feared that dividend payments would be delayed longer than was recently been anticipated, and for this reason threw their stock onto a market not very active. With the close of the week the stock regained considerable of its lost strength and the well posted look for it to make further advances, even before dividend payments are resumed. The company has a surplus in the treasury sufficient to pay a dividend of at least 5 cents per share and make the contemplated improvements. The properties are in most excellent condition. Mercur paid its monthly dividend on the 20th, making a total of $[illegible] now paid. Operations continue regular and the showing of ore is extremely gratifying. Mercur Gold Dust continues to improve. The apex of the vein has been stripped for [illegible] feet and other developments show that the company has now about enough ore developed to call for a mill. Malvern came onto the market during the week at 25 cents per share. The properties of the company adjoin the Sunshine on the south and are certainly deserving of attention.

Ontario will pay its regular dividend of 10 cents per share on the 29th of the month. The stock was quite strong. Rover sold at about the previous week's figures. Silver King continued very strong, with bidding quite active. There was little activity in Sunshine, investors being inclined to wait a final announcement from the management as to the mill tests. Out at the mines the showing is very gratifying, and the mill tests are now satisfactory. Swansea sold above the $2 mark for the first time, the reason being an increased demand for the stock. It is reported that a majority of the stock has been pooled. Reports from Tintic indicate a continued favorable change. Utah was quite strong, with the demand active.

LEHI MINING NOTES.

What Yesterday's Banner Has to Say of Mines and Mining.

B. C. Earl and several others started for Fish Springs Tuesday.

George Evans and Ben Powell started for Granite Mountain Tuesday morning. They intend to work some claims owned by a Lehi company which Mr. Evans represents.

C. W. Rouine, representing the Western Mining Recorder of Salt Lake, was in Lehi this week. His object was to interest mining men in a special mining edition of the paper he represents.

Joseph L. Thomas, John L. Thomas, J. J. Thomas, Prince Evans, W. E. Racker, John Roberts Jr., the Bradshaw brothers and others, are working toward the incorporation of the Early Harvest mine at Fish Springs. The claims to be incorporated are near the Galena and Utah mines and are among the promising properties of the district.

Articles were filed this week for the incorporation of the Queen Consolidated Mining company with headquarters at Lehi. The incorporators are: Jack Whitman, 6,666 2-3 shares; G. Hemmer, 3,333 1-3; H. Evans, 6,666 2-3; L. Wood, 6,666 2-3; J. L. Thomas, 2,222 2-9; Charles Halsey, 2,222 2-9; John Campbell, 2,222 2-9; E. S. Carroll, 3,000; R. L. Hunter, 1,555 5-9; James Coppman, 6,666 2-3; T. B. Cutler, 2,222 2-9; F. D. Cassidy, 33,333 1-3; Jas. E. Campbell, [illegible] 2-3. The company is capitalized for $150,000 in 150,000 shares at a par value of $1 each. The officers are F. D. Cassity, president and director; T. B. Cutler, vice president and director; Jas. E. Campbell, John E. Campbell and Isaac Wood, directors; Henry Evans, treasurer; E. S. Carroll, secretary. The claims are in Death Canyon, in the Erekson district, 40 miles from Ibadon. The owners already have assays of 65 per cent lead, 12 ounces silver and a trace of gold with a body of ore in sight to warrant shipping at once. Only 50,000 shares of treasury stock is reserved, but the sale of this is limited by the directors.

Trouble Looked For.

Editor W. A. Taylor of the Broadax returned from Mercur last night, where he has been attending to business. He reports a very bitter feeling existing in the camp with regard to the contemplated reduction in wages when the new eight-hour law goes into effect, which will be on June 5th. The miners are in perfect harmony with the law, but they cannot become reconciled to having their wages cut in proportion to the cut in the number of working hours, and Mr. Taylor says that from present indications there will be a merry row in the Mercur camp about the time when the change goes into effect.

Dips and Spurs.

The Yankee Girl company will commence the sinking of a shaft at its properties in Tintic on Monday next.

Seats have been arranged on both sides of the lobby in the Exchange rooms, and visitors during call can now rest with much comfort, while the bulls and bears are growling in the pit.

A strike of ore, the lowest assay of which is said to show $5.00 in gold to the ton, is reported to have been encountered in the property of the Five-Mile Mining company at Five-Mile Pass.

The Prospectors' Gold Mining company has a small force of men engaged in development work on its properties located in Centerville canyon. A contract to sink a shaft 100 feet on the property has been let to Mr. Kirkham of Bountiful.

The Swansea, the stock of which is looked upon by the local brokers very favorably, has a better future before it at the present time than ever, and work is being prosecuted on the property in a very vigorous manner. The several ore [illegible] have been put on the market this week.

A quiet movement is now on foot in this city looking to the erection of an electrical custom mill to be located in American Fork canyon. Several exceedingly good strikes of ore have been made recently in that locality, particularly in the Wild Dutchman mine, and it is for the purpose of handling the products of these properties that the mill is to be erected.

ZION'S MAORI ASSOCIATION.

Grand Reunion of Pacific Island Missionaries.

The following invitation is being sent to returned Elders from the Polynesian Islands and also to the families of Elders now laboring there. The committee also requests all Saints who have gathered from any of the Pacific Islands to send in their names, and cards of invitation will be mailed to them. It is anticipated that reduced rates will be secured on the street cars and an enjoyable day is promised to all participants.

If any returned Elders from New Zealand, Australia, Tonga, Friendly Islands, Samoa or Hawaiian Islands do not receive invitation cards the committee will esteem it a favor if they will report immediately to the secretary:

GREETINGS.

Hawaii: Aloha nui kakou apau! [illegible]
Maori: [illegible]
Samoa: Talofa lava! [illegible]
Tahiti: [illegible]

REUNION OF PACIFIC ISLANDS MISSIONARIES.

Elder ______

Yourself and family are cordially invited to be present at a reunion of missionaries and Saints from the Islands of the Pacific, at Calder's Park near Salt Lake City, June 5th, 1896.

Brother George Calder has kindly volunteered the free use of his beautiful park, together with the boats, swings, bicycle and horse race tracks, pavilions, etc., etc. Hale's band will also be in attendance.

An interesting program will be rendered during the day, a part of which will consist of hymns, songs, dances, speeches, etc., in the Hawaiian, Maori, Samoan, Tahitian and Tongan dialects.

Come and be happy and let us get acquainted with each other.

Those living in Salt Lake county are requested to bring well filled lunch baskets—enough for themselves and friends from a distance.

It is anticipated that special rates will be secured on the railroads from all points.

The missionaries in Salt Lake City will be pleased to entertain their brethren and sisters from the country and those desiring accommodations will oblige the committee by writing to the secretary.

Respectfully, your brethren,
John T. Caine (Hawaii), Chairman.
R. Goddard (Maori),
James S. Brown (Tahiti),
Alma J. Butler (Tonga),
Wm. O. Lee (Samoa),
Jos. H. Dean (Samoa), Secretary.

If you cannot attend please notify the secretary immediately.

Address: Jos. H. Dean, Box 1,228, Salt Lake City.

AMUSEMENTS.

Pudd'nhead Wilson.—A larger attendance than that of the opening night assembled at the Theater last evening to witness the second performance of Pudd'nhead Wilson as given by Mr. Mayo's company. The same interest was manifested and the curtain calls were more numerous than that of the previous evening. There will be two more performances given.

The attendance keeps up pretty well at the Grand and Lyceum, considering the very strong counterattraction at the Theater. Good business is looked for at both houses for the matinee tomorrow.

A Farewell Gathering.

A pleasant gathering was held last night in Farmers' ward meeting house, where friends were gathered to bid farewell and godspeed to Elder Reed Cannon, who has been called to go on a mission. The program consisted of songs, recitations and brief speeches. The Bishop of the ward, Elder Cannon, President George Q. Cannon and others addressed the audience, and refreshments were then served. An excellent spirit prevailed.

Malad Stake S. S. Conference.

WASHAKIE, Utah,
May 19th, 1896.

To the Editor:

The Sunday school conference of the Malad Stake of Zion was held at Portage on the 16th and 17th insts., and was fairly well attended each session by the people of the nearest settlements, but owing to the stormy condition of the weather, those residing at a distance were prevented from attending. Superintendents George Goddard and T. C. Griggs of the Deseret S. S. Union board were present and a very enjoyable time was spent. Much valuable instruction was given on Sunday school work by the visiting brethren and others. Brother Goddard's songs were greatly appreciated by all; he never allows interest to flag where he is. The parts rendered by the children were very creditably given. The articles of our faith were recited by the Portage school very creditably, also the Lord's Prayer, the Ten Commandments, as well as a number of recitations and songs were nicely given by classes and members of the same school. A new feature was the answering of questions on the Gospel by a class of Indian boys from the Washakie school, who acquitted themselves quite creditably. A recitation entitled The Lips that Touch Liquor Shall Never Touch mine, by Miss Evans of the Malad school, is worthy of mention. Supt. J. W. Dalley reported the schools of the Stake as doing a good work, the greatest drawback being a lack of teachers. He urged upon the parents the necessity of attending the Sabbath school and taking a hand in teaching the children. About two-thirds of the children enrolled in the schools of the Stake [illegible] the duration last year. The general and Stake Sunday school authorities were unanimously sustained by the members present.

L. D. JONES, Clerk pro tem.

LETTER LIST.

Remaining uncalled for in the Postoffice at Salt Lake City, Utah, on May 22, 1896. To obtain any of these letters the applicant must call for "advertised letters," and give the date of the list. If not called for within two weeks they will be sent to the Dead Letter Office at Washington, D.C.

LADIES' LIST.

C. R. BARRATT, Postmaster.

Poison!

All Japan tea sold in the United States, that we know of, (except *Schilling's Best*) is colored falsely—generally with Prussian Blue, which is poison; and, unless you are a thorough judge of tea, you can't tell pure loose tea from poisoned and weighted tea.

The only safe tea is *Schilling's Best*. It is made from the first choice of tea-leaves, and nothing is put into it to make it look better than it is.

It is honest tea; and has an honest backing; your grocer will give you your money back if you don't like *Schilling's Best*.

Schilling's Best coffee, baking powder, soda, spices, and flavoring extracts, are also money-back.
