# MINING, BUSINESS AND STOCKS.

## A BIG DAY ON THE EXCHANGE.

The Value of the Transactions Amount to Nearly $18,000.

DALY-WEST IS VERY FIRM.

**Mammoth Rules Strong—May Day a Little Weaker—Mercur Active—Sunbeam Falls Off.**

TODAY'S METALS:

SILVER 62¾

LEAD, $4.00

CASTING COPPER 15¾

Business on the exchange was much better today than it has been for some time past, with prices on the whole well sustained. Over 16,000 shares were sold, which made the total value slide up almost to the $18,000 mark.

Several of the high-priced stocks were very active. Daly-West of Park City sold 500 shares at good prices. In all the trading the stock only varied 1 cent per share. It closed at $18.28 for 50 shares.

Mammoth was also strong. The first sale was made at $2.18 from which figure the stock fell to $2.17, but immediately recovered and sold up to $2.17½.

Mercur was in good form owing to good reports from the property, and the strong belief that the company will post a big dividend in the near future. A 500 share block was loosened up today on a bid of $6 per share.

May Day was quite active from 42⅝ down to 41¼, while Sacramento was released on a bid of 26¼.

Star Consolidated was held at 49, and Sunbeam was handed out for 25, on news of a 2 cent assessment being posted.

Northern Light was active at 3, while Manhattan let go 2,000 shares at one-twentieth of a cent per share.

### New York and New Haven.

A New York dispatch today says:

The New York, New Haven and Hartford Railroad company has decided to spend over $1,500,000 in extending and improving its facilities for handling freight traffic in the vicinity of New York. A large tract of land at Oak Point has been purchased by degrees at an outlay of $1,000,000, and plans for the construction of a freight yard have been practically carried out.

It is the intention, it is said, of the management to ultimately extend its four-track road from New Rochelle—the junction of the Harlem river branch with the main line—to the Harlem river. The four tracks have been completed from New Rochelle to Pelham Manor, and the extension of these tracks as far as the Oak Point yard is believed to be a work of the near future.

## PREACHING AND PUBLIC SPEAKING."

Of the 5,000 copies of this popular book published last year only three or four hundred remain and the author has decided to sell these through the ordinary agencies for Church publications. Your local agent will order the book for you or it will be sent postpaid from the Deseret News Office. Cloth, $1.50; Half Morocco, $2.00.

## SILVER MOVES FORWARD TODAY.

Reached the Highest Point Today in Seventeen Months.

THE DALY-WEST DIVIDEND.

**The Company Setting Aside a Nice Surplus—Copper Exports—The Stock Exchange—Klondike Gold.**

Silver jumped forward ⅝ of a cent per ounce today, as a result of the upward move in London. On Monday the quotation at the British capital was 28 7-16. Yesterday the price moved to 28½ on the first quotation, while the closing quotation was posted at 28 9-16. The London quotation today is 28 11-16, which shows a clear gain of half a cent an ounce since Monday.

The highest figure previously reached this year was 61⅝, recorded on June 28th. The present price is the highest recorded since April 21st of last year, when silver was selling at 62½ an ounce. The present advance will prove of greater benefit to Utah mines than one might suppose at first glance. Take for instance the Daly-West, with an output of from 250 to 300 tons of ore per day, the crude ore carrying 60 ounces in silver per ton. This present advance in silver means an increase of 22½ cents per ton on such ore, which will swell te company's monthly receipts by some $1,500 or $1,600. It will have the same bearing proportionately on the silver ores from other mines.

### DALY WEST DIVIDEND.

**Makes a Total of Nearly Half a Million Paid in Less Than a Year.**

The directors of Daly-West, of Park City met today and declared dividend No. 14, amounting to $37,500. The dividend will be paid on the 15th inst., the books to close on the 10th. The payment of this sum makes a total of $495,000 paid in dividends by this property since last October. Conditions are very encouraging at the property. No attempt is being made to crowd the ore output at the mine but in spite of this the company is accumulating a surplus at the rate of from $12,000 to $15,000 a month.

The Silver King, of Park City, will disburse its regular monthly dividend of $75,000 on the 10th inst., which, with the Mammoth dividend of $20,000, the Daly-West of $37,500 and the Swansea's monthly of $5,000, makes the amount already in sight this month total $137,500.

### COPPER EXPORTS

**For Month of August Were Considerably in Excess of July.**

New York, Sept. 5.—The exports of copper during the month of August, according to returns kept by the metal exchange, were 13,845 tons. This is considerably in excess of the July record, when shipments were about 11,000 tons. Copper producers continue very confident over the outlook.

The Engineering and Mining Journal says:

The market continues strong. Producers generally are well sold ahead and copper for early shipment is very scarce. On the other hand, manufacturers are poorly supplied. Few domestic transactions are reported this week, but a good business is looked for after the turn of the month.

### KLONDIKE GOLD.

**Steamer Umatilla Brings About $1,500,000 to San Francisco.**

San Francisco, Cal., Sept. 5.—The steamer Umatilla has arrived from the north, bringing about $1,500,000 in treasure from the Klondike and Douglas Island, and a few nuggets from Nome. One of the passengers from Dawson was L. Palman, who went to the Klondike three years ago a penniless prospector. He was staked by three friends when he left here, they furnishing his outfit, he to divide in certain proportions all he made. He has sent out from the Klondike $11,000 to each of his partners, and is reported to have brought home with him $60,000. The passengers from Nome all tell stories of hard luck.

### THE STOCK EXCHANGE.

**Conditions at Salt Lake Market More Reassuring Than at Col. or N. Y.**

Compared with the exchanges at New York and Colorado Springs during the past week, the Salt Lake Exchange shows very pleasing conditions. Several strikes caused sharp advances in some stocks and a more general inquiry on the part of the public than has been seen for some time.

According to an exchange, the slump which has been affecting other speculative markets has at last reached Colorado Springs. The markets there have shown a loss of 20 per cent during the past week. There is said to be nothing reassuring in the aspect.

Trading in mining shares in the New York market is said to be confined to professional speculators, who are making every effort to keep this market before the public. Of late, however, buyers have been few in number, notwithstanding the low prices at which shares were offered. The Colorado shares, particularly those of Cripple Creek companies, made up a large part of the transactions. The closely controlled stocks, such as Homestake, of South Dakota, and Ontario, of Utah, are very little dealt in, and what shares are put upon the market are quickly bought in by interested parties.

### AUSTRALIAN GOLD.

**Probable that the U. S. May Again Stand at the Head of the List.**

Gold production in Australasia for the first half of the current year has shown some variations, on which comment should be of interest, says the Engineering and Mining Journal. The output of the several colonies for the six months ending June 30th, is shown in the table below, which has been compiled by the Australian Mining Standard. The production is in crude ounces:

| | 1899. | 1900. | Changes. |
|---|---|---|---|
| N. S. Wales | 185,084 | 156,356 | D. 28,728 |
| N. Zealand | 186,111 | 172,204 | D. 13,907 |
| Queensland | 451,461 | 503,181 | I. 51,720 |
| Tasmania | 39,968 | 25,429 | D. 14,137 |
| Victoria | 309,293 | 370,552 | D. 27,741 |
| W. Austral | 709,797 | 758,303 | I. 48,506 |
| Ounz. crude | 1,970,312 | 1,986,025 | I. 15,713 |
| Ounz. f.gold | 1,694,468 | 1,707,982 | I. 13,514 |
| Value | $35,024,654 | $35,303,988 | I. 279,334 |

It will be seen that while all the colonies showed increase last year, only two—Queensland and Western Australia—have gained during the current year. In the former the increase was a substantial one—11.2 per cent—and was due to the mines entirely, the placer or alluvial workings taking a very small part in the output. The Mount Morgan and other leading mines have been actively exploited; in several cases additions have been made to milling plants, and the gold mining industry appears to be in a prosperous condition. In Western Australia the increase this year has been moderate—4.3 per cent—and nearly all of it was made in January and February, the later months showing either no gain or an actual decrease from last year. This result has been due to the falling off in the big mines at Kalgoorlie; and whether it will be made up in the second half of the year depends largely on the result of the work now in progress in the treatment of the sulphide ores.

Upon the whole, Australasia has done well in maintaining its large gold production during the first half of the year. The result, however, indicates that 1900 will show but little gain over 1899, and that it is quite possible that the Transvaal being out of the way—the United States may this year take once more the leading place as a gold producer.

### RECEIVER APPOINTED.

**Geo. F. Langbein Will Take Charge of Foster's and Carmichael's Interests.**

A dispatch from New York states that George F. Langbein was today appointed by Justice McAdam in the supreme court as temporary receiver of "the joint enterprise or partnership existing between Julius Lesynsky, Fred H. Rogers, Alfred C. Foster and John B. Carmichael."

Foster and Carmichael are stated to be respectively the president and the secretary of the International Zinc company, with connections and interests in Joplin, Mo. Justice McAdam also made an order restraining the Knickerbocker Trust company, with whom certain monies of the zinc company have been deposited, from transferring or disposing of them until after the court has made an order permitting this to be done. Lesynsky sues to recover his share of the profits arising from the consolidation of different mining concerns into the International Zinc company, which was organized in 1899.

### MINING NOTES.

Capt. Egan expected to visit the Yankee Con. this evening.

R. G. Wilson spent the day inspecting his interests in Tintic district.

The Taylor Brunton sampler reported five cars of ore from Bingham today.

The Montezuma of Bingham was on the market today with three cars of ore.

Two cars of ore were marketed today from the Columbia property in Bingham.

The Centennial Eureka marketed thirteen cars of ore during the afternoon.

An assessment of 2 cents per share has been levied by the Sunbeam Mining company of Tintic.

President Cohen of the Con. Mercur company was around today after being slightly indisposed yesterday.

The Mammoth Mining company of Tintic sent out $3,100 worth of bullion yesterday to the Kansas City Refinery.

Some fine samples of ore containing free gold were shown today at the Mammoth company's office. They were taken from that Tintic bonanza.

The Star Consolidated gold ore is being resampled. Yesterday's assays showed 2.64 ounces per ton, which is unsatisfactory to the management.

The delinquent sale of the Bullion-Beck Tunnel company, which was advertised to take place today, has been postponed until the 25th inst.

The Lucky Boy of Custer, Idaho, reported at the sampling rooms yesterday afternoon with about 200 pounds of gold and silver cyanides. The Northern Light of Lion Hill also appeared with about 380 pounds of silver product.

## WALL STREET GETS LIVELY

More Animation Today Than for a Long Time Past.

**Sugar is Feverish—Union Pacific Sales—Other Stocks—Live Stock and Produce Steady.**

New York, Sept. 5.—Trading showed more animation in the opening deals on the stock exchange today than for many days past. Sugar was feverish and fluctuated constantly. The first sales were made at quotations from 1.23 to 1.22½, compared with 1.22⅝ last night. The stock fell to 1.22, but determined support rallied it to above last night. Blocks of 1,500 to 3,000 shares were taken of Union Pacific, St. Paul and Atchison preferred, the last named at a spread of a quarter in the quotations. Fractional gains were the rule throughout, but prices were not fully up to the London parity. Heavy offerings met the London demand for the internationals and a break of a point in People's gas caused a sagging all around. Tobacco was then rushed up 1½ and the grangers came into demand. St. Paul, Rock Island and Burlington gained more than a point. Sugar rose to 1.23½. The strength of these stocks induced buying all around and some of the less active stocks made notable gains. The marked became irregular on decreases in stocks and steady buying in others. Sugar went off 1½, but People's gas rallied two points from the lowest. Louisville, L. & O., Southern Pacific and Manhattan were unusually active and about a point higher.

Bonds were dull and irregular.

Large buying of leather lifted the preferred 1¼. Otherwise there was a dropping tendency, most marked in Brooklyn transit, which got down to 53¼. Sugar fell back to the lowest. The volume of business was light on the decline. The closing was dull and heavy, with the gains in the railroad stocks reduced to a small fraction.

## PASS THROUGH SALT LAKE TODAY

A distinguished party of ladies reached the city today on the belated West bound train over the Rio Grande Western railroad. The party is composed of Mrs. McCormick, the wife of the passenger traffic manager of the Southern Pacific system, her mother, Mrs. Henry, and Miss Helen Stubbs, the daughter of the third vice president of the Southern Pacific company.

General Agent Grey had an organ recital at the Tabernacle arranged for the ladies, after which they took a drive around the city, visiting all the points of interest.

Traffic Manager McCormick will reach the city tomorrow morning from the East, having been detained at Denver on business, when the party will go West to the coast. The party are making the return trip from attending the funeral of Mr. Huntington.

### NEW PACIFIC COAST LINE.

**Los Angeles Paper Gave News Concerning It.**

The Los Angeles Express in speaking of the Los Angeles and Salt Lake railroad says: The name of the corporation which will construct and operate the new Salt Lake railway will probably be the Los Angeles & Salt Lake Railroad company. The promoters of the enterprise have determined that the words Los Angeles shall appear in the corporation, so that the city may obtain the benefits of an advertisement which shal be apparent for years to come.

The new company will incorporate as soon as Senator W. A. Clark reaches New York from Europe, which will be in about two weeks. Senator Clark will be the president of the corporation and R. C. Kerens of St. Louis vice-president. President George R. Leighton of the Terminal, J. Ross Clark and perhaps Thomas E. Gibbon are to be on the directorate. The company will not incorporate under the laws of California, the statutes in this State not being deemed favorable for such an enterprise. The incorporation may be under the laws of Utah, where the charter for the Oregon Short Line originated.

W. H. Holabird has been chosen as the right-of-way agent for the new company, and he is already at work on his new duties.

Two parties of the new company's surveyors left for the field today to find a route over the mountains. That will be the company's first serious business on hand.

A story has been published here and elsewhere that the new company had determined to obtain from the Santa Fe the right to use certain trackage or to build a parallel line to that company. J. Ross Clark, when seen today, said that there was nothing in the story.

### EXPRESS PACKAGE STOLEN.

**$20,000 Stolen From Wells Fargo Express Company in Texas.**

A Chicago dispatch today announces that a special to the Record from Eagle Pass, Texas, says:

The agent of the Mexican Central railroad reports that a $20,000 package was stolen from the Wells, Fargo Express company at Treveno, Mex., and was discovered in a peculiar manner. The thief was escaping north into the United States on a train when the package accidentally fell from his coat while he was stooping over. The trainmen took the package.

**Los Angeles Mapped Out.**

Los Angeles, Cal., Sept. 4.—Thomas Kearns and C. O. Whittemore of Salt Lake City, who are now here, have given out a draft of the proposed survey to be used in the construction of the new Salt Lake road. Both gentlemen are interested with Senator W. A. Clark in this enterprise. The survey to be used will be practically the one made by H. J. Stocks in 1898 for what was to have been the Los Angeles & Grand Canyon line. According to Mr. Kearns, actual work of grading the road will be commenced within the next thirty days.

**Turns to Bulington.**

The Denver Republican has this to say of the proposed Los Angeles and Salt Lake road: "In connection with the construction of the Los Angeles-Salt Lake road, attention is again turned to the Burlington. It was stated in the Republican a few weeks ago that the Burlington was planning for an extension of its Guernsey and Lyons branches to a meeting point in the northwestern part of Colorado, and thence an extension to Salt Lake. It is reported that surveyors are now in the field running a line from Guernsey down toward the Colorado line, and that soon surveyors will go out from Lyons, running a line to a junction with the Guersey extension. It is admitted by Burlington officials that Salt Lake is an objective point, but thus far no authorized statement has been made by them as to the route."

**Race Across the Continent.**

In a Chicago dispatch to the "News" today it is stated that a special to the Record from Detroit, Mich., says:

Henry B. Ledyard, Jr., son of the president of the Michigan Central Railroad, will be married today, one day in advance of the time set, and then with his bride will begin a race across the continent to catch a steamer for Japan. He goes to Yokohama to meet and bring home his sister, the widow of Baron Von Ketteler, the German ambassador murdered in China. President Ledyard intended going, but business detains him.

Young Ledyard will wed Miss Alice Hendrie, daughter of the Hamilton (Canada) millionaire, Sir William Van Horne, of the Canadian Pacific, and will give him a special train with a clear track to Vancouver, from where the bride and groom sail Sept. 10.

### SPIKE AND RAIL.

Gen. Supt. Calvin, of the Short Line, came in this morning from the North.

On Saturday next there will be a regular train service over the new extension to Marysvale.

General Manager Bancroft, who has been in the North on a trip of inspection returned to the city this morning.

The Burlington people moved into their new office in the Eagle block this morning. They have now one of the handsomest railroad offices in the west.

Col. Dodge and Mr. Welby, of the Rio Grande Western, left for the South this morning on a trip of inspection. They will be back to the city again this evening.

Following the lead of the Rio Grande Western the Union Pacific will shortly begin running special stock cars over the Utah and Wyoming divisions. This class of cars have been in use over the eastern divisions for over a year.

R. A. Oglesby, the son of Gen. Agent Oglesby, of the Rock Island, here, and who has been in his father's office for several months, leaves tonight for Terre Hauts, Ind., where he will enter Rose's Polytechnic school. Mr. Oglesby is a graduate of the Salt Lake high school.

Live Stock Agent Gregory, of the Denver and Rio Grande, came in last night from the West, this being his first visit to the home office for some time. Mr. Gregory says that owing to the continued drouth in Nevada the movement of cattle is greater than at the same time of the year in many years.

F. A. McDermid, of Cherry Creek, Nevada, came in from the West last night. He says that up to the present time the people of that section of the State were not suffering from drouth. Recently, however, the weather is very dry and the feed is beginning to suffer. Mr. McDermid is one of the heavy cattle owners of the Sage Brush State.
