SILVER CITY'S MINES.

The North Star and Its Very Promising Outlook.

A COPPER VEIN IN THE BIG.

News Notes Gathered in and Around the Little Dixie—Today's Work or Change.

Special Correspondence of the News.

HOTCHKISS, June 29, 1896.—The new road from the North Star mine to the Sioux road was completed yesterday. It is a fine piece of work, and now that this road has been completed, the ore from the North Star mine will be brought to Hotchkiss for shipment instead of taking it to Silver City. The North Star company has some fine looking ore just outside the shed, and will no doubt make very heavy shipments very shortly.

ACCUMULATING ORE.

There are several of the silver mining corporations of Tintic that have large deposits of ore on hand, each ready to ship up in silver and lead. They will not make any consignments, however, until the coming presidential election is over.

Mr. Pat Conner, an old time Tintic mining man is out from Salt Lake doing assessment work on the Homestead claims, situated north of Silver City.

FURNISH WORK VIGOROUSLY.

Work is being vigorously pushed on the Grand Central, the Emerald and Opex mines, which are all said good neighbors. These three mines are shipping and drifting, and it is safe to say that some of them will shortly become a shipper.

It is reported that the Carisa mine will shortly resume shipments. If late the Carisa has been very slow in the way of shipping for one but it is stated that the company will put on a force of miners and figure some more among the Mammoth producers.

Mr. Joseph Tracey and Mr. Pat Donohue paid a visit to the Opex mine yesterday and both gentlemen were very favorably impressed with the good showing at the Opex property.

THE SET AT SILVER BOW.

The Hoa mine over at Silver Bow is looking up in fine shape. The drift is now down 75 feet, and Mr. Tomasi Smith reports that they have encountered a vein of copper and that assays 25 per cent copper and quite a little gold. Mr. Smith, Mr. A. A. Nunn and Mr. H. A. Eber are interested in the Hoa property, and the above gentlemen, who are all old time mining men, are work the Hoa mine vigorously this fall, and hope to be in a position to make a number of shipments before the year is out. There is an abundance of water close to the property and the future outlook is very bright.

WORK ON THE CHIEFS.

Superintendent Wilson of the Uncle Sam mine at Silver City is doing some good work in the shaft which is now tunnered to a depth of over two hundred feet. The miners are sinking in some good mineral bearing ore, and it is safe to say that the mine will shortly become another addition to Silver City's famous producers.

THE WEEK'S SHIPMENTS.

The Utah mine commenced to take care today for next week's shipments. The Utah this week has fallen to make regular shipments but it will more than make up for lost time next week when some of the producers have made inclosing shipments. The Mammoth contributes carloads of concentrates and mine carloads of ore; the Sioux contributes five carloads of concentrates and five carloads of ore; the Ajax contributes five carloads of ore; the Annie has some heavy consignments to the Utah Consolidated mills for treatment and it is believed the test will be satisfactory.

FARRELL WELL PLEASED.

Mr. Franklin Farrell, the well known capitalist of Auburn, Conn., was out visiting the Silver Cross Consolidated mine yesterday. This gentleman paid a visit to his mine at Rockwell which are known as the Sioux mine. Mr. Farrell is well pleased with the flourishing appearance of Rockwell and Robinson at the present time and thinks that the former will shortly become another great camp of the sturdy great West.

A SILVER RALLY.

Tintic has been blind for a great rally which will be held at Silver City tomorrow evening under the auspices of the Silver City W. J. Bryan Silver club. Judge Powers will deliver an address at the meeting. The Bryan club the district will put in an appearance and trains will be run free of charge for all those wishing to attend the great meeting.

Edmund Kemmerly, the cow puncher, will appear at Rocky Dale tomorrow night and will likely play to a full house as all reserved seats have been sold.

WORKING TO MILL.

The Eureka Hill Mining company is working to 100 tons and to its utmost capacity; also a large number of men are employed at the mine. The Eureka Hill will commence monthly sheets among its employes on Monday next.

FROM THE TINTIC RIVER.

Work Throughout the Prominent South Camp's Mines.

Capt. Geo. Ryan, Harry Pepper and Charley Green are prospecting in Hunting No. 2 and the line between Jesse Knight and sons, adjoining a remunerative mine. We are told that they have a very valuable mine.

The Swansea Mining company in Wednesday morning struck a vein exposed a thickness of 5 inches of ore of $9,000. We believe they are to be racks of the divisions jubilant today.

The shaft on the Cleopatra has now reached a depth of 100 feet and is still in the work. Work was commenced Wednesday, owing to a broken rope, and will probably be delayed for a few days, when a new water will be put on the ground.

Jesse Knight advises us that the new ore house at the Humbug will be completed today. Ore hauling from the mine to the railroad was commenced yesterday, and a fine output will be soon put in a few days. Mr. Knight states that for the present he expects to average five carloads per week.

One of a very similar character to that in the Swansea was struck in the Blue Bird last Tuesday. How extensive the ore body is, we are at this writing unable to learn. The Blue Bird is her owned by Messrs. C. L. Wore, Wm. Mathias, T. J. and F. W. Hoag, who have sold some in the lathe.

J. S. Cook and Billy Duffield have purchased quarter interest each in the Lucky Boy Extension, of which we spoke some weeks ago. Mr. Cook gave us the following assay results: Copper 17 per cent nitre and the other 18.

Mr. Newell is sinking in a 60 ft. pretty on a 1,200 foot level at the Chesapeake to work up discovered ore and expects to be extensive ore deposit from that level. In the meantime the work of getting ore is going on by on the surface is being pushed. Assistant to the hoisting plant on the mineral property, will probably start up in that portion of the plant next week.

The North Swansea is being put in such a condition that it will soon be unwatered, in fact the drip plant is in the shaft now is now idling. The only ore now being taken out is the supposed assessor is driving the cross cut in the 300 level to connect with the old Swansea workings and the mine which will strengthen the shaft and bring it down directly on the vein, and put it on sufficient to make a 115 ton shipment last week netting the company $3,000 and a 140 ton shipment of this week which will net at least $4,000. The ore body is continuous, running from two and one-half to three feet wide and the average assays of shipments show 60 per cent iron, 12 ounces silver and $4 gold. In the meantime improvements are up we going ahead and the property being put in first class shape in every respect.

Mercur Mercury Note.

The Mattie company in this week commencing a tributary, and upon its completion the opening will be resumed to good tension right on the ore used, by the use of Prof. Dorfelin's process.

Angus M. Cannon, president of the Cannon company, was in camp yesterday, looking after his mining interests. The Cannon property is improving with each visit, and now makes a good showing.

Work has been discontinued for the present on the Moonshine group, which is in Dugway will have been proceeding with a drift. The machine was out and terms means through many breakages.

A strike of ore was made in the upper tunnel Sunday either day and here below found to that property in any large ratios. It is reported that the discovery was made in the lower part of the property.

The Bonanza company is working away leisurely on its property below the Mercur mill, but the operators are very close-mouthed, and it is impossible to find out what results are being obtained. A large amount of timber has been encountered in the workings.

The White and other machinery and tools belonging at the Anderson mine were sold Monday to satisfy attaching creditors. The trustees of the company were represented by Frank Drake, contractor, who collected for the work and shipped without meeting any of the bills.

A. T. Francis commenced work Wednesday on the Sage Hen group, in which George H. Gilled recently secured a bond and on which the first payment has already been made. The Sage Hen group adjoins the Sacramento, and is regarded as very promising mineralized property.

W. T. Powers and H. E. Whipple have gone to Grand Encampment, Wyo., where a large area of some good quartz, some of it very fine, is reported as having been recently discovered. If there is anything in it, we expect the boys will get in on the ground floor, as they are experienced prospectors and hard workers.

We have at this office a piece of the high flat rock on the claims of Francis and Wood Saturday. It runs from 5,000 to 7,000 ounces silver per ton—about as much of the ore body is being silver. It is composed of iron silver and chlorides. The owners are searching for the vein and if they find it they will undoubtedly be rewarded.

Gen. H. Clair's lease on the Charlie Pitts expired on the 30th. George's ore shipments consisted of thirty tons and averaged about a hundred ounces. It is safe to say that this lease has added George something like $5,000, and his friends throughout the country are pleased with the success. The property, we understand, will hereafter be worked by some of the Cannon boys, who own the ground.

THE BEST FAMILY MEDICINE

Was Ever Known. Words of Praise Come a New York Lady for

AYER'S PILLS

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equalled."

When my friends ask me what is the best remedy for disorders of the stomach, liver, and bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent la grippe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best alleviated family medicine I have ever known."—Mrs. Mary Jackson, 306 Elder Avenue, New York City.

AYER'S PILLS

Highest Honors at World's Fair.

Ayer's Sarsaparilla Cures all Blood Disorders.

Merit Talks

"Merit talks" the business venue of Hood's Sarsaparilla. Merit is another name for power to cure. Hood's Sarsaparilla possesses and exercises positive powers to cure these it has cured. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases you are suffering from, it will do the work. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the system.

Hood's Sarsaparilla

Hood's Pills 25c. and 75c. per box. Druggists, or by mail.

Our First Grand Sale AT OUR Handsome New Store

In order to familiarize our friends, both residents and conference visitors with our new location we propose to give away thousands of dollars worth of brand new seasonable goods at

Unheard of Low Prices!

PRICES THAT WILL FORCE YOU TO BUY WHETHER YOU CARE TO OR NOT.

NEW FALL DRESS GOODS

You will be astonished at the incomparable Bargains that await you in our Dress Goods dept.

Black Dress Goods.

Double fold fancy silk, dress goods, regular value 20c, our conference price	12½c
36 inch fine black cashmere, worth regular price 20c, our conference price	15c
42 inch figured black algerine actual value 50c, our conference price	25c
46 inch fancy black algeria, worth 65c, our conference price	40c
46 inch heavy black storm serge, splendid value at 65c, conference bargain	50c

Colored Dress Goods

36 inch pretty plaid dress goods, bright and pretty, splendid value at 20c, conference bargain	12½c
Double width plaids in best wearing silks, very latest designs, intended for a 75c article, conference bargain	15c
36 inch imported dress goods, handsome new fall colorings, well worth 30c, our conference price	20c
46 inch fancy dress goods in the newest fall styles, worth and cheap at 35c, our conference price	25c
46 inch fancy mercerized novelties in a variety of colorings, regular 50c article, our conference bargain	40c

A GRAND DISPLAY OF CHARMING, NEW AND BEAUTIFUL

JACKETS, CAPES, DRESS SKIRTS.

Here are a few of our Conference Specials:	
Black beaver capes, braided and beaded, our conference bargain for	$2 00
Double beaver capes in black and tan, very stylish fall and winter cape, only	3 00
Double beaver capes, cape and collar trimmed with three rows of mink, very much admired, our conference bargain for	4 00
Black capes, best standard plushes, elaborately beaded edged with black marten, full sweep cape, well lined, a lovely cape for	7 50
Handsome plush caps, silk lined, for selling, a grand special bargain for this sale	5 00
Ladies' beaver jackets, double breasted, cut back, our leader for	3 50
Ladies' beaver jackets, full silk lined, was intended for a leader at $8.50 our conference bargain price	5 00
Our stylish Irish frieze covered jackets, very latest fall this fall, only	6 00

MISSES' & CHILDREN'S JACKETS.

We have a full stock in this line in all the newest and latest things, ranging in prices from $1.25 and upwards	
Children's embroidered coats in gray and tan, with braided collar and yoke at	75c
Children's all wool coats in navy blue and red, trimmed with colored wool braid at	2 25

Wrapper Department

Ladies' Home lined and outing flannel house wrappers, in stripes and fancy Persian patterns, only	50c
Ladies' Home lined wrappers with fancy gathered sleeves and ruffled shoulders at	1 00
Ladies' Home lined house wrappers, ruffled shoulders, full back, 3½ yard wide skirt, in the best dark colors at	1 50
Ladies' house gowns of imported outing flannel, in red and black and very handsome Persian patterns, 3 yards wide skirt at	3 00

BOYS' CLOTHING DEPARTMENT.

We offer a lot of boys' knee pants in good dark colors, sizes 4 to 14, our special leader for this sale at	85c
Boys' cassimere school suits, double breasted coats, substantially made in good dark mixtures. Our specials this week	1 85
Boys' all wool suits in brown and gray mixtures, and everywhere at $5.50 for	2 75
Boys' knee pants at 25c, 35c, 50c and 75c.	

LINENS AND WHITE GOODS.

Look at these prices and you will know at a glance why this department is always crowded.

Soft finished heavy damask table linens, 64 inches wide, always sold at 35c for	25c
Handsome Turkey red table damask, fast colors, a great bargain at	15c
Full bleached German table cloths, dinner napkins to match, worth $6.50 per dozen at	1 18
Colored bordered honeycomb fringed towels, size 18x36, each	5c
Ten-quarter heavy Marseilles quilts, handsome patterns, a regular $1.50 quilt, for	1 00
Beautiful rosette stand covers hemmed fringe at	45c
Nine-quarter size sheets, white ground, has been dollar sheets, hemmed and fringed	95c
Eight-quarter size as above, worth $1.50 for	1 85

SILVER CITY'S MINES.

The North Star and Its Very Promising Outlook.

A COPPER VEIN IN THE BIG.

News Notes Gathered in and Around the Little Dixie—Today's Work or Change.

Special Correspondence of the News.

HOTCHKISS, June 29, 1896.—The new road from the North Star mine to the Sioux road was completed yesterday. It is a fine piece of work, and now that this road has been completed, the ore from the North Star mine will be brought to Hotchkiss for shipment instead of taking it to Silver City. The North Star company has some fine looking ore just outside the ore shed, and will no doubt make very heavy shipments very shortly.

ACCUMULATING ORE.

There are several of the silver mining corporations of Tintic that have large deposits of ore on hand, each ready to ship up in silver and lead. They will not make any consignments, however, until the coming presidential election is over.

Mr. Pat Conner, an old time Tintic mining man is out from Salt Lake doing assessment work on the Homestead claims, situated north of Silver Bow.

FURNISH WORK VIGOROUSLY.

Work is being vigorously pushed on the Grand Central, the Emerald and Opex mines, which are all said good neighbors. These three mines are shipping and drifting, and it is safe to say that some of them will shortly become a shipper.

It is reported that the Carisa mine will shortly resume shipments. If late the Carisa has been very slow in the way of shipping for one but it is stated that the company will put on a force of miners and figure some more among the Mammoth producers.

Mr. Joseph Tracey and Mr. Pat Donohue paid a visit to the Opex mine yesterday and both gentlemen were very favorably impressed with the good showing at the Opex property.

THE SET AT SILVER BOW.

The Hoa mine over at Silver Bow is looking up in fine shape. The drift is now down 75 feet, and Mr. Tomasi Smith reports that they have encountered a vein of copper and that assays 25 per cent copper and quite a little gold. Mr. Smith, Mr. A. A. Nunn and Mr. H. A. Eber are interested in the Hoa property, and the above gentlemen, who are all old time mining men, are work the Hoa mine vigorously this fall, and hope to be in a position to make a number of shipments before the year is out. There is an abundance of water close to the property and the future outlook is very bright.

WORK ON THE CHIEFS.

Superintendent Wilson of the Uncle Sam mine at Silver City is doing some good work in the shaft which is now tunnered to a depth of over two hundred feet. The miners are sinking in some good mineral bearing ore, and it is safe to say that the mine will shortly become another addition to Silver City's famous producers.

THE WEEK'S SHIPMENTS.

The Utah mine commenced to take care today for next week's shipments. The Utah this week has fallen to make regular shipments but it will more than make up for lost time next week when some of the producers have made inclosing shipments. The Mammoth contributes carloads of concentrates and mine carloads of ore; the Sioux contributes five carloads of concentrates and five carloads of ore; the Ajax contributes five carloads of ore; the Annie has some heavy consignments to the Utah Consolidated mills for treatment and it is believed the test will be satisfactory.

FARRELL WELL PLEASED.

Mr. Franklin Farrell, the well known capitalist of Auburn, Conn., was out visiting the Silver Cross Consolidated mine yesterday. This gentleman paid a visit to his mine at Rockwell which are known as the Sioux mine. Mr. Farrell is well pleased with the flourishing appearance of Rockwell and Robinson at the present time and thinks that the former will shortly become another great camp of the sturdy great West.

A SILVER RALLY.

Tintic has been blind for a great rally which will be held at Silver City tomorrow evening under the auspices of the Silver City W. J. Bryan Silver club. Judge Powers will deliver an address at the meeting. The Bryan club the district will put in an appearance and trains will be run free of charge for all those wishing to attend the great meeting.

Edmund Kemmerly, the cow puncher, will appear at Rocky Dale tomorrow night and will likely play to a full house as all reserved seats have been sold.

WORKING TO MILL.

The Eureka Hill Mining company is working to 100 tons and to its utmost capacity; also a large number of men are employed at the mine. The Eureka Hill will commence monthly sheets among its employes on Monday next.

FROM THE TINTIC RIVER.

Work Throughout the Prominent South Camp's Mines.

Capt. Geo. Ryan, Harry Pepper and Charley Green are prospecting in Hunting No. 2 and the line between Jesse Knight and sons, adjoining a remunerative mine. We are told that they have a very valuable mine.

The Swansea Mining company in Wednesday morning struck a vein exposed a thickness of 5 inches of ore of $9,000. We believe they are to be racks of the divisions jubilant today.

The shaft on the Cleopatra has now reached a depth of 100 feet and is still in the work. Work was commenced Wednesday, owing to a broken rope, and will probably be delayed for a few days, when a new water will be put on the ground.

Jesse Knight advises us that the new ore house at the Humbug will be completed today. Ore hauling from the mine to the railroad was commenced yesterday, and a fine output will be soon put in a few days. Mr. Knight states that for the present he expects to average five carloads per week.

One of a very similar character to that in the Swansea was struck in the Blue Bird last Tuesday. How extensive the ore body is, we are at this writing unable to learn. The Blue Bird is her owned by Messrs. C. L. Wore, Wm. Mathias, T. J. and F. W. Hoag, who have sold some in the lathe.

J. S. Cook and Billy Duffield have purchased quarter interest each in the Lucky Boy Extension, of which we spoke some weeks ago. Mr. Cook gave us the following assay results: Copper 17 per cent nitre and the other 18.

Mr. Newell is sinking in a 60 ft. pretty on a 1,200 foot level at the Chesapeake to work up discovered ore and expects to be extensive ore deposit from that level. In the meantime the work of getting ore is going on by on the surface is being pushed. Assistant to the hoisting plant on the mineral property, will probably start up in that portion of the plant next week.

The North Swansea is being put in such a condition that it will soon be unwatered, in fact the drip plant is in the shaft now is now idling. The only ore now being taken out is the supposed assessor is driving the cross cut in the 300 level to connect with the old Swansea workings and the mine which will strengthen the shaft and bring it down directly on the vein, and put it on sufficient to make a 115 ton shipment last week netting the company $3,000 and a 140 ton shipment of this week which will net at least $4,000. The ore body is continuous, running from two and one-half to three feet wide and the average assays of shipments show 60 per cent iron, 12 ounces silver and $4 gold. In the meantime improvements are up we going ahead and the property being put in first class shape in every respect.

Mercur Mercury Note.

The Mattie company in this week commencing a tributary, and upon its completion the opening will be resumed to good tension right on the ore used, by the use of Prof. Dorfelin's process.

Angus M. Cannon, president of the Cannon company, was in camp yesterday, looking after his mining interests. The Cannon property is improving with each visit, and now makes a good showing.

Work has been discontinued for the present on the Moonshine group, which is in Dugway will have been proceeding with a drift. The machine was out and terms means through many breakages.

A strike of ore was made in the upper tunnel Sunday either day and here below found to that property in any large ratios. It is reported that the discovery was made in the lower part of the property.

The Bonanza company is working away leisurely on its property below the Mercur mill, but the operators are very close-mouthed, and it is impossible to find out what results are being obtained. A large amount of timber has been encountered in the workings.

The White and other machinery and tools belonging at the Anderson mine were sold Monday to satisfy attaching creditors. The trustees of the company were represented by Frank Drake, contractor, who collected for the work and shipped without meeting any of the bills.

A. T. Francis commenced work Wednesday on the Sage Hen group, in which George H. Gilled recently secured a bond and on which the first payment has already been made. The Sage Hen group adjoins the Sacramento, and is regarded as very promising mineralized property.

W. T. Powers and H. E. Whipple have gone to Grand Encampment, Wyo., where a large area of some good quartz, some of it very fine, is reported as having been recently discovered. If there is anything in it, we expect the boys will get in on the ground floor, as they are experienced prospectors and hard workers.

We have at this office a piece of the high flat rock on the claims of Francis and Wood Saturday. It runs from 5,000 to 7,000 ounces silver per ton—about as much of the ore body is being silver. It is composed of iron silver and chlorides. The owners are searching for the vein and if they find it they will undoubtedly be rewarded.

Gen. H. Clair's lease on the Charlie Pitts expired on the 30th. George's ore shipments consisted of thirty tons and averaged about a hundred ounces. It is safe to say that this lease has added George something like $5,000, and his friends throughout the country are pleased with the success. The property, we understand, will hereafter be worked by some of the Cannon boys, who own the ground.

THE DAY ON "CHANGE."

Close Stocks Were With Transfers in the Pit Today.

Utah, Natural Gas and Nettie stocks were the only active stocks on the pit today, and for the trading was excessive. The closing sold at the best figure for each, while the transfers of this stock were tolerably good only because of the fact that the overall have been not a day or two subsequent, and it was wanted.

AN address of welcome was made by President Andrew Kimball.

A report of the present condition of affairs in the mission was made by Elders William D. Bowring and William E. Newman, the latter only left the field a short time since. Elder Bowring has served successfully as the secretary of the mission. He naturally gave a somewhat detailed account of the conditions there, showing a rapid and permanent growth and the prospects of a great work yet to be performed.

Interspersed between the various remarks were rousing instrumental and vocal selections, a duet on the piano by Elders Alvin A. Beesley and Henry Kirkham. A Cincinnati vocal quartette and Miss Kirkham double header by eight of the Elders recently from that field.

Mr. George Gillett with his usual humor amused the assembly by a humorous recitation.

The assembly was favored with a visit from President George Q. Cannon who addressed the meeting and expressed the appreciation of your guardians. He dwelt upon the remarkable growth and development of missionary work in the world; warned the Elders against the loss of valuable time in trying to convert those who had already had the gospel. He also thought slightly the mouth time was devoted to some hostilities and revelations of the truth. He said it was a day of warning and that what this was done, the Elders were at liberty and should go on giving others an opportunity to hear the truth.

Elder Full H. Margetts then with a violin accompanied by Elder Alvin A. Beesley on the piano, gave some beautiful strains of music and later amused the assembly with a comic recitation.

Before adjournment the standing committees were released and announced to vote thereon, and a new committee appointed under the chairmanship of Elder W. T. Jack, assisted by Elders W. D. Bowring, Wm. E. Newman, Henry Kirkham, Alvin A. Beesley, Alma H. Davis, J. C. Lyon, J. M. Fullmer and E. L. Saunders.

A bulletin board announced the time of departure of the various street cars, to meet the last train, and while waits were obliged to retire early, it was a late hour before the Elders were separate, they stood pat (to speak of it). The sixth made an attendance of 2,000 at most, at which figure more of it would really have been tickets. North-to light and 34 inc. figures—41 and 45 cents—to at the close of attention to the street, leaders wanted 50 cents for it. Smith was considerably advanced in quotations while the Swansea rose with its ores.

The closing figures were as follow:

MISSION REUNION.

Interesting Assemblage of Missionaries and Their Friends Last Evening.

The Indian Territory reunion held last night was a successful affair. It was a little late before the program proper was begun but in reality there was no time lost judging from the good time the Elders had in simply the hands of former companionship and greeting each other. The house was well filled with relatives and friends, all of whom seemed to enjoy the pleasant affair.

Arranged in a semi-circle, the seats all faced the platform—one of the ends of the half in either end of which was an improvised piano and organ.

On the card spread out for the reconvocation of all interested, was a large collection of photographs and views of Elders, people and interesting views of Indian Territory and other parts of the mission, prominent among which were views of the three meeting houses and photographs of the various mission presidents of Indian, and judging from the way members and visitors viewed them, the photographs and views very were greatly appreciated.

Prominent on the program was the called "Old Red Horse" by Dorothy Frank, of Provo, Utah. It contained two values of 107 Elders, thirty of whom were present. Two hundred are in the field. A good many were somewhat by sickness, neither, wife, sweetheart or some one closely interested.

The street car 6:30 and who wanted to see Red and was Elder William Bailey, who Elder Kimball was sick in the Elders, and the present are were three Elders present who were not yet Elder the intention, but are on way to their field.

Elder Joseph H. Felt in his pleasant manner presided.
