TARIFF AND BONDS.

Two Bills Agreed on in Response to Cleveland's Message.

ONE TO INCREASE THE REVENUES

and one Providing for the Issue of Bonds—Opposition to the Former.

WASHINGTON, D. C., Dec. 23.—The House Republicans will introduce on the day after Christmas, and pass within the week, two bills in response to President Cleveland's message of appeal for help for the treasury. One of these will be a tariff bill to increase the revenue, the other a financial plan to maintain the gold reserve and prevent alleged existing trouble with the greenbacks.

The tariff bill will be entitled "A bill to increase the revenues and to prevent deficit in the treasury," and will go into effect when signed by the President, if he signs it, and will remain in effect until August 1, 1896, when by its provisions its operation will cease. In these follows:

A duty on wool of 40 per cent of the McKinley rate.

A compensatory duty on woolen goods of 50 per cent of the McKinley rate.

A duty of 35 per cent of the rate of 1890 on lumber, which will be from 19 to 15 per cent ad valorem.

An increase of 25 per cent from the Wilson-Gorman-act rates on cereal products, dairy products and livestock, including poultry.

A horizontal increase of 15 per cent of the Wilson-Gorman bill on all other schedules, with the provision that in no case shall the duty exceed the McKinley rates, except where the Wilson-Gorman rates exceed those of the McKinley law.

The second bill will provide for two issues of bonds. The first will be an unlimited amount of 5 per cent five-year coin bonds to protect the gold reserve, with the provision that the currency recovered by the proceeds shall not be paid out for current deficits in the revenue unless the expenses of the government are in excess of the revenues (which it is expected they will not be if the first bill is in operation). In addition, the second bill will provide for one-year 2 per cent treasury certificates of indebtedness not to exceed $50,000,000 in amount, and to be disposed of at the discretion of the secretary of the treasury to meet current deficits in the revenues.

These are to be offered for sale in the sub-treasuries and depositories of the government. It is expected there may also be added to this bill a plan to increase the currency by authorizing national banks to issue circulation to the par value of all the government bonds deposited by them with the government as security for their notes.

WASHINGTON, D. C., Dec. 23.—The Democrats of the House will oppose unanimously, as far as can be ascertained, the revenue bill which the Republicans will bring in on Thursday. Both the silver and anti-silver Democrats assert that there is no necessity for an increase in the revenues, as they claim that the available cash in the treasury over and above the gold reserve, is amply sufficient to meet any deficiences that may occur for the next two years, when they expect the receipts from the present tariff law to equal or exceed the expenditures. Up to this point Democrats seem to agree. As to an authorization for coin bonds they differ. The gold men would be willing to vote for them, preferably gold bonds, to fortify the reserve, but they point out that in their opinion no bond will meet the situation. The trouble they declare is the existence of the greenbacks, which can be used to pump gold out of the treasury, and unless their redemption and retirement is provided for the gold purchased with bonds would simply be to increase the interest-bearing debt without removing the active agent for weakening the reserve. It is not improbable that some of the Democrats will offer as a substitute a comprehensive plan for the retirement of the greenbacks, including an authorization for an issue of $500,000,000 in bonds for that purpose, and the repeal of the tax on national bank circulation and the increase of currency to be issued on deposits of bonds from 90 to 100 per cent. This latter, they say, would strengthen the national banking system and prevent a contraction of the currency.

Murdered by Apaches.

DENVER, Colo., Dec. 23.—A special to the Republican from Prescott, Ariz., says Jake Newman, a brother of the well-known Willis West stockman, Charlie Mashburn, arrived in Prescott from Parson, a little town on the Northern border of this county. He brings the news that Perley Ellison and family were murdered by Apaches in Lower Pleasant valley, in the mountains 140 miles east of here, nearly a week ago, while on their way to the ranch of Ellison's father in Cherry Creek valley, to celebrate Christmas. The sheriff's posse took Ellison's daughter, Nancy Tays, the Apache squaw, several weeks ago, started from the older Ellison's ranch, and the settlers have been apprehensive of an Apache raid ever since.

Cuban Rebels Advancing.

TAMPA, Fla., Dec. 23.—A special states that Gen. Maceo's command passed here last night. He reports the Cuban army marching toward Santiago in three columns, one under Gen. Lacrete and Suarez with 2,000 men, another in the north under Sanchez with 2,000. The center column, under Gen. Gomez, has 6,000 men. Each column has two field pieces of mountain artillery. The extreme vanguard, 1,000 men, is commanded by Brigadier Pinalbosa Perez, and the rear guard of 1,000 is under Quintin Banderas. In Gen. Gomez's first engagement at Malanzas with Col. Arigoma, detailed separately to delay the former's march, the Spanish loss was 240 dead. Up to this time the steamer left Havana stating had been heard of the two companies of the battalion of Canarias. It is supposed they fell into the insurgents' hands. Maceo was occupied for three days by the insurgents, who, upon leaving destroyed the town. Maceo was at Lajas when the latest reports concerning him had been received.

VENEZUELA COMMISSION

Will Not Fix the Boundary Line—War Inevitable.

NEW YORK, Dec. 23.—Senator Thomas H. Carter, of Montana, statesman of the Republican national committee, was at the Imperial hotel today. In regard to the Venezuelan-British Guiana boundary dispute, he said: "As I understand it, and I believe the public does, not," he added, "the commission will not be appointed to fix the boundary line at all, but to let the Americans know something about the merits of the dispute and the justice or injustice of England's claim. That commission will not settle the boundary line at all, although the language of the message is indefinite."

Gen. W. S. O. Wiley, who is ex-Governor Morton's staff, said: "I think at a modest guess we could put 125,000 soldiers of the National guard in the field. This is about the fighting strength of our military force in this state. In case of war with England I have no doubt that the retired members of the guard would come in again and raise the effective fighting force to 250,000 at least. They would be placed on a war footing at once."

President Roosevelt of the police board said: "I cannot too highly praise the admirable message of President Cleveland. He and Secretary Olney deserve the utmost consideration. I am delighted that the House and Senate acted in a spirit of broad-minded patriotism."

Hon. Charles Foster, of Ohio, ex-secretary of the treasury, who is stopping at the Fifth avenue hotel, said:

"Mr. Cleveland's message was quite a surprise to the country. He has been pandering to British sentiment so long and his policy seemed so un-American to the dealings of the administration with other countries, that the sharp way he takes up the Venezuelan question is refreshing as it is pleasant to everyone.

"But things are not going to end this time as they did in 1845, when England bluffed us out of a great strip of land in the Northwest. The Democrats then carried on their banners, the words 'Fifty-four Forty or Fight,' but they finally yielded to the bluster of the British lion. England would never have had a single foot on the Pacific coast had not the Democratic leaders shown as much backbone as they seem to have now.

"The Republicans will promptly rally to the support of Mr. Cleveland. I do not believe, however, that we shall have war."

WHO WILL BE THE COMMISSIONER?

WASHINGTON, Dec. 23.—Three or four of the officers of the cabinet were engaged in conference at intervals throughout the day. In the morning Secretaries Carlisle, Lamont and Herbert spent some time at the White House, and during the visit views were exchanged between them. The impression is that in addition to talking over the financial conditions, they are interested in the personnel of the Venezuelan commission. It is believed that the President is already in communication with some of the persons whom he would be pleased to have undertake the work, but in advance of their acceptance of membership their names will not be made public, and consequently the conjectures of the commission is purely speculative at this time.

Guns for Commercial Vessels.

NEW YORK, Dec. 23.—A special to a local paper from Toronto, Ont., says: Commercial interests were disturbed today over a telegram from Ottawa that the government is negotiating with owners of lake steamers which can be converted into cruisers to place their vessels at the disposal of the authorities in the event of war. Preparations are being made to place guns on the boats laid up at the port, and gunners are under schooling at the fort.

An English Claim for $40,000.

OMAHA, Dec. 23.—A special from Lincoln says: Governor Holcomb today received a letter from Secretary Olney, enclosing the request of the British ambassador for $40,000, growing out of the assault on the English family of Dawson, in Nebraska, by the McCarty outlaw gang. The Dawsons claim their property was damaged to that extent by the alleged outlaw band. The claim in Nebraska is regarded as not only ridiculous, but absurd. All the property the Dawsons had at the time was contained in a small wagon, drawn by two ponies, the outfit probably worth $200. They were attempting to trade horses with Vic McCarty, a local tough and the leader of a gang of ruffians. A free fight resulted, in which the Dawsons soundly thrashed the McCartys, who sought safety in flight. That ended the incident.

Heavy Rainstorm.

KANSAS CITY, Mo., Dec. 23.—The heavy rainstorm of last week caused many washouts and did great damage to the railroads in southwestern Missouri, Arkansas and Indian Territory. The Kansas City, Fort Scott & Memphis, the Pittsburg & Gulf, the Missouri Pacific and the Iron Mountain were the greatest sufferers from the storm. All of these lines were compelled to lay new track in places, and traffic has been seriously interfered with. Two of the iron spans of the bridge across the Grand river, on the Wagoner division of the Missouri Pacific, between Wagoner, I. T., and Fort Smith, were washed away.

AT CARACAS.

NEW YORK, Dec. 23.—A dispatch to the World from Caracas says:

The excitement continues. The government has issued a decree forming the militia. An extra session of Congress will be called.

Bouton, the Venezuelan who has been serving as English consul here, has resigned.

Mr. Russell, the new American secretary of legation, arrived today. He was met by a military band at La Guayra, and there was a grand public reception.

I have analyzed Dr. Price's Baking Powder and find it of highest purity.

STILL TALKING WAR.

English Papers Comment on the Venezuela Question.

LONDON, Dec. 24.—The discussion of the Venezuelan question continues with unabated vigor in all quarters. The Times this morning prints columns of correspondence on the subject. Mr. Andrew Carnegie writes to that paper in favor of arbitration, with a price fixed upon such territory as has been settled by the British should their title be found defective.

Col. Colquhoun, who recently visited America in connection with an investigation of the Nicaragua canal project, and who has, since his return to England made various addresses on that subject, writes to the Times offering his testimony that the Monroe doctrine is an abiding sentiment with Americans and must be considered.

The Vienna correspondent of the Times says the Neue Freie Presse ridicules the idea that a Russian fleet would assist the United States against England.

The Times' editorial says: There was a taint, but significant want of confidence in the refusal of Congress to adjourn except over Christmas day.

The Standard which is regarded as the conservative organ, remarks editorially that although Lord Salisbury declines to respond to the invitation of the New York World to express his sentiments on the question, his refusal was kindly in tone.

The Daily News says in an editorial: "The war message already seems a piece of past history, and the President has probably lost the effect of eight years of the most disinterested labor for the public good on the currency question. Our New York correspondent says his rashness has threatened the United States with bankruptcy, but it is impossible to believe that of a country which both politically and actually is about the richest country in the world."

At a meeting of the executive staff of the London Non-Conformist council Dr. Clifford presiding, it was decided to telegraph a greeting to the Christian churches of America, with sympathy in their efforts to preserve the peace, and the hope that they would be crowned with success and thus enable England and America to co-operate on behalf of suffering Armenia.

Philadelphia Strikers Killed.

PHILADELPHIA, Dec. 23.—William H. Matthews and Samuel C. Greeley, two motormen who were in a mob of strike sympathizers, were shot, the latter probably fatally, by policemen on a car at the seventeenth and Girard avenue.

After repeated warnings to the crowd to disperse, the policemen began firing. It is alleged that fully 3,000 people were in the crowd. Half a dozen cars were wrecked. The strikers' committee today adopted a resolution asking John Wanamaker to act as arbitrator in the street car troubles.

A Railroad Official's Experience.

MR. EDWARD ELDRIDGE, long connected with railroad construction in Nebraska, writes: "My heart troubled me and pained me for 11 years. Shortness of breath was the troublesome and most common symptom. Intense, excruciating pain generally followed my every exertion. Palpitation, bounding without any exertion, fluttering that made me difficult to sleep, and palpitation that often suggested to me as if I would fall, were frequent attacks. Again, everything would turn black if I arose from a sleeping posture quickly. Sleepless nights with their pounding throbs were numerous and I could not sleep on my side. I consulted leading physicians and tried advertised remedies. They gave me no relief. One of Dr. Miles' circulars described my case so exactly that I took Dr. Miles' New Heart Cure and I am now a well man. I hope every one troubled with heart disease will try Dr. Miles' remedies. If they will write me personally, I will gladly give them full details of my experience." Box 1, Edwards, P. O. Box 65, David City, Nebraska.

GOLDEN MEDICAL DISCOVERY

Many years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., compounded this medicine of vegetable ingredients which had an especial effect upon the stomach and liver, curing the organs to healthful action, purifying and enriching the blood. By such means the stomach and the nerves are supplied with pure blood, they will not do duty without it any more than a locomotive can run without steam. You can not get a lasting cure of Dyspepsia, or Indigestion, by taking artificially digested foods or potions—the stomach must do its own work to its own strengthening. Do not put your nerves to sleep with alcoholic cordial mixtures, it is better to go to the root of the difficulty and feed the nerves with the food they require. Dyspepsia, Indigestion, Biliousness and Nervous Affections, such as sleeplessness and weak, worried feelings are completely cured by the "Discovery." It puts on healthy flesh, brings refreshing sleep and invigorates the whole system.

MRS. E. HOSKE, of No. 54 North Halsted St., Chicago, Ill., writes: "I regard my improved health as simply wonderful. After using two bottles of Dr. Pierce's Golden Medical Discovery in conjunction with his Pellets, I have gained in every respect, particularly in flesh and strength. My nerves were shattered, I suffered much from dyspepsia. My sleep could give no relief.

"Now, after two months' use, sleep is refreshing, I am free from dyspepsia, my nerves are quieted and I enjoy my meals, thanks to your medicines."

MRS. HOSKE.

Dr. Pierce's Pellets regulate and keep each improvement.
