

tive this forencen, he again made the declaration that one of the greatest Manager P. W. Madsen. copper camps in the state will be opened up in the Sierra Madre mountains, located north of Ogden. Mr. Maguire has maintained implicit confidence in this region for a number of years, and has been operating there for himself and associates in a quiet, unostentatious way during all this time.

In speaking of the district in general Mr. Maguire says that there is considerable development work in progress in the Century. the camp at the present time. The owners of the Overland mine are when

taking out a nice quality of ore for shipment, which, he is informed, will run from 40 to 50 per cent lead and from 50 to 60 ounces silver. At the Standard property, near by, a good grade of copper ore is being extracted . At the Prince of India, a 500-foot contract will soon be let to cut the contact. The Santa Maria and Eldorado, which have been shut down temporarily, are ready to start up again with renewed vigot and among the improvements to be added to the latter is a concentrator of 100 tons daily capacity. The company owns an excellent mill site and water rights. At the Boston and Maghera.

plans are about completed for the letting of a contract to run a cross-cut 300 feet. A huge fault occurred on this property and it is the purpose of this cross-cut to penetrate the dyke to reach the vein on the other side.

Mr. Maguire says that a number of important copper discoveries have been made in the Slerra Madre district re-cently, and with the knowledge he has gained of the camp he has no hesitacy in making the assertion that the time is not far distant when this region will rank with some of the best copper camps in the state.

Forenoon Quotations and Sales. The mining stock market lost all it

spection of the Sheba mine of which the statement made yesterday by Justice G. W. Bartch of the supreme court of Utah is president, and William "The mine never looked better than H. Child of this city is secretary and It does today," said Mr. Madsen, "and manager. during the past month we cleaned up Prof. Blackmer, when seen this foreover \$2,000 above all expenses. Some noon, expressed himself as being well people may not want to believe this,

pleased with what he saw in camp and but it is a fact just the same; they will, paid a high compliment to the officers however, a little later on. A dividend or of the Sheba company for their conserso ought to be enough to convince some vatism and the economy displayed in of the 'knockers' around Salt Lake who conducting operations at the m ine. never have anything good to say about "You may say for me," said Mr. Blackner,"that my recentvisit to the property The mill is doing good work and

has convinced me that all the estimates placed upon the Sheba mine in the form of published statements are very when a person stops to consider the record it has been making and compare it to the way the stock has ben quot-ed in the local market: why, its a shame, that's all I have to say. The conservative, indeed, and the facts are understated. I must say that I was agreeably surprised and I see no reason why the mine should not become one of stock is now around 40 cents a share; a basis of \$60,000 for the entire property, the largest in the west. There is no doubt in my mind but that within a very mill and all. There is stock being sold in prospects right along for more short time the property will develop in-to a \$10,000,000 proposition. money, without a particle of ore in sight; while in the Century we have

to a \$10,000,000 proposition. "The Mammoth claim alone," con-tinued Mr. Blackmer, "is a big thing. The vein opened there is probably 400 feet in width, and is very plainly de-fined between the lime and porphyry. Capt. Turner's New Metal Saving Process It has been prospected on the surface for a distance of 1,0000 feet.

Described-Much Claimed for It. A crrespondent of the Boise States-"I was all through the Sheba work-ings and saw a vast amount of ore man, writing from Salmon City, Ida., gives a description of the new metal saving process upon which Captain L. W. Turner, of that place recently re-ceived letters patent. The writer says; blocked out. In the north drift a streak of high grade ore has been encountered, which, I was told by the superintend-W. Turner of that place recently re-ceived letters patent. The writer says: "By a practical combination of well known chemical and electrical agencies he eliminates the item of loss in the use, for instance, in the cyanide process of gold extraction. He demonstrated to your correspondent yesterday at his labratory that he could place the gold, silver and copper of a charge of pulp in solution, precipate the minerais re-good work."

eyanide. "This scheme eliminates the item of expense for solvents, which has long been a bar to chemical extraction when cheap motals or copper predominated." 72.0 COPPER IN KANE COUNTY.

N. Jennings of Levan, Said to Have Found Something Good Near Arizona Line.

Nephi Jennings, whose home is in Levan, Utah, has been stopping the past ew days in Castledale, says the Emery County Progress, and while here has been making sidestrips, accompanied by 10 . W. Brown and others, to some of the spots where mineral is supposed to exst in Emery county,

Mr. Jennings, however, is too much are, semanage, nowever, is too much interested in some copper mines at Peh-reah. Kane county, to spend much time in Emery county. The writer of this supposed he had seen the real thing in copper ore spectmens some years ago, but when Mr. Jennings opened a little solt Thursday and a half a dozen dunks, each the size of a big fist, rolled

out, we willingly conceded that Kane county contained some copper. One piece, a pure native copper specimen, looked as solid as a copper kettle, the silica only amounting to a small per cent. One specimien of red oxide of copper, Mr. Jennings said, ran SS per cent, and none of his specimens run lower than 75 per cent in the red metal. Mr. Jennings was one of the original loalors of the Kane county property and has worked with it until there are now wo cross-cut tunnels, one 638 feet and he other 200 feet in. The vein is from s to 20 feet wide, all high grade ore, the company is now negotiating for a eaching plant to treat the ore locally,

there being thousands of tons in sight na line and about 40 from Kanab, he county stat.

Fire Destroys Concentrator.

Spokare, Aug. 19 .- Private advices Vermillion, Montana, state that te concentrator and nearly the entire ant of the Kennucky-Vermillion Minng and Concentrating company was wept away by fire last Saturday. The loss is estimated at \$125,000 to \$150,000, with \$20,000 insurance. The property was owned by Spokane men, the prin-cipal aciders being E. J. Dyer, E. H. selden, Jay Lawyer and J. E. Brans-

A Musical Incorporation.

Trenton, N. J., Aug. 19.-The Acollan, Weber Piano and Planoia company, capital \$10.006,000, cf which \$3.000,000 is referred stock, was incorporated here I today.

Samuel J. Paul expects to leave for Park Valley the latter part of the week. The ore and bullion settlements yes terday were reported, as follows: Crude ores and concentrates, \$38,300; base bullion, \$24,900. Total, \$63,200 .

Water has interfered with develop nent work somewhat at the Park City Star property.

William H. Kinnon, superintendent of the Majestic smelter at Milford, is in the city today to confer with Manager Alexander.

J. J. Daly of the Daly-Judge director-ate is expected to return from California next week.

John A. Kirby, superintendent of the Daly-West mine, is in the city today. Manager O, J. Salisbury is at the

Daly-Judge mine today. The management of the Wabash mine of Park City is preparing to sink to

1,000 feet. Manager Duncan McVichie pulled out

for Tintic last night to spend the day at the Eagle & Blue Bell mine. Manager D. C. Jackling of the Utah

Copper company is scheduled to arrive from Colorado today. A pump sufficient to handle 40,000 gal-

tons of water daily is to be placed for thhe Halifax mine at Tonopah, which is numed principally by Senator Kearns and David Keith and David Keith.

The regular monthly dividend of \$25,-000 will be distributed by the Grand Central Mining company tomorrow.

Expert Gunn, of the American Smelting & Refining company, has gone to Tonopah. He will return the latter

part of this week. Charles E. Knox, president of the Montana-Tonopah, came in from the east Monday en route to the Nevada

Considerable excitement has been created in Grand county over the discov-ery of gold on East mountain, about 14 miles from Castledale. It is said that over 250 claims have been located.

Word has reached Salt Lake from Los Angeles that Mr. and Mrs. William Bayly, Jr., will soon take up their residence in this city. Mr. Bayly is interested in the Bingham Copper Belt railway.

The Swansea Mining company has levied an assessment of 15 cents a share, which calls for \$15,000. The delinquent date is fixed for Sept. 21, and the date of sale Oct. 8. This is the first assessment ever levied and the mine has paid about \$200,000 in dividends.

> Manager Willard F. Snyder and Director Charles H. Scheu, accompanied Superintendent Raddatz of the Honorine mine to Stockton this morning to be present when the first ground was broken for the proposed new concentrator. Contracts for the structural material will be let in a few days.

C. L. Dignowity came in from Coloralo yesterday to remain a few days o business. He will return to Bould where he is operating a mining proerty, and will go to the Black Hills about the 16th of next month to attend the session of the American Mining Congress.

Miners have been put to work in the Annie Laurie mins in the Gold Mountain district, but it may be some little time before the mill resumes. Only a small force as yet has been put on in the mine, but agents of the company are in the city securing help.

Mr. Charles Gage of Denver, repre-senting a syndicate of Chicago, New York and Cleveland capitalists, and Ed-York and Cleveland capitalists, and Ed. win Do Haven, who is identified with

1½ and the common, St. Paul, Union Pacific, Atchison, Canandian Pacific, Erle, Reading, Norfolk & Western and Baltimore & Ohio came into the range of 1 to 1½ point losses. The pressure relaxed before noon, but there were no rallies of consequence. Bonds were irregular at noon.

No effective support developed during the neon hour and Rock Island was carried 3% under last night. St. Louis-Southwestern preferred dropped 31/2, Amalgamated Copper, St. Paul and Metropolitan Street Railway 21/2, and Missouri Pacific, Atchison, Southern Pacific, Reading, Kansas City Southabout 2 points. The market steadled at the end of the hour,
