# EXODUS FROM DAWSON CITY.

## Thousands of Men are Rushing from the Place.

## OUTFITS SOLD FOR A SONG.

### Not All Made Money, but Many Are Still Only Suffering in the Search for Gold.

Seattle, Wash., July 19.—The steamer Dirigo arrived today from Skagway, Alaska, with news of a repeated strike at Big Salmon river. A great many prospectors from Dawson and vicinity are rushing into the district. The Dirigo had a number of passengers from Dawson who brought on a small quantity of gold dust. The power of the steamer estimates the amount on its flight at a quarter of a million. The Klondyke news of importance is that the money was brought down by passengers from Atlin.

A Minot and partner cleaned out a run in last year, and all the gold they got to Dawson for this was $96.75.

A party named Strang, who held an adjoining claim, staggered on a nugget valued at $18, and this was about the sum total of his clean-up.

Frank Lenz made a clean-up of $600 on No. 16, below Discovery, on the creek. Harry Lane on No. 1, below on the creek, washed out $5 a day to the mile for awhile. These clean-ups are supposed to be the reports that are on the thousands of dollars.

Another small find by a man named Slagle was made on Birch creek. He washed out the fourth nugget he found in the time the boys got around a $5 to the amount and weighed 7 to 8 lbs. and he thought it took—to Allen creek it was $1,000.

Advices concerning the exodus of miners from the Yukon river were brought here today by Jack Carr of the ship. He brings information from Dawson as far down as Nulato, the Yukon, Tanana and Koyukuk.

The miners are observed from 100 to 150 men going down the river in each boat. They were coming from Tanana and points. The Bonanza portation companies were taking down 100 men at $100 a head every trip of their steamers. There were estimated to be 1,500 men up the Koyukuk, 1,200 of whom would go down the river to Cape Nome and St. Michaels.

In the vicinity of Tanana and on the Koyukuk, men were constantly coming to and away. Fifty-two steamers were operated by the Tanana Trading Company. The trading people saw as low as $100 back about the Tanana and Koyukuk River. Cow boys were seen in Dawson that had been selling cattle at $1,000 at Rampart City. This was the steamer Scott Mc. Mahon, which was formerly Bishop Rowe's yacht. It went a month and a complete wreck. Capt. Ward reports a wreck of a suitable launch that cost $1,800 in New York, for $100. With the launch were some years's provisions, a motor was run.

Provisions can be bought at Tanana, Koyukuk and Rampart City in job lot for a song. Flour sold at Rampart at low as $150 per hundred.

One of a party of five which left New York five years ago in search of a mythical diamond mine on the west coast of Alaska, but one has returned. He is H. C. Hoffman, a machinist, formerly in the employ of the Baldwin locomotive works. Three of the party, Walter Dodge of Fairhaven, N. J., James La Belle of Canada, and a man named Frisbee, died of disease. The fate of the fourth, named Henry Morris of New York, is unknown.

According to Hoffman's remarkable story, the party left Nome in a boat, in fact, it is a small trading schooner, and had a fleet sailing between the Kuskowim and Bering Sea ports, known as the Black Hoss, which the richest of the party had bought for $1,000 in gold. They had two years' provisions.

At Kotzak, La Belle died from disease resembling malaria. Dodge and Morris were stricken with the same disease. Dodge then ended up in Lake Olt Peters that winter through the Kotzak River, with seven months' provisions, was left to care for himself with the understanding that he was to return to the Black Hoss and wait for a year. Nothing was heard of him again. Morris and Hoffman pushed on to Nulato, a Russian Indian village on the back Yukon country.

The village was made up of Russian whites from the prison of Siberia. They robbed Morris and Hoffman of everything of value and kept them prisoners. Hoffman was separated from Morris and taken to another village. Morris was compelled to do menial work. At the end of a month he escaped and reached the small town of Nulato on the Yukon river, where he was ill for several months. He never heard any further tidings of Morris.

D. Wilson of New York, who arrived in Seattle from Alaska, reported a boom of excitement and hardships on the Kuskowim river. He was thirteen months going from Edmonton to Dawson. One of his partners spent the winter in made Pass on Bonanza lake, over 100 miles beyond Lake Lake, in the British possessions. He lived with the Indians, hunting in their company, and eating what he had to eat and whatever came to hand. He and some found on the trail were obliged to subsist on dogs, rats and any other style of refuse which Indians possessed made a good dinner. When these days are over, it was at least a year would be added to this world's lie larder for a few days.

### Nestora Minor Killed.

Butte, Mont., July 19.—Matt Hobbs was accidentally killed and Ben Wilson had a leg cut off by a premature blast in the Leonard shaft today. The Leonard shaft is the property of the Butte Coalition. The supposition is that the fuse was short on the new end.

The wife of the Mr. Lawrence got after from the engineer tonight asked to be excused to rapidly that the cable parted. The footing was struck on the boat by the end of the cable in the hold of the boat, and another man was slightly injured. The boat was badly damaged by the whipping cable.

### Secretary Alger's Resignation.

Washington, July 19.—Secretary Alger goes to Lake Michigan today for a vacation and will be the guest of President Hobart at the latter's summer home. The impression will become effective Aug. 1, though it was intended "at the pleasure of the President."

The current inquiry fails to elicit any information in the institution of the President regarding the alleged resignation of Mr. Alger as secretary of war. Names are mentioned, however, as the time draws nearer, Mr. Hobart is acquainted with some of the prominent men who are in the running for the position, but without confirmation of the statements of the President himself, the mention of the names is premature. Reluctant to talk about the situation, though one did say the President had made no mention of a name to him, and he believed that no decision had yet been reached. He also conveyed the impression that no appointment would be made immediately, but that Mr. Wolcott would be allowed to direct affairs for some time to come.

Among the names which have been mentioned from time to time in this direction, when talk of Secretary Alger's forthcoming resignation had been the topic, have been those of Ex-Governor Porter of New York, now ambassador to France; Gen. Horstmann of New York, Gen. Harrison Gray Otis, and Assistant Secretary Meiklejohn.

### Fountain Geyser Plays.

Cheyenne, Wyo., July 19.—The old fountain geyser in the Yellowstone Park has burst forth again in another portion of the crater, and during the past twenty-four hours has played quite a fountain, which are composed, throw out rocks and pieces of wood.

### Hurt by an Electric Car.

Denver, Colo., July 19.—James McCarthy, a magazine writer and novelist whose writings under the nom de plume of "The Hot Air" are well known, especially in the West, was struck by an electric car at the corner of Broadway and Colfax avenue late this evening, knocked from his horse and so badly injured that he will probably die. Mr. McCarthy or rather Hot Air, was undoubtedly the cause of the accident. He was taken to St. Luke's hospital, and the surgeon's examination of the body, three broken ribs and numerous severe bruises. The physicians express small hope of his recovery.

## RECRUITING VOLUNTEERS.

### War Department Offering Extra Inducements to Fill the Regiments.

### All the Field Officers Have Been Appointed—List of Colonels—Officers of Ten Regiments.

Washington, July 19.—The war department is offering extra inducements to expedite the recruiting of the ten volunteer regiments. All the commissions having been issued, most of the disappointed applicants have been advised to enter the service in that way. It may be possible for them to secure commissions. Gen. Corbin says that the policy of the administration will be to fill all vacancies which may occur in the regiments. Any person from the ranks. A number of applicants for commissions have enlisted as private in the different regiments and have been appointed non-commissioned officers whenever possible, and consequently are next in line of promotion to commissioned rank in case of a vacancy. Another method of securing recruits is to offer commissions to men who have seen service and who undertake to furnish in each case not less than forty men who can pass muster as soldiers and will enlist for service in the regiment. There have been several cases of this kind during the past week.

All the field officers of the new volunteer officers have been appointed, the last being completed today by the selection of the remaining colonels. The officers and their assignments are as follows:

Twenty-sixth infantry, Plattsburg barracks, Colonel Jacob Kline, lieutenant-colonel, William P. Duval, major, D. Anderson, Frank A. Bomb, Donald T. Sultzbacher.

Twenty-seventh infantry, Camp Meade, Pa., colonel, James M. Bell; lieutenant-colonel, Alberto Cummings; majors, George L. Byram, Edward B. Jewett, Clyde D. V. Hunt.

Twenty-eighth infantry, Camp Meade, Pa.—Colonel William E. Birkhimer; Lieutenant-colonel, Robert W. Leonard; majors, George H. Morgan, Elmer E. Tarbell, John S. Parker.

Twenty-ninth infantry, Fort McPherson, Ga.—Colonel, Edward F. Ricaldi; lieutenant-colonel, Charles Ewe; majors, Evan M. [illegible], Jr., Harry L. Hawthorn, David H. Case.

Thirtieth infantry, Fort Sheridan, Ill.—Colonel, Cornelius Gardener; lieutenant-colonel, James H. Campbell; majors, Leonard A. Lovering, Matthew F. Steele, Thomas L. Hartigan.

Thirty-first infantry, Fort Thomas, Ky.—Colonel James F. Pettit; lieutenant-colonel, William J. Glenn; majors, Charles Lagger, Lucien S. Hide, John W. McMahon.

Thirty-second infantry, Fort Leavenworth, Kan.—Colonel, Louis A. Craig; lieutenant-colonel, Lewis S. Sperry; majors, Abe H. Ivey, Robert E. L. Spence, Charles Elliot Cabell.

Thirty-third infantry, Fort Sam Houston, Tex.—Colonel, Luther Hare; lieutenant-colonel, John R. Brooke; majors, Marion C. Cronin, P. C. Bomford, Frank D. Ward.

Thirty-fourth infantry, Fort Logan, Colorado—Colonel, Jacob W. V. Kerper; lieutenant-colonel, Robert Ewan; majors, M. Shunk, Julius A. Penn, Joseph Wheeler, Jr.

Thirty-fifth infantry, Vancouver barracks—Colonel, William A. Kobbe; lieutenant-colonel, Edward H. Plummer; major, Robert D. Walsh, Walter C. Short, Albert Laws.

Cupid's work is done when the baby comes. The soft, little, clinging, helpless mite is the crown of love. In coming and making home happy, Cupid's object. Cupid brings two loving souls together—the baby binds them together.

A woman is never so womanly, so beautiful, so happy as when she is a mother. Yet motherhood is dreaded by some women as the period of danger and suffering.

The fear of motherhood is rapidly passing away and nothing has done so much to drive it away as the record of Dr. Pierce's Favorite Prescription.

Dr. Pierce has held that danger and pain at the time of parturition were really unnecessary and unnatural, and that it every woman were healthy and strong as Nature meant her to be this function would be perfectly comfortable and safe. The abuse of centuries of consequ-of health destroying medicines, of distorting artificial life have made it impossible for some women to fully return to the perfect healthfulness of a natural state. But every woman may be made so healthy that childbirth may be a happy degree. The organs directly involved may be strengthened, invigorated, prepared for the time of trial and for this purpose Dr. Pierce's Favorite Prescription has been used with success by hundreds of thousands of women. It is the product of the skill and experience of a regularly graduated physician—a skilled specialist who for over thirty years has successfully treated the diseases of women.

Unlike many modern medicines Dr. Pierce's Favorite Prescription contains no whisky, alcohol, sugar, opium, opium or narcotic of any kind and he has does not, therefore, create a craving for stimulants.

Mrs. Annie Decker of Sac Mountain, Sacramento Co., writes: "Your medicines have done wonders for me. For years my health was very poor. I had been miscarrying but since taking Dr. Pierce's Golden Medical Discovery and Favorite Prescription I have much good health and I now have a fine healthy baby."

# FIERCE STRUGGLE WITH THE POLICE

## Brooklyn Rioters Include Men Women and Children.

## MANY SERIOUSLY INJURED.

### Cars Stoned, Streets Barricaded, and Many Persons Hurt—Strike is Spreading.

New York, July 19.—New York rioters joined the Brooklyn rioters today in their big strike. The order of operations in New York City was second avenue. The centennial in Brooklyn centered in the vicinity of Twenty-fourth and Fifth avenue. A large detachment was used this morning in an effort to blow down the elevated structure.

The racing that took place in New York this afternoon and tonight was of a serious nature, infinitely more than any that has taken place in the borough across the river. Scores of people were severely injured in the Second avenue district. Tonight that great thoroughfare was resembling a battle, bristling mob, almost in entire length.

The strike sympathetic gave forth their warlingers methods who backed up the success to prior a more struggle with the police, who with the aid of many women and still greater numbers of children. They stoned every car that passed over the line, and they hurled rocks and chunks of iron and vegetables of every nature from the roofs of houses, and from the windows; they barricaded the streets with paving stones, tore up the street, drove clubs in the slats with wire and spread and blocked the thoroughfare; they had more a hand-to-hand fight with the police patrolmen that had been placed along the line.

The number of the exact number cannot be known. Several patrolmen were removed to hospitals with broken bones and bruised bodies. Many people, not on strike sympathizer, had his skull fractured and a boy had his skull fractured. Immediate gasoline cars and cars received had wounds and it was impossible for passengers on the cars to go south of second and Fourteenth street. The cars that run the gauntlet had their windows broken and were badly battered.

It was the hope of the strikers to make a demonstration by their numbers in second avenue, and so far as that thing was concerned, they and their sympathizers made it.

On the other lines throughout New York the strike was not as any time prominent throughout the day. Late in the night, however, the motormen on the eighth avenue line in the vicinity of 42 or more organized and declared a strike. They thereupon set about to persuade their fellow workmen to leave their cars and with sufficient success to have running only six boats between Harlem and Brooklyn.

Tomorrow they declare Eighth avenue will also be out on. The officials of the eighth avenue line claim the statement tonight that the cars on this avenue were moving the same as usual.

Madison avenue, Lexington and Fourth avenues were too little affected today, but more is promised tomorrow. In these boroughs of Brooklyn the officers made some gains so far as the manumitting of trolley car traffic was concerned, fewer cars running on the lines.

The outbreak of tyrannic outrage in the early morning hours was undoubtedly a severe setback to the strikers. The police, in connection with the tearing down of the two elevated columns, moved rapidly and made some 100 arrests of street, slaves of the men being held by the courts. The officers now are knowing of the Brooklyn and General Master Workman Parsons has offered a reward of $50 if it can be proved that a soldier in Brooklyn is a Premier member of the Brooklyn Rapid Transit company has offered a reward of $100 for the conviction of the perpetrators. Several mounted policemen are tonight guarding the power house and the lines of the companies involved in the strike.

The joint arrangements to take care of cases have been perfected so far, but the sitting made on Second avenue tonight were too much for them. More than a hundred arrests were made and probably as great a number of persons were injured by the clubs and by the fists of the night stick, but Chief Devery believes, together with his deputies, that more forcible measures than that will have to be adopted. New York has not seen such rioting in many a day.

### $10,000 TROTTING STAKES.

### Game Struggle to Win in the Race a Dead-heat.

Detroit, Mich., July 19.—The greatest struggle made in this the Metropolis and Manufacturer Stakes of Cupid's object. Cupid brings two loving souls together—the baby binds them together.

A woman is never so womanly, so beautiful, so happy as when she is a mother. Yet motherhood is dreaded by some women as the period of danger and suffering.

The fear of motherhood is rapidly passing away and nothing has done so much to drive it away as the record of Dr. Pierce's Favorite Prescription.

Dr. Pierce has held that danger and pain at the time of parturition were really unnecessary and unnatural, and that if every woman were healthy and strong as Nature meant her to be this function would be perfectly comfortable and safe. The abuse of centuries of consequ-of health destroying medicines, of distorting artificial life have made it impossible for some women to fully return to the perfect healthfulness of a natural state. But every woman may be made so healthy that childbirth may be a happy degree. The organs directly involved may be strengthened, invigorated, prepared for the time of trial and for this purpose Dr. Pierce's Favorite Prescription has been used with success by hundreds of thousands of women. It is the product of the skill and experience of a regularly graduated physician—a skilled specialist who for over thirty years has successfully treated the diseases of women.

of democracy that the will of the majority of the people shall rule, and that they shall not be intimidated to submit to military acts of anarchy shall.

### Investigate the Idaho Troubles.

Denver, July 19.—The subcommittee of inquiry of the United States Industrial commission closed its inquiry here today and will leave this evening for Wallace, Ida., to investigate the troubles of Alder Gulch.

Ex-Union State Senator S. P. Hill, manager of the Power and Canada, counter, one of the anti-free miners, was the only witness today. Senator Hill declared his strong opposition to resorts of all kinds. He thought they should be prohibited by law. Mr. Hill said he could not see how the good to be obtained by law. He said he favored labor organization as a means of maintaining wages. He claimed no rights for any man, but thought the man in his employ preferred the open and undemocratic system.

### LONDON NEWSPAPER COMMENT.

### After All, the Editors Have Stole Night Sweetings of the Real Conditions Here.

London, July 20.—The Standard this morning, in an editorial article regarding the resignation of Secretary of War Alger, says:

"President McKinley's recent acceptance of Secretary Alger's resignation is considered to be evidence that the Democratic party is not the only sinned. It is significant that the resignation comes at a time when the Manila correspondents cannot come.

"Alger is the last on the McKinley administration to be forced out by pressure of the imperialist party, the most effective weapon that could have been forged, and President McKinley can wrest it from them only by the exercise of a courageous, a bold and capable candidate."

The Times describes the resignation as "a decided victory for the opponents of a great commercial party, the party desired results to spend the lavish sums of Liberal money and the years has an unmistakable impact upon the great property."

Germany finds in China a favorable possession. Late in June a treaty signed China in the vicinity of Kiao Chou association and having grant Germanies control of the railway. The choice came into conflict with Chinese troops. Nine Chinese were killed.

Holstein, an engineer and two engineers engaged on the railway have been carried off by Chinese from Kiao Chou.

Mr. Itoh, chairman of Japan's central board of the gaolie, has decided to visit America early in August, to protest against the confiscation of the tax on sake.

Near Tokio July 1, a hail was very furious and destructive. Immense crops were injured.

Yesterday, China, a junk foundered in a storm and sixty women and children were drowned.

# UNEASY IN THE FAR EAST.

## Chinese Fire on a British Gunboat in Mistake for an Indian.

### Russia Seizes Chinese Gold and Coal Mines—Japan Takes Week's Island—Disastrous Accidents.

Vancouver, B. C., July 19.—According to Japanese advices Japan has hoisted her flag on Weeks or Marcus Island, leaving the United States could take it for a cable station.

Shanghai advices, H. M. S. gunboat Plover was proceeding up the river to Canton, a mistaken in charge of Bocca Tigris who had instructions to open fire upon any Indian craft of any going to Canton, endeared the flag hoisted on her top, mistaking her for an Indian.

The Plover did not stop. The merchants endeared a hard change to be fired upon the gunboat's boats. The treaty of Canton gave the merchants apologized and the incident closed.

News from Manchuria says the Russians have seized Chinese officials to stop working more gold mines that Russians have seized. They are going to take possession of them. They also took some rich mines north of Mukden from Chinese and paid nothing for them. They are also trying to take some from Japanese, but the Japanese are near the narrow. Despite all expostulations of the Chinese, Russia has seized anything of the rich mines deprived in building Vladivostok and is forbidding it with the support of the Russian commercial part, the newly formed results to spend the lavish sums of Liberal money and the years has an unmistakable impact upon the great property.

Germany finds in China a favorable possession. Late in June a treaty signed China in the vicinity of Kiao Chou association and having grant Germanies control of the railway. The choice came into conflict with Chinese troops. Nine Chinese were killed.

Holstein, an engineer and two engineers engaged on the railway have been carried off by Chinese from Kiao Chou.

Kidney Disease

Hudyan Cures 50c

THE KIDNEYS ARE MORE IMPORTANT ORGANS, FOR THEY ARE THE FILTERS of our systems. When they fail to perform the work intended for them the blood becomes overcharged with the waste matters of the body and the poisons that breed disease, and the result is—Kidney and Bladder suffering. The health of the kidneys therefore depends upon their proper working.

Hudyan Reconstructs Broken-Down Organic Tissues,

and this property makes it a most valuable remedy for the cure of kidney diseases. If your kidneys are weak, if you notice a sediment, if you experience any of the above symptoms, it is time to guard against serious disease. A few doses of Hudyan will now suffice to avert the danger that is threatening. It is best always to begin treatment early, for as soon as the first symptom is observed.

Heart disease is a complication that is often brought on by the imperfect working of the kidneys, resulting in poor circulation and dropsy. Hudyan averts this dangerous complication. Hudyan has prolonged the lives of hundreds of men and women who were sufferers from organic kidney disease to the worst forms. Hudyan cures are permanent and lasting.

If any one goes on suffering the pangs of kidney disease he will have himself to blame. Hudyan is within the reach of all. It is a positive cure.

More Evidence of Hudyan's Wonderful Curative Powers.

North Platte, Neb.

DEAR DOCTORS—I can assure you that Hudyan is indeed wonderful. My case was one of serious kidney disease. I was coming home sick and weak. Doctors said I would not get well. They did not do good, but Hudyan did. Hudyan made me strong and vigorous and I can now recommend to any that it removed every trace of my disease. H. W. WINGER.

St. Louis, Mo.

DEAR DOCTORS—I am pleased to be able to give you a testimonial in favor of Hudyan for it saved my life. I am sure. I was run down and was long from kidney trouble. Hudyan relieved it thoroughly. The first package of Hudyan improved me greatly, and before I was one-half through using it I was my former self. I can say Hudyan saved my life. I shall always speak a good word for Hudyan. MRS. MARY COLLINS.

Hudyan is for sale by druggists; like a package or six packages for $2.50.
