OGDEN.

OGDEN, UTAH, - - NOV. 10, 1894.

Sunday School Conference.

The annual Sunday school conference of the Weber Stake will be held today and tomorrow in the Ogden Tabernacle. Elders George Goddard, Joel G. Maeser and J. W. Wallacer, of Salt Lake, will attend.

Divorce Suit.

Ludwig H. Berg filed in the Fourth district court a suit for divorce against Eliza C. Berg. The parties live in Brigham City.

Toughs Sentenced.

Justice Bagley had a busy time yesterday with the toughs arrested lately. His benefaction's taste to the city jail, ranging from 10 to 25 days. In the meantime it is expected that evidence will be secured to connect them with some of the recent robberies committed in this city.

PARK CITY.

PARK CITY, UTAH, - NOV. 10, 1894.

The Election in the Park.

Election week has been taken up entirely with politics, and the people are all tired out from the exertions and are now ready to take a rest from politics and settle down to business again. Election day passed off quietly and no disturbances were noticed, and the great majority of registered voters cast their ballots. The greatest surprise in the vote was in the way that R. C. Chambers, candidate for the Constitutional Convention, was turned down. The surprise was as much with Mr. Chambers as with the general public, as it was generally conceded by all that he would be elected.

D. B. Tewksbury, the present county attorney, took it upon himself at 6:30 p.m. of election day, to close the polls, and he succeeded in doing so for a short time at the Second ward poll, but it was again opened and remained so until 5:30 p.m. He undertook to close up the polls at Ward 1, but at that place he ran up against a person in the shape of a policeman, who arrested him for interfering with the election, and took him before the U. S. commissioner. His hearing will take place today.

Tuesday night the Republicans took possession of the streets, and the latter were crowded till long after midnight with noisy people. The election returns were received at several places, and the crowds were very much interested in all the news received.

Notes.

The week has been lively also in the matter of ore shipments, and the total shipments from Silver King and Anchor passed through the sampler during the week.

Two cars of Crescent concentrates were shipped to the market during the week. These were obtained from the Crescent dump, which has been leased to Hooper & Co.

A car of pipe for the Daly West was received from Salt Lake Thursday, and the water supply for that mine will be considerably increased.

Travel to and from Park City has been light during the week, presumably on account of almost everybody remaining at home to vote. WILL.

SYMMES' HOLE UP TO DATE.

A Call For Volunteers to Go to the Long Lost Subterranean to It.

That the crust of the earth is formed in layers we can well dispute, and that all substance on the surface of the earth is drawn by some force toward the earth's center is also undeniable. This is called centripetal force. To admit the existence of this force is equal to the admission of a counteracting force called centrifugal.

According to every experiment and all philosophical reasoning, there must be a line of equilibrium drawn somewhere between the center and the circumference of the earth. The exact location of this line will always be determined by the motion of the earth. It is on this line that the external and the internal forces meet in deadly conflict, striving for gravitation power and the enforcement of their laws. The friction produced by these two forces must be the source of all internal heat and the eternal fire. It is these two opposing forces that form and sustain the immense balance wheel called "the earth," which is 25,000 miles in circumference, but cannot exceed 200 miles in thickness, including the lava belt in the center.

The irregular motion of the earth will change the central line of gravity and cause an eruption of lava (this central is internal). The earth, when viewed as a whole is a mass, and as we do know what operates it, whether applied to the external or the internal surface.

The law which governs gravitation on this equalizing line has given us two circles in one, or a world within a world. The friction and heat of the earth of the equator are so much greater than they are at the poles that the law of electric equilibrium will produce an electric current to meet the demand for light and heat.

This internal earth is a counterpart of the external in all things, yours or Atlantic and Pacific are not quite so vast, and its Nile and its Amazon are not quite so long. Neither is its power so active nor its poles quite so high. Venus, with an internal heat, has withheld no good thing from this new world that can be found of by any other. Humanity here is as far removed from Darwin as Darwin is removed from the clown and of Adam's race.

Who shall deny the ice found north and south that "open sea" so long sought for and? great their long lost cousins who migrated from Babylon 2,000 years ago?—Floyd Bulletin in Cities Observer.

ASSISTING THE QUEEN.

How Maids of Honor Are Selected and some of Their Duties.

Maids of honor are chosen by the queen herself from among the daughters of peers, who, if not themselves connected with the royal household, are personal friends of her majesty. A letter is always sent to the parents of the young lady requesting that as a personal favor to the queen she may be permitted to attend at court. As the position is undesirable and the salary is $300 a year, the request is invariably accepted, and the newly chosen maid receives from the lord chamberlain the command for her first "week."

The first thing brought to the maid of honor is her badge, which is a miniature picture of the queen set in brilliants and hung from a ribbon. Just before the dinner hour the maided lorgnon waiting her to stand in the corridor outside the queen's private apartments, the carriers brought, which on entering the dining room she lays at the right hand of the queen's plate.

The maid of honor sits at dinner next to the gentleman on the queen's right. This rule is, however, relaxed when royal guests are present. After dinner, unless otherwise commanded, the maid of honor retires to her own room, whence, however, she is frequently called to read, sing, play the piano or take a hand at cards.

As regards the tiny hat, the household have always to be provided with freshly ordered money, for the queen is not supposed to handle money which has ever been in circulation.—New York Advertiser.

GIVE US REASONS TO.

The affable young man was doing the polite to the very swagger young woman at a reception, and she was lolorating him because the swagger young man was in sight.

"May I escort you to the dining room?" he asked.

The invitation had drew back.

"I'm sorry," she began.

"Thanks," he interrupted and disappeared.

That made her think a minute, and later in the evening she corrected him.

"Why did you say 'thanks' to an awfully ugly?" she asked, quite reserved, but curious.

"Did I say that?" he said, with a faraway look to call it back again back in his honest eye.

"Yes, you did."

"I didn't know I said it, really."

"Well, you did," she pointed, "and I want to know why."

"I presume," he responded, "it was a case of unconscious gratefulness." And he got away with some degree of [illegible]—Detroit Free Press.

Signs of Health.

You don't have to look twice to detect them—bright eyes, bright color, bright smiles, bright in every action. Disease is overcome only when weak tissue is replaced by the healthy kind. Scott's Emulsion of cod liver oil effects cure by building up sound flesh. It is agreeable to taste and easy of assimilation.

SCOTT'S EMULSION.

"WORTH A GUINEA A BOX."

BEECHAM'S PILLS

TASTELESS—EFFECTUAL. FOR A DISORDERED LIVER.

25 Cents a Box.

Free to the Public

For Two Weeks, Commencing To-day and Closing Oct. 14.

In Order to Introduce Our New System of Treatment —A New Discovery.

Over two years ago the Copeland Medical Institute introduced their system and lowered the charges to $5.00 per month for Catarrh and kindred diseases.

At this time they gave two weeks free services and all medicines, not one penny was charged or received under any pretext or circumstances.

WM. G. OWEN, 160 S. North East.

"Had Catarrh for three years, nearly deaf and another pain in my stomach and bowels. Received treatment from the Copeland Medical Institute, and am now well and hearty. Catarrh, deafness and stomach and bowel pains have disappeared in three weeks, value of treatment received, are cheaper, more efficacious and more convenient than any other system. WM. G. OWEN."

They now report their offer which is wholly original with them, being wide awake and progressive physicians capable of originating and having in view constantly the one vital object—namely, "the safest, quickest, and therefore the best treatment known to humanity. To accomplish this they have spared neither time nor expense, and today take much pleasure in presenting the results of their research—a new and positive cure for Catarrh, Bronchitis and Catarrhal Asthma.

A cordial invitation is extended to all rich or poor, old patients, new patients to test our new system for a period of two weeks. This is our method—strictly a business one, and is therefore NOT A CHARITY and no one need hesitate to accept our offer.

COMMENCE TODAY.

Don't wait until the last few days. Commence at once, because the crowd will be so large as to cause you to feel if you delay until the last days.

Office hours 9 to 11 a. m., 2 to 5 p.m. 7 to 8 p. m. Sunday accommodation only 10 to 12 m.

THE Copeland Medical Institute,

Located Permanently in the Progress Building, opposite Auerbach & Son, Dry Goods Store. Take Elevator. Rooms 204, 205, 206, 207. Salt Lake City, Utah.

ASSESSMENT NOTICE.

Minnesota Mining Company.

Principal office, Salt Lake City, Utah.

NOTICE IS HEREBY GIVEN THAT AT a meeting of the board of directors, held on the 20 day of September, 1894, an assessment of three mills per share was levied on the capital stock of the company, payable immediately to Calvin Moffat, secretary and treasurer, No. 4 West Second South Street, Salt Lake City, Utah. Any stock upon which this assessment shall remain unpaid on the 10th day of October, 1894, will be delinquent and advertised for sale at public auction, and unless payment is made before the time of sale, will be sold on Friday, the 24 day of October, 1894, at 2 o'clock p. m., at the office of the secretary, No. 4 West Second South Street, Salt Lake City, Utah. This notice is given in compliance with the provisions of the laws of Utah.

CALVIN MOFFAT,
Secretary and Treasurer.

Salt Lake City, Utah, September 20, 1894.

PROFESSOR MIER,

The Great and Renowned Magnetic Healer,

Cures in Great Numbers. He is the renowned [illegible] of Mier Family, who have been healing the sick with marvelous success for the last [illegible] years. Hours for consultation, 9 to 5 daily.

101 S. West Temple St., Room No. 17, New York Block.

SALT LAKE CITY, Nov. 24, 1893.

TO WHOM IT MAY CONCERN:

I have been afflicted with kidney trouble for several years, and have consulted the best doctors in the country, but without any permanent benefit. I was induced to try Professor Mier's treatment, and am happy to say it has perfectly cured me. I have no hesitation in recommending the Professor to all who are afflicted.

JOHN H. DEAN,
President Bureau of Vital Statistics, U. S. Pension Examiner, and Notary Public.

Subscribed and sworn to before me this 24th day of November, 1893.

JOHN A. EVANS,
Notary Public.

Commission expires February 20, 1894.

STATE OF TEXAS, COUNTY OF HILDEBRAN.

Before me the undersigned, a notary in and for said county, appeared Thomas Cook, who, being sworn, says: I have been afflicted for years with a disease of the kidneys, and have tried many remedies without effect. I was induced to try Professor Mier's treatment, and am happy to say it has cured me. I can now do a day's work and feel as well as ever. My health is good, and I can recommend the Professor to all who are afflicted.

THOMAS CUMMINGS.

Sworn to and subscribed before me this 7th day of April, 1893.

J. F. HARLEY,
J. P. and ex-Official Notary Public, McLennan County, Texas.

NOTICE OF ASSESSMENT.

Deseret and Salt Lake Agricultural and Manufacturing Company.

Principal place of business, Salt Lake City, Salt Lake County, Utah.

NOTICE IS HEREBY GIVEN THAT AT a meeting of the board of directors of said company, held at Salt Lake City, Utah, on the 10th day of November, 1894, an assessment was made on the capital stock of said company for the purpose of paying the current expenses of said company, and that all persons who have subscribed for stock in said company are required to pay the amount of said assessment on the number of shares of stock set opposite their respective names, on or before the 10th day of December, 1894, at the office of said company, Room 4, Dooly Block, Salt Lake City, Utah, and that any stock upon which said assessment remains unpaid on said day will be sold on the following day, at 2 o'clock p. m., at the office of the secretary, Room 4, Dooly Block, Salt Lake City, Utah, to pay the assessment, together with costs of advertising and expense of sale.

L. JOHN NUTTALL,
Secretary.

Salt Lake City, Utah, November 10, 1894.
