Center of Disturbance.

Weather Observer Salisbury says Thursday's storm in its passage eastward did not diminish in energy by crossing the Rockies. Reports indicated the center of disturbance to be in North Dakota. At Miles City the barometric pressure was 29.54 inches. The storm is of a kind that is likely to cause violent gales on the Great Lakes, and several local storms in the Central Mississippi valley.

IT IS RATHER MIXED UP.

A Difficulty Arises in Regard to the Joint City and County Building.

Contractor Bowman and Sub-Contractors Houlahan, Griffiths and Morris are at Loggerheads

The joint city and county building committee held a meeting yesterday afternoon, the principal object of which was an effort to adjust the differences existing between Contractor J. H. Bowman and the chief sub-contractors, Messrs. Houlahan, Griffiths and Morris. It seems that Mr. Bowman has been paid for the work as it progressed, the city and county retaining 10 per cent, and he, in turn, paid the sub-contractors, the payments being made on estimates of the architects as to the amount of work done. At yesterday's meeting Mr. Griffiths claimed that there was something like $800 worth of work done for which his firm had not been paid. Mr. Bowman, however, declared that there was not more than $600 due the sub-contractors, and offered to submit the matter to an examination of the building and the estimate arrived at from such examination. The parties could not be reconciled on this point, but Mr. Griffiths announced that if the matter could be arranged as to insure the payment of money due them as work progressed in the future, and securing also the sum in controversy, whenever it might be, they would go ahead. Mr. Bowman met this by giving the sub-contractors an order on the committee for any sums that might be due them as the work progressed. This, of course, would take the payment out of the hands of the contractor altogether, and was considered a very fair proposition, but Mr. Griffiths did not think it secured him for the sum in controversy, and a long discussion followed.

Mayor Baskin explained to the sub-contractors that such an order would insure the prompt payment of everything that might be due them in the future and as the city and county retained 10 per cent from Mr. Bowman, which would amount to something like $40,000 when the building was finished, they would be reasonably sure of getting the sum in controversy from that.

The contractor conceded to Mr. Griffiths everything possible, but the latter finally concluded that nothing but the payment of the sum in dispute would answer, and that being absolutely refused, he announced that he would go on with the work and withdrew from the room, followed by Mr. Morris.

Mr. Bowman then stated that he would have to relet the contract, and the business was proceeded with. In order expedite the work, the contractor asked that the committee hereafter make the payments to employes and material men direct, and this was practically agreed to.

Judge Loofbourow and Selectman Morris were appointed as a committee to arrange the details and report at another meeting to be held early next week.

A claim of $400, for the granite columns which were ordered when the plans were changed, was allowed, as a suit had been commenced against the contractor for that amount.

So the case stands at this juncture.

The Governor's Letter Box.

Governor Thomas this morning received a communication from Lyman J. Gage, chairman of the World's Congress auxiliary of the World's Columbian Exposition, stating that a congress of bankers and financiers will be held at Chicago, beginning on June 19th, and extending a cordial invitation to bankers and financiers in Utah Territory. The governor is likewise asked, through another channel, to appoint a delegate from this Territory to prepare and deliver an address upon the banking resources and finances of Utah.

This morning Governor Thomas also received a letter from the secretary of the interstate commerce commission at Washington, enclosing a circular call for the annual national convention of railroad commissioners, and suggesting that some person may be designated to represent this Territory at such convention, at Washington, on April 18th, 1893.

Through Train to Milford.

James Moffatt of this city was elected president; Dr. J. S. Gordon of Ogden, vice president; John Hutchinson of Ogden, secretary; Dr. McFadden, Salt Lake, assistant secretary; J. G. Watson, Park City, treasurer.

The following resolution was adopted:

Resolved, That this convention send to Chicago representatives to meet with our Scottish brothers of that city, in due respect to their kind invitation to the Scots of this Territory, to join them in the great and grand gathering of Scottish people, now scattered all over the globe, but who, in July, 1893, will meet in Chicago, and will hold conferences and all the Scottish games characteristic of the nation.

He looked upon the demolition wrought upon the front of the building with something suggestive of a sigh of regret.

And that Dr. O. R. Hewett & Son, Dooly Block, do the best DENTAL WORK west of Chicago is conceded by all who have visited their elegant rooms and seen their modern appliances. "Dr. Hewett's new method Teeth without Plates" is a boon to humanity.

We call attention to the large advertisement in another part of the paper concerning the two Kinney Copper Plant Subdivisions in North Salt Lake, which are located near by the Great Copper Plant Works now being erected.

Lots in these subdivisions are being sold rapidly, many contracts are already let for the erection of Cottages, Hotels, business houses and grading streets.

L. D. Kinney and the Pratt Bros. are now making great preparations for their big auction sale of lots, which will commence with the Monday boat at their large Office Room No. 44 Richards Street, where the two Copper Plant Subdivisions will be displayed on their large Blackboard.

Today sees the private sale of lots. During the week ending the 15th inst. lots will be sold only to the highest bidder at the public auction during every day of the week.

Each purchaser of a lot will receive a ticket entitling him to a chance to draw the Hyde Park House and seven with valuable improvements, worth $2000.

Remember the place and time of sale is at 44 Richards street, just south of Temple Block. Commencing at 10 a. m. and closing at 12 m., and 3 p. m. to 10 p. m. of each day.

We would advise our readers to visit the store of Alex. L. Wyatt, 202, between the Walker and Cliff houses. He has a very large stock of goods, fine watches, and everything in the jewelry line, at surprisingly low prices. He does not sell anything but what he can recommend.
