TRANSCRIPT OF RECORD,

An Important Matter to Come Before the Supreme Court.

With Clerk Baeise, of the Territorial Supreme Court, yesterday afternoon was filed a transcript of record in the appeal of John A. Taylor and John Knight, respondents, vs. M. H. Rolfe and the Promontory Stock and Ranch Company, appellants, brought from the First District court at Ogden.

It would seem from the complaint that on the 21st day of July, 1890, and at the time of the commencement of the action, the plaintiffs were jointly engaged in the business of pasturing and herding cattle and horses for hire upon the public domain in Box Elder county, and that on July 21st, 1890, the defendants wrongfully seized fourteen head of horses used by plaintiff in herding the cattle entrusted to their care, and held them for fourteen days, for which they claim damages in the sum of $1,000. By reason of the seizure it was impossible to properly herd the cattle, and in consequence the herders (aware, which involved an expenditure of $40 in rounding them up. The plaintiffs further allege that the head of cattle, valued at $15 per head, were lost and cannot be recovered, and that the men in their employ were prevented from performing their work for which they were paid, causing a further loss of $300. Plaintiffs further allege that by such unlawful, wrongful and malicious seizure of said horses and cattle that they are entitled in the premises to exemplary damages in the sum of $10,000, or a grand total of $11,340 claimed as damages.

The defendants in their answer deny all the specific allegations of the complaint and set forth that they are the owners of and in possession of a large tract of land in Box Elder county, comprising in all over 250,000 acres, an area of forty miles in a northerly and southerly direction. The lands are very valuable for the pasturing and grazing of cattle and horses, but owing to the scarcity of water and the aridity of the climate they can never be subjected to any other use. Over this vast territory roam more than 20,000 head of horses and cattle, which is exclusively used for grazing purposes, except a small portion which has been enclosed and placed under cultivation. They also claim that at the commencement of the action, and for a long time prior thereto, the plaintiffs repeatedly drove their horses across their lands, and that at the entrance of the horses of plaintiff they were grazing, pasturing and trespassing upon the lands occupied by defendants, which were then and there improved by having houses and other improvements erected thereon.

A verdict in favor of the plaintiff was rendered by the lower court, but the question of range rights was still left open.

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It cured me and thank God I am now a well and hearty woman." THE CRY OF MILLIONS

OH, MY BACK!

STOP IT NOW.

SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies without relief. Last March I was induced to try Electric Bitters and have taken three bottles in all. I was entirely free from all pain in the back and my health is better than for years. I cannot say too much in praise of Electric Bitters. With me they have proved invaluable.—Mrs. Mary Ellis, Ft. Scott, Kan.

WHAT IS A GUARANTEE?

Many merchants and salesmen are in the habit of indiscriminately "guaranteeing" their wares with no thought of being called upon to make the "guarantee" good. It is a pernicious and foolish custom more respected in the breach than in the observance.

A guarantee, to have any value, should be made with knowledge of the standing of the world and a set purpose to carry out the terms of the guarantee. On the rule that makes instruct us to warrant, and we replace any tool found imperfect in use.

We have used our best judgment, acquired by a considerable experience, in selecting the following items for our stock and sell them to our customers with an absolute guarantee that if they do not prove to be all that we represent them, we will refund the purchase money in full.

"Jewel" Steel Range. A finished article, perfectly proportioned, made of the best material. Don't fail to see it. It will pay you.

"Quick Meal" No Generator, Evaporating. Light it as you do your gas burner. No smell. No danger. No complication. Every objection to the use of a Gasoline Stove done away with. Think of the discomfort caused in Summer by avoiding the heat of a big Kitchen Range.

"Superior" Cooks and Ranges. Superior as bakers. Superior in economy of fuel. Superior in design. Superior in construction. Superior in everything that goes to make a perfect cooking apparatus.

The "Foote Refrigerator." Air tight cover. A Health promoter. Cellular shoe lined. What is that? Investigate it. It will more than repay you.

Our stock of Builders' Hardware, House Furnishings, Garden Hose, Lawn Sprinklers, Lawn Mowers, etc., is complete in every detail.
