Persons inquiring for the above letters are requested to state when advertised.
J. M. MOORE, Postmaster.

IT IS A FACT that many grocers sell Dr. Price's Baking Powders at the same price they do the cheaper kinds, and as they have to pay more for it, make less money, hence they never sell it unless the purchaser demands it. They place it out of sight, and urge their customers to take the common kinds because they are more profitable. Let consumers become acquainted with the fact that it is only necessary to mix one part flour to two parts Dr. Price's Cream Baking Powder to make a powder as perfect in its results as other kinds, and there are few who would pay the same price for the adulterated articles as for Dr. Price's, not when flour costs less than six cents a pound. Dr. Price's powder is not sold in bulk.
