MINING, BUSINESS AND STOCKS

PARK VALLEY DEVELOPMENTS.

Work Progressing Finely in the Tunnel of the Carter Group, Pine Canyon.

WILL ERECT A MILL IN 1906.

Century Mine not Worked Out and May Still be Made a Bread Winner.

That the mines of Park Valley are not all dead ones is proved by the work which is going on at the Carter group of claims in Pine canyon. Councilman-elect Carter of this city is the manager of the property and states that it is fast developing into a mine.

The property consists of six claims and a mill site, and lies east of the Century. A large vein of gold bearing rock passes through the claims and it is to develop this that work is being pushed at the present time. Manager Carter says that the vein has been opened up in several places, and shows good values at each. It is to tap this vein that a tunnel is being run into the mountain. This is now in 550 feet, and is within 100 feet of its wall. Several cross fissures have been cut in the tunnel which have been followed and which have turned out a considerable quantity of ore. These stringers are all tending toward the main vein, and the ore in them is a fair indication of what will be encountered in the vein, running over $20 per ton in the yellow metal. When it is understood that the tunnel level will cut the ledge 450 feet vertical depth, and that the ore on the surface averaged over $5 per ton, the possibilities of the proposition are at once seen. Manager Carter says that it is his intention to install a mill at the mine in the early spring, if all is well, and as all the ore will be lowered through stopes to the mill level, the output can be handled at the minimum of cost.

Speaking of the Century mine he says that this former dividend payer is far from a played out proposition. He avers that there is plenty of good grade ore in the mine below water level. It is his opinion that all that is needed is the installation of a pumping plant and a little development at greater depth to bring the old producer back to its one time place among the bread winners.

A number of other properties are being worked in the district, and all are showing up more or less ore. Mr. Carter is of the opinion that Park Valley will be heard from in a substantial way before the close of 1906.

THE SHAWMUT CAMPAIGN.

Management of Company Pushing Development at Bingham Mine.

The Shawmut management, Bingham, is beginning an active campaign of development at the mine. The different tunnels in the property have been cleaned out and repaired and the necessary machinery to continue the work will shortly be installed. It is the intention to drive a deep tunnel to develop the mine already opened up and out of which some of the finest ore yet mined in Bingham has been taken. The mill on the property will be run on custom ore until such tibe as its energies are needed upon the company's ore.

RICH SILVER ORE.

Bullion-Beck Mines Some of the Richest Stuff Yet.

Some of th richest ore that has been shipped from the Bullion-Beck mine in years went out recently, says the Eureka Reporter. The ore was taken out by the company and is reported to have netted between $5,000 and $6,000 per car. The ore came from the body which Superintendent L. C. Doty opened up a few weeks ago on the ore showed 8,000 and 9,000 ounces of silver to the ton, while picked samples carried even higher values in the white metal. The officers of the company are highly pleased with the manner in which the old-time bonanza is showing up these days. The royalties on the ore which the leasers are continually sending out, together with the money realized from the sale of ore mined by the company, is keeping the treasury in splendid condition. The leasers in the Beck are all doing very nicely at present and some are extremely fortunate in finding rich ore deposits. The Beck company also has a very satisfactory railroad rate on ore, and this is a big help to the leasers. The company, being in better financial condition than it has been for several years is now making prompt settlement with the leasers for ore shipped.

LITTLE BELL ORE.

Highest Grade Stuff Ever Taken Out Of Park City.

Reports this morning from the Little Bell, Park City, are in a measure sensational. The ore body broken into some time ago and which sent the stock soaring, has broadened out to five feet in width. This is not all, the quality of the ore has also improved and experts say the output from the mine is the highest grade of stuff ever mined in Park City.

LIVELY ON EXCHANGE.

Business Fine and Stocks Strong All Along the Line.

The week opened on a lively call at the Mining Exchange this morning. Stocks were somewhat stronger than at the close Saturday and if the tone of the market is a barometer of the industry things have a brighter outlook than for some time. Carisa opened the trading selling up to 24 cents, the highest mark the stock has reached in some time. Little Bell jumped over the $3 mark scoring a sale on the regular call at $3.03 per share. Silver Shield was also very strong, selling up to 25 cents, while Beck Tunnel stood up under sales amounting to 6,500 shares, being quoted at 30¾ per share.

On the open board Columbus Consolidated proved strong, selling at $2.92½, while New York sold a small lot at 25½. There was strength exhibited all along the line, the regular call closing upon the following quotations:

ORE AND BULLION.

The ore and bullion settlements Saturday as reported by McCornick & Co. amounted to $82,300, divided as follows: Base bullion, $47,800; lead, copper, silver and gold ores $34,500.

CON. MERCUR IS BOOMING.

Old Producer Sent Out 24,000 Tons of Gold Ore During November.

MINE IN GOOD CONDITION.

Timbering of the Golden Gate Portion Nearing Completion—The Manning Mill Closed.

Manager George Dern of the Consolidated Mercur reached the city from the mine yesterday. Mr. Dern says that his visit to the city at this time is for the purpose of closing up a few odds and ends of business at the office, and that he will return in the morning.

Speaking of the mine he stated that the property never was in a better shape even in the old days. The new body of ore opened up in the old Mercuris proving a whale, and the values are as great as any ever taken out of the ground in the district. The old Mercur is now supplying the most of the tonnage for the mill and last month 24,000 tons were treated.

Not much ore is being extracted from the Golden Gate portion of the mine as the work of timbering this mine is under way. This, however, is drawing to a close and the mine will be sending out ore in a short time.

The Manning mill was closed Nov. 20, just before the heavy storms.

WILL WORK DE LAMAR.

Tooele County Silver-Lead Mine Will Be Opened Up.

Between Bingham and Stockton directly south of Tooele City there is situated a group of claims which in all probability will be the next mine to feel the influence of the advance in metals and the building of the big smelter plants at Garfield Beach. The claims are known as the De La Mar group and were worked by Mr. De La Mar of Tooele City for a long term of years. A considerable amount of good silver-lead ore has been taken out of the ground and the ledges are still strong and rich.

Some time ago the group passed into the hands of J. R. Walker and associates, and has been idle. Now it will be opened up again and put in shape for the production of ore. Mr. Walker said this morning that he did not think that he will start this winter, but that in the near future the claims would be thoroughly developed.

LUCKY STAR STRIKE.

Big Body of Copper-Lead Ore Opened in Blacksmith Fork Canyon.

Special Correspondence.

Logan, Cache Co., Dec. 2.—P. A. Nielsen, manager of the Lucky Star mine in Blacksmith's Fork canyon, came down from the mine on Friday and reports that the miners have encountered a large body of ore running high in copper and lead, and containing some gold. The vein, he says, is 14 feet wide and six feet thick. Mr. Nielsen is confident that he has now struck the ore body for which he has been seeking for so long. Mr. Nielsen has been working at this mine for about 15 years, and should his hopes now be realized, his friends will rejoice at his merited success.

J. J. TRENAM RETURNS.

Called From the East by Serious Illness of His Wife.

Manager Trenam of the New Stockton Mining company reached home from the east Saturday night, being hurriedly called back by the serious sickness of his wife. Yesterday Mrs. Trenam was very low with pneumonia, but was reported to be slightly better this morning.

Twenty-nine cars of ore were reported by the valley samplers this morning. The Taylor and Brunton released the following: Tintic, 16 cars; Wyoming, one car; Idaho, two cars; Bingham five cars, and Big Cottonwood, one car. At the Pioneer there were two from Bingham and one each from Alta and Tintic.

A NEW MINE DEVELOPING.

Great Copper King South of the City Is Showing Up Fine.

The Great Copper King Mining company is forging ahead at its property in the Draper mining district, six miles east of Sandy. The property is an old one, having been worked in a measure for 15 years. The present company took hold of the property about two years ago and since then have been doing a large amount of development work. It is now nearing that period where it will become a shipper. A ledge of good copper, silver-lead, gold ore passes through the claim. This has been opened up in two places, on the east by a shaft 50 feet deep and on the west or valley side by a tunnel. In all there are four feet of ore, which assays 10 per cent copper, 26 per cent lead, 12½ ounces silver and $209 gold. About 100 tons of this ore has been taken out and a large amount is blocked out. As soon as a cable tram can be constructed the management propose to ship.

AT BARTON'S CHRISTMAS

Have you decided what to give "Him" for Christmas? Perhaps we can help you. We'll be pleased to show you the many choice things we have in NECKWEAR, GLOVES, MUFFLERS, SHIRTS, UNDERWEAR, SUITS, OVERCOATS, RAIN COATS, UMBRELLAS, FANCY VESTS, SUSPENDERS, HOSIERY, HANDKERCHIEFS, ETC.
We've certainly a fine display of Men's and Boy's Toggery. Come, see them.

BARTON & CO., Popular Clothiers, 45-47 Main Street

Christmas News.

CONCENTRATES.

Frank B. Cook left for Denver this afternoon.

Another shipment of Sacramento ore will be made this week.

M. M. Johnson of the Newhouse staff is back from British Columbia.

The Alma coal mine is again on fire, making the third time in three months.

G. L. Bemis is now a full fledged member of the Salt Lake Mining Exchange.

State Line mines are nearly deserted. Only two men are on the pay rolls of the district.

Metallurgist Bettles of the Newhouse staff has gone to his ranch in Canada for a few days.

The strike in the Copper Glance at Bingham has broadened out according to Foreman Sawyer.

Manager Whitley of the American Smelting & Refining company is confined at his room at the Emery-Holmes by sickness.

Col. Milner has purchased the Daniel Page iron claims in Washington county. These claims are in Bull valley and are 15 in number.

Timbers for the plant of the New Stockton is now on the ground and the work of installing the new plant is now under way.

T. H. Young, a director of the National Mining company of Cherry Creek, Nev., leaves today for Los Angeles on business for the company.

The repairs which have been going on at the Daly-Judge mill for some time are nearly completed and it will be put in commission in a short time.

President Butler and Secretary Rooklidge of the Pioneer sampler have gone to Soldiers' summit to look over the property of the American Ozokerite Co. They were to have gone out last week, but were detained by the storm.

The De La Mar Lode offers the following: One would think from the reports in the Salt Lake Tribune and the articles in Caliente's mushroom sheet that is printed in Salt Lake, that Caliente's mines were about to crowd the Salt Lake valley smelters to their capacity, but the railroad has not put on any extra trains to haul the ore. We understand they have struck a big gas mine down the re, which will pay to sack and ship.

REAL ESTATE TRANSFERS.

Clara C. Worthington to H. W. Basher, warranty deed to lots 8 and 9, block 5, Miles & Hamilton's sub. 50

PROBATE AND GUARDIANSHIP NOTICES.

Consult County Clerk or respective signers for further information.

IN THE DISTRICT COURT, PROBATE Division, in and for Salt Lake County, State of Utah, in the matter of the estate of Ishmael Phillips, Deceased. Notice.—The petition of Willard C. Brown, the administrator of the estate of Ishmael Phillips, deceased, praying for an order to sell the following described personal property of said decedent to-wit: Two cows, 25 chickens, harnesses, 2 vehicles, household goods, has been set for hearing on Saturday, the 16th day of December, A. D. 1905, at 10 o'clock a. m., at the County Court House, in the Court Room of said Court, in Salt Lake City, Salt Lake County, Utah.

Witness the Clerk of said Court with the seal thereof affixed this 2nd day of December, A. D. 1905.

(Seal) J. U. ELDREDGE JR., Clerk.
By W. H. Farnsworth, Deputy Clerk.
Thomas & Maycock, Attorneys for Estate.

STOCKS DECLINED AT THE OPENING

Many of Principal Railroads and Specialties Fill a Large Fraction.

THEN THERE WAS GOOD RALLY

Recovery Became Extensive and Market Soon Rose Above Saturday's Close.

New York, Dec. 4.—Prices declined easily at the opening under free offerings all through the list. The notable losses were Anaconda 3¼, Brooklyn Transit 2, Canadian Pacific, Rock Island preferred and Smelting about 1½ and Erie, Baltimore & Ohio, St. Paul and New York Central about a point. Many of the principal railroad stocks and specialties fell a large fraction including United States Steel, Republic Steel, Amalgamated Copper, Union Pacific, Missouri Pacific, Atchison and Reading.

Individual stocks as a rule were quoted at the lowest in the first few minutes of trading, but several went decidedly lower before they commenced to share in the rally. These included Tennessee Coal, which yielded 1¾, and Colorado Fuel, American Car, North American, Northern Pacific and Delaware & Hudson. Upon prices turning upwards enough new buying and short covering was done to carry the list up sharply, and a number of stocks scored full recoveries. The Rock Island stocks got ahead on the average, the common and preferred selling about half above Saturday's closing. Special points of strength were discovered in the specialties. New York, Chicago & St. Louis advanced 3½, the first preferred 1¾, the second preferred 2¾. Locomotive and Virginia-Carolina Chemical and Lead, Metropolitan Street Railway, Corn Products preferred and Railway Steel Spring 1. The market showed some weakness again at 11 o'clock.

Buying in volume caused an extension of the recovery and the average level of the market rose above Saturday's The New York, Chicago & St. Louis stocks and the Lake Erie and western stocks rose, variously from 3 to 7¾ points. Virginia-Carolina Chemical 3½, Kanawha and Michigan, North American and Pacific Mail 2 to 2¼ and Amalgamated Copper, Pressed Steel Car, U. S. Pipe, Sloss-Sheffield Steel, Locomotive preferred, Cotton Oil, Virginia-Carolina Chemical preferred, American Ice, Allis-Chalmers, Colorado & Southern first preferred and Erie second preferred 1 to 1½. American Telephone lost 1. C. C. C. & St. Louis 1½ and Wheeling and Lake Erie first preferred 1.

Bonds were steady at noon.

Standard stocks mapaged to keep in touch with the movement of the momentarily favorite specialties, but the rate of progres upwards was exceedingly slow. On the other hand, the active speculative features went up materially from time to time, the early afternoon rise reaching 3 in Hocking Valley, and 2½ in Virginia-Carolina Chemical preferred. Cotton Oil and American Ice.

A number of sharp reacting occurred in the more prominent railroads and specialties, although there was no abatement of the efforts to put other stocks higher. Before the downward movement attained headway Reading and Rock Island were advanced a point and Lead returned to its record level of last week at 75½. All of the earlier slight advances in the well known stocks were cancelled. Those that showed strength were Hocking Valley a Kanawha and Michigan, which gained 4 New York Airbrake 3, U. S. Pipe 2¾ and Rubber Goods preferred, Lead preferred, Linseed, Consolidated Gas and Metropolitan Securitie 1 to 1¾. American Telephone extended its loss to 9 and Republic Steel preferred and United States Rubber first preferred gave way.

WOOL.

ST. LOUIS.

St. Louis, Dec. 4.—Wool, steady. Territory and mediums, 26@30; fine medium, 22@26; fine, 19@21.

PRODUCE.

CHICAGO.

Chicago, Dec. 4.—A liberal increase in the world's shipments created bearish sentiment today in the wheat market here. A feature of the weekly statistics was the heavy shipment of wheat from Russia, notwithstanding the disturbed condition in that country. This fact had much influence on the market. May opened ½@¾ to ¼@⅝ lower at 87½ to 87⅝, and later sold at 87¼@87⅛.

Minneapolis, Duluth and Chicago reported receipts of 337 cars against 1,059 cars a year ago.

Buying of the May option by several prominent bulls caused firmness in corn following a slightly easier tone at the start. May opened ⅛ lower at 44⅞ and advanced to 45.

The firmness of corn had a steadying influence on the oats market. May opened ⅛ lower at 31⅞ and sold at 32.

May pork was up 2½ to 5 at 13.45 to 13.47½; lard was up 5 cents at 7.32½, and ribs were a shade higher at 7.12½.

Cash: Wheat—No. 2 red, 88½@98; No. 3 hard, 81@84; No. 1 northern, 87@89; No. 2 northern, 85@88; No. 3 spring, 82@86.

Corn—No. 3, 43@43¾.

Oats—No. 20¾@20½; No. 3, 50.

The market became firm later, May advancing to 88⅛@88¾. Support from a leading bull was the chief influence in the advance. The close was firm with May up ⅝ at 88⅛@88¾.

Corn—The market continued firm throughout the session, May closing ⅛ up at 44⅞.

Close: Wheat—Dec., 84⅞; May, 88⅛@88¼.
Corn—Dec., 44⅞; old, 45¾; May, 44⅞.
Oats—Dec., 29½@29⅞; May, 32@32⅛.
Pork—Jan., 13.30; May, 13.57½.
Lard—Jan., 7.20; May, 7.35@7.37½.
Ribs—Jan., 6.97½; May, 7.20.
Rye—Cash, 68.
Flax—Cash, northwestern, 1.01.
Timothy—March, 3.45.
Clover—Cash, 13.00.
Barley—Cash, 36½@64.

NEW YORK.

New York, Dec. 4.—Sugar, raw, firm. Fair refining, 3; centrifugal, .96 test, 3 9-16; molasses sugar, 2¾.

"THE MORMONS AND THE THEATRE."

An original, unique, entertaining and instructive history of the rise and progress of the drama in Utah; interspersed with anecdotes, reminiscences and comments, humorous and critical, by John S. Lindsay, one of the old Salt Lake Theater Stock Co. A book of ready reference in theatrical history of Salt Lake from 1850 to 1880.

Every theater goer should have a copy. Post paid to any address, 50c. For sale by DESERET NEWS BOOK STORE, 6 Main Street.
