PAYSON.

WILL CELEBRATE THE FOURTH.

Committee of Arrangements Named—Threats of an Anonymous Writer.

Special Correspondence.

Payson, Utah Co., June 12.—Last evening the citizens of Payson met in the pavilion in response to a call of the mayor and arranged preliminaries for a suitable celebration of the Fourth of July.

Following are the names of the general committee chosen at the meeting, who will have charge of the arrangements: J. C. Cravens, A. G. Gutheil, Henry Nebeker, Mrs. Sanford Wilson and Mrs. Wm. Dowdle. The silver band was out and lent life to the meeting.

The infant child of Jerry Reese was buried yesterday afternoon, death resulting from a severe attack of spinal menengitis.

The local banker has received anonymous letters from unknown parties of Eureka, who threaten dire things unless he delivers to them $500 at designated place. The officers are on the lookout to apprehend anybody who may try to do anything out of the ordinary.

Beet thinning is in progress and the outlook is promising for a heavy crop unless something unforeseen happens.

Haying is in full swing and local strawberries are on the market.

SORE MUSCLES.

Prominent athletes throughout the country find that the best treatment for sore muscles after severe exercise or hard work of any kind, is a hot bath at bed time, which opens the pores. This should immediately be followed with an application of Chamberlain's Pain Balm vigorously rubbed into the skin. This liniment removes all stiffness and soreness and has become a favorite rub down as it acts promptly and keeps the muscles in excellent condition. For sale by all druggists.

MANTI.

Public School Graduates Give Ball—Streams Swollen With High Waters.

Special Correspondence.

Manti, Sanpete county, Utah, June 13.—Dr. H. R. Clark returned from Chicago last Wednesday, where he has just completed the course in dentistry given at the Northwestern Dental college. Dr. Clark has rented rooms over the Co-op store and had them fitted up for his office.

Edgar T. Reid, principal of the Manti public schools went to Salt Lake Monday where he will attend summer school at the University of Utah.

The warm weather of the last two days is telling on the snow in the mountains and keeps the creeks well filled with water.

This year's graduates from the Public schools will give a ball in the Bon Ton Pavilion this evening.

STIMULATION WITHOUT IRRITATION.

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irritating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. For sale by F. J. Hill Drug Co.

LINDON.

WILL ENTERTAIN OLD FOLKS.

Wedding Ball—Lazy Loungers' Club Elects Officers.

Special Correspondence.

Linden, Utah Co., June 10.—This afternoon at 4 o'clock the "Linden Lazy Loungers" club met at the Bell farm. A constitution was adopted and the following officers were elected for the year: President, Junius Banks; vice president, Miss Mary Johnson; secretary and treasurer, John Banks; Jesse Walker, Earl Whiteley and Miss Ella Robison were appointed to act as an amusement committee for the next month.

The club adopted "the linden tree" as its emblem; "green" as its color, and "evergreen" as its motto.

Next Wednesday Linden is to entertain the old people of Alpine stake. Elaborate preparations are being made for the occasion.

Friday evening Mr. and Mrs. John H. Wright, who were married Wednesday, gave a ball to their friends and relatives.

SMITHFIELD.

DEMISE OF MRS. MARY CLARK.

Devoted Primary and Relief Society Worker Laid to Rest.

Special Correspondence.

Smithfield, Cache Co., June 12.—Mrs. Mary Clark died at her home at Smithfield June 7. The deceased has been a sufferer from heart disease for many years but the immediate cause of her death was apoplexy.

The funeral services were held on Sunday in the Tabernacle. The speakers were Elders Charles Baker of Logan, Joseph Bull of Salt Lake City, Robert Thornley, George L. Farrel and Bishop Newton Woodruff who testified to the noble life and character of the departed.

Mrs. Clark was a firm and devoted Latter-day Saint. She was born at Oundle, Northamptonshire, England, Feb. 6, 1834, and was baptized a member of the Church in 1856 and in 1889 emigrated with her husband and family to Utah, locating in the Sixteenth ward, Salt Lake City where she was actively engaged in Primary and Relief society work. In 1892 she moved to Smithfield, Cache county, where she continued in the good cause and was an energetic and successful worker until forced to retire on account of physical weakness. In appreciation of her work the Primary Harmonica band, which was first organized by Mrs. Clark, played "O My Father," as the funeral procession filed out. The Primary children accompanied the remains to the grave where they sang "We Thank Thee O God for the Primary."

Deceased is survived by her husband, Jonah W. Clark, one son and four daughters.

PAROWAN.

IRON COUNTY AFFAIRS.

Registration Agents Named—Road Districts Revised.

Special Correspondence.

Parowan, Iron Co., June 11.—The county commissioners met last week as a board of equalization and at the close held a meeting for the transaction of the regular business.

Registration agents were appointed as follows:

Parogoonah precinct, Mrs. Amelia J. Topham; Parowan district No. 1, New S. Whitney; Parowan district No. 2, S. R. Burton; Summit, Arthur P. Jones; Cedar district No. 1, J. H. Hunter; Cedar district No. 2, Wm. D. Leigh; Kanarra, Zina E. Pollock; Stateline, J. B. Smithson; Modena, Mrs. Hattie Knight.

A reversible road machine was ordered for the county, provided it proves satisfactory after being tested.

The road districts were revised and defined and a new district created for Summit with Thomas Lawrence as supervisor.

The justices' precincts were also revised and defined by section, township and range, the boundaries of the precincts and road district not having been thus bounded and described heretofore.

The little daughter of S. C. Mortensen, who was severely injured on Decoration day by having a tombstone fall on her leg and crush it badly, is progressing nicely under the care of Dr. Middleton at the Cedar City hospital, with a good prospect of the limb being saved.

Two men were arrested and brought before Justice Geo. Morris on the 9th inst. charged with breaking the peace, by disturbing a lone woman at 2 o'clock in the morning. They plead guilty and were fined $25 each.

There is plenty of water for irrigation purposes, and now that warm weather has come crops are growing nicely; the prospects for a fruit crop are good, although the recent frosts did some damage.

GROVONT, WYO.

Opportunities for Homeseekers in Fine Ranching Country.

Special Correspondence.

Grovont, Uintah county, Wyo., June 6.—To homeseekers looking for stock ranches, where hay of all kinds does well and where small grain and hardy vegetables can be raised in abundance, Jackson's valley (or as it is more commonly called, Jackson's hole) is a good place to come. There is good land, good water and abundance of timber. If the proposed government measure carries to open up all agricultural land in the forest reserves for settlement, it will make room for hundreds of good homes in this valley.

One ward is organized here, covering sufficient country for half a dozen wards.

The prospect for a railroad in the near future is very flattering, the same will increase values 50 per cent.

There are three school districts supporting seven schoolhouses, with three and four schools running most of the time.

The little town of Jackson supports one up to date hotel, one general supply store one drug store, two saloons, two doctors, one U. S. land commissioner, a blacksmith shop and a laundry.

Wilson, a small town located at the foot of the Teton pass, has a hotel, store, blacksmith shop and the never failing saloon, and the whole country for 50 miles up and down the river is dotted with the homes of the ranchers, the most of them prosperous.

FAMINE PERIOD HAS PASSED.

Eight Inches of Rain in May—Splendid Crop Prospects.

Special Correspondence.

Raymond, Alberta, Canada., June 7.—The period of the lean kine has passed and this year marks the inauguration of the period of the fat kine. The drouth of the last two years taxed the patience and resources of the people here almost to the limit, but prospectively this year will make good all that has been suffered and lost. During the month of May the precipitation here amounted to eight inches, in fact it rained nearly the whole month, it is raining now, and from appearances

it may continue indefinitely. Ordinarily the seeding here is done in March and April in preparation for the May storms, which usually come. Crops of all kinds are doing excellently, beets, of which there are about 3,000 acres planted, are looking exceptionally well. There has been some reseeding necessary owing to the ravages of the cut worm, but poisoned bran distributed in fields infested with the pest soon turns the serious menace into a light fertilizer. The grain flourishes under such conditions as prevail at present, some samples of winter wheat measuring 20 inches in hight.

This community generally feels greatly encouraged and looks forward to the fatness of harvest with every assurance of the full realization of hope long deferred.

The recent visit of President Lund and Apostle John Henry Smith was greatly enjoyed, particularly as each gentleman has so many personal friends here.

The provincial legislature now sitting at Edmonton, the capital, has under consideration a bill which, it is assured, will become a law giving sugar factories a bonus on the sugar produced which will mean 50 cents more per ton to the farmer for his beets. The beet tonnage per acre is not as great as that of Utah and Idaho, but the quality is some better, and it is expected in time to reach if not surpass their standards of tonnage.

The stock interests are flourishing, cattle and horses having wintered well and the cattle are now in very good shape for market.

In the matter of religious organizations all courses of study were entered into the past winter with great zest and the attendance was regular and numerous.

The occasional fine day of the past few weeks has brought the flowers in bloom and the prairie presents a rich sweep of gaily colored patches on the dark green background.

VOTE FOR IMPROVEMENT BONDS

New Government Census—Rains Boom Crop Prospects—New Citizens.

Special Correspondence.

Cardston, Alberta, Canada, June 7.—Friends in the South still address their correspondence to relatives in Cardston and vicinity with the affix "N. W. T." Alberta is a province and, like Utah, no longer comes under the old territorial designation.

NEW CITIZENS ARRIVE.

The first week in the month of roses has been made pleasant by copious showers, and in the absence of the roses a number of homes have been gladdened by the arrival of "blossoms" that will survive longer than the changes of seasons. To Mr. and Mrs. R. Ibey, a girl, the same to Mr. and Mrs. Duane Low, and Mr. and Mrs. Harry Phipps. Messers. W. Cleveland and E. Kenney seemed to prefer boys.

IMPROVEMENT BONDS.

The election on electric light and water bonds is set for tomorrow. All indications point to a unanimous approval of the issue.

GOVERNMENT CENSUS.

The government is also sending out enumerators to prepare a special census provided for in the provincial acts, so that when completed it will be known just how greatly this locality has increased in population.

With the present prospects for a normal rainfall, an increased effort is making for a greater acreage of grain than ever before. Work is so plentiful that a scarcity of men will be the next difficulty confronting the district, and particularly the immediate vicinity. Men and teams are in demand for railroad and canal construction and it is a cause for regret to see some leaving, when there appears to be much better chances at home. But it was always thus. "Distant pastures always seem to be greenest."

Grain is looking up well since the storms came on. Thomas Albiston from Taylorsville reports his fall wheat 8 to 10 inches high and altogether a better crop than last year, which, it was thought by him could not be better. With the crop prospects so bright there seems to be a good chance for the completion of the Kimball branch railroad and the erection of an elevator at that point.

About 30 people left Cardston on the excursion to Salt Lake this week. Ben. May and Ruby Morris expect to return as husband and wife.

A WESTERN WONDER.

There's a Hill at Browie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of Consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure Cough and Cold cure. Guaranteed by Z. C. M. I. Drug Store, Druggists, 112-114 So. MINERS YELL; EUREKA WINS.

Great Demonstration at Walker's Field When Park City Loses Out.

EVERYBODY SHOUTS FOR JOY.

Of Course This Doesn't Include Park City, Whose Team Was Second All the Way.

Salt Lake has held howling crowds before, and now and then on Walker's field baseball fans have had their stirring days. But never was there cut loose before a conglomerated noise to match that of yesterday afternoon, when the miners from Park City saw their team defeated by the miners from Eureka, and listened to the story of it across the diamond. It was a gabfest for fair, and made the game worth more as a yelling exhibition than as a contest in willow bending.

But the game itself was not disinteresting. Eureka started things with a mad rush and tallied four in the first, putting her fans into first class rooting trim, and sending Park City's into the dumps. In the innings following Eureka played hard and steady, and handed out goose eggs exclusively until the sixth, when Park City took another two, which added to one in the first gave her three to Eureka's five. There was still a fighting chance, and the rooting sections fought for it, wildly, unremittingly, and with great force of leather lungs. Eureka and Park City each took one in the seventh, and then Eureka showed herself hopelessly the winner by taking another in the eighth and shutting Park City out thrice before the game closed.

Eureka's great spurt in the first, from which she was never headed off, came from the first ball thrown. Johnson, the new third-bagger, slammed out a run to his favorite position, and Wall walked. Northrop followed with a two-bagger, and then the runfest began, and refused to stop till four runs were in, and as it turned out, the battle had been fought and won.

The most spectacular thing of the day was Spillman's running catch in centerfield. He reached the ball with two fingers while going at breakneck speed, but he held it, and made himself the hero of the day. The summary:

PROTEST OF FISHERMEN.

Protective Association Goes After Fish And Game Commissioner.

The last meeting of the Fish and Game Protective association, prior to the opening of the fishing season, was held last night at the Commercial club, and it was decided that the campaign of this summer should be for screened irrigation ditches along all the principal streams, to keep a close lookout for fish dynamiters, and snaggers, and any other offenders against the fish law, and to stop, if possible, the present practise of fish and game commissioner, selling the young trout hatched at the state hatchery, instead of stocking the streams with them.

It was a bad night for Commissioner Sharp, so far as the things that were said, are concerned. The law allows him to sell fish from the hatchery for private bonds, but it is declared the meaning was that he could dispose of any surplus in this manner, while the hatchery fulfilled its main purpose of hatching fish to restock the Utah trout streams, and reclaim them to the ancient sport of fly fishing. However, if half the reports made last night are true, the hatchery has in reality gone into the hatching business as a business, to supply private ponds, and not only has it ceased the practise of restocking streams, but has gone to streams and caught young fish and spawners to add to the sales department, when the supply didn't equal orders in hand.

The money received, of course, goes into the state funds, and the sales are proper, except that the fishermen now feel that it is more important as a state policy, to stock the streams for the amusement and recreation of the people, than to make the slight revenue that comes from selling fish spawn. Had the fishermen been organized to let the commissioner know that somebody really cared for good streams, there probably would have been a different condition to report.

Members now declare there are fewer fish than ever before in the canyon streams.

In the ninth an error by Casey and three singles enabled Portland to tie the score. Neither side had a chance until the twelfth, when the locals, with three men on bases, were retired by Egan's surprising catch of a terrific drive by Sweeny. ANNUAL EVENT.

Steps Being Taken to Perpetuate Race To Honolulu.

Los Angeles, June 14.—Initial steps have been taken to make the ocean yacht race to Honolulu an annual event. If the plans as suggested by those interested are followed, the contest will be over a course from San Francisco to the Hawaiian Islands instead of from San Pedro for a trophy which it is said will be offered by the Hawaiian Yacht club. It is expected that should the suggestion carry at least 15 vessels will be entered for next year's races.

CURED OF BRIGHT'S DISEASE.

Geo. A. Sherman, Lisbon Red Mills, Lawrence Co., N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." For sale by F. J. Hill Drug Co.
