NEWS OF THE WEST.

A Landslide which Might Have Proved Very Disastrous.

ELOPED WITH A GIRL OF FIFTEEN.

An Important Case, Involving the Validity of Claims Against the State of California.

There are easier in Denver to the exhaustion statement in Sunday's News.

The rains have been general throughout southern Arizona. From every where grass an inch high from good rains are reported. The settlements are revived. So writes the Tucson Citizen.

S. F. Fenton and wife, of Salt Lake, are in the city, says the Leadville Herald-Democrat. Mr. Fenton represents the Consumption Electric company, and will endeavor to secure for his company the contract for putting in electric light at the Idaho asylum for the insane.

Henri Bacon, a grandnephew of C. A. Bragg, died at Boise, Saturday, of tuberculosis. While holding the office of Territorial secretary, Mr. Bragg left his home. He was a pioneer of Nevada and was among the first heavy lumbermen on the Truckee river and the brother of Alden C. Bragg of the Boise bar.

The fire was on unlucky day for Mr. E. Holtze, of Oakley. One of his coal logs built a fire in the manger of the barn, causing the destruction of the same and almost all of the serviceable. The people had hard work to save the granary, which was badly burned. On one side the granary contained about $150 of grain, which if destroyed would have been a sad loss to Mr. Holtze.—Summit County Chronicle.

A special from Caldwell, Idaho, says Conmer Nunez this evening received word that the body of the man taken from the Snake river August 14th, near Ontario, was that of John Finnegan. He had been engaged in gasoline mining on an island near Nyssa, Or., and his drowning was probably accidental. His boat and tools were found out far from the island.

Morris De Lafayette Fells, a man of 50, eloped with the daughter of Henry Friend of Haydek, Cal. The girl is only fifteen years old. They took the stage and tied themselves in Red Bluff. The enraged father of the girl went to Weaverville and telegraphed the sheriff at Red Bluff to detain the runaways. An answer was received stating that the couple had been caught.

Sidney Prior, second comedian of the Robert Mantell troupe, had a narrow escape at Stockton, Cal., Friday night. A panel frame in the rear of the stage of the Yosemite theater was being lowered, when the cable broke, and six counter weights, weighing forty pounds each, fell a distance of thirty feet, smashing a trunk in which Prior was sitting when the frame was being lowered. He heard the noise of the break and leaped from his seat just in time to save his life.

The case of W. F. Sawyer against E. P. Colgan, controller, involving the liability of the state for the payment of certain Indian war bonds and coupons issued under the acts of February 16, 1851, and May 8, 1852, together with legal interest thereon from the date of maturity, has been decided by the supreme court of California in favor of the contractor. This is a very important case to the state, involving as it does the validity of claims against the state aggregating between $500,000 and $750,000.

Daylight scarcely dawning in New Mexico and Arizona, says the Stockyard, and hence another summer passes the cattlemen of the Southwest will see their way clear to regain the vast amount of money lost to them through the drouth of the past five years, and the low prices paid for cattle. During the past four weeks more rain has fallen throughout the ranges of the Southwest than in any one year since 1886, and there is good reason to believe that the long drouth that has prevailed will again visit this section for some years.

A landslide came down from the hill just back of M. A. Jorgensen's place at Peoa last week and filled his stack yard with mud and brush, says the Summit county Chronicle. About twenty-five chickens were covered up with the debris. Some of the children who were sleeping in the yard got out of the way just in time or they would have been covered up. They were asleep, but the noise of the slide awoke them, and they only just time enough to get out of the way. The slide came down between the house and the hay stack, as a few feet each way from the course of the slide would have taken the house or hay stack. Fortunately none of the family were hurt.

It is understood that an English company representing parties who own land at present in Estes park in Colorado, just south of the Wyoming line, and capitalists from England have obtained a charter for the purpose of making a reservoir of Willow park. A large item of travel may well be built from the mountain on the west side of the Big Thompson to the mountain on the east. The depth of the water in the reservoir is to be about 150 feet and will cover hundreds of acres. The object is to store the water during the winter, and during the irrigation season to conduct it on lands about Greeley. The estimated cost is nearly $1,000,000.

William S. Taylor of Pasadena, Cal., is spending a few days in Denver, says the News. He drove the pioneer when a young man and was for many years identified with the Overland stage line. In the states he took the "Home station" at Virginia Dale and subsequently at Laporte, and on place between Denver and Salt Lake was managing for with Brother Gravson. When the railroads gave way to the Pacific lines Mr. Taylor traveled to a fine farm in the Cheyenne Pointe valley, near Fort Collins. Some four years ago he located at Pasadena. He has not lost his old love for Colorado, and he is never happier than when talking over those stirring days when the Indians raided the Lariatte plains, and swept down on the lonesome stage stations, when Bob Stockwell, now of Littleton, rode his saddle from Denver to Salt Lake, when the "Little Horse" drew the stage to Park station, and News correspondents traveled the state on the back of good steer lessons, always finding hospitable entertainment at Bill Taylor's Home station.

The Yearly Income of a President.

There is a general idea that the president's salary of $50,000 a year is all that he receives, and that, when compared with the salaries paid the governors of Europe, the salary is not enough. The President receives, in addition to his salary, the president receives $25,000 to pay the salaries of his clerks and stenographers, for contingent expenses, $25,000 for the secret service, $25,000 for the support of the two Soldiers' Home, $15,000 for employes at the Soldiers' Home, $5,000 for the support of the Marine Hospital, $5,000 for the support of the Government Hospital for the Insane, and $5,000 for the support of the Columbia Institution for the Deaf, Dumb and Blind. In all the president and his house and his employes have this year at his disposal $1,000,000.—Chicago Mail.

WHY THE DESERET NEWS SHOULD BE SUBSCRIBED FOR IN PREFERENCE TO ANY OTHER PAPER.

1.—It is the organ of the Church of Jesus Christ of Latter-day Saints, and the authoritative medium through which the views, wishes and instructions of the Church authorities are expressed and given to the Saints.

2.—It may always be relied upon as advocating or defending the right side of every question, people or public interests in this region.

3.—It is devoted to the interests of the Latter-day Saints, and has done its legitimate share, valiantly defended their rights and advocated the principles to which they believe and every Latter-day Saint should therefore feel under obligations to do his part in helping to sustain it.

4.—It is not published for speculation, and never has been, but for the good which it is capable of accomplishing; the profits, if any there be derived from it, being devoted to extending its sphere of usefulness and benefiting the community.

5.—It is doing its mission to establish home industries, among which are paper making and type founding, stereotyping and electroplating.—Therefore necessary to the development and independence of the community, but which, during their infancy (which is the Territory they have not yet passed), can only be carried on at a pecuniary loss.

6.—There is no danger of any subscriber to the News being to get what he subscribes for through failure of the firm; hence such a suspension of the publication is a result in the case of hundreds of newspaper patrons every year.

7.—It is printed in readable type, so that even the aged out person is without difficulty or danger to their eyesight.

8.—It is free from objectionable advertisements, so that no parent need fear that his children will have their minds corrupted from having access to it; in fact, it refuses thousands of dollars worth of the best paying advertisements simply, because it is devoted to the moral and spiritual interests of its readers instead of to getting gain at their expense.

9.—The News is not regulated by public opinion nor the hope of gaining subscribers or advertisements. It advocates that which is right and condemns that which is wrong, regardless of results, numerical or otherwise.

10.—It never encourages its readers by palming off columns of self-praise for news items.

11.—The News practices no deception and resorts to no subterfuges to induce people to subscribe; but on the contrary, prefers to stand on its own merits, as the people's newspaper, with a promise only to do its utmost to give to patrons the full value of their money—a promise which it has endeavored to faithfully keep in the past.

12.—In conclusion, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the Deseret News; and if more than one, the News should invariably be the first.
