THREE GREAT ATHLETES AT THE INTERCOLLEGIATE CHAMPIONSHIPS.

Three star contestants at the intercollegiate track and field meeting, Manhattan field, New York, May 27—Macrackin, the University of Pennsylvania weight thrower; Krauslein, the world's champion broad jumper of the same college, and Tom Burke, the Harvard quarter mile—are known to athletes all over the country.

The doctor looked wise and said it was "nervous indigestion."
But he didn't cure it.
So Mr. Tom, G. Lever, of Lever, S. C., wrote to Dr. Pierce, of Buffalo, N. Y.
And now Mr. Lever is well.
Dr. R. V. Pierce is and for thirty years has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo. During this time he has probably treated more cases of chronic, or lingering, disease than any other physician in the world.
Invalids from all over the world write to him and receive advice free of charge. During the early years of his practice Dr. Pierce compounded his "Golden Medical Discovery" which he has now ever since in treating all affections of the lungs and bronchial tubes, for purifying the blood; for toning up the nerves and wherever an honest reliable nonalcoholic tonic was needed. In connection with it, he prescribes what other special medicine may be required in exceptional cases and gives directions as to diet and hygiene.
The result is health.
Mr. Lever writes:
"I was afflicted with what the doctors called nervous indigestion. Took medicine from my family physician to no end. I thought myself incurable. I suffered so much with pain under my stomach and shoulder blades that I could not do my work. I was induced to try your 'Golden Medical Discovery' and 'Pellets' and now am some about 15 pounds heavier than I ever was before. I believe Golden Medical Discovery and Pellets will cure any case of indigestion, bad liver, or chronic cold."
Insist upon having "Golden Medical Discovery" for nothing else is "just as good."

Saved My Life.

Mr. P. W. Hebebrand, Pres. Ohio Pipe Covering Co., Cleveland, Ohio, says "I am satisfied Dr. Miles' Nervine saved my life. I was a nervous wreck and unable to attend to my business. Doctors failed to benefit me and I decided to try Dr. Miles' Nervine. It gave me prompt relief and finally effected a complete cure. I am in good health now and have gained several pounds in flesh."

appointing officer that he has already investigated the case, and that the charges upon which the discharge was based were not true."

An entirely new rule, No. 12, is added, classifying all offices and employes in the classified service as follows: "Class A, all persons receiving an annual salary of less than $120 or compensation at a less rate; B, from $120 to less than $840; C, $840 to $900; D, $900 to $1,000; E, $1,000 to $1,200; F, $1,200 to $1,400; G, $1,400 to $1,600; three, $1,600 to $1,800; four, $1,800 to $2,000; five, $2,000 up, all at Washington. This classification does not include persons appointed to an office with the advice and consent of the Senate or some officer or board, nor but does include all persons designated as laborers or workmen, nor prior to May 4, 1896, and on June 10, 1896, were regularly assigned to the same grade of work as that performed by classified employes, nor persons appointed as a laborer or workman without examination under the civil service rules that shall be in the work of the same grade as that performed by classified employes.

Rule 5 is changed so as to transfer is materially amended by striking out the words "or if it and position there is not filled" in the provision of the examination the performance of the same class of work or the practice of the same mechanical trade, performed or practiced in the position from which transfer is requested, and inserting in place of the stricken words "But the provisions in rule 7 as to apportionment shall be waived upon the certificate of the appointing officer that the transfer is required in the interests of good administration."

The number of the civil service commissioners acting is the fact that they have not had time to examine and study the proposed rules, and do not be prepared to give a statement of the effect of the rules. A commissioner explained the rules in detail to the printing and its subscription.

According to figures printed in December, the largest number employed in the order, and thereby excluded from the classified service number than:

Department of agriculture, internal revenue service 472
Storekeepers and gangers, internal revenue service 500
Military park commissioners and employes 24

Fatal Railroad Collision.

Seattle, Wash., May 29.—A collision occurred this morning near the Washington iron works between a Grant street car containing an hour as can be learned, and a train of the Seattle, Lake Shore & Eastern railroad Olympia Northern Pacific passenger train. One man, Emmanuel Bernard, aged 21, laborer of South Seattle, died on the way to the hospital, and eighteen others were hurt, seriously.

No official statement of the collision has been made. The railroad had the right of way. The motorman claims that he endeavored to stop the car but temporary stop but owing to the wet rails the failure of the mass appointing to work in was unable to stop the car reaching the crossing. He neither heard the railroad men sound any alarm, ring the bell nor to slacken speed.

The railroad people insist that they are not in any way to blame. The engineer claimed that he had every reason to expect the electric car to stop at a safe distance from the track. People claim the fact that the locomotive was brought to a stop within less than 100 feet of the crossing is evidence that the train could not have been moving at a great rate of speed. The electric car was behind time and was going at a pretty lively rate.
