## GREAT SLUMP IN MINE STOCKS

### Exchange Was Scene of Active Trading and Awful Slump.

### FIRMNESS SHOWN BY FEW.

**Con. Mercur and May Day Were Strongest—Carisa and Ajax Led in Decline—Some Rumors.**

On Saturday mining share prices were low but one needs only to compare those prices with today's to be convinced that something similar to Black Friday has visited the exchange since then. Business on the mining exchange opened with a rush this morning and with few exceptions the entire list ruled at lower figures. Bad rumors galore were in circulation and they in combination with very large selling orders had the effect of rapidly depressing values.

Ajax started out in the trading at 20¾ over a cent lower than the bid price on Saturday and closed with 20 asked. There is a report out that the mine will be shut down until metal prices show improvement. The same report is astir about Carisa, and that stock took the toboggan from 30 to 24 and closed with 23¾ asked.

Consolidated Mercur and May Day each showed considerable strength and Daly-West was higher than on Saturday. In Boston this morning the last named stock sold at $20 with plenty more offerings at that figure but no takers.

Sunshine, at 25, was traded in. The mill at the property will soon be in full operation and if successful will boom Mercur.

Uncle Sam Consolidated from 44 sold down to 38 and California was an offering at 13¾ at the close, while Mammoth was traded in at 80.

At the close today the following quotations were recorded:

### NEWS FROM PARK CITY.

**James Farrell Discusses the Daly-West-Quincy Trouble.**

In an interview on the Daly-West-Quincy suit published in the Park Record of Saturday President Farrell is quoted as follows:

"You may state that the Quincy company has taken no steps without due consideration and advice from competent authority, and that when the proper time comes, without blare of trumpets and with no stock to boost, that full and complete answer will be made to every section of the complaint filed."

"How about the rumor of a shutdown of the Quincy?" asked the writer.

"Oh, that is sheer nonsense," replied Mr. Farrell, "for even if an injunction in compliance with their complaint is served on us we have plenty of undisputed territory containing ore bodies to continue work indefinitely. And that, too, with a material increase in our working force, which will be made as soon as the roads will permit the transportation of the mine's product to the railroads."

While Mr. Farrell was non-committal as to the specific answer his company would make in cross-complaint, it is the general impression that the Quincy people will try to prove apex and everything that goes with it.

The management stated that they had nothing to conceal, and further, "that any stockholder of the Daly-West who feels interested, within reason, of course, was welcome to go down in the Quincy mine and see for himself the whole property." In other words, the closed policy heretofore existing has been abandoned, and the mine is free of access to such extent as will not interfere with its workings.

Regarding the California shutdown last week Mr. Farrell, who is manager of the company, said:

"The plain, simple facts are these: Since assuming the management of this property we have expended $10,000 of our own money to keep it going and to try and make it mine of it, and in justice to ourselves and the stockholders we do not feel warranted in adding further to the indebtedness of the company. This indebtedness now in round numbers amounts to $50,000."

"Is there any truth in the current rumor," asked the reporter, "that the object of the present management in closing down the mine is to depreciate the stock and thereby allow you to buy the property in under the mortgage, thus squeezing out the shareholders?"

"You may say," answered Mr. Farrell, "that the present management would be only too glad to let go, relinquish all their rights and title to the property and turn the management over if they could but get their money out of it." Asked as to the physical condition of the mine, Mr. Farrell replied: "There are no new developments in the lower tunnel, and there have been no strikes since the present management took hold."

### BULLION-BECK ANNUAL.

**Same Officers Were Re-Elected with Exception of W. F. Snyder.**

In the offices of the company in this city the Bullion-Beck stockholders held their annual meting this morning, and elected the following officers:

P. T. Farnsworth, president and general manager; Joseph F. Smith, vice president and treasurer; M. C. Morris, secretary. These with A. E. Hyde, P. T. Farnsworth, Jr., H. C. Lund and J. A. Cunningham, constitue the directorate. The last named director was elected to succeed W. F. Snyder.

### PARK CITY SHIPMENTS.

**Week's Output Totals Over 5,400,000 Pounds.**

The Mackintosh sampler reports ore shipments from the Park City mines, exclusive of Silver King, to have amounted to over four million pounds. The shipments were as follows:

| | |
|---|---|
| Quincy | 1,276,000 |
| Daly-West | 1,252,000 |
| Ontario | 1,096,000 |
| Anchor concentrates | 389,000 |
| Total pounds | 4,013,000 |
| Silver King | 1,420,160 |
| Grand total | 5,433,160 |

**Affairs in Tintic.**

The Tintic Miner of Saturday has the following notes of interest:

Superintendent J. H. McChrystal announces that beginning with the first of March the Eagle and Blue Bell will enter the shipping lists with renewed vigor, and will be able to send out a carload a day. Two good stopes will be drawn upon, one on the 250-foot level furnishing a very good and regular grade of gold quartz in which are frequent "fat" streaks from time to time. Below, on the 400, is a large body of copper carrying a good percentage of both the precious metals, with plenty of stoping ground ahead and above. All the dead work incident to connecting this level with the 200 by means of an incline winze has been completed and a skip installed for the rapid transit of the ore.

Superintendent Moon has encountered a vein of galena underlying the copper in the West Morning Glory at Diamond which measures a foot in thickness and shows indications of widening out as stoping continues. The change occurred on the 250-foot level forty feet south of the shaft. Because of the excellent showing attained with depth the company is contemplating the advisability of putting the shaft down to a depth of 500 feet.

In the May Day a station is being cut on the 200 level for a donkey to hoist from the bottom of a seventy-five-foot winze that has been put down through mineralized ground that promises to develop into another good chamber of ore.

A. J. Underwood and D. A. Depue have secured a lease on the Sioux and Utah mines and are now extracting a good grade of silver-lead ore from the old Utah workings.

**Humbug Deeds.**

Provo, March 3.—A declaration of trust between E. W. Genter of Salt Lake City, and John E. DuBois, of DuBois, Pa., dated April 24, 1901, has been filed with the county recorder. The declaration sets out that E. W. Genter has received by deed from Jesse Knight and Amanda Knight, for a consideration of $250,000, the south half of the Humbug mining claim, two-thirds of said property to be held in trust for John E. DuBois, and the remaining one-third to belong to Mr. Genter. It is also a condition of the trust that the property may be sold to the Yankee Consolidated Mining company for 250,000 shares of the capital stock of said company, provided the said capital stock be increased to 500,000 shares and the par value increased to $1 per share, John E. DuBois to receive two-thirds and E. W. Genter one-third of the proceeds of said sale, which is to be arranged by P. A. Franlin as the agent of the parties to the declaration of trust which issigned by E. W. Genter and by John E. DuBois, as accepting the terms.

J. L. G. Johnson has filed notices of location of the White Rose Nos. 1, 2 and 3 mining claims, situated about two miles west of Utah lake and one-half miles south of the Yellow hill in Lehi mining district.

### MINING NOTES.

President Farrell of the Quincy returns to Park City in the morning.

The scranton of Tintic has two cars of ore at the sampler today.

The Black Eagle of Nevada has one car of ore on the market today.

The Contlin sampler this morning was in receipt of two cars of ore from Tintic, one from Nevada and one from Stockton.

Managing Director Holden and Geo Fisher, the engineering expert, are expected to arrive in the city from Denver today.

Ore and bullion settlements on Saturday, March 1, amounted to $33,409. T. R. Jones & Co., $29,550; McCornick and Co., $3,990.

Col. H. L. Pickett has returned from a visit to the Salvannie property which joins the Grand Gulch property in northern Arizona.

The management of the Comstock of Park City is much pleased with the present showing of that property. It is thought to be highly probable that before very long a big ore body will be opened into.

A copy of the articles of incorporation of the Park Valley Exploration company of Ogden was filed in the office of Secretary of State Hammond this morning. The company is incorporated for $50,000, which represents 500,000 shares of the par value of ten cents each. R. P. Hunter is president, C. F. Whipple, vice president, and O. A. Moyer, secretary and treasurer. The new organization owns a group of 12 claims situated in the Park Valley district in Boxelder county.

### WESTERN STOCK MARKET.

Kansas City Stock Yards, Feb. 27.—Cattle supplies continue very light and prices to advance. The increase in values the past seven days amounts to fully 35 cents per hundred. The buyers show a willingness to make reasonable bids on all classes of stock that is wonderfully encouraging to the producer. There have been no strictly choice export steers on the market this week, the top for the week being 6.65, but good well finished cattle would bring from 6.80 to 7.00 on today's market. F. M. Ecton, Carrollton, Mo., topped the heifer market for the season today with three heifers that weighed 820 lbs. each and sold at 6.00 per hundred. The general range of dressed beef prices has been from 5.00 to 6.65; butcher cows and heifers, 3.25 to 6.00; canners, 2.50 to 3.25.

The country demand for stockers and feeders continues to improve, the moderate offerings of this class of stock finding ready sale at good values. Prices range all the way from 3.25 to 5.15.

Texas and Territory meal or corn fed cattle are eagerly sought for by all the dressed beef buyers. At one time Monday, with about one-half the supply in the native yards, there was not a single steer buyer to be found in the native division; they were all bucking each other in the quarantine division where the market was fully 10c higher. W. F. Smith, White Eagle, O. T. topped yesterday's market with 42 steers that weighed 1225 lbs. each and sold at 5.35. Today W. W. O'Brian, Welch, I. T., raised Mr. Smith out by selling 51 steers that weighed 1339 lbs. each and brought 5.35. The top for the week was 5.85 with general prices ranging from 4.40 to 5.30.

Hog products have taken a big tumble this week and live hogs are correspondingly lower. The top today was 6.30 with prices ranging from 5.80 for lights to 6.30 for top heavies.

The advance that was inaugurated in sheep values several weeks ago received a slight set back the past two days, the top for the week being 6.50 against 6.65 for last week's quotations. The lower quotations were only partially due to lower values, however, as there was a marked falling off in the quality of the offerings. Native lambs are selling at 6.35 to 6.50; Colorado lambs, 6.25 to 6.45; western weathers, 5.00 to 5.50; western yearlings, 5.90 to 6.25; western ewes, 4.40 to 5.40.

ROBERTS' COMPLETE WORKS.

"Outlines of Ecclesiastical History," $1.75, $2.50 $2.75; "The Gospel," 75c, $1.25, $1.50; "New Witness for God" $1.50, $2.50; "Succession in the Presidency," 30c, 50c, 75c; "Rise and Fall of Nauvoo," $1.25, $2.25; Missouri Persecutions, $1.25, $2.25. ## BETTER TONE PREVAILED.

### At Opening Very Good Inquiry for Leading Stocks.

### TRADERS TOOK PROFITS.

**Caused Some Giving Way—Demand for Grangers and Pacifics Made Them Reach Higher Prices.**

New York, March 3.—The opening dealings in stocks were on an unimportant scale and price changes were small and mixed. Large purchases of Tennessee Coal advanced it 2½ to 70⅝, and stiffened the market. There was a better inquiry for the leading stocks than for some time, and they sold well above aSturday's close. Sugar, Brooklyn Transit and Rock Island gained a point. In the active list improvements of a point or more were made by many stocks. Traders took profits in the prominent stocks and prices gave way slightly. The losses were recovered later when Rock Island and Northwestern were pushed up 2¼. St Paul and Baltimore & Ohio then rose about a point. Colorado & Southern and second preferred, D. & R. G., Lake Erie & Western, Westinghouse Electric and the American Cotton Oil stocks advanced from 1 to 2 points and Lackawanna 2¼. Colorado Fuel reacted 1½.

Bonds were dull and firm.

Northwestern preferred rose 4¼ and jumped 5 points on a single transaction. The majority of stocks moved narrowly.

The demand for the grangers and Pacifics increased considerably and they all reached higher prices. Northwestern rose 3 points in all, and St. Paul touched 164. Elsewhere improvements were generally slight, but the entire market showed an undercurrent of strength. Illinois Central and Minneapolis & St. Louis advanced over a point and some of the minor stocks, which had been heavy earlier, rallied.
