EVENING NEWS.
Saturday, - - Oct. 22, 1881.

BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.

AMERICAN.

The President.

WASHINGTON, 21.—President Arthur, Secretary Blaine and Secretary Hunt returned this morning upon the U. S. steamer *Dispatch*. Secretary Lincoln, Assistant-Secretary Hitt and Walker Blaine will return to-morrow, accompanied by the French and German visitors upon a special train from Richmond.

James A. Garfield's Career and Character.

Col. Rockwell has received the following letter from Mrs. Garfield:

Mentor, Ohio, Oct. 17, 1881.

Dear Col. Rockwell:

It is my wish that an account of the literary remains of General Garfield shall be published after that careful consideration and preparation so manifestly necessary. To that end, I request that you will announce, in some public manner, my purpose to cause this work to be done at the earliest practicable time, and of which due notice will be given.

Very sincerely yours,
LUCRETIA R. GARFIELD.

With reference to the foregoing: Col. Rockwell makes the following statement: To those best acquainted with the great capacity for work, the vast versatility of Gen. Garfield, the extent, the variety and orderly arrangements of his intellectual state are amazing. Fully appreciating its value, and believing the most enduring monument of the late President must be erected upon the granite foundation of what he said and did and was. Mrs. Garfield purposes affectionate and careful work in this direction. Such a monument, therefore, illustrating a life which cannot be written until the world has moved far enough away from him to take in the grandeur of his career and character, may be expected only after mature and deliberate work and as coming from her sanction and authority.

A Terrible Accusation.

Scoville, Guiteau's counsel, is causing some excitement in political circles because of his avowed intention to make the most of the political aspects of the assassination. He is reported as saying yesterday that there is more of politics in the case than most people imagine. I intend everything connected with the crime shall be developed, and if I should have a stalwart to help me he might antagonize this case. If it is necessary I shall not hesitate to bring out the connection of Conkling with the inception of the crime. The stalwart chasm was responsible for the matter, and it shall be placed where it belongs if I can secure that result.

The opinion is very general here Judge Cox will decide he has no jurisdiction. Richard T. Merrick, who will argue the point for Scoville, is quite sure there is no jurisdiction, and says the circuit court of the District has decided in that way in two similar cases. Merrick also remarked that he could not see how Judge Cox, as it has been stated he intended to do, could have the question of jurisdiction disposed of before the trial of the case commenced; for said he "this prisoner has pleaded not guilty as he had a perfect right to do, and I cannot see how the judge can require him to change the issue thus made." It was a mistake to arraign the prisoner, if the judge was in doubt as to his jurisdiction. He believes the District Court is without jurisdiction in the Guiteau case and has ample authority to sustain that view. He says it would be much less discreditable to the country that Guiteau should be lynched by the people than be lynched by the court.

Expenses.

In the supreme court, Judge Cox rendered a decision upon the application of Scoville, counsel for Guiteau, for an order of court allowing fees and expenses of the defendant's witnesses. The Judge held it was clearly in the discretion of the court to allow the expenses for a reasonable number of witnesses, the same to be paid in the same manner as the Government witnesses; and stated he would decide in Chambers as to the number of witnesses that would be allowed. Upon the question of assignment of counsel to assist the defense, the Judge stated he would defer the matter until after consulting with Scoville.

Right of Road.

President Arthur and the Secretary of the Interior to-day gave their consent that the Chicago, Texas & Mexican Central Railroad and the St. Louis & San Francisco Railroad may apply to the Council of the Choctaw Nation, Indian Territory, for the right of way through the Nation.

Check.

NEW YORK, 21.—The *Herald's* Washington special says: To-day, Guiteau wrote a letter, in which he says his grounds for defense are three: First, he did the act by the will of God; second, malpractice, which was the cause of the President's death; third, jurisdiction. He further states in this letter that he will be discharged by the court; that the authorities of New Jersey will not take cognizance of his case, because they do not wish to trouble themselves with the trial. He has also written a letter to the President, stating he is without money to pay the expenses of witnesses. He demands that the President have money appropriated for this purpose, and in case of refusal to make some revelations that will ruin the republican party and enable the democrats to gain control of the country.

Mental Malaria.

The *Medical Record* will publish an editorial upon Guiteau's mental condition, expressing the opinion that he cannot be considered irresponsible.

Conjecture.

A *Herald's* Washington special says: It is believed that the President will make the appointment before the adjournment of the Senate of a superintendent of coast and geodetic, survey to succeed the late Captain Carlisle Paterson. Several names of very prominent scientists have been mentioned in connection with the appointment, and several have been strongly urged upon the Secretary of the Treasury and the President. The most prominent, perhaps is Professor Julius Hilgard. General Cyrus B. Comstock, Lieutenant-Colonel of the corps of Engineers of the United States army, is an applicant for the position, and is strongly urged, as is also, Prof. Silas Newcombe, the mathematician and astronomer.

Bad Break.

A general break-down of wires between Valencia and London is reported, and cable business is delayed.

Assess.

The republicans of the eleventh district nominated ex-State Senator Astor for Congress.

Pacific Pacification.

Garrett, of the Baltimore & Ohio Railroad, is willing to submit the difficulties between the trunk lines to the arbitration of Charles Francis Adams, Edgar S. Wells and John Wright.

False.

ST. LOUIS, 21.—Investigation of the Eads jetties, made at his request by the Merchants' Exchange to discover whether the statements made by foreign papers that the jetties are a failure were true, resulted in a report that the largest ocean vessels go through it easily. The bogus reports are credited to articles in two American papers that are warranted by facts.

A Brooklyn Monster.

Sanford Nas, who beat his wife till she left him, followed her up and stabbed her fatally at the wash tub and escaped.

Missions.

At a meeting of the Board of Foreign Missions, reports were received on missions in Madura, Ceylon, Central and East Turkey, Zulu, European Turkey, and North China, the China band of Oberlin, Mexico, and Spanish America, Micronsia, West and Central Africa, Western Turkey, Austria, Japan, Mepratta and Dakota. These reports gave the condition of the missionary work at the different missions, showing them to be prosperous and growing and making recommendations for the coming year. As no material objections were made to any of them, the board will carry out its recommendations.

Windom.

ST. PAUL, 20. — The republican caucus nominated Windom for Senator on the 2d ballot.

British Rate.

SAN FRANCISCO, 21.—In the cricket match to-day the English made 178 runs. The Californians then went to the bat, but, before scoring, darkness stopped the game. If the Australian steamer on which the English eleven have taken passage sails to-morrow, the game will be declared off, but if her sailing is delayed the inning will be finished to-morrow.

Liars.

John Muir, scientist, who was on the cutter *Corwin*, during the recent Arctic cruise, places no confidence in the story of a wreck and four whites seen to the eastward, told by Indians. He says the Indians on that coast are consummate liars, and make up all kinds of stories to retail to whites. The Esquimaux have great facilities for transmitting news along the coast, and such information as the Indians furnished would have been widely disseminated and obtainable in a multitude of ways.

Red Rumor.

A Tombstone dispatch: A letter from Behische, Sonora, reports the Indians had attacked that settlement. No particulars.

King.

CHICAGO, 21.—A private dispatch from Chippewa Falls, Wis., announces that Prof. King and the Signal Service officer who accompanied him arrived there safely. The balloon descended in the woods, and they had been two days getting out of the wilderness. The following is just received:

Chippewa Falls, Wis.

"We are all safe. Just got out of the woods." KING, Balloonist.

Chippewa Falls are situated on the Chippewa River, about 185 miles northwest of Madison. Later advices state that the balloon dropped quite near there, but that King and his companion were lost in the swamps for five days and suffered greatly.

Severe Sentences.

DENVER, 21.—The *Republican's* Antonio special says: Marion Melvin was to-day sentenced to imprisonment for life, for the murder of S. D. Kasserman, committed in 1879. Allison Perkins and Watts of the notorious Allison gang of stage robbers, were each sentenced to 37 years at hard labor.

SAN ANTONIO, 21.—Albert Smith, found guilty of stage robbery, was sentenced to 99 years in the penitentiary.

Dead.

MIDDLEBURG, Pa., 21.—Emanuel Ettinger, under sentence of death for murder, died in jail to-day.

FOREIGN.

Considerable Consternation.

DUBLIN, 21.—The Land League officials were seized with panic when the proclamation against the League became known. It is believed the government intends to make arrests of members of the league in England. It is all over with the leaguers. The greatest consternation prevails among those directly or indirectly associated with the League. One hundred thousand copies of *United Ireland*, the League organ, has been distributed throughout the country, with a cartoon of an atrocious character, representing the government and premier practising every form of brutality.

Gladstone took a walk yesterday, and attended the Hawarden Church Harvest Festival.

Mission Manifesto.

The facts regarding the preparation and manifesto of the Land League "no rent" manifesto are interesting. The resolution declaring that no rent should be paid was decided on Friday night at a private meeting of the executive. Messrs. Dillon, O'Kelly and Biggar voted against the step, but were in the minority. T. D. Sullivan and others voted for it.

Drowned.

LONDON, 21.—The British bark *Leon*, was abandoned off Douglas, Isle of Man. A lifeboat, when rescuing the crew, capsized and 12 persons were drowned.

Ayer's Hair Vigor,
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment and hereditary predisposition, all turn the hair gray, and either of them make it so shed premature. AYER'S HAIR VIGOR, by long and extensive trial, has proved that it stops the falling of the hair immediately, often restores the growth, and always surely restores its color, whether it be gray. It nourishes the nutritive organs to healthy activity, and preserves both the hair and the health. Dull, brittle, weak or sickly hair receives fresh lively expression; falling hair is checked and stubborn; thin hair thickened; and faded or gray hair resumes their original color. Its operation is prompt and satisfactory. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.
As a Dressing for Ladies' Hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness it imparts.
