PROVO.

Preliminary Hearing of Connors Set for Tuesday—Other News Notes.

Special Correspondence.

Provo, July 8.—Frank Connors, as reported in Saturday's "News," was formally charged with the murder of Oliver Strong, on the 25th of June. The complaint is sworn to by Sheriff Dunn, as Saturday morning the Frank Connors was taken before Justice King and the complaint was read to him for the first time, he pleaded to the charge without a sign of emotion, and without saying a word, his eyes resting on the floor.

He was asked if he had thought of an attorney to defend him, and replied in the negative. Attorney M. M. Warren and George R. Laird were suggested and accepted by Connors. After an hour's consultation the defendant's counsel asked for an immediate preliminary hearing, which was set for Tuesday, July 11th, at 9 o'clock a. m. of the Justice court, Provo.

The officers have worked hard on the case, gathering evidence against the prisoner, and although they have nothing but circumstantial evidence against Connors they are confident of being able to convict him of the crime. Frank Morris, Connors' uncle, is being held as the main witness for the prosecution. He has been carefully guarded, that no one might have a chance to talk to him, and it is thought that his evidence will be the strongest of any against the accused, and only part of Morris' evidence will be disclosed at the preliminary hearing.

WHAT CONNORS SAID IN HIS CELL.

The "News" representative visited Connors in his cell yesterday after he had been arraigned and asked him if he had any statement to make to the "News" concerning the murder, and he said he was very tired and wanted to be left alone, and refused that at present he had nothing to say for publication. Were the case.

He stated that he had a father and mother and other relatives living in Maine but at what place he would not say. He said he communicated to them his position, but did not want them to know that he was free again. He came West about five years ago, and had been in Colorado most of the time engaged in mining.

When asked when he picked up with Morris, he refused to answer, but confessed, or intimated, to robbing a store at Boulder.

Upon being requested to explain how two of the shells in the revolver he had been in his possession, he hesitated for some time, but finally said that the two found when he was captured and the one he had on at the time was loaded by Detective Kelchner were the same. He he had lost the third one and had secured the second one at a place on Clear creek, at which place he had fired the first shot at a moonshiner who was there and when the other shot was fired he could or would not say.

The reason he gave for drawing a gun on George Cook, who found him in his cow shed, was that at that time he had stolen some meat in his possession, and did not wish to be arrested, with the evidence upon him.

MANTI.

President Joseph F. Smith Preaches in the Manti Tabernacle.

Special for Deseret Telegraph.

Manti, Sanpete County, July 10.—President Joseph F. Smith delivered a very powerful sermon this yesterday afternoon. The report had gone abroad that President Smith would speak, so the tabernacle was crowded with outsiders, many having come from adjoining towns to attend the meeting. The speaker took his text from the book of Doctrine and Covenants, section 42, verses 1 to 4, and for about an hour he discoursed on the necessity of keeping our mother and of keeping the commandments. It was expected by the speaker that the people of Manti, as do our duty the Lord is bound to fulfill His promises. The Lord has made certain requirements of the Saints, one is that they pay tithes and offerings. We have failed to do this as a church, and the blessings which we too we do better, we can not claim our Father's blessings.

The speaker urged the Saints to economize, to live within their means, to pay their tithes, to do their duties in all things, that they might be at peace with the Lord in claiming His blessings for Zion.

The question whether the Latter-day Saints should join secret societies of any kind was answered in the negative. There is no excuse for any of our people in uniting themselves with such, for every man or woman whose husband or father was a fellow player, has a just claim on the Church in the hour of need. President Smith stated the feelings he understood that when God wrote to Moses from the burning bush, he said, "Put off thy shoes, for the place whereon thou standest is holy." Light phases were the only ones which he had any claim, others might be elect, but that would be merely outright.

There was very close attention paid to every word of the sermon, which lasted more than two hours. President Charles Peterson gave a few good words of testimony and counsel. Brother Joseph F. Smith and wife left on the summer school this morning and then go home on the noon train.
