TELEGRAPHIC.

ONE WAY TO DO IT.

Unemployed Taken in Charge by the Washington Police.

TREATING THEM AS CRIMINALS.

Laws in the District of Columbia Which May Be Made Operative Against Coxey and His Band.

WASHINGTON, D. C., April 8.—A delegation had of unemployed from Cincinnati was taken in charge by the police last night. Tomorrow the men will be brought into police court upon charges of vagrancy. The local law against vagrants applies to all men without visible means of support who are destitute, likely to become charges upon the city, and who have no visible or means of gaining a livelihood, or who solicit alms. The penalty is ninety days in the workhouse at hard labor, but it rests within the discretion of the judge to accept bond or promise to leave the city at once, or to accept bonds so surety that they will not become public charges or beg. There is no mention of the application of this law to the band from Texas under Captain Pennington, for a security in the police statistics shows the total expense of the company amounts to about $5. They have received two fairly good meals today and have been generally commended.

Captain Pennington, the leader of the party, may find himself in more serious trouble than his followers. There is an old law on the statute books, which was passed in 1820 and has never been repealed, which makes it an offense to leave the District of Columbia any destitute people who are likely to become public charges, with a penalty of from $25 to $50 fine for each offender. The police authorities are now considering the advisability of bringing a charge of violating this law against the leader, in which case his fines, with the expenditure of the workhouse commissioner, would amount to a very heavy punishment.

The same charge may be brought against General Coxey, if Sunday can not overtake the army of the commonweal before it reaches here. Of course the vagrancy act may be brought into application against his men, and besides there are two other laws which it is the avowed and advertised purpose of the Coxeyites to break. One is the act of Congress regulating the use of the capitol grounds, which forbids any gathering for speechmaking or parades, the breaking of any police cordon of threatening language, the display of any banner or device to attract attention. The other is a local law, which forbids women to participate in the state of a public or private nothing. It rests within the discretion of the Vice President and Speaker of the House to suspend the Capitol ground regulations for any proper purpose, and perhaps Coxey's agent will apply to them for permission to carry out their program.

What to do with the army when it arrives and is taken into custody, is a difficult question. The station house of the city would not accommodate such a crowd. To simply require each man and forbid them to enter the district would be to turn them loose on the suburban residents of Virginia and Maryland, and this is a subject which gives the governors of adjoining states much uneasiness.

Many of the labor leaders in this city are incensed at the arrest of the forty-one unemployed and declare the proceedings were without lawful authority.

THE BOSTON CONTINGENT.

Morrison I. Swift Will Raise a Thousand Men.

BOSTON, April 8.—In a blinding northeastern, with bitter cold wind accompanying, Morrison I. Swift and a group of devotees held a meeting on Boston common this afternoon to arrange for a battalion of 1,000 of Boston's unemployed to join Coxey's unemployed army. An appeal to the rich, asking for funds to purchase food and transportation for the Boston contingent, was unanimously adopted.

Gov. Tillman's Eloquence.

COLUMBIA, S. C., April 8.—Governor Tillman comes to the front with the suggestion of an upheaval in national politics. While a correspondent was at the executive mansion today the governor read a letter he had received from a western Populist, in which the writer said what he did not admire about the governor's course so far was that he did not have the moral courage to come openly out and call himself a Populist.

The governor called attention to the fact that many of the Northern and Western papers were speaking of him as the Populist governor, and after a little deliberation he said: "Yes, they call me a Populist; but I will tell them I am the true representative of Jefferson democracy in the land in America politics today. Let me tell you, I don't see anything about now but for the Southern Democrats to continue their forces with the Western Populists and go into the next national campaign as one party line. The Northern Democrats and Republicans are now together. It is a combination of moneyed interests."

The governor then, turning suddenly and in a somewhat excited manner, said: "I despise Cleveland and his gangwaps. He is no better than the vilest Republican. He has destroyed the Democratic party. The south and West will be forced to unite and form a complete reorganization of party lines. The people who are afraid of the negro and other questions will have to capitulate their fears on those scores and come together on the one issue of fighting the money combine."

The Street Sweeping Wage Question.

CHICAGO, April 8.—John M. Thurston of Omaha arrived in the city today from St. Paul. Mr. Thurston said the decision of Judge Caldwell in the Union Pacific case has relieved the receivers of the responsibility of paying down the wages of five thousand employes of the road, but it has not settled the wage question.

Black Smallpox.

CHICAGO, April 8.—A case of black smallpox caused the liveliest kind of excitement in the Harvey street police station this afternoon. A man suffering with the plague died in a cell there and from twenty to thirty officers and turnkeys prisoners were exposed to the disease.

The man's name was Bessie Sherman, but nothing further has been ascertained regarding him. At 4 o'clock in the afternoon he was brought to the police station by a man who informed the desk sergeant that Sherman was drunk, and asked the police to lock him up until he was sober. This was done and a few hours after the lockup keeper noticed that Sherman's face had turned black. The health department was at once notified, and several of the health officers reached the man he pronounced the disease black smallpox.

The Rhode Island Elections.

PROVIDENCE, R. I., April 8.—The returns from the election give the total vote as 24,335. The vote last year was 21,824. The vote for governor gives Brown 10,662, Hiner 22,408, and Moisil (prohibition) 2,115. Brown's majority is 3,018 and his majority 2,893, which is larger than any ever cast for governor for many years.

The results show there will be three Democrats in the house and two Democrats and one Independent Democrat in the senate. Buenel S. Young, of Scituate, having been doubled out and Martin S. Smith, Republican, elected.

The Utah Constitution.

WASHINGTON, D. C., April 7.—The Utah Commission will be urgently in the early part of next week. The resignation of three of the members have been tendered to Secretary Smith, and a battle will probably be engaged Monday. There is a vacancy on the board, owing to the death of Henry C. Lott, a second appointee.

The present commission consists of George L. Godbey, chairman; Robert S. Robertson, of Indiana; John A. McClernand, of Illinois; Abner Williams, of Arkansas, and the secretary of Utah, ex-officio secretary.

American Wool in England.

WASHINGTON, April 7.—United States Consul Mason, at Bradford, England, reports to the state department, under date of March 15th, that during the preceding fortnight large quantities of American wool have been offered for sale in Bradford. This has been an element in to attract attention and cause to end of gossip. As a general thing the grades of all grades of American wool are now practically the same as the similar grades in England. The earlier and other charges against the American article make the total of the difference.

Another Silver Bill.

WASHINGTON, D. C., April 7.—A bill which, it is claimed, meets in a large part the objections stated by President Cleveland in the Bland seigniorage bill, was today introduced by Representative Meyer (Dem.), of Louisiana. It provides for the coinage of standard silver dollars and for the issue of new bonds in lieu of the bonds heretofore authorized.

Murdered An Indian Boy.

GUTHRIE, Okla., April 7.—News reached here today of a terrible tragedy enacted at the Baptist Mission College at Wahoka, the capital city of the Seminole Indian Nation. There are a large number of Indian boys and some white boys in the institute, ranging in age from 10 to 25. For some time there has been a bitter feeling against an Indian boy named Frank Short by a number of the students, which was intensified during the last week by words passing several days. On Thursday night, after all had retired in the dormitory on the third floor, three boys stole to Short's bed, picked up and threw him from the window to the ground. The fall injured him from which he has finally died. The three guilty boys escaped and have not yet been apprehended.

Under Arrest.

MINNEAPOLIS, Minn., April 7.—Information appearing to the effect that falling to the arrest of Louis E. Savage, who fled from Minneapolis last November, has been received here and it is believed that the man who wrecked one of the largest institutions of the northwest and entailed a loss to stockholders throughout the country of $1,000,000, is under arrest. He was president of the Northwestern Guaranty company.

Water Makes Them Sweet.

GRAND JUNCTION, Colo., April 7.—There are reported 65,000 sheep at Westwater, on the state line, whose owners propose driving into Colorado after shearing, which is now nearly completed. The shearers say Governor Walter's guarantee will not prevent Utah sheepmen from entering Colorado, and the cattlemen of Moss and Delta counties swear they shall not.

Of a Broken Heart.

ATLANTIC CITY, N. J., April 7.—Richard Wister, the last of the eccentric millionaires Wister brothers of Philadelphia, who have made their home in this city for several years, died tonight of a broken heart. Ever since the death of his brother Lewis, which occurred in this city a few weeks ago, he has grieved unceasingly, and refused to touch food.

CHICAGO'S CHANCE.

The U. P. Will Reduce the Rates to the Coast.

SAN FRANCISCO, April 8.—Freight rates between this coast and the Atlantic seaboard, owing to the competition by water, have for nearly a year been so low that most of the wholesale trade of San Francisco has been almost monopolized by New York City, to the exclusion of the midcontinent points, that formerly had a share of this business. Chicago has grown weary of this state of affairs and will make an effort to regain the patronage of the San Francisco merchants. It is reported in a mercantile circle that, beginning on the 15th instant, the Union Pacific Railroad company and its connections will make the same rate from Chicago to San Francisco that are now given to the Pacific coast from New York to this city. The idea is to give Chicago manufacturers an equal chance in this market with the manufacturers of the Atlantic coast.

Elected to the Episcopacy.

BALTIMORE, Md., April 7.—The venerable cathedral of Baltimore, from which have gone so many consecrations of episcopal prelates of the Catholic church, was brilliant with lights and redundant with perfumes of the choicest flowers this morning on the occasion of the elevation to the episcopacy of Rev. Patrick J. Donahue, recently pastor of the church of Wheeling, W. Va. The translation of the Right Rev. J. H. Kain from Wheeling to St. Louis as coadjutor to Archbishop Kenrick, was a vacancy in the seat of Wheeling, which has now been filled by a priest, the choice of Cardinal Gibbons.

THE JAPANESE QUESTION.

The Situation Becoming Alarmed as to the Outcome.

They Want Protection and Threaten the Provisional Government With Violence.

HONOLULU, March 31.—The Japanese question is assuming most interest here. Since the arrival of the new Japanese minister, the Takeshima, the Japanese have taken on a much more independent air than formerly, and openly claim the right to vote in the affairs of the government. The war ship Naniwa went to Hilo on the coast of Hawaii recently, carrying the Japanese minister to Fuji. The minister has not yet returned, and it is to be considering with the Japanese subjects in Hilo. As there are many thousands of them on the islands, the people are becoming alarmed as to what the outcome may be.

It is reported that if the Japanese minister returns and the Japanese in Hilo they will try to take things into their own hands and compel the provisional government to recognize them. Should such contingency occur it is likely that the Hilo men would join forces with the Japanese.

A prominent Japanese official interviewed with the logbook here said to the Associated Press editor about a few days ago: "The Japanese here want the franchise and are going to get it. If we cannot, our government is going to take a hand in the matter. We have big guns of war ships and we are not going to let our interests be trampled upon by the provisional government."

The Portuguese have also made a demand upon their minister for a war ship. They are in fear of an uprising in the near future and in case of victory for the Japanese they would be massacred.

Authority, matters have been quiet while the last mail was due, and among important are transpiring.

The American league, which was supposed to have amalgamated with the native party, still more indepedent than ever. The registration of voters for the coming election in districts in the islands has commenced. Two months are set for registering, and it is said are being made to hold out to case of legislation that free words be forbidden.

A Cuban Conspiracy.

MADRID, April 8.—The government general in Cuba has sent to Senor Dorotea, minister of the colonies, details to the installation by the government of Cuba of a revolutionary conspiracy. The leader of the movement, General Gomez, has collected 2,000 rifles, intended for the use of the insurgents at Cuba. Gomez was directing the movements of the insurgents from the Dominican and was closely watched by the Spanish colonial users.

The Kingend Venice.

VENICE, April 8.—This city is still in ecstasy because of the presence of King Humbert and the German emperor. Today their majesties lunched at the palace and this afternoon visited the Pesaro Doge church. King Humbert has decided to visit Queen Victoria at Florence on Tuesday. He will be accompanied by Queen Margherita and the crown prince.

This evening a state banquet was given at the palace. Immense crowds gathered in the Piazza San Marco to listen to the music by a large military band. The national anthems of Germany and Italy were played, as were also many of the other German and Italian patriotic airs. Upon the conclusion of national anthems Emperor William and King Humbert stepped out upon a balcony. They were greeted with deafening cheers and cries of "Long live the emperor!" "Long live the king!"

Emperor William dropped some flowers to the crowd below. There was a tremendous rush for souvenirs of the flowers as souvenirs. As their majesties withdrew into the palace they were again cheered. Later in the afternoon a gala performance was given.

While You are in Salt Lake, Come and Visit the Largest Medical Institute in the City.

$5 a Month for All Diseases. Medicines Furnished Free.

One of the most remarkable testimonials ever published is that of Mrs. Hodgson. She has been a sufferer for the past eight years. In an interview she says:

"I feel benefited so far that I think it should not cease, feeling sure it will be the same with others who seek such treatment, a fair trial of seeking and optimist. My friend

MRS. E. HODGSON, 102 FIRST ST., CITY.

has taken some. I had a severe cough and my lungs ached so that I could not rest. I tried Dr. Shores' treatment and was soon well. My lungs were weak, too, and when going up stairs my heart would almost come to me. I was in a terrible condition, and I thought I should be cured. I used the other treatments of different specialists and saw that Drs. Shores & Shores were trying so much, so I decided I might as well try them. I have been cured. I have taken treatment since I have been cured.

TO THE PUBLIC

After you have visited the offices of other, call on Drs. Shores & Shores and compare the treatment. Do not let partiality or prejudice prevent you from being benefited by a system of cure which is the result of years of study and experience. Come and talk with them. Don't be misled by disingenuous advertisements. Use no patent medicines for all diseases, but be sure to consult Drs.

NEARLY KILLED HIM.

Mr. H. A. Arnold, a Leading Contractor of Salt Lake, Gives His Experience With Many Doctors—It Cost Him Three Thousand Dollars and Left Him Disfigured for Life.

H. A. Arnold, Contractor and Builder, Residence Central Park.

"Yes," says Mr. Arnold, "I have been treated before when I first contracted catarrh. I went to a specialist, who almost killed me by forcing out the delicate lining of my nose with acid. The suffering was terrible, and after that this severe treatment caused a cancer in the left nostril. This had to be taken out, another case of suffering. Every doctor made his wants, and my nose was fast disappearing under this terrible treatment."

"When were your symptoms when beginning treatment with Drs. Shores & Shores?"

"Well, my nose was always discharging, hawking and spitting, was thoughtless, weak and nervous. I coughed up QUANTITIES OF BLOOD. I had sharp shooting pains in the chest and shoulder blades, my lungs were sickly pale. I could not sleep at nights, my digestion was very bad. I experienced a burning sensation in the pit of the stomach that caused me much distress, night and morning, and in fact I was in bad shape.

"I went to a SPECIALIST HERE, WHO ADVERTISES and he told me he could do wonders for me, that my case was beyond remedy. But I did not give up. I went to Drs. Shores & Shores, and I can say I have been cured."

Mr. Arnold is well known in Salt Lake, and his statement will be read with great interest by his many friends.

CONSULTATION FREE. 160—90 WHERE YOU CAN BE CURED.
