THE QUESTION OF A UNION DEPOT

Council Committees Hear Arguments for and Against Proposition.

NO ACTION WAS TAKEN

An Adjournment Taken Until Saturday, when the Matter Will be Further Considered.

The Council committees on municipal laws and streets held a meeting last night and heard arguments for and against the proposition to build a Union depot on Fourth West street.

The session was a lengthy one, lasting over three hours, and when an adjournment was taken it was agreed to meet at 3 o'clock Saturday afternoon at the Oregon Short Line depot for the purpose of looking over the ground, Those of the Council committees present were: Chairman Morris, Councilmen Allen, Buckle, Delhl, Fernstrom, Wallace and Weller. Those represent ing the railroads were Attorney P. A. Williams and S. W. Eccles of the Oregon Short Line. F. J. Fabian and C. A. Quigley represented about 150 business men who favored the franchise.

The protesting citizens were represented by W. A. Hodges, Peter Reid, J. J. Corum and Gideon A. Gibbs.

The contention of those opposed to the project was that the property of those residing on and near the streets proposed to be closed would be depre-ciated in value; would interfere with traffic and that the laying of additional tracks would endanger the lives of rsons crossing them.

Chairman Morris read the petitions of the Oregon Short Line and the Rio Grande Western as well as the proposed drafts of ordinances; also the protests from citizens and those favoring the

What is needed is a proper number of viaduets. It has been charged that the railroads were on the west side before the people were there. This is not true. Many peo-ple resided over there long before the rallroads came."

PETER REID FOLLOWS.

Peter Reid followed Mr. Hodges. He desired it understood that the residents he represented were not opposed to the building of a union depot. They did, however, oppose the closing up of their per a general discussion upon the sub-ject was entered into, and it was thoroughly canvassed. It was the

granted," Mr. Reid said, "some of our people will practically lose their property, for it will be so depreciated in value as to be practically worthless." He believed the railroad people should help the property owners out by buy-ing the strip of land along the street they wished to close, and suggested that action be deferred until the Council committees had looked over the ground. Mr. Reid said he didn't like the way he had been treated by Divis-ion Superintenden J. H. Young of the Short Line. "This man Young told me," he said, "that the railroad companies had held the streets by adverse possession for more than seven years, and that they intended to do whatever they pleased with them."

BUSINESS MEN'S SIDE.

P. J. Fabian next addressed meeting. He said that a number of large business concerns were interested in the building of a union depot, for the casen that they had or were about to build warehouses near the tracks. The fer for one locality.

Mr. Reld again desired it understood

affirmative side of the question, said that in the building of a union depot some one would necessarily be injured. He believed the greatest good to the (y should be considered, however, and hat could only be accomplished by J. J. Corum followed Mr. Quigley and

said every one wanted a union depot, but he thought it should be located where it would do the least damage to property, and even the damage done should be paid for.

ATTORNEY WILLIAMS TALKS.

Attorney P. L. Williams adressed the meeting at some length, taking up the several points made by the repre-sentatives of the protestants and ans-wering them. "When this thing is wering them. "When this thing is sifted down," said Mr. Williams, "It will be found that the Short Line is sking for just one additional track on Fourth West street, except that on Fourth West between Second and Fourth South it asks for enough track

room for depot purposes, and to have those two blocks closed."

He concluded by making a strong plea for progressiveness. If the Council refused the granting of this franchise, it would after awhile compet the railroad people to pull up their tracks altogether and move outside, thus adocating indirectly the return to the The meeting then adjourned until Sat-

How Thanksgiving Rabbit Hunters Will Prove Doubly Beneficial.

FEED THE UNFORTUNATE

And Help the Farmers to Rid Themselves of a Pest which Periodically Threatens Crops.

In the railroad offices and around among the clerks in mercantile and all other establishments the talk today was as to the big rabbit hunt on Thanksgiving day, and how many of the longeared jacks each hunter would have to his credit when the day's sport was over. As has been announced heretofore there will be two big parties go out from this city on regular organized expeditions. L. W. Dittman has charge of one of them, and it will leave the Rio Grande depot at 3:05 tomorrow night, expecting to reach home in time on Thursday to eat the biggest Thanksgiving dinner that can be produced by Salt Lake's mothers and sisters-and they are capable of great things in the way of turkey dinners. This party goes to Monument, and the only fear the boys have is that the Western should not have handy a sufficient number of cars to haul back the tons and tons of rabbits that are anticipated to result from a day's work of the skillful marksmen who have signified their ntention to accompany the expedition Then there is Earn, Brockbank and his crowd-they go out among the sage flats of Tooele with the prospect of big proceeds in sight. It has been learned

these "sure shots;" but the Tooele arms to welcome the bays. So numerous have the rabbits be-come out there this year that only remake plans for an organized destruc tion of the long-eared little pests that sometimes sweep the crops as with a blight. In fact, both Dan Spencer of the O. S. L. and Earn Brockbank say that if the boys don't put on their best "shooting clothes" the rabbits will get the best of the fight. This excursion leaves the Garfield depot at 7:45 in the morning of Thursday, arriving here on the return at 5 o'clock in the evening; and the teamsters out at Tooele have promised to put the team transporta-tion in with the one-fifth railroad tick-et sold by the railway company. The rabbits that the boys kill will be hauled home free of charge.

Not only do the hunters "figure on" a

that the bunnies out in that section view with some distrust the coming of

splendid day's sport, but they are determined to at the same, time fill the stomachs of the unfortunate poor and help the farmer rid himself of the "pesky little critters" that might cause the country to have a little less bread at its disposal.

Mr. Clay Improved.

The friends of General Henry M. Clay of the U. P., who are acquainted with the facts, are very much encourwith the facts, are very much encouraged over his condition today compared with what it has been of late; and those friends who have not yet learned will be gralified to know that great improvement is shown by the patient. Mr. Clay slept well last night and awoke this morning considerably refreshed from the effects of the typhold fever from which he has been suffering. Serlous doubts that Mr. Clay would sur-vive his illness were at one time entertained, and the end was momentarily expected by some; but now the tide has apparently turned and the friends of the patient are given renewed and vig-

SELLING THE HOSPITALS.

Those Belonging to the Union Pacific to be Disposed Of

On the 29th of March of this year Special Master Abbott filed in the United States circuit court his report relative to the distribution of the Union Pacific hospital fund; and the same having been approved by Judge Sanborn, it was ordered that the hospitals at Denver and Orden be sold public bidding. According to Judge Sanborn's decree the Ogden sale is scheduled to occur tomorrow and the one at Denver is to come off on the sixth day of December. Soon after the sale of these buildings and the ground upon which they stand the money realized thereon will be placed in and added to the hospital fund, which resulted from monthly assessments against employes of the Union Pacific system, and then distributed in accordance with the report and recommendations of Special Master Abbott, the court reserving for consideration bereafter the wants of Martin Delphin, who heretofore put in a claim against the fund for compensation as attorney for a number of em-

ploye claimants. Judge Cornish was expected to arrive from Cheyenne on this evening's train and he will undoubtedly bid in the Ogden property tomorrow for the re-organized Union Pacific company. the sale of the property at Denver occurs doubtless the same disposition will result.

Calls it Confiscation.

The "court of visitation" established by the last legislature of Kansas, has been put out of existence by Judge Hook of the United States circuit court at Topeka. In a lengthy opinion the court decides the law is in the nature of a confiscation. The visitation court was intended by the legislature to reg-ulate railroads and telegraph compan-

The short gaps in the troller system between New York and Boston are being closed rapidly and it is likelythat the all-trolley route will be open next spring. A large part of the gap between New York and Philadelphia has just been closed. It will be seen that it is likely that one may soon be able to take a continuous trolley car ride from Portland, Maine, to Philadelphia.
