MAY DAY IN EUROPE.

Indications of Peaceful Demonstrations: Troops Under Arms.

LONDON, April 30.—Dispatches from many points in the continent indicate a peaceful May Day, although the powers are preparing for the worst. The questions of workingmen's rights and grievances will be more widely discussed than a year ago, and have reached the most secluded villages in France, Spain, Germany and Italy. The manifestos of the Socialists everywhere are revolutionary in tone, a fact which much worries the authorities. Throughout civilized Europe the proletariat mobilizes and acts in touch with the American movement. This world-wide union is partly spontaneous and partly organized, and imparts significance and gravity to tomorrow's demonstrations.

IN PARIS.

the Socialists will present a petition for eight hours and other requests to M. Floquet, if they can get a hearing. Some of the Socialist memorials breathe bellicose sentiments and the Anarchists appeal to the troops to assist them in revolt. One manifesto proclaims that the time has come for the heirs of society to arise, settle dynamite, destroy their oppressors, burn the prefectures, banks, palaces, prisons, etc. The anarchistic organization of Pere Bernard thinly states tomorrow's plans, saying the Anarchists will wait for a chance row in the streets and if one occurs they will join and fight to kill or die. The troops have been heavily reinforced and the main streets are being patrolled to enable the troops to act promptly. The programme is the same in all the cities of France.

IN GERMANY

THROUGHOUT GERMANY

the proposed manifestations create no disquiet. The troops have been confined to the barracks and the police generally directed to show toleration. In Hamburg broad latitude is given the workmen, who will have a great procession.

IN VIENNA

the workmen propose to march 100,000 men to the Prater, where they will group around the speakers, and in case of disorder disperse.

IN ROME

no uneasiness is manifested, but in Naples a semi-panic prevails, owing to the anarchists' threats to blow up public buildings with dynamite. Anarchistic meetings in Milan, Pavia and Turin have forced the government to adopt severe measures of repression.

IN BELGIUM

the workingmen will send delegates to the Chambers to demand universal suffrage and eight hours. The troops will be kept on duty all day.

IN MADRID

and other cities in Spain and Portugal the workmen will suspend work, but no particular demonstration is to be made.

THE TROOPS

are under arms everywhere. Monday has been set as the time for labor demonstrations in Holland and England. It is expected that 20,000 will take part in the demonstration in Hyde Park, London.

Advices late tonight from Paris state that 7000 policemen and 40,000 troops will be on duty in Paris tomorrow. The Telegraphists from the mining districts report great agitation and threats of a general strike.

Rebellious Newfoundlanders.

ST. JOHNS, N. F., April 30.—Over fifty bait carriers escaped the Government cruisers several days ago and sailed with their cargoes for St. Pierre. Information is now received that they are returning and that they have been lurited to rendezvous by French merchants at St. Pierre, who have supplied them with arms and liquor. Much anxiety is felt here. The British war sloop Pelican has gone to the Ferrarlle bay to aid the Dominion steamers. Much trouble is expected to follow.

Cereals Free of Duty.

NEW YORK, April 30.—American wheat and grain dealers may be interested to learn that cereals can be imported free of duty. Japan Will Suit Blair.

CHICAGO, April 30.—Ex-Senator Blair left this evening for Washington. Previous to his departure he said to a reporter: "My diplomatic future is somewhat problematic now, but I have been given to understand that I may be sent to Japan to succeed the late Minister Swift. That will suit me equally as well, if not better, than China."

In the House of Commons.

LONDON, April 30.—In the Commons today Secretary Ferguson stated that henceforth no Irish treaty of commerce would be renewed that precluded preferential arrangements between England and the colonies regarding their products.

Government leader Smith moved that precedence be given the Irish land bill over all orders of the day proposed, except the day which the government was pledged to give the woman suffrage bill.

Sir Henry Fowler (Union Liberal) opposed any exception being made and moved that the land bill be taken up every day through the committee. The motion was supported by many Conservatives opposed to woman suffrage and carried, 315 to 150, said opposition cheers.

The Pulpit and the Stage.

Rev. F. M. Stroud, pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery, and am sound and well, gaining 25 pounds in weight." Arthur Love, Manager Love's Funny Folks' Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption beats 'em all, and cures when everything else fails. The greatest blessing I can do my many thousand friends is to urge them to try it." Free trial bottles at A. C. Smith & Co's Drug Store. Regular size 50c. and $1.00. 3

Everybody Knows

That at this season the blood is filled with impurities, the accumulation of months of close confinement in poorly ventilated stores, work-shops and tenements. All these impurities and every trace of scrofula, salt rheum, or other disease may be expelled by taking Hood's Sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses one dollar" is true. 2

FOREST FIRES

Assuming Alarming Proportions in New Jersey.

PLEASANTVILLE, N. J., April 30.—Forest fires are assuming alarming proportions and have not been exceeded in thirty years. Tonight the sky is illuminated for many miles. This morning two near Gravesville and Port Republic took fire from sparks from a locomotive and a westerly gale fanned the flames so that by noon the fires were south of Port Republic and blazing. A change of wind saved Atsecum from destruction, but the fire was diverted into the midst of the most valuable pasture timber in this section. By 2 p.m. the flames had reached Convention and the villagers turned out to fight them. Their efforts were useless, and those living on the edge of town removed their effects to open fields and watched the houses burn. The greatest excitement prevailed and for a long time it was feared the whole town was doomed. All the wooded land in the direction of the shore road burned.

Late this afternoon the wind went down and thus assisted the efforts of incendiaries of men to get the fire under control. It was hard work, as water was scarce. The loss in timber will exceed $100,000.

In the evening fire broke out again at West Pleasantville, and at a late hour that place was threatened to fire.

MILLVILLE, N. J., April 30.—Bellingtown, which was surrounded by a forest fire yesterday, has not yet been heard from, but it is thought to be all right, as the people there have had much experience, and probably built "back" fires to save the town. The damage to timber will be enormous. One fire has already burned over 7000 acres. The fires started at first below Williamstown junction. This morning hundreds of acres of wood have been destroyed, but the most of the farm houses were saved.

Tonight a fire is burning furiously near Alcy. Hundreds of workers are out fighting it and are endeavoring to save the buildings it is course. Another branch is sweeping through the avenues of Chibelliam. The residents have been fighting the fire all day, and are fatigued and discouraged. The town and surrounding country is covered with a cloud of dense smoke. A fire above Crew road today destroyed thousands of acres of small wood and a great stretch of cedar swamp.

BRADINO, Pa., April 30.—Destructive fires are raging on Rice mountain. A fire on South mountain is six miles long and two wide.

BELLEFONT, Pa., April 30.—Forest fires are raging in this vicinity with destructive fury. Millions of feet of valuable timber are already destroyed, and it is reported that every sawmill on the mountains between Bellefont and Lewisburg is burned.

Hutchinson in Florida.

CHICAGO, April 30.—The members of Hutchinson's family have thus far received no word from him. He told Charles said this morning, however, that his father was in Florida; that he had written him so far as Pensacola, and that a detective had been sent to follow him and guard against accidents. Young Hutchinson added that his father's wife, after an examination of his affairs, had been found to be thoroughly solvent.

CAPTAIN VERNEY.

He is Held For Trial in the Sum of $25,000 Bail.

LONDON, April 30.—A sensation today at the postponed examination of Captain Verney, member of parliament, charged with instigating the procuration of a governess, Miss Brackett, for immoral purposes, was caused by the testimony of a woman named Louise Adeline, keeper of a hotel in Paris, that Captain Verney had called upon her seven or eight different times and asked her to procure for him two or three girls, promising her one hundred francs if she succeeded. The witness added that in spite of the Captain's solicitations and the inducements which he held forth, she positively refused to undertake the procuration referred to.

Miss Adeline was positive in her identification of Verney. When asked by the magistrate what Captain Verney said he wanted the girls for, witness replied promptly that he said he wanted to ruin them, and that they must be virtuous. This created a great sensation.

Verney, when asked if he had anything to say in his own behalf, said he would say nothing in this court. He was then held for trial in $25,000 bail. This he secured.

World's Fair Matters.

CHICAGO, April 30.—Director-General Davis of the World's Fair today appointed Walter S. Maxwell of California chief of the horticultural department. Maxwell's name was presented by Commissioners DeYoung and Forsythe of California, and subsequently endorsed by many other commissioners, as well as a number of prominent California men.

At a meeting of the board of control of the World's Fair Commission committee today the question of a distinct exhibit by the colored people came up. On motion of Lindsay a resolution was adopted that the board deems it inexpedient to direct or authorize that any distinctions be made between the American exhibitors, and that the matter of a distinct exhibit be left to the direction of the department having it in charge.

A Gang of Green Goods Swindlers.

CHICAGO, April 30.—A gang of "green goods" swindlers, who have been fleecing the unwary by professing to sell them counterfeit money, which really was genuine, for years past, have been operating in the West for some time. A few days ago one of them named Tyler was cleverly trapped by a peddlers detector in disguise. Today J. H. Thomas, alias Moore, who is said to be the leader of the gang, and the keenest green goods man in the country, was arrested in the United States marshal's office. He boldly entered the office to arrange bail for his pal, when, under cover for him, he was recognized by a citizen whom he had recently swindled of $350 in New York. He was held in $5000 bail.

A Surplus.

BOSTON, April 30.—The annual report of the Western Central Railway for 1890 shows a surplus for the year over all charges of $403,749.

A Mexican Jack the Ripper.

NEW ORLEANS, April 30.—The Picayune's City of Mexico special tells of a Mexican Jack the Ripper who visited the house of a Mexican woman named Sanchez last night, killed her and cut her throat from ear to ear. After the butchery he wrote upon the wall with her blood, "Fresh beef for sale." The butcher has not been captured.

THE PARLIAMENT

Of Canada Opened by the Governor-General: The Republic and Dominion.

GERMANY AND AUSTRIA IN CLOSE ALLIANCE.

The Senate Committee Submits a Voluminous Report on the Sugar Trust Investigation.

By Telegraph to the News.

THE CANADIAN PARLIAMENT.

Opening Speech of the Governor-General.

OTTAWA, Ont., April 30.—The first session of the seventh Parliament of the Dominion of Canada was opened this afternoon by the governor-general. In his speech he said: "Only sixteen working measures of the opposition Bills which were presented last year, caused the United States to be notified of the willingness of the government of Canada to join in making efforts for an extension and development of trade between the republic and dominion, as well as for the friendly adjustment of those matters of international character which remain unsettled. I am pleased to say that these representations resulted in assurance that the Congress and the government of the United States will be prepared to enter into a conference to consider the best means of settling at a political solution of these important questions. Papers relating to this subject will be laid before you. Under these circumstances, and in hope that the proposed conference may result in arrangements beneficial to both countries, you will be called upon to consider the expediency of extending for the present the provisions and privileges of the proposed amended to the Washington treaty of 1888, known as the modus vivendi.

GERMANY AND AUSTRIA.

Unification of the Railways of the Two Countries.

BERLIN, April 30.—Baron Wettek, under secretary of the Austrian ministry of commerce, has arrived here on a special mission from his government. His object is the unification of the German and Austrian railway systems by the enactment of common laws and the adoption of common regulations. If the negotiations to be undertaken special attention will be devoted to the arrangement of military and strategetic lines, with a view to rapid mobilization of troops in both countries. Politicians see the most important results, if the negotiation is carried to a successful conclusion. It will bind Germany and Austria in closer union and insure the permanence and greatly increase the strength of the alliance.

The Sugar Trust Investigation.

ALBANY, N. Y., April 30.—The senate committee this morning submitted a voluminous report on the sugar trust investigation. It speaks about 10 per cent dividends and the fabulous valuation placed upon the stock of the constituent corporations. The report says it was plainly one of the chief purposes of the trust to provide for the issue of certificates, affording an opportunity for great speculation, obviously to the advantage of the persons engaging the trust and to the disadvantage of the general public, who were ignorant of the secrets of the trust.

Referring to the failure of trust officials to show books, the report says it is for the people to determine whether the refusal was because the books would show that the trust was using the combination for illegal purposes. The report questions whether the enormous dividends have been earned in legitimate methods of business and calls attention to the widespread speculation in the securities. It is recommended that legislation be had restraining the formation of combinations hostile to the people, or providing that the formation be under the supervision of the State, that they be compelled to keep their books of account, or expire, in the State, to be subject to examination by duly appointed accountants.

The Plenty Horses Jury Discharged

SIOUX FALLS, S. D., April 30.—As the jurors could come to no agreement they were discharged. They would not vote for conviction because the court refused the defendant an interpreter, the refusal being based on the ground that Plenty Horses was able to talk English fluently and understood it perfectly.

That Deadly Wedding Feast.

CINCINNATI, April 30.—W. B. Snowden died at the Burnett House today. He was married at Louisville on the 15th, and on reaching this city he and his bride were taken violently ill, in common with the guests who participated in that deadly wedding feast. Since then doubts have been gradually sinking and died today. The bride was recovering, but the shock may prove fatal. Several others of the guests are still critically ill.

Mysterious Disappearance.

DENVER, April 30.—L. S. Van Rest, a mine owner, whose family reside at Oakland, California, mysteriously disappeared from the Brunswick Hotel on the 18th, and has not been heard from since. His baggage still remains with the hotel, and his friends fear foul play. Van Rest was recently connected with a St. Louis house as a traveling salesman.

Circus Tents Blown Down.

TIFFIN, O., April 30.—A tremendous windstorm here this afternoon demolished all the tents of Sells Bros.' circus. Fortunately the performance was over and but few people were remaining on the grounds. Most of them were injured. Miss Pauline Hufer is badly hurt. The animals were wild with terror and there was much anxiety for a time lest some of them might escape.

Mexico.

CAPEROWS, April 30.—The Portuguese have occupied Manei Kesse. Upon the approach of the Portuguese the British settlers guarding the stores there left their posts.

Jack and Billie.

NORFOLK, Va., April 30.—Jack Boland of Cincinnati and Billy Young of this city fought this morning for $250 a side. The men weighed 125 and 120 pounds respectively. Up to the twenty-third Boland had the best of the fight, but in that round he was thrown over the ropes and kicked in a tender spot by Young. He fainted. The fight was awarded him on a foul. Young was severely punished.

Death of Dr. Leidy.

PHILADELPHIA, April 30.—Dr. Joe. Leidy, the eminent physician, scientist and naturalist, died today.

Wounded a Policeman.

FRANKLIN, Tenn., April 30.—Will Taylor, colored, yesterday shot and seriously wounded a policeman who tried to arrest him for disorderly conduct. Last night a mob went to the jail, took out Taylor, hung him to a beam and filled his body with bullets.

The Public Debt.

WASHINGTON, April 30.—It is estimated that the public debt decreased over a million dollars during the month.

Tunnel Bore on Detroit and Windsor.

DETROIT, April 30.—The first rod of the tunnel between Detroit and Windsor was turned this morning.

France and Haiti.

Paris, April 30.—In the senate today Minister Hinel, replying to an interpellation, said France desired to respect the independence of the Republic of Haiti and cause it to be respected by others. France had come to an entente with the United States regarding the Mole St. Nicholas, and the Washington Cabinet has withdrawn the United States squadron. An interpellation yesterday by Senator Isaacs expressed fear that the United States was endeavoring to obtain control of the Mole St. Nicholas and this would be prejudicial to the interests of European nations in the Antilles.

The Mole St. Nicholas.

WASHINGTON, April 30.—There is good authority for saying that the United States has not had any negotiations with France regarding the Mole St. Nicholas. The squadron of evolution was not sent to Port-au-Prince with the intention of creating a naval demonstration. It was made up of representatives of this government to secure the use of the Mole St. Nicholas by purchase or otherwise, but these efforts, it is learned, resulted unsuccessfully.

Sierra Makes his Debut.

NEW YORK, April 30.—Frank P. Slavin, the Australian champion pugilist, made his debut at Madison Square tonight before an audience of 6000. Upon Billy Madden introducing him the announcer of the ring ordered cases from all over the house, "No, no, Sullivan is the champion." Slavin gave a boxing exhibition with Jim Daly of Philadelphia. In the first part the crowd was not greatly impressed with his work, but in the third round, when Daly tried to get in stiff punches, Slavin worked his left hand in and down with a left hand smash on the breast. The blow then stopped. Slavin's movement changed the previous impressions of the crowd. He exhibited much skill in a bout later with Charlie Mitchell, proving himself able to make short arm hits cleverly, but no idea could be formed of his fighting force.

Jack McAuliffe and Charlie Mitchell gave an exhibition, during which Jack rifled Charlie by a severe punch in the stomach. Mitchell let go a stiff left hander for Mac's jaw, but it missed and the crowd hissed the Englishman.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism; his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him. Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large ulcers on his leg, for which doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by A. C. A Recommendation from Tennessee

It is more than likely that many of the readers of the newspapers will agree with H. B. Wayne, of Whitesville, Tenn., in his praise of Chamberlain's Remedy. He says: "I take pleasure in recommending it to the public as being a medicine of great merit and value. I have found many of that remedy certainly have been great benefactors to suffering humanity." One of the most valuable properties of this remedy is its power of loosening and relieving a cold and freeing the system of any bad effects of the cold. For sale by Z. C. M. I. Drug Dept. d&w

MAY DAY IN AMERICA.

The Ohio Miners Disappointed at the Action of the Executive Board.

PITTSBURG CARPENTERS STRIKING FOR EIGHT HOURS.

Five Thousand Workingmen Expected to Strike in St. Louis Today.

By Telegraph to the News.

THE MAY DAY STRIKERS.

Several Labor Unions Will Demand Eight-Hour Days.

COLUMBUS, Ohio, April 30.—The determination of the executive board of United Mine Workers and presidents of the State organizations to defer the strike in the interest of the eight-hour labor day, does not seem to have definitely settled the question even among the miners of Ohio. The executive board make a proposition to the operators to continue at the old rate for mining and accept the nine-hour day for the coming year, beginning tomorrow. The operators refuse to accept, unless they can have assurance that the agreement will not embarrass them to such an extent that miners in competing fields like Pennsylvania will beat them in the market. The Ohio miners also convened this morning and are considering the matter. Some of the delegates representing strong districts are disappointed over the action of the executive board in postponing the strike for the eight-hour day.

PITTSBURG CARPENTERS.

PITTSBURG, April 30.—The carpenters of this city will strike tomorrow for eight hours and an advance in the rate of pay. The stone masons who are not on out will also strike. The contractors have agreed to lockout of all other branches of the building trades, as well as the strikers, because they are all under a sort of confederation. There are about 9000 workers in the various trades here. Tonight the master builders concluded not to lock out the other trades, and the result is that work will go on, and there will continue until they have gone as far as they can without carpenters, when they will find themselves simply unable to proceed, and then lock out. The master builders determined on this move to protect the builders in other cities and so the trades outside the carpenters could not make a pretext for striking for eight hours and thus causing the movement to spread. Reports from many towns in this section say the carpenters are generally striking for eight hours, and the indication points to the strike spreading rapidly.

A BIG ST. LOUIS STRIKE.

ST. LOUIS, April 30.—If the developments in the labor situation can be said to be a forerunner of what is to happen tomorrow, there will be a serious strike in the history of St. Louis is imminent. The number of men who will go out will number fully 5000. The carpenters, painters, plasterers, inside wire men, architectural iron workers and masters will probably go out.

THE ST. LOUIS FEDERATION.

TERRE HAUTE, April 30.—Speaking of the dispatch from St. Louis about the new trades federation of employes' organizations, Grand Master Sargent of the locomotive firemen said today that no federation was formed at last Sunday's meeting. An effort was simply made on Sunday to induce the order of conductors to enter the federation which already exists.

COAL MINES WILL SHUT DOWN.

LA SALLE, Ill., April 30.—Tomorrow all the coal shafts in this vicinity, excepting the White Head mines at Ladd, will shut down and 2000 miners and company men will be out of employment. It is understood that there is no strike at present, but simply that the contracts for the coming year have not yet been arranged, and until they are, no coal will be mined. The operators in this vicinity are willing to pay last year's scale. The eight-hour day does not figure in the movement.

THE DETROIT STRIKE OVER.

DETROIT, Mich., April 30.—The strike at the Michigan car shops is practically over. Every department is working and by Saturday full operations will be resumed.

INDIANA MINERS WILL STRIKE.

BRAZIL, Ind., April 30.—A strike will be on tomorrow, and 1800 black miners and 800 bituminous coal miners will be out. The eight-hour demand seems not to affect the miners so much as other questions. In the Davies county coal fields the miners, about 500 in number, have been out since Wednesday, owing to the discharge of a mine boss.

Legislature Adjourned.

ALBANY, N. Y., April 30.—Both branches of the Legislature adjourned sine die at noon today. The deadlock in the senate on the Maxwell investigation continued until the end.

No Insult Intended.

ROME, April 30.—In the Deputies, Imbriania withdrew yesterday's expression, saying he had no intention of insulting the army, but simply wanted an inquiry into the rumors. The premier said this had been offered. The papers relating to the New Orleans affair will be distributed among the members Sunday.

Seizure of Opium.

SAN FRANCISCO, April 30.—A deputy surveyor made a seizure this afternoon of twelve hundred pounds of opium, worth $25,000, found concealed in the steamship China from Hongkong. The owners claim it was to be sent to Mexico.

A Steamer Ashore.

LONDON, April 30.—A dispatch from Kinsale says a steamer belonging to some transatlantic line has gone ashore, after showing signals of distress and blowing her fog horn. No deaths.
