NEWS OF THE WEST.

Suit to Determine Ownership of Subterranean Streams.

CAUGHT A WHALE IN A SEINE.

Reward in a Task—Fatal Shooting—Murderer of a Vile Husband—General Notes.

The Salvation army headquarters in San Francisco was broken into on Friday night and $3 in cash stolen.

In Walsenville, Col., Friday the respectable son of F. K. Hoyt was in a rank by exclusively fallen.

April 28 is the date of the Arizona Republican convention to select delegates to the national party convention at St. Louis.

At San Francisco, on Friday, Harry Stuart was sentenced to the State prison for three years for persuading his wife to remain in a house of ill fame.

James Williams was shot by E. H. Calahan Friday and fatally injured, at Everett, state of Washington. The shooting arose over wages claimed to be due Williams from Calahan for services in a logging camp.

A short time ago Superior Judge Fitch, of San Francisco, granted a divorce to Mary Ellen Whitney from her husband and bring a boy up in the country so that he might be secure from the influence of the city streets. The Board of Education of San Francisco is now wrestling with a bill of $50 for finding out how old that boy is.

A. J. Mabry, a convict, was sent to the Utah State asylum Friday. Mabry is 20 years old, and was in the penitentiary chief of police of Sacramento, Cal., but was sent over from Folsom and received six twelve months for a petty offense. His time would have expired in May, and he imagines his brain of his room it filled with all kinds of reptiles.

An action was begun in the United States circuit court at Los Angeles Friday which involves the important question whether or not private parties shall be permitted to hold as their own the water which, instead of flowing above ground in the channel of the river, percolates through the soil of the valley between the ranges of hills on either side. A company commenced operations to impound these subterranean waters by building a dam which should go far down below the surface of the ground. The city objected, claiming the entrance would rob the municipality of a large part of the water belonging to it since the act of the legislature giving Los Angeles a charter gave it the ownership of the waters of the Los Angeles river from its source to the southern boundary of the city.

John Miller, purchaser at Pocatello, Idaho, is the man who had Judge Brown, Deputy Sheriff McDaniel, Chief of Police Ellis, U. P. Agent H. V. Platt and Judge Harry Kimport of Pocatello, arrested at Salt Lake on the 10th inst., on a charge of murder. The charge was found to be a joke, and the parties were released by the Salt Lake officers. They threaten dire consequences on the individual who sent the telegram requiring the arrest; but it develops that this joke was a return for practical jokes played on Miller by the party. Saturday's Pocatello Tribune says: "The crowd got home Thursday morning. They feel pretty sore and are swearing vengeance on they can go on for the next fifty years with squaring the account. Miller has evened up for at least an ordinary lifetime."

Friday morning a big whale (thirty-five feet long, became entangled in the seine of a fisherman near Santa Marina del Rey, Cal. The whale made a struggle nearly the entire day to escape, and came near several times upsetting the boat. The struggles of the whale were closely watched by spectators who were on the bluffs overlooking the scene. The fishermen tried to tow the whale to the wharf, but only succeeded in beaching it a short distance. In the afternoon J. R. Chase went in a boat to get a closer view of the struggle of the leviathan to escape, and seeing that the fishermen had not succeeded in killing the whale, raised his gun and fired, the bullet lodging in a vital part and ending the life of the whale, which sank to the bottom. The whale will come up in a few days when it will be hauled ashore. It is expected to yield about thirty barrels of oil.

White Holland Turkeys.

The White Holland turkeys as a breed are not as well known as the Bronze, but are rapidly coming to the front on account of their hardiness and domesticity. They are as easily raised as chickens, and, like them, roost at home. The hens are very prolific, one of mine laid seven eggs (17 eggs before becoming broody. There always had good hatches, in most instances every egg in a clutch hatching strong and healthy poults. I do not have to spend days hunting the nests, more since I have been raising the White Holland, for they have always lived in the barn and frequently go to the same nest.

The hens are so tame that I move them the coming home when I set them. Although not as large as the Bronze, they will dress from 8 to 10 pounds, which is the most suitable size. They have yellow skin, red legs and fatten easily. I never after time to raise any other fowl to worry separating them from the neighbors' every day after they are hatched.—Laura B. in National Stockman.

Eggs in Winter.

To realize the most profit hens should not laying in fall and early winter, when prices are high. Feed judiciously; give plenty of nourishing food to keep hens in a laying condition and avoid giving them too fat, or they will become broody. Feeding hot mash to do with the number of eggs a hen will lay before she begins to sit. A hen that is very fat will begin to sit after the layer has laid a dozen or more eggs.—Exchange.

Pensioner Notes.

The early breakfast meal should be a supper. It's a long time to breakfast. Quick, sup and other ills come in through the cracks in the bunkhouse. Sup up.

A good feed of grain at night is the time, but not the same kind of grain every night.

A FARM GIVEN AWAY

Consisting of one sheet of FARM BUILDINGS and one sheet of 20 Subjects, DOMESTIC ANIMALS, etc. These are to please the children. The Farm House and Animals can be cut out and made to stand, thus making a complete Miniature Farm Yard.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, Mrs. Winslow's Soothing Syrup, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without limiting their poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that 77 per cent of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting the government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 Average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Children Cry for Pitcher's Castoria.

SUPPORT HOME INDUSTRY

These are the People Who Sell Home-Made Goods.
