Freshmen at Yale—Local Yale men will be interested in learning that there are at present 720 freshmen in the scientific and academic departments at Yale, right from the preparatory schools, 358 academic, and 362 scientific. It is said that further additions to be made a little later on, will run the total up to 800 freshmen.

Photo of Grave—John P. Meakin has received a photograph of the grave and floral offerings of the late Obadiah H. Riggs, at Independence, Mo. The deceased was for many years a resident of this city, but of late had resided in the east, where he died Sept. 11, 1907, an account of which appeared in the "News" a day or two later.

State Health Conditions—Secy. Beatty of the state board of health says that hygenic conditions over the state are very much improved, as the result of educational agitation in the past few years by the board. The secretary says that people are learning the value of providing themselves with purer water, and maintaining premises free from infection.

Returns to Paris—Mrs. Montgomery D. Parker, daughter of T. J. Almy of this city, was recently in New York, on a short trip to this country from Paris, but has returned to the French capital, where she resides with her daughter Mildred. Stevenson and Rev. Dr. McNiece, the dean. The architect is Liljenberg.

In Chamber of Commerce—The horticultural exhibits that were sent to Sacramento, have been returned to this city, and are being replaced in the chamber of commerce. The general display of the chamber has been closed for the past 10 days, owing to so many exhibits being removed to the state fair; but as soon as they are back in place again, the display will be thrown open to the public once more.

Ely Company in Straits—The H. Y. Meloy Merchandise company of Ely, is in financial difficulties, and has made an assignment to J. J. McCarrell, who will turn the settlement of the company's affairs over to the Utah Association of Credit men. The company's assets were placed at $70,000, but nothing certain is known yet of its liabilities. Mr. Meloy is well known in this city, where he was formerly a resident.

Manager Murray at Butte—Gen. Manager D. S. Murray of the Bell Telephone company will remain for some time at Butte to superintend the restoration of the service there, where it has been practically suspended for the last six months through the aggressive interference by the labor unions. Judge Hunt's injunction has knocked the prop from under the union's position, and left the telephone company free to go about its business.

May Inspect Newhouse Buildings—So many applications have been received for admission to the grounds where the Newhouse buildings are going up, that Mr. Newhouse has consented to open up the gates of the high fence surrounding the works and admit people to inspect the operations going on inside all day next Sunday. An attendant will be present to conduct visitors and answer questions.

Bailey is Back—W. E. Bailey, manager of the Nelden-Judson Drug company, has returned from Denver, where he attended the annual meeting of the National Association of Wholesale druggists. Mr. Bailey returns considerably more impressed with Salt Lake than with Denver, where he found trade conditions very quiet. A Most Worthy Article

When an article has been on the market for years and gains friends every year, it is safe to call this medicine a worthy one. Such is Ballard's Horehound Syrup. It positively cures coughs and all Pulmonary diseases. One of the best known merchants in Mobile, Ala., says: "For five years my family has not been troubled with the winter coughs; we owe this to Ballard's Horehound Syrup. I know it has saved my children from many sick spells." Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main Street. B

WIFE DESERTER.

One is Probably Found in the Person Of Scofield Teacher.

A wife deserter teaching in the public school at Scofield appears to have been discovered in "Bert" G. Hoard, formerly of Madison, Ind. An attractive woman, also a school teacher, seems to have been the charm that lured Hoard away from his wife and child.

Before the city schools opened for the term, Hoard called at the office of Supt. D. H. Christensen and asked for the regulation application blank. He filled it out and filed it with the clerk. References are required from applicants by the board of education and Hoard gave several names and then added that letters might be written to any reputable business man of Madison. It was through a letter of inquiry directed to a business man of Madson that Mrs. A. G. Hoard, wife of the applicant, heard of his whereabouts.

Following this discovery, Mrs. Hoard wrote many letters to Mr. Christensen asking him to locate her husband. It was finally learned that he had secured a position as a teacher in the Carbon county schools. Later she learned that an attractive woman in the Winter Quarters school was the charm that drew Hoard's attention from his wife and family at home. According to recent letters, Mrs. Hoard has placed the entire matter in the hands of an attorney and intends to compel Hoard to support her and her child. A recent issue of a Madison newspaper, commenting on the case, declares that if Hoard is compelled to do this, his "lady friend in Utah will miss many attentions which doubtless have been showered upon her by Hoard."

How to Cure a Cold

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less the danger of pneumonia and other serious diseases. Mr. B. W. L. Hall, of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all druggists.

The Name on the Label

ALBERTA CROPS WEATHER STORM

Grain is Successfully Gathered After the Snow Melts Away.

THE DAMAGE IS ONLY SLIGHT.

Had Rain Instead of Snow Fallen Ruin Would Have Resulted to Oat Fields.

The effects of the September snowstorm that visited Alberta, Canada, were by no means as disastrous as might have been expected. In fact, according to statements made to the "News" yesterday by H. S. Allen and J. T. Smellie, of the Taylor stake presidency, practically no damage was done, although much grain that had been standing uncut was leveled to the ground and completely covered.

It snowed almost incessantly for three days and three nights, and it is estimated that nearly three feet of snow fell, but scarcely more than a foot remained on the ground when the clouds cleared away. Most of the wheat had already been harvested and was standing in shock, and consequently suffered but little.

OAT CROP SAVED.

The oat crop had scarcely been touched by the reapers, and was leveled to the very ground. Within three days after the snow had melted the grain was being successfully cut, say Messrs. Allen and Smellie. The machine could only be run in two directions at most, but contrivances were fastened upon the guards of the knives in such a manner as to raise the stalks somewhat from the ground, and in most instances the stubble left standing differed but little in appearance from that of fields cut before the storm.

RAIN MORE HARMFUL.

Had it rained for the length of time that snow fell, much more serious damage would have resulted, say the Alberta farmers. The early snows of Alberta are usually very dry ones, but in the late instance the watery, flakey kind fell, and that the havoc wrought was not more serious is a cause of wonder.

The wheat yield at Taylor this season runs from 30 to 66 bushels to the acre, with many farms averaging from 45 to 50 bushels. The present price of wheat is 82 cents a bushel, with a ready market for all produced. Many farmers have paid for purchased lands with this year's product alone.

BEET HARVEST.

The beet harvest in the neighborhood of the factory at Raymond is by far the best in the history of the sugar industry there. Everything is prospering in the Mormon colonies. Not many members of the Church are now settling there, but car loads of eastern homeseekers are flocking to Alberta and are finding ideal opportunities for becoming permanently established.

Napoleon Bonaparte

Showed, at the battle of Austerlitz, he was the greatest Leader in the world. Ballard's Snow Liniment has shown the public it is the best Liniment in the world. A quick cure for Rheumatism, Sprains, Burns, Cuts, etc., A. C. Pitts, Rodessa, La., says: "I use Ballard's Snow Liniment in my family and find it unexcelled for sore chest, headache, corns; in fact, for anything that can be reached by a liniment." Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main St. B
