# MINING, BUSINESS AND STOCKS

## FORENOON ON MINING EXCHANGE

### Market Held Fairly Steady Today All Through the Long List.

### UNCLE SAM DECLINED.

**Stock Recovered, However, on Open Board—Closing Quotations And Sales.**

The mining stock market was in no worse condition today than it was yesterday. In some instances, there was slight improvement, but in no case was it very pronounced. Uncle Sam Consolidated hit upon the rocks and was forced down to 96 cents; gaining somewhat, however, towards the close. Colorado opened on a sale at $3.65 and gradually made its way up to $3.70. There was considerable Beck Tunnel offered, and the stock was absorbed readily, but buyers were in position to get the stock at prices which to many seems like bargain prices.

There was little doing in the unlisted stocks, and one sale of this stock was reported during the day. Ely Witch came out at 45 cents.

### NO TROUBLE AT YERINGTON.

Every mine in the Yerington district is working with the exception of those under the jurisdiction of the Buckskin branch of the Western Federation of Miners, says the Yerington Times. Placards have been distributed telling miners to stay away from the Buckskin and Yerington districts from which it might be inferred that this particular section is in the throes of labor trouble. As a matter of fact, not a single mine on the western slope of the Mason range or on the eastern side of the district is involved.

A few days since the miners of Yerington by a referendum vote decided not to ask for an increase in wages. The fact that misleading reports have been circulated by the press of the state is an injustice to both the operators here and the Miners' Union as well.

There are no differences at the present time between employer and employe in the Yerington district. People on the outside may rest assured that no trouble has been brewed in the immediate vicinity of Yerington.

### CREOLE MEETING.

**Shareholders Will Ratify Treasure Hill Merger Deal Today.**

A special stockholders' meeting of the Creole Mining company will be held in Park City today the purpose of which is to consider the ratification of the action of the board of directors in effecting a merger of the company's property with that of the Uintah Treasure Hill Mining company. There is no doubt but that the action of the board will receive the endorsement of shareholders as they appear to be pretty unanimous on that subject. John Dern and W. B. Andrew, officers and extensive shareholders in the company, left for Park City this morning to attend the meeting.

### MASON VALLEY STRIKE.

**Over Twenty Feet of Ore Exposed in One Place.**

The Nevada Douglas Copper company has received settlement for three car loads of copper ore which arrived from its properties at Yerington, Nevada, last week. The average of one car load was above 17 per cent, while the other two returned better than 15 per cent copper.

The Nevada Douglas company is making splendid headway at its mines, not only in the way of new and important developments, but is also doing nicely with ore shipments.

### RICH COPPER ORE.

**Nevada Douglas Company Comes in With Three More Car Loads.**

The recent strike in the Mason Valley Copper company's shaft, says the Yerington Times, is increasing in magnitude. The ore body so far as known is over 20 feet in width, and as yet but one wall has been located. The ore averages well as a whole, while a goodly portion of the vein is shipping stuff.

The finding of this wonderfully rich shoot came to the operators in the nature of a clear-cut surprise. It shows again the uncertainty of mining.

For some time operations on the Mason Valley have consisted of driving a tunnel. When the bore had reached a distance in the hill of something over 400 feet the air became bad, making it next to impossible for the miners to accomplish results. A winze had been sunk from an upper tunnel level. In order to improve conditions in the lower tunnel a turn was made, it being proposed to connect the latter with the winze to form an air connection. In making the turn, the ore shoot was encountered which shows up so remarkably strong.

Not enough work has been done on this latest find to determine the exact extent of the shoot. However, at this time it has been proven to be one of the biggest things in the entire district.

In addition to sinking a winze on the ore body, the tunnel is being driven ahead to tap the ore body for the encountering of which the tunnel was started. This tunnel will strike the lead at a depth of over 200 feet perpendicularly and over 300 feet on its dip. As soon as this ledge is broken into new sensations may be looked for.

### COLUMBUS CONSOLIDATED.

**Dividend Checks Received by Local Shareholders.**

In these days of tumbling quotations and the reduction of mining dividends, it is refreshing indeed to report the instance of a company which sends out its checks to its stockholders with the old dividend unimpaired. The case in point is the Columbus Con. of Alta, whose dividend checks were received in the city today the payment being at the rate of 20 cents per share per quarter, or 6 2-3 cents per share per month. At the present quotations on the stock exchange, buyers of this stock receive over 25 per cent per annum on their money, assuming that the present dividend rate will be maintained.

## GOLDFIELD MEN IN OIL FIELDS

### Judge R. L. Johns Returns to Nevada and Loudly Praises Virgin District.

### SECURES 7,000 ACRES OF LAND

**Fortunes Will Be Spent in Development of a Great Country.**

Judge R. L. Johns has returned from the Virgin river country in southwestern Utah, the scene of the recent oil strike, says the Goldfield News. Judge Johns bought 7,000 acres of oil land for the Goldfield Virgin Oil company which has laid out a townsite and installed a rig, and will begin drilling for oil at once. The main office of the company will be in Goldfield, with a branch office in Virgin. It is the intention of the promoters of the enterprise to form a number of subsidiary companies to develop the ground, if the first well proves a success.

"The Virgin River district is very extensive," said Judge Johns yesterday, "and lies in the neighborhood of a rich coal district in which the Salt Lake railroad is largely interested. There is an old settlement near the oil fields and for a distance of 15 miles the formation shows the presence of oil. The formation is cut by a deep canyon and shows along its sides five distinct oil stratas. An experimental well has been sunk near the river by the Virgin River Oil & Development company, and oil was struck in the fourth strata, at a depth of about 600 feet. It is expected that the best and heaviest flow of oil will be found in the fifth strata but the well spouted 200 barrels of oil in 24 hours and they were compelled to shut it down as they had no means of handling the oil. A test of the oil was made by Wade & Wade of Los Angeles and showed a very high grade.

"There are six rigs now in operation on the ground and 12 more are on the way. George Montgomery, a brother of Bob Montgomery, is heavily interested in the district, with a man named Harper of Los Angeles and they already have a rig set up and another on the way. Bert Smith, who is well known in this city, and others have purchased a large tract of land. H. H. Clark of Bullfrog, J. R. Clark of Salt Lake and Mr. Porter of that city are largely interested and are pushing development work. D. Mackenzie of this city has purchased a tract of 200 acres, adjoining the ground on which the experimental well was sunk. He has bought a rig and organized a company to develop the property. Another company has been organized by Aldrich, McMaster and Bond, known as the Nevada-Utah Oil company. They have purchased a section of land, close in and have a rig on the way to the ground. I understand the company was financed by Tom Murphy and Tex Rickard.

"I purchased a tract of 7,000 acres for the Goldfield Virgin Oil company and we have installed a rig and will begin operations at once. The main office of the company will be in Goldfield and if the experiment is a success we will probably organize a number of subsidiary companies to work there. A number of other concerns have also purchased land there and there are 15 or 20 outfits ready to begin operations. The next 30 or 60 days will probably demonstrate the quantity of oil in the ground. From indications it looks as if the Virgin River country was going to develop into one of the great oil fields of the country. It costs about $10,000 to sink a well and I estimate that there will be $200,000 spent in development work in the district in the next 60 days. All the land in that section is being held at a high price and the oil investors are eagerly buying, which is a very favorable indication."

### NICHOLES TINTIC

The Nicholes Tintic Consolidated Mining company filed articles of incorporation with the county clerk today. The company's capital is $40,000 in shares of 10 cents each, 100,000 of which are treasury stock. The company owns several claims in North Tintic district. The officers are: George Nicholes, president; J. M. Hamilton, vice president; L. D. Crandall, treasurer; Joseph K. Nicholes, secretary, and Joseph Nicholes and Alex Nicholes, directors.

### SUIT AGAINST COMSTOCK.

The Park City Meat company and Robert Gillespie filed suit in the Third district court today against the Comstock Mining company and Henry McCornick wherein they seek to have the title of the White Hawk mining claims declared to be in the defendant Comstock Mining company, and that McCornick has no right, title or interest in the same.

### WILL GET $50 REWARD.

**Marshal Fowler of Lehi Captures One Of Deserters from Ft. Douglas.**

City Marshal Ed W. Fowler of Lehi arrived in Salt Lake this afternoon, having in charge Fred Davis, one of the three soldiers who deserted Fort Douglas Sunday. Davis is the only one of the trio thus far apprehended. He was promptly taken to the fort, where he will be delivered to the military authorities by Marshal Fowler, who will receive the standing reward of $50 offered for the capture of army deserters by the United States government.

### STEVE ADAMS' TRIAL.

**He is Charged With the Murder of Fred Tayler.**

Portland, Or., Oct. 15.—Steve Adams is charged with the murder of Fred Tyler. His first trial was held at Wallace, Idaho, on March 8, last. The jury was discharged after reporting their inability to agree upon a verdict. Tyler was a timber settler and disappeared from his claim on Marble Creek Aug. 10, 1904. The murder of Tyler remained a mystery until after the death of former Gov. Frank Steunenberg. Harry Orchard's confession not only implicated Adams and other federation men in the ex-governor's murder, but Orchard said that Adams and Jack Simpkins also killed Tyler because he had taken up the timber claim. Adams, it was alleged, was the slugger for the inner circle, so-called, for the Western Federation of Miners. He testified at the trial of William D. Haywood, recently, at Boise.

## STOCKS IRREGULAR, MOVING UP & DOWN

New York, Oct. 15.—Stocks opened irregular. The general tendency was upwards, but there were some conspicuous exceptions among the prominent railroads. Great Northern preferred declined 1½ and Reading and Union Pacific varying fractions. Northern Pacific, after advancing ⅝, fell back to about a point below last night. Atchison, Colorado & Southehrn, United States Steel and American Car fell large fractions. The dealings were only moderately active.

Some good fractional gains were established in the spirited buying that followed the opening and before large selling orders appeared, which drove the list down substantially. All of the active stocks reacted to below yesterday's closing. United States Express lost 4, Granby Mining 2½, Colorado & Southern second preferred and American Smelters Securities "B" 2, Northern Pacific and General Electric 1½, American Smelting 1¼ and Southern Pacific, Union Pacific and Reading 1.

Stocks were sold on exaggerated rumors of the disturbance in the Japanese quarter at San Francisco and rebounded when details became accurately known. Declines had reached for Iowa Central 2½ and Atchison, 2, National Lead preferred 1¾ and Atlantic Coast Line, Toledo, St. Louis & Western, Utah Copper, American Car preferred, American Smelting preferred, and American Tobacco preferred 1. Prices rose to the best on the rally. Bonds were weak.

### LIVESTOCK.

CHICAGO.

Chicago, Oct. 15.—The wheat market today was nervous. Liverpool cables were lower and receipts in the northwest are reported to be increasing. These bearish factors were offset by the fact that the visible supply showed a decrease of 1,500,000 bushels during the last week. December wheat opened ¼ lower to ⅛ higher at 1.05½ to 1.05⅝, sold up to 1.06⅛ and then declined to 1.05⅝.

Minneapolis, Duluth and Chicago reported receipts of 1,012 cars.

Teh corn market opened easy because of local receipts which were above the estimated amount. December corn opened ¼ lower to ⅛ higher at 63 to 63⅛, sold up to 63⅛ and then declined to 62¾.

The oats market opened easy and trading was very light. December oats opened a shade lower to ¼ higher at 55⅝@55½ to 55⅝ and sold at 55¼.

The provisions market was easy because of a 5-cent decline in live hogs. January pork was 7½ lower at 16.12½. Lard was 2½@5 lower at 9.15. Ribs were 5 lower at 8.37½.

CHICAGO.

Chicago, Oct. 15.—Cattle—Receipts, 12,000, market steady. Beeves, 3.90@7.40; cows, 1.50@5.30; Texans, 3.75@4.75; calves, 5.50@8.25; westerners, 4.00@6.00; stockers and feeders, 2.50@4.75.

Hogs—Receipt, 16,000. Market 5c lower. Light, 6.15@6.75; mixed, 6.15@6.80; heavy, 6.00@6.75; rough, 6.00@6.25; pigs, 5.35@6.35; bulk of sales, 6.25@6.60.
